General

The Plan is a defined contribution plan that covers all full-time employees of The Dupps Company (the "Company"). Employees are eligible for participation in the form of pre-tax contributions and Roth elective deferrals after they have completed thirty days of employment and reached age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company automatically enrolls an employee in the Plan as soon as the employee meets the eligibility requirements, unless the Company obtains a waiver of participation from the employee. The Company has set the auto enrollment contribution level at 3% of compensation.

Contributions

Participants may contribute one to twenty percent of their annual compensation and dollar amount permissible under Section 402(g) of the Internal Revenue Code (IRC) not to exceed the limits of Code Sections 401(k), 404 and 415. Participants may choose to invest funds, in multiples of 1%, in various investment categories comprising the Plan. The Company may make a discretionary matching contribution to be made at the discretion of the Board of Directors in proportion to the participants' relative before-tax contribution.

There may be a limit placed on the percent of compensation deferred by certain participants. The Company determines that the salary deferral percentage, the Company matching percentage, and the total defined contribution percentage comply with several tests as prescribed by law. The Company elected to make discretionary contributions of \$328,792 and matching contributions of \$271,276 for Plan year ended December 31, 2015.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions, rollover contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is fully vested after two years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at prime plus 1% at the date of loan issuance. The term of the loan is not to exceed five years, unless the loan is used to acquire a dwelling unit. Principal and interest is paid through payroll deductions.

Payment of benefits

On termination of service, participants may elect to receive their vested balance in either a lump sum amount or in installments. Director rollovers may also be made into an IRA or into a new employer's plan. Balances under \$1,000 may be automatically distributed without the participant's consent.

Forfeiture accounts

Forfeitures on nonvested account balances shall be used to reduce future employer contributions. At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$4,916 and \$876, respectively. There were no forfeitures used to offset employer contributions for the year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Change in accounting policy

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensus of the FASB Emerging Task Force)." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through, October 7, 2016, the date on which the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN:

All financial data related to investments used in the preparation of the Statements of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits as of and for the years ended December 31, 2015 and 2014, and the Schedule of Assets (Held at End of Year) as of December 31, 2015 has been certified as to accuracy and completeness by the Plan's custodian, TD Ameritrade Trust Company.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust: The fair value of the investments in the common collective trust is determined by the fund custodian based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end. There are no unfunded commitments associated with the investments. Investments can be redeemed daily with no notification period.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

<u>Assets at Fair Value as of December 31, 2015</u>				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies	\$ 4,186,356	-	-	4,186,356
Common collective trusts	<u>-</u>	<u>16,742,916</u>	<u>-</u>	<u>16,742,916</u>
Total	\$ <u>4,186,356</u>	<u>16,742,916</u>	<u>-</u>	<u>20,929,272</u>

<u>Assets at Fair Value as of December 31, 2014</u>				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies	\$ 3,998,452	-	-	3,998,452
Common collective trusts	<u>-</u>	<u>15,491,833</u>	<u>-</u>	<u>15,491,833</u>
Total	\$ <u>3,998,452</u>	<u>15,491,833</u>	<u>-</u>	<u>19,490,285</u>

5. TAX STATUS:

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan under the provisions of ERISA. In the event of a plan termination, participants will become fully vested in their accounts.

7. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are shares of mutual funds, common collective trusts and money market account managed by TD Ameritrade. TD Ameritrade Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

The Company has elected to pay certain administrative expenses of the Plan and provides certain administrative services at no cost to the Plan. If not paid by the Company, administrative expenses become a liability of the Plan.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan invests in a common/collective trust fund, the Wells Fargo Stable Value Fund C (the "Fund"), which invests 100% in the Wells Fargo Stable Return Fund G which invests in a variety of benefit-responsive investment contracts issued by insurance companies and other financial institutions. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issues are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the fund.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by TD Ameritrade Trust Company, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuers or otherwise. The credit interest rate is based on the weighted average of interest rates agreed with the issuers.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the issuer to terminate the agreement prior to scheduled maturity date.

Average yield:	<u>2015</u>	<u>2014</u>
Based on actual earnings	1.83%	1.40%
Actual interest rate credited to participants	1.79%	1.64%

9. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
