Note 1—Description of the Plan

The following description of the Burdette Beckmann, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution safe harbor plan covering all employees excluding collectively bargained and non-resident alien employees of Burdette Beckmann, Inc. (the "Company" or the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration of Plan Assets – The Plan is administered by the Company. The Plan's assets are maintained by John Hancock Life Insurance Company (the "Custodian"). The Plan's recordkeeping services and maintenance of participant account records are managed by Bates & Company (the "Recordkeeper").

Eligibility – Employees of the Company who have attained the age of 21 and completed one year of service are eligible to participate in the Plan.

Contributions – Under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2015 annual limits of $18,000 and an additional $6,000 for catch-up contributions for participants that are age 50 or older. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may designate certain contributions into the Plan as Roth elective contributions. Designated Roth contributions will be currently included in the gross taxable income of the participant, while distributions of designated Roth elective contributions and earnings thereon are generally excludable from the participant's taxable income. The Plan is designed to qualify as a Qualified Automatic Contributions Arrangement. Unless specifically elected by the participant, an automatic deferral rate of 6% of participant compensation will be contributed to the Plan on behalf of the participant.

The Company makes safe harbor matching contributions equal to 100% of the participant's contribution, up to 1% of eligible compensation plus 50% of the participant's contribution above the 1% up to a maximum of 6% contribution. Additional discretionary amounts may be contributed at the option of the Company's Board of Directors. There were no discretionary employer contributions for 2015.

Vesting – Participants are fully vested in their elective contributions and any rollover contributions, plus or minus any earnings or losses thereon. Participants are 100% vested in safe harbor contributions after two years of service. Participants vest ratably in any discretionary contributions made by the Employer, and the earnings or losses thereon, based on years of continuous service subsequent to entry into the Plan. Participants are 100% vested when they become disabled or deceased while still employed by the Company.

Vesting on the discretionary employer contributions is determined according to the following schedule:

Years of Service	Percent Vested
1 year, but less than 2 years	25%
2 years, but less than 3 years	50%
3 years, but less than 4 years	75%
4 years and after	100%

Note 1—Description of the Plan (continued)

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Company's contributions, and an allocation of the Plan's investment earnings/losses and investment fees, and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan.

Investment Options – The Plan's assets are held and managed by the Custodian. The participants direct the investment of their account balance and may select from various investment options maintained by the Custodian. Participants may change their investment option selections on any business day as defined by the Plan.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other collateral, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator, which currently is 4.25%. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Hardship Distributions – Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in the IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service determines is deemed an immediate and financial need of the participant. Any distributions will be taken first from the participant's pre-tax deferral account and then from the participant's Roth Deferral account.

Payment of Benefits – Upon separation of service due to termination, death, disability, or when the participant attains normal retirement age, a participant or beneficiary may elect to receive a cash distribution equal to their vested account balance, as defined, as a 1) lump-sum payment, 2) a single sum payment of a portion of the account balance, or 3) periodic installments over a period of time to satisfy required minimum distribution rules under the Plan not to exceed the life expectancy of the participant or beneficiary. If a participant's vested account balance does not exceed $5,000, the value of the vested interest in the account will be distributed in a lump-sum. Participants should refer to the Plan document for a full description of the distribution methods offered by the Plan.

Forfeitures – Forfeitures occur when a participant terminates employment and has not fully vested in a portion of the Company's contribution amount. Forfeitures of employer contributions are used to reduce the amount that the Company must contribute as a safe harbor matching contribution or be used to pay Plan expenses. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $0 and $4,214, respectively. During the year ended December 31, 2015 all available forfeitures were used to reduce employer contributions.

Plan Termination – Although it has not expressed any intent to do so, the Company reserves the right at any time to amend, modify, or terminate the Plan without the consent of any participant or beneficiary subject to the provisions of ERISA. In the event of such termination, the Plan provides that the participants shall become 100% vested in their accounts.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

New Accounting Pronouncements – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent).* This ASU exempts investments measured using the net asset value ("NAV") practical expedient from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for the Plan years beginning after December 15, 2016. As permitted, the Plan has elected early adoption and has applied the ASU retrospectively for all periods presented. Accordingly, investments measured using the NAV practical expedient have been removed from the categorization in the prior period disclosure of the fair value hierarchy.

In July 2015, the FASB ASU No. 2015-12*, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts but continues to require certain disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Contract value is now the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Part III of the ASU provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with month-end. Parts I and III are not currently applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. As permitted, the Plan has elected early adoption of Part II and has applied the ASU retrospectively for all periods presented. The early adoption of ASU 2015-12 did not have a material effect on the Plan's financial statements.

