Employer contributions

As this is a safe harbour 401(k) plan, the Employer will make a safe harbor matching contribution equal to 100% of elective deferrals that do not exceed 4% of compensation. This safe harbor matching contribution is 100% vested.

Vesting

Contributions are 100% vested for the following:

- elective deferrals including Roth 401(k) deferrals and catch up contributions;
- rollover contributions; and
- safe harbour contributions.

Other than noted above, participants are vested based on the following schedule:

	Vested %
Years of service	
Less than 1 year	0
1 year	20
2 years	40
3 or more years	100

Participants of Emergis Solutions, Inc. are 100% vested.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans have to be repaid by 5 years or 15 years for the purchase of a primary residence. The loans are secured by the balance of the participant's account. There is a \$75 origination fee for each loan that is deducted from the loan proceeds, plus an ongoing annual \$50 fee, deducted quarterly from the participant's account of \$12.50.

Distributions

No amounts may be distributed to participants from their accounts prior to the termination of employment, death, disability or attainment of age 59 ½ unless the participant has incurred a hardship, as defined by the Plan documents.

Upon distribution, a participant may rollover their vested account balance to another eligible government 547(b), 401(k), 403(b) or 401(a) plan or an Individual Retirement Account ("IRA").

Administrative expenses

The Employer pays substantially most administrative expenses associated with the Plan, with the exception of certain investment management fees, which are paid by the Plan. Certain redemption and loan distribution and administration fees are paid directly by the Plan participants.

Forfeitures

Upon termination of employment, employer contributions not vested will be forfeited by the member under the terms of the Plan. Amounts forfeited and all earnings of the Plan that are reasonably attributable to the forfeited amounts will be returned to the Employer as a credit against subsequent contributions. All forfeitures may be used to pay Plan expenses, or allocated as Discretionary Additional Matching Contributions. Forfeitures as of December 31, 2015 totalled \$44,040. Forfeitures were not utilized during the year ended December 31, 2015.

Transfer in from another plan

On January 1, 2015, the Employer approved an amendment to spin off from the Accord Human Resources, Inc. 401(k) plan, a PEO Plan, effective January 1, 2015. An aggregate of \$4,842,413 was transferred into the Plan during the year ended December 31, 2015, and is included in the transfer in from another plan on the statement of changes in net assets available for benefits.

2 Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and in accordance with generally accepted accounting principles in the United States ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to the fully benefit-responsive common/collective trust (which holds investment contracts) because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. The most significant estimates relate to the determination of fair value of investments.

Investment valuation

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Investments held in mutual funds invest in stocks, bonds and other securities. The Putnam Stable Value Fund is maintained by Putnam Fiduciary Trust Company as trustee. The Putnam Stable Value Fund seeks to preserve principal and achieve high current income through a diversified portfolio of high-quality investment contracts. The fund invests in high quality guaranteed investment contracts ("GIC"s) and similar contracts issued by insurance companies, banks and other financial institutions. The fund also invests up to 75% of its assets in security-backed investment contracts ("SBIC"s), including separate account products of insurance companies. Redemptions may be made daily at the net asset value per unit; however, under certain circumstances, redemption restrictions may apply.

The underlying investment contracts are valued and adjusted to contract value in the statement of net assets available for benefits. As at December 31, 2015, the Plan does not consider the differences between the contract value and fair value to be significant.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Distributions are recorded on the effective date.

The Plan presents in the statement of changes in net assets available for benefits the net change in fair value of its investments which consists of the realized and unrealized gains and losses.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Evaluation of subsequent events

For purposes of the preparation of these financial statements in conformity with GAAP, management has considered transactions or events occurring through October 3, 2016, which represents the date that the financial statements were available to be issued. No subsequent events were noted affecting the Plan's financial statements other than as disclosed in note 10.

Recent accounting pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updates ("ASU") 2015-07, Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) (the "Update"), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from the net asset value. For all other than public entities the Update is effective for fiscal years beginning after December 31, 2016. Early adoption is allowed and the reporting entity should apply the Update retrospectively to all periods presented. Management did not elect to early adopt the Update for the year ended December 31, 2015.

