The following description of the Enerfab, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain employees of Enerfab, Inc., as well as its wholly owned subsidiaries, Enerfab Power & Industrial, Inc. and Enerfab Process Solutions & Fabricated Products, Inc. and their wholly owned subsidiaries including Enerpipe, Inc., Enersteel, Inc. (until its sale discussed below), Enerfab Electric, Inc., Broadway Electric Service Corporation, Brighton TruEdge Heads & Fabricated Products, Inc., Foley Company (effective June 2015) and effective in December 2015, Action Services, Inc. (collectively the "Company" or "Employer"). Certain employees who complete three months of service and are age twenty-one or older and non-union employees who are age twenty-one or older are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

While Enersteel, Inc. was sold in July 2014, the employees continued to participate in the Plan until May 2015, when the related participant accounts were moved to the plan of the new company, resulting in a transfer out of the Plan of \$576,693. In 2015, the Company acquired Foley Company, which joined the Plan in June 2015. Since there was not a merger of the Plans, the employees of Foley were permitted to rollover the balances from their former retirement plan into the Plan, which increased rollover contributions in 2015 by approximately \$2,057,000. In December 2015, the Action Services Group, Inc. 401(k) Retirement Plan merged with the Plan resulting in transfers into the Plan of \$381,336.

In September 2015, the Plan changed from the Charles Schwab Trust Company as trustee and record keeper to AdvisorTrust, Inc. as trustee and Professional Capital Services, LLC as record keeper.

Contributions

Each year, non-union employees may elect to defer a percentage of their pre-tax annual compensation subject to Internal Revenue Code ("IRC") limitations. In addition, the Plan allows Roth contributions using the same criteria. Non-union employees are automatically enrolled into the Plan upon becoming eligible at a rate of 3% unless a different deferral percentage is elected. Non-union employees who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make discretionary matching contributions for non-union employees. In 2015, the matching contributions were equal to 50% of the first 8% of annual pre-tax or Roth contributions a participant made to the Plan. Certain union employees are eligible to receive additional discretionary contributions contributed by the Company. A discretionary contribution in the amount of \$32,669 was made in 2015 on behalf of union employees. Union employees are eligible to receive Company contributions only. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective in December 2015, the Plan added an automatic escalation provision; deferral percentages of automatically enrolled participants will increase 1% each year up to a maximum election percentage of 8%, unless otherwise elected by the participant.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings and losses thereon. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions. Vesting in the Company's contributions is based on years of service. A participant is fully vested after 6 years of service.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Payment of benefits

Distributions may generally be made upon the participant's death, disability, retirement or termination of his or her employment with the Company. Additionally, prior to termination from employment, a participant may elect to withdraw all or a portion of his or her vested account balance upon reaching age 59 ½. The Plan allows hardship distributions if certain financial requirements are satisfied. Benefits shall be paid to participants in the form of lump sum payments upon termination of employment.

Forfeited accounts

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses incurred by the Plan. The portion of the forfeiture account that is not used to pay administrative expenses will be used first to restore previous forfeitures of re-hired participants' accounts and then to offset Company contributions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$134,314 and \$88,727, respectively. In 2015, fees totaling \$31,435, and employer contributions totaling \$12,167 were paid with forfeited accounts.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default the participant loan balance is reduced and a benefit payment is recorded based upon the terms of the Plan document.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding increase to benefits paid to participants. Excess contributions in 2015 and 2014 were not material and have not been accrued.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Accounting Changes

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

Subsequent events

The Plan has evaluated subsequent events through the date of the report, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual and money market funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

<u>Investments at fair value as of December 31, 2015</u>

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEES:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments and related investment income presented in the financial statements and supplemental schedule are based on information certified as complete and accurate by the trustees, Charles Schwab Bank and AdvisorTrust, Inc., as of December 31, 2015 and 2014, and for the year ended December 31, 2015, and were not subjected to any auditing procedures performed by the independent auditors.

5. RELATED PARTY TRANSACTIONS:

Prior to the switch in trustees, certain Plan investments were mutual funds and common/collective trust investments of Charles Schwab. Charles Schwab Bank was a trustee of the Plan, therefore, these transactions and fees earned by them, qualify as party-in-interest transactions.

After the switch in trustees, the Plan invested in a money market fund of Charles Schwab. Charles Schwab Bank's Business Trust Division is an entity who is related to Advisor Trust Inc., trustee of the Plan. Therefore, these transactions and fees earned by them, qualify as party-in-interest transactions.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their Company contributions.

7. INCOME TAX STATUS:

The Plan adopted a volume submitter plan document sponsored by the trustee, Advisor Trust Inc. The volume submitter plan document provider has obtained an opinion letter dated November 30, 2014 in which the IRS stated that the restated volume submitter plan document was in compliance with the applicable requirements of the IRC. The Company has elected not to apply for its own determination letter covering the Plan. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
