Antioch University Defined Contribution
Retirement Plan for Staff Employees
Yellow Springs, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Antioch University Defined Contribution Retirement Plan for Staff Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF), the custodian for certain investments in the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that TIAA-CREF holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from TIAA-CREF as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan Administrator by TIAA-CREF is complete and accurate.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Independent Auditor's Report (Continued)

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter – Recently Adopted Accounting Pronouncements

As discussed in Note 2 to the financial statements, the Plan adopted the new accounting guidance related to the presentation of fair value of certain investments and disclosures of investments. Certain investments are shown at contract value rather than fair value on the statements of net assets available for benefits. Prior year disclosures have also been revised to reflect the retrospective application of adopting these changes in accounting. Our disclaimer of opinion is not modified with respect to these matters.

Emphasis of Matter – Plan Merger

As discussed in Note 9 to the financial statements, the Board of Directors of Antioch University, the Plan's sponsor, voted on December 18, 2015, to merge the relevant portion of the Antioch University Tax Deferred Annuity Plan into the Plan effective December 31, 2015. All relevant plan assets were transferred into the Plan on December 31, 2015. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matter - Supplemental Schedule

The supplemental schedule of assets (held at end of year) as of December 31, 2015 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs we do not express an opinion on the supplemental schedule.

Antioch University Defined Contribution Retirement Plan for Staff Employees

Notes to the Financial Statements

Note 1. Plan Description

The following brief description of the Antioch University Defined Contribution Retirement Plan for Staff Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan generally available to staff employees of Antioch University (the University), except student employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was restated effective January 1, 2009.

Contributions: Each year, participants may contribute up to the maximum amount of pre-tax annual compensation, as defined by the Plan and as allowable under the Internal Revenue Code (IRC). Participants who attained age 50 before the end of the Plan year are eligible to contribute additional contributions, as allowable under the IRC. Also, any participant who has 15 years of service with the University may make Special Code Section 403(b) Catch-up Contributions. The University makes required contributions to all active participants based on job classification: 6% of compensation to eligible non-union staff employees and 7% of compensation to UEW 796 Midwest staff employees and UEW 767 Bargaining Unit employees. Certain union employees can also contribute up to 3% of post-tax earnings and receive a 100% employer matching contribution. The maximum contribution a participant can receive from the University is 10% of compensation. The Plan also permits employees to contribute amounts representing distributions from other qualified plans.

Participant accounts: Each participant's account is credited with the participant's contributions, the University's contributions and Plan earnings. The allocation of the participant's and the University's contributions follows the participant's directed investment options. Allocations of Plan earnings are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions as well as the University's contributions, plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant loans: Participant loans are not permitted per the terms of the Plan agreement. However, as a result of the plan merger effective December 31, 2015 (see Note 9), participants may obtain loans directly from TIAA-CREF, using a portion of their account balance in the Plan as security for the loan (see Note 8).

Payment of benefits: On termination of service due to severance of employment, death, disability, or retirement, a participant or the beneficiary may elect to receive either a lump-sum amount equal to the vested value of his or her account, a partial payout, or installment payments as outlined by the Plan. A participant is also entitled to apply his or her individual account toward the purchase of an annuity contract.

Administrative expenses: Administrative expenses of the Plan are paid by the University. The expenses paid by the University are not reflected in the accompanying financial statements.

Plan termination: Although it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Antioch University Defined Contribution Retirement Plan for Staff Employees

Notes to the Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared under the accrual method of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Except for certain contracts held by TIAA-CREF described in Note 5, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The University determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participant contributions are recognized when the employee's contribution is withheld from the employee's compensation. Employer contributions are recognized each pay date when the related compensation is paid to employees.

Payment of benefits: Benefits are recorded when paid.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Approximately 55% and 64% of the Plan's investments are held in two funds at December 31, 2015 and 2014, respectively. As such, this is considered a concentration of credit risk.

The guaranteed annuity contract has been certified at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant causing the financial statements to become materially misstated.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements. The Plan adopted this Update for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan* as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this Update for the 2015 plan year, and the amendments in Part I and Part II were retrospectively applied to December 31, 2015. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 11, 2016 the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF)

The following is a summary of the plan's asset information as of December 31, 2015 and 2014 and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian for certain investments in the Plan and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2015	2014
Investments, at fair value:		
Mutual funds	\$ 359,230	\$ 270,288
Variable annuity contracts	2,076,364	1,909,311
Guaranteed annuity contract - non fully benefit responsive	1,195,855	1,193,847
Pooled separate account	100,697	102,520
	<u>3,732,146</u>	<u>3,475,966</u>
Investments, at contract value:		
Guaranteed annuity contract - fully benefit responsive	285,668	-
	<u>\$ 4,017,814</u>	<u>\$ 3,475,966</u>

