Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. 1. DESCRIPTION OF PLAN:

The following description of the Bookmasters, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Bookmasters, Inc. (hereinafter called the "Company") covering all employees of the Company except union or leased employees, or nonresident aliens, who are age twenty-one or older and following one year of service. Entry into the Plan occurs on the first day of the month following the date these requirements are met. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the maximum allowed by law of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution and defined benefit plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan in increments of 1% and may change their investment option on any normal business day. The Company has elected to match 10% of each participant's contribution during 2015. The Company did not elect to make a discretionary profit sharing contribution to the Plan during 2015.

Participant Accounts

Each participant's account is credited with the allocation of (a) participant contributions, (b) the Company's contribution, (c) plan earnings, and (d) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on their years of service. A year of vesting accumulates from the date of hire. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of the member's vested amount or \$50,000. Loan transactions are treated as transfers to (from) the investment fund from (to) the Loan. The loans are secured by the balances in the participants' accounts and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. Interest earned by the Plan on participant loans was \$1,029 for the year ended December 31, 2015.

Payment of Benefits

On termination of service, a participant may elect to receive the value of his or her account in a lump-sum amount or in the form of a rollover to another qualified plan or IRA. Participants with balances of less than \$5,000 at termination are automatically rolled over into an IRA. In-service distributions are also permitted under certain circumstances as defined by the Plan Agreement.

Forfeited Accounts

Forfeitures of terminated participants' nonvested accounts are used to reduce company matching contribution or to pay plan expenses. Total forfeited nonvested accounts for the years ended December 31, 2015 and 2014 were \$6,254 and \$5,517, respectively. No forfeitures were utilized during 2015.

2. SUMMARY OF ACCOUNTING POLICIES:

The following are the significant account policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the basis of the term of the Plan Agreement.

Payment of Benefits

Benefits are recorded when paid.

Expense

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Change in accounting policy

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matter requiring recognition of disclosure in the financial statements. The accompanying financial statements consider events through October 10, 2016, the date on which the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

All financial data related to investments used in the preparation of the statements of net assets available for benefits as of December 31, 2015 and 2014, statement of changes in net assets available for benefits for the year ended December 31, 2015 and the supplemental schedule as of December 31, 2015, have been certified as to accuracy and completeness by the Plan's trustee, Capital Bank and Trust Company.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

<u>Assets at fair value as of December 31, 2015</u>				
<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Registered investment companies	\$ 2,111,488	2,111,488	-	-
	<u>\$ 2,111,488</u>	<u>2,111,488</u>	<u>-</u>	<u>-</u>
<u>Assets at fair value as of December 31, 2014</u>				
<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

	<u>\$ 2,096,112</u>	<u>2,096,112</u>	<u>-</u>	<u>-</u>

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, during 2015, the Plan made direct payments during 2015 to the third party administrator of \$2,486. The Company pays directly any other fees related to the Plan's operations.

6. PLAN TERMINATION:

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. TAX STATUS:

The Plan elected to adopt a prototype plan and this prototype plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date and through the date this letter is signed.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
