Retirement & Savings Plan**

Notes to Financial Statements

Note 1. Plan Description

The following description of the Q Holding Company Retirement & Savings Plan (the Plan), formerly Lexington Precision Corporation Retirement & Savings Plan prior to 2015, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan covers all employees of Q Holding Company (the Company) with more than six months of service, as defined in the Plan Document and who have attained the age of 19. Employees may begin contributing to the Plan as of the first day of the calendar quarter following their sixth month of employment.

Contributions: The Plan allows eligible participants to contribute up to 60% of their annual compensation, but no more than the prescribed dollar amounts permitted by the Internal Revenue Code. This is matched by the Plan Sponsor in an amount equal to \$.50 for each \$1.00 contributed by a participant, up to a maximum of 6% of the participant's compensation. Participants are considered eligible to receive an employer match if the employee is employed by the employer or a related employer on the last day of the contribution period. Management calculates the employer match each pay period based upon the current deferral percentage. All participant contributions and Plan Sponsor matching contributions are allocated to the various investment funds that have been elected by the participant.

Effective March 6, 2015, the Plan agreement was amended to include automatic enrollment at a deferral rate of 6% for all eligible employees, as defined by the Plan, unless employees specifically opt out of participating. Also effective March 6, 2015, the Plan agreement was amended to include an automatic deferral increase for all employees already participating in the Plan. This provision calls for a deferral increase from the current deferral percentage election of 1% each year, up to a maximum deferral rate of 6%, unless participants specifically elect otherwise.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant account balances or employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral contributions and related earnings thereon. The Plan Sponsor's matching contributions to the participants' accounts become vested in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Benefit payments: A participant's vested account will be distributed upon retirement, termination, disability or death. Distributions are made as a lump sum payment or in periodic installments. Additionally, the Plan has provisions for an active participant to make hardship withdrawals from his voluntary contribution account, or make withdrawals upon reaching age 59½ subject to limitations and restrictions.

Forfeited accounts: Forfeited non-vested accounts are used by the Plan Sponsor to reduce future employer contributions payable under the Plan. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$403 and \$1,493, respectively. In 2015, employer contributions were reduced by \$26,930 from forfeited non-vested accounts.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition: Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the Company.

Risk and uncertainties: The Plan invests in various investment securities, investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies (Continued)

Benefit payments: Benefits are recorded when paid by the Plan.

Administrative expenses: Administrative expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the plan year ending December 31, 2015, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

In July 2015, the FASB issued Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Summary of Significant Accounting Policies (Continued)

The Update may be adopted in whole or by part (I, II, and III) as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Parts I and II of this Update for the 2015 plan year, and the amendments in Parts I and II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan has evaluated events for potential recognition and/or disclosure through October 11, 2016 the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at quoted market prices which represent the net asset value of the shares held by the Plan at year end.

Common/collective trust fund: The Plan's interest in the Fidelity Managed Income Portfolio Fund is valued at the net asset value based on information reported by the investment advisor using the audited financial statements of the Fidelity Managed Income Portfolio Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level and major classification, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 20,676,685	\$ -	\$ -	\$ 20,676,685
Total assets in the fair value hierarchy	20,676,685	-	-	20,676,685
Investments measured at net asset value ^(a)	-	-	-	5,859,178
Investments at fair value	\$ 20,676,685	\$ -	\$ -	\$ 26,535,863

	2014			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 20,791,999	\$ -	\$ -	\$ 20,791,999
Total assets in the fair value hierarchy	20,791,999	-	-	20,791,999
Investments measured at net asset value ^(a)	-	-	-	6,450,906
Investments at fair value	\$ 20,791,999	\$ -	\$ -	\$ 27,242,905

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

For the years ending December 31, 2015 and 2014, there were no transfers in or out of Level 1, 2, or 3.

