Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company, except for employees covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Employees of the Company are eligible for the Plan and discretionary profit sharing contributions when they are age 21 or older and have completed three months of service.

Contributions

The Company does not make matching contributions to the Plan; however, they may make additional discretionary contributions. The Company made discretionary contributions of 13.27% of its participants' eligible compensation during the years ended December 31, 2015 and 2014. Included in the discretionary contributions are safe harbor non-elective employer contributions equal to 3% of the participants' eligible compensation for each plan year. Participants may elect to contribute up to the lesser of \$18,000 and \$17,500 in 2015 and 2014, respectively, (plus catch up contributions as defined in the Plan document) or 75% of their compensation to the Plan on a pre-tax basis and/or after-tax (Roth) basis. Participants may also make rollover contributions to the Plan from other qualified defined benefit or defined contribution plans. Aggregate discretionary contributions totaled \$28,716,878 and \$26,305,416, respectively, for the years ended December 31, 2015 and 2014.

Participant Accounts

Each participant's account is credited with the participant's contributions, their respective employer's discretionary contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations of the discretionary contributions are based on the participants' compensation. Allocations of earnings and expenses are based on the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in all contributions plus earnings thereon.

Investment Options

Upon enrollment in the Plan, participants may direct contributions to their accounts into various investment options offered by the Plan, or act as their own asset manager and select the option of a self-directed investment account. Assets reported as self-directed investments are the aggregate of all self-directed funds.

Payment of Benefits

On termination of service due to death, disability, retirement, or separation of service, participants will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also be permitted to receive a distribution from their account prior to termination of employment if they experience financial hardship. Any hardship distribution would be limited to actual participant contributions not previously withdrawn.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates. Note receivable terms range from one month to five years, or up to 10 years for the purchase of a primary residence. Principal and interest are paid ratably through monthly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses related to the self-directed investments are paid by the Plan; all other administrative expenses are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The Company evaluated subsequent events through October 5, 2016, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. Interest income of \$144,766 and \$139,990 for 2015 and 2014, respectively, has been recorded as other income in the accompanying Statements of Changes in Net Assets Available for Benefits.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or are corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Interest-bearing cash – Valued at cost, which equals fair value.

Registered investment companies and self-directed investments (excluding US Treasury Notes) – Valued at the closing price reported on the active market on which the individual securities are traded.

Self-directed investments (including US Treasury Notes) – Valued at a percentage of par on the secondary market on which the individual securities are traded.

PROFIT SHARING/401(k) PLAN AND TRUST

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS (continued)

Common collective trust – Valued based on the quoted market values of the fund's investments, when available. The fair values of "wrapper" contracts in which the common collective trust invests are based on a discounted cash flow model. The fair values of underlying debt securities in which the common collective trust invests are based on their most recent bid prices in the principal market in which the security is normally traded. If prices for these securities are not readily available or do not accurately reflect the fair values of the securities, or if a security's value has been materially affected by events occurring after the close of the exchange or market on which the security is principally traded, the security may be valued by another method that the common collective trust's trustee believes accurately reflects fair value. Underlying short-term securities held by the common collective trust with remaining maturities of sixty days or less for which market quotations are not readily available are valued at original cost plus accrued interest or at amortized cost, both of which approximate current value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Interest-bearing cash	\$ 6,707,453	\$ -	\$ 6,707,453
Registered investment companies	273,132,855	-	273,132,855

Total assets at fair value	<u>\$ 322,332,238</u>	<u>\$ 16,514,087</u>	<u>\$ 338,846,325</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

5. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Additionally, prior to March 31, 2014, the Plan was operating under a favorable opinion letter dated March 31, 2008. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments at December 31, 2015 and 2014 are invested in funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. CHANGE IN ACCOUNTING PRINCIPLE

For the year ended December 31, 2015, Plan management has elected to adopt the provisions of *ASU No. 2015-12 – Plan Accounting: Defined Contributions Plans (Topic 962)*, which reduces the complexity of Plan investment disclosures. Under the update, the Plan may present investments measured using fair value aggregated by general type, rather than present detailed categories under each general type. In addition, the Plan is no longer required to separately present those investments that represent 5% or more of Plan net assets. The Plan also is no longer required to report the adjustment from fair value to contract value on the Statement of Net Assets Available for Benefits. The updated disclosures have been applied as of and for the years ended December 31, 2015 and 2014 and have no effect on the changes in net assets as previously reported.
