401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

1 – DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

Plan Description

The following description of the Appalachian Railcar Services 401(k) Profit Sharing Plan (the Plan), provides only general information. Participants should refer to the Plan documents for more complete information.

General

The Plan, established January 1, 2009, is a defined contribution retirement plan available to all personnel of Appalachian Railcar Services (the Company), and affiliated entities who have attained one year of service and age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to defer an amount of their compensation, plus any eligible catch-up contributions, as defined in the Plan document, limited to the maximum allowed under the Internal Revenue Code for such plan year. The Company makes safe harbor matching contributions totaling 100% of the participants' elective deferral contributions up to 3% of the participants' compensation and 50% of any additional participants' elective deferral contributions not to exceed 5% of the participants' compensation. In no event will matching contributions exceed 4% of the participants' compensation. All contributions are fully vested. Rollover contributions from other qualified plans are permitted once eligibility requirements are met.

On April 1, 2012, the Plan was amended to allow Roth elective deferrals.

Participant Investment Options

Each Plan participant directs contributions and earnings of their account among alternative investment options provided under the Plan. Participants should refer to the most recent annual report and prospectus of each mutual fund for information on risk factors, asset concentrations, investment objectives and other financial data. Participants may transfer funds between investment options at any time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

1 – DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Participant Accounts

Each participant account is credited with the participant's elective contributions and contributions by the Company. In addition, each participant's account is credited with the specific earnings (losses) of the investments owned in self-directed participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

The Plan provides for immediate vesting of salary reduction contributions, matching contributions and earnings thereon.

Payment of Benefits

Upon retirement (normal retirement age is 65), attaining age 59 ½, death, disability or other termination of employment, as defined in the Plan document, participants or their spouses and/or beneficiaries receive their account as a lump sum cash payment. Further, upon termination of employment, the participant may elect to transfer his or her account balances to another qualified plan or individual retirement account. If the vested account of a participant is less than \$1,000, the entire vested account will be paid in a lump sum.

The Plan does not allow for hardship withdrawals.

Significant Accounting Policies and Estimates

The accounting and reporting policies of the Plan conform to accounting principles generally accepted in the United States of America and to general practices within the employee benefit plan industry. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, revenues are recognized when earned, and expenses are recognized when incurred.

1 – DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, Plan Accounting, which eliminated the requirement of disclosing individual Plan investments that represent 5 percent or more of net assets available for benefits as well as the requirement for reporting the net appreciation or depreciation for investments by general type. The amendments in this ASU are effective for the Plan for its fiscal years beginning after December 15, 2015, with earlier application permitted. The Plan has elected to early adopt this ASU and adoption of this ASU has been retroactively reflected in these financial statements and the notes to the financial statements.

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07 Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which eliminates the requirement to categorize investments in the fair value hierarchy if their fair value is measured using NAV per share (or its equivalent) using the practical expedient under FASB ASC Topic 820, Fair Value Measurement. The amendments in this ASU are effective for the Plan for its fiscal years beginning after December 15, 2016, with early application permitted. The Plan has elected to early adopt this ASU and the adoption of this ASU has been retroactively reflected in these financial statements and the notes to these financial statements.

2 – TAX STATUS

The plan is a prototype that has received a letter from the Internal Revenue Service dated March 31, 2014, that it is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Sponsor, Administrator, and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

The Plan's Department of the Treasury tax returns are subject to examination, generally for three years after filing.

3 – RELATED PARTY TRANSACTIONS AND INVESTMENT ADMINISTRATION

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Plan Sponsor, and certain others. During 2015 and 2014, transactions with parties-in-interest primarily included administrative expenses related to the Plan, which were paid by the Company. Administrative expenses paid by the Plan Sponsor included legal, accounting and other professional services. Additionally, certain administrative functions are performed by officers or employees of the Plan Sponsor at no cost to the Plan. Administrative expenses paid by the Plan included investment fees and account withdrawal fees. During 2015 and 2014, the Plan paid administrative fees of \$22,232 and \$21,854, respectively. During 2012 the Plan elected to begin paying the annual audit fees out of plan assets.

4 – INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2015 and 2014 and investment income (loss), which includes net appreciation (depreciation), were obtained and derived from information supplied to the Plan Sponsor and certified as complete and accurate by the Custodian.

5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term; the level 2 must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used between December 31, 2015 and 2014, except as described in the new accounting pronouncements section of footnote 1. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission (SEC). These funds are required to publish their daily net asset value NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