In July 2015 the FASB issued ASU 2015-12 as part of its simplification initiative. The amendments (i) require fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, not fair value; (ii) simplify the investment disclosure requirements; and (iii) provide a measurement date practical expedient for employee benefit plans. The new standard takes effect in 2016 for calendar year-end entities, but early adoption is permitted. Management did not elect to early adopt the Update for the year ended December 31, 2015.

3 Information certified by the trustee

The Plan's fair value investments, interest and distributions, change in fair value and purchases and sales of investments were certified by Great-West Trust Company, LLC, the trustee of the Plan, as of December 31, 2015 and for the year ending December 31, 2015. Therefore, in accordance with the request of the Plan's Administrator and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure, this information was not subjected to US generally accepted auditing procedures by the Plan's independent auditor. This information is disclosed in the following:

5 Fair value measurements

FASB Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of the unobservable inputs.

Notes to Financial Statements

December 31, 2015

Following is a description of the valuation methodologies used at December 31, 2015 to measure assets at fair value:

Mutual funds: Valued at quoted market prices held by the Plan at year-end.

Common Collective Trusts: Putnam Stable Value Fund, (the "Fund") is a fully benefit responsive common/collective trust, that seeks to provide income while protecting investors' wealth by maintaining a stable fund net asset value. The investments in the Fund are non-transferable, but provide for benefit responsive withdrawals by Plan participants at contract value. Contract value represents invested principal plus contractual interest earned thereon.

The fair value of the common collective trust is determined by the trustee of the common collective trust based on the underlying assets, which represent the net asset value, a practical expedient to fair value, of units held by the Plan.

As at December 31, 2015, the Plan does not consider the differences between the contract value and fair value to be significant. The fair value of the contracts as at December 31, 2015 was \$112,842.

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to, the following: (1) the complete or partial termination of the Plan, (2) the establishment or activation of, or material change in, any Plan investment fund; or (3) an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of group layoffs or early retirement programs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Mutual funds	5,697,489	-	-	5,697,489
Common collective trust	-	112,842	-	112,842
	<u>5,697,489</u>	<u>112,842</u>	<u>-</u>	<u>5,810,331</u>

There were no transfers between levels in 2015.

6 Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7 Income tax status

The Plan is a qualified retirement safe harbor 401(k) Plan. The Plan is subject to federal laws, such as the ERISA and the IRC, as well as some state laws. The provisions of the Plan are subject to revision due to a change in laws or due to pronouncements by the Internal Revenue Services ("IRS") or Department of Labor ("DOL"). The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and thus, the Plan is exempt from federal income taxes.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8 Party-in interest transactions

The following are parties-in-interest to the Plan:

Role	Organization
Committee	US Retirement Savings Plan Committee
Auditor	PricewaterhouseCoopers LLP
Co-fiduciary Investment Advisor	Mercer
Record keeper	Great-West Life & Annuity Insurance Company
Trustee	Great-West Trust Company, LLC
Participating employers	TELUS International (U.S.) Corp.
	Emergis Solutions, Inc.
	TELUS Communications (U.S.) Inc.

Certain distributions are in the form of loans to the Plan's participants. These loans are considered to be party-in-interest transactions.

Further, Schedule H, Line 4i - Schedule of Assets (held at End of Year), lists certain investments held by the Plan at December 31, 2015 (Great West) who are considered a party-in interest given its relationship with the record keeper and trustee.

9 Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10 Subsequent event

Effective May 1, 2016, a reorganization of TELUS International business unit resulted in a change to the ownership of the Plan. A plan amendment was approved at the June 17, 2016 US Retirement Savings Plan Committee effectively converting the Plan to a multiple employer plan. The amendment:

- allows TELUS International Holding (U.S.A.) Corp to join the Plan and permits the non-related entities to participate;
- allows the transferred employees who were already participating in the Plan to continue to participate without having to complete the eligibility requirements again; and
- recognizes past service with either controlled group when an employee transfers from one employer to another, as required by law.

With the exception of the changes specified, the other substantive provisions of the Plan have not changed.