For investments in certain entities that calculate the net asset value per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it's probable those investments being sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

Investment Category	2015	2014	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Period Notice
Common/collective trust fund	\$ 5,859,178	\$ 6,450,906	\$ -	Daily	12 Months

Retirement & Savings Plan**

Notes to Financial Statements

Note 1. Plan Description

The following description of the Q Holding Company Retirement & Savings Plan (the Plan), formerly Lexington Precision Corporation Retirement & Savings Plan prior to 2015, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan covers all employees of Q Holding Company (the Company) with more than six months of service, as defined in the Plan Document and who have attained the age of 19. Employees may begin contributing to the Plan as of the first day of the calendar quarter following their sixth month of employment.

Contributions: The Plan allows eligible participants to contribute up to 60% of their annual compensation, but no more than the prescribed dollar amounts permitted by the Internal Revenue Code. This is matched by the Plan Sponsor in an amount equal to \$.50 for each \$1.00 contributed by a participant, up to a maximum of 6% of the participant's compensation. Participants are considered eligible to receive an employer match if the employee is employed by the employer or a related employer on the last day of the contribution period. Management calculates the employer match each pay period based upon the current deferral percentage. All participant contributions and Plan Sponsor matching contributions are allocated to the various investment funds that have been elected by the participant.

Effective March 6, 2015, the Plan agreement was amended to include automatic enrollment at a deferral rate of 6% for all eligible employees, as defined by the Plan, unless employees specifically opt out of participating. Also effective March 6, 2015, the Plan agreement was amended to include an automatic deferral increase for all employees already participating in the Plan. This provision calls for a deferral increase from the current deferral percentage election of 1% each year, up to a maximum deferral rate of 6%, unless participants specifically elect otherwise.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant account balances or employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral contributions and related earnings thereon. The Plan Sponsor's matching contributions to the participants' accounts become vested in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

**Q Holding Company
Retirement & Savings Plan**

Notes to Financial Statements

Note 1. Plan Description (Continued)

Benefit payments: A participant's vested account will be distributed upon retirement, termination, disability or death. Distributions are made as a lump sum payment or in periodic installments. Additionally, the Plan has provisions for an active participant to make hardship withdrawals from his voluntary contribution account, or make withdrawals upon reaching age 59½ subject to limitations and restrictions.

Forfeited accounts: Forfeited non-vested accounts are used by the Plan Sponsor to reduce future employer contributions payable under the Plan. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$403 and \$1,493, respectively. In 2015, employer contributions were reduced by \$26,930 from forfeited non-vested accounts.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition: Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the Company.

Risk and uncertainties: The Plan invests in various investment securities, investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Benefit payments: Benefits are recorded when paid by the Plan.

Administrative expenses: Administrative expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the plan year ending December 31, 2015, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

In July 2015, the FASB issued Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Summary of Significant Accounting Policies (Continued)

The Update may be adopted in whole or by part (I, II, and III) as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Parts I and II of this Update for the 2015 plan year, and the amendments in Parts I and II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan has evaluated events for potential recognition and/or disclosure through October 11, 2016 the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at quoted market prices which represent the net asset value of the shares held by the Plan at year end.

Common/collective trust fund: The Plan's interest in the Fidelity Managed Income Portfolio Fund is valued at the net asset value based on information reported by the investment advisor using the audited financial statements of the Fidelity Managed Income Portfolio Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level and major classification, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 20,676,685	\$ -	\$ -	\$ 20,676,685
Total assets in the fair value hierarchy	20,676,685	-	-	20,676,685
Investments measured at net asset value ^(a)	-	-	-	5,859,178
Investments at fair value	\$ 20,676,685	\$ -	\$ -	\$ 26,535,863

	2014			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 20,791,999	\$ -	\$ -	\$ 20,791,999
Total assets in the fair value hierarchy	20,791,999	-	-	20,791,999
Investments measured at net asset value ^(a)	-	-	-	6,450,906
Investments at fair value	\$ 20,791,999	\$ -	\$ -	\$ 27,242,905

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

For the years ending December 31, 2015 and 2014, there were no transfers in or out of Level 1, 2, or 3.

For investments in certain entities that calculate the net asset value per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it's probable those investments being sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

Investment Category	2015	2014	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Period Notice
Common/collective trust fund	\$ 5,859,178	\$ 6,450,906	\$ -	Daily	12 Months