TIAA-CREF also certified to the completeness and accuracy of the net appreciation in the fair value of investments of \$26,300 and interest and dividend income of \$31,648 for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Antioch University Defined Contribution Retirement Plan for Staff Employees

Notes to the Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: Valued at the daily unit value published on NASDAQ, beginning in October 2014. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

Pooled separate account: The TIAA Real Estate fund is a pooled separate account in which daily unit values are published on NASDAQ, beginning in October 2014. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

Guaranteed annuity contract: The non fully benefit responsive portion of the fixed annuity contract is reported at contract value which approximates fair value. This determination is based on TIAA-CREF's credit rating and yield during 2015 and 2014 being comparable to similar alternative investments and the interest rate which resets annually being comparable to a ten-year U.S. treasury bond.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 359,230	\$ -	\$ -	\$ 359,230
Variable annuity contracts	2,076,364	-	-	2,076,364
Guaranteed annuity contract - non fully benefit responsive	-	-	1,195,855	1,195,855

	<u>\$2,536,291</u>	<u>\$ -</u>	<u>\$1,195,855</u>	<u>\$3,732,146</u>

Retirement Plan for Staff Employees**

Notes to the Financial Statements

Note 4. Fair Value Measurements (Continued)

The 2014 financial statements previously reported variable annuity contracts and the pooled separate account using net asset value (NAV) (or its equivalent) as a practical expedient, and classified them in Level 2 of the fair value hierarchy. Beginning in October 2014, these funds had a readily determinable fair value published daily on NASDAQ. Therefore, the classification within the fair value hierarchy for 2014 has been revised from Level 2 to Level 1, consistent with the classification for 2015. In addition, these funds have been removed from the table below related to investments at NAV (or its equivalent) as a practical expedient

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 1, 2, or 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2015.

	Guaranteed Annuity Contract*
Balance, beginning of the year:	\$ 1,193,847
Realized gains	30,358
Unrealized gains relating to assets still held at the reporting date	6,859
Acquisitions	222,625
Dispositions	(257,834)
Balance, end of year	<u>\$1,195,855</u>

* Non fully benefit responsive

Quantitative information about significant unobservable inputs used in level 3 fair value measurements: The following table represents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those investments and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional	\$ 1,195,855	Discounted cash flow	Risk-adjusted discount rate applied	RA** 3.25% - 4.75%
		Theoretical transfer (exit value)		

** Retirement annuity

In estimating fair value of the investments in Level 3, the University may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the University evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

Antioch University Defined Contribution Retirement Plan for Staff Employees

Notes to the Financial Statements

Note 5. Investment Contracts with TIAA-CREF

The Plan has a guaranteed annuity contract with TIAA-CREF. Under this contract are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the guaranteed fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA-CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. TIAA-CREF indicates that contract value approximates fair value for these investments at December 31, 2015 and 2014. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are viewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following information relates to the non fully benefit responsive investment contracts:

	2015	2014
Average yields:		
Based on actual earnings	4.05%	4.23%
Based on interest rate credited to participants	3.65%	4.28%

Investment contracts that are not fully benefit responsive are included in the financial statements at contract value as reported by TIAA-CREF. TIAA-CREF has reported to the Plan that contract value approximates fair value for these investments at December 31, 2015 and 2014.

Note 6. Related Party Transactions

Certain Plan investments are managed by TIAA-CREF, the custodian of certain investments and therefore these transactions qualify as party-in-interest.

Certain employees of the University provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Antioch University Defined Contribution Retirement Plan for Staff Employees

Notes to the Financial Statements

Note 7. Tax Status

The plan terms have been drafted in reliance on the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Internal Revenue Code (IRC) to maintain the exclusion from tax for plan participants. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2015 and 2014, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain income tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statement of changes in net assets available for benefits.

Note 8. Plan Loans

Participants may borrow from TIAA-CREF using a portion of their plan account as security for the loan. The maximum loan amount may be the lesser of \$50,000 or 50% of their account balance. The loans bear at rates commensurate with local prevailing rates as determined periodically by TIAA-CREF. Principal and interest is paid ratably through monthly or quarterly payments by the participants to TIAA-CREF. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions. There are no outstanding plan loans at December 31, 2015 and 2014.

Note 9. Plan Merger

Effective December 31, 2015, the relevant portion of the Antioch University Tax Deferred Annuity Plan was merged into the Plan. Net assets of the Antioch University Tax Deferred Annuity Plan were transferred into the Plan on December 31, 2015.