Investment Valuation and Income Recognition – Investments held by a defined-contribution plan are required to be recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Note 2—Summary of significant accounting policies (continued)

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for Plan instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy, if applicable. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled Separate Accounts – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value, and is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. As part of the adoption of ASU 2015-07, these investments measured using the NAV practical expedient are exempt from classification under the fair value hierarchy.

Guaranteed Interest Accounts – These investments are made by the Plan in an Unallocated Group Fixed Annuity Contract which is invested in the general assets of John Hancock Life Insurance Company who guarantees a fixed interest rate. The NAV for the investment contract is $1. See Note 5 for valuation methodology used to determine the NAV. The investment contracts are classified within Level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants – Benefits are recorded when they have been processed and paid by the Plan.

Administrative Expenses – Fees and expenses of the Plan for legal, accounting, and other administrative services may be paid directly by the Company or, at the Company's discretion, may be paid in whole or in part out of Plan assets.

Use of Estimates – The preparation of financial statements in conformity with GAAP in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value of investments. Actual results could differ from those estimates.

[(a)] In accordance with ASU 2015-07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. As of December 31, 2015 and 2014, pooled separate accounts had no unfunded commitments and redemptions are processed daily with a no notice period.

* Amounts are unaudited. See Note 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 investment assets for the year ended December 31, 2015:

Beginning fair value	$ 154,870
Unrealized/realized gains	52
Purchases	10,424
Maturities	(64,860)
Ending fair value	$ 100,486

Note 5—Guaranteed interest accounts

The Plan offers non-benefit responsive guaranteed interest accounts of varying terms (3, 5, and 10 years), which are similar in concept to bank certificates of deposit, with a guaranteed interest rate which is credited to contributions for the term of the certificates, provided that contributions are held until the certificate maturity date. A minimum guaranteed interest rate is set by the Custodian for each guaranteed interest account, with the yearly minimum guaranteed interest rate never to be less than 0%. The Custodian maintains the contributions in a general account. Principal contributions made are guaranteed and not subject to invasion for any charges or fees under the contract. The account is credited with interest on the underlying investments on a daily basis and charged for participant withdrawals and administrative expenses. The funds are included in the financial statements at fair market value (contributions plus interest credited, less all applicable charges and fees, market value adjustments, if any, and distributions from the funds) as reported to the Plan by the Custodian. The average yields based on actual earnings for the contract for the years ended December 31, 2015 and 2014 were 1.59% and 1.41%, respectively. The crediting interest rates to participants as of December 31, 2015 and 2014 were 1.22% and 0.77%, respectively.

Note 6—Party-in-interest transactions

Plan investments and the related transactions as of December 31, 2015 and 2014, and for the year ended December 31, 2015, were in investment funds managed by the Custodian; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7—Income tax status

The underlying standardized volume submitter plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the written form of the underlying document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The underlying standardized volume submitter plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 8—Excess participant contributions payable

At December 31, 2014, the Plan recognized a liability of $6,054 for amounts refundable by the Plan to a participant for contributions made in excess of amounts allowed by the IRS. These excess contributions were reimbursed after year-end. The participant was reimbursed excess contributions of $5,664, plus approximate investment earnings of $390. There was no excess contributions payable for the year ended December 31, 2015.

Note 9—Reconciliation of the financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2015	2014
Net assets available for benefits per the financial statements	$ 7,824,193	$ 7,186,832
Excess contributions to participants payable	-	6,054
Corrective contributions receivable	(10,972)	-
Net assets available for benefits per the Form 5500	$ 7,813,221	$ 7,192,886

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2015:

Net increase in net assets available for benefits per the financial statements	$ 637,361
Prior year excess contributions to participants payable	(6,054)
Corrective contributions receivable	(10,972)
Net increase in net assets available for benefits per the Form 5500	$ 620,335

Note 10—Risk and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11—Corrective contribution receivable

During the year ended December 31, 2015, the Plan administrator determined that the definition of compensation for participant and employer contributions per the Plan document was not properly applied when calculating contribution amounts. The Plan administrator determined the affected participants and is in the process of depositing $10,972 into the Plan to make the Plan whole, including interest, which is included in the financial statements in corrective contributions receivable.

Note 12—Subsequent events

The Plan's management evaluated subsequent events through October 12, 2016 in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.
