NOTE 1 – DESCRIPTION OF PLAN

The following description of the Techmetals, Inc. Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General

Effective January 1, 1976, the board of directors of Techmetals, Inc. (the Company) adopted the Techmetals, Inc. Retirement Savings Plan, a defined – contribution, 401(k) deferred plan. Employees become eligible for participation in the Plan after having completed one year (at least 1,000 hours) of service and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions and Forfeitures

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified benefit plans. The Company makes discretionary matching contributions: 25% of the first 6% of participant's compensation contributed to the Plan. In addition, the Company may make contributions for a plan year designated as "qualified Non-Elective Contributions."

Participant Accounts

Each participant's account is credited with the participant's contributions; the Company's matching contributions and an allocation of investment earnings and administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may make changes of investment fund allocations on a daily basis.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's non – discretionary matching contribution portion of their accounts and the Company made qualified non-elective contributions, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after 6 years of credited service for the contributions

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into about thirty investment options including a self-directed brokerage account.

The Options are listed, in the enrollment information provided during orientation and changes in investment options are timely provided to the plan participants.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator. Interest rates on outstanding participant loans are currently 5.25%. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to retirement, disability, or death, a participant will become 100% vested in his or her account and may elect to receive either a lump sum payment or periodic payments, subject to certain provisions. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or periodic payments, subject to certain provisions.

A participant's beneficiary will receive the participant's account balance in the event of a participant's death. Participants may withdraw their vested interest in the Plan under certain hardship conditions, as defined in the Plan document.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

DECEMBER 31, 2015 AND 2014 (continued)

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (continued)

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by the trustees, using market quotations and other available information. Securities are valued at the last reported sales price on the last business day of the Plan's fiscal year. The fair value of the investments in the Fidelity government cash reserve is based on the cash value of the respective government agencies securities.

Purchases and sales of securities are recorded on a trade – date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex – dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Participant contributions and the employer matching contributions are recognized when the participant contributions are withheld from the participant's earnings. The Company's policy is to make the contribution of participant withholding and company match timely, normally within five business days of payroll withholding.

Payments of Benefits

Benefits are recorded when paid to participants or beneficiaries.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

Management has evaluated subsequent events through October 7, 2016, the date on which the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Level 1- Quoted prices in active markets for identical assets at the measurement date.

Level 2- Observable inputs other than quoted prices for the asset, either directly or indirectly observable, that reflect assumptions market participants would use to price the asset based on market data obtained from sources independent of the plan. This may include matrix pricing, yield curves and indices.

Level 3- Unobservable inputs that reflects the plan's own assumptions about the assumptions market participants would use to price an asset based on the best information available in the circumstances.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan invests in certain funds of the Plan trustee. Fidelity is the trustee, custodian and the recordkeeper. All of these party – in – interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 6 – PLAN TERMINATION

NOTE 7 – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 28, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Service Code (IRC). The Plan has been amended effective November 15, 2010 to adopt a nonstandard prototype defined contribution plan which was developed and is maintained by the Fidelity Management Trust Company, the trustee of the Plan. Although the Plan has been amended, the plan administrator believes the Plan document is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 8 – INFORMATION CERTIFIED BY THE PLAN’S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits, Note 3 as of December 31, 2015 and 2014, and on the schedule of assets (held at end of year) as of December 31, 2015 and the related investment activity reflected in the statement of changes in net assets available for benefits and Note 3 for the year ended December 31, 2015.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – PLAN AMENDMENT

Effective September 14, 2015, the Plan was restated to adopt a new volume submitter plan document. Also, the service agreement with the trustee was amended effective September 14, 2015, for fee structure and other items.
