Cash Balance Plan

We have audited the accompanying financial statements of Orthopedic & Neurological Consultants, Inc. Cash Balance Plan (the "Plan"), which comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2015 and 2014 and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these financial statements.

To the Board of Directors
Orthopedic & Neurological Consultants, Inc.
Cash Balance Plan

Opinion

In our opinion, the financial statements referred to above, present fairly, in all material respects, the financial status of the Plan as of December 31, 2015 and 2014 and the changes in its financial status for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2015 and reportable transactions for the year ended December 31, 2015 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Plan Description

The following description of Orthopedic & Neurological Consultants, Inc. Cash Balance Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit plan covering certain full-time employees of Orthopedic & Neurological Consultants, Inc. (the "Company") who have completed six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was effective as of January 1, 2014.

Eligibility and Vesting - Employees become participants in the Plan following completion of the eligibility requirements as described in the Plan and are fully vested for normal retirement benefits after three years of service.

Pension Benefits - Eligible employees with three or more years of service are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65 as described in the Plan. The individual pension benefits are based on a cash balance formula which, in general, is based upon a predetermined percentage of base salary ranging from 3.00 to 88.25 percent prior to retirement. Each participant's benefits are maintained in a credit-based account in which interest is earned on the cash balance as of the end of each plan year. Interest is 3.25 percent per annum and credited on the last day of the plan year.

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested value of the participant's accumulated plan benefits or annuity payment if distribution is greater than \$5,000.

Death Benefits - If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the actuarial equivalent of the accrued benefit shall be paid to participant's beneficiary.

Funding - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Contributions - All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, based on quoted market values.

See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain administrative expenses, including investment management expenses, trustee and other fees, and the audit of the annual financial statements, are paid by the Company.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Benefits are calculated based on a cash balance formula which, in general, is based upon a predetermined percentage of base salary determined in the plan document.

Actuarial Assumptions - The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

The significant actuarial assumptions used in the valuation of the Plan are summarized as follows:

Actuarial cost method	- Unit credit as defined by Pension Protection Act of 2006 as of December 31, 2015 and 2014
Interest rate	- 3.25 percent per annum as of December 31, 2015 and 2014
Mortality basis	- RP-2014 with MP-2015 improvement scale as of December 31, 2015 and SOA RP-2000 mortality table adjusted for mortality improvement as of December 31, 2014
Credit rate of interest	- 3.25 percent as of December 31, 2015 and 2014

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - Contributions to the Plan and the plan benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 4, 2016, which is the date the financial statements were available to be issued.

Orthopedic & Neurological Consultants, Inc.

Notes to Financial Statements

December 31, 2015 and 2014

Note 3 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note 4 - Tax Status

The Plan is currently considered an individually designed plan with no volume submitter reliance and has not been submitted for a favorable determination letter from the Internal Revenue Service. The Company executed a Form 8905 indicating their intention to adopt the pre-approved volume submitter language upon its availability. The Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Orthopedic & Neurological Consultants, Inc.

Cash Balance Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 5 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Level 1	Level 2	Level 3	Balance at December 31, 2015
Mutual funds	<u>\$ 1,219,103</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,219,103</u>

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2015.
