AUDIT-RELATED COMMUNICATIONS

To the Administrative Committee
Cone Drive Operations Hourly Union Pension Plan
and Cone Drive Operations Salaried Pension Plan

We have conducted a DOL limited-scope audit of the financial statements of Cone Drive Operations Hourly Union Pension Plan and Cone Drive Operations Salaried Pension Plan (the "Plans") for the year ended December 31, 2015, and have issued our reports thereon dated October 12, 2016. As permitted by 29 CFR 2520.103-8 of the *Department of Labor's Rules and Regulations for Reporting and Disclosure,* under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 15, 2016. Professional standards also require that we communicate to you the following information related to our audit.

Internal Controls

Except as discussed in the preceding paragraph, in planning and performing our audit of the financial statements of the Plans as of and for the year ended December 31, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered the Plans's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plans's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plans's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plans's financial statements will not be prevented, or detected and corrected on a timely basis.

We consider the following deficiency in the Plans's internal control to be a material weakness.

Accounting System

The Plans do not utilize a double-entry accounting system. Instead, transactions are tracked in the investment custodian's statements. In order to establish internal control, all of the Plans' transactions should be recorded through a double-entry accounting system with a general ledger maintained, monitored and reconciled to the custodian's records.

Qualitative Aspects of Accounting Practices

The Plan Administrator is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plans are described in Note B to the financial statements. Except for the early adoption of FASB ASU 2015-12 as described in Note I, no new accounting policies were adopted and the application of existing policies was not changed during 2015. We noted no transactions entered into by the Plans during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by the Plan Administrator and are based on the Plan Administrator's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were the fair value of investments and the present value of accumulated Plan benefits.

The Plan Administrator's estimate of the fair value of investments is based on the amount that the Plan could reasonably expect to receive in a current sale of assets as measured by net asset values. As part of our audit, we did not test estimated investment valuations because we performed a limited-scope audit.

Estimates of accumulated Plan benefits are provided by the Trustee's actuaries. We obtained the actuarial reports and reviewed them for obvious errors.

No Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with the Plan Administrator in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the Plan Administrator. There were no such misstatements.

No Disagreements with the Plan Administrator

For purposes of this letter, professional standards define a disagreement with the Plan Administrator as a financial accounting, reporting or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

The Plan Administrator Representations

We have requested certain representations from the Plan Administrator that are included in the representation letter dated October 12, 2016.

Plan Administrator Consultations with Other Independent Accountants

In some cases, the Plan Administrator may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plans's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with the Plan Administrator each year prior to retention as the Plans's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the *DOL's Rules and Regulations for Reporting and Disclosure* under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Administrative Committee, Board of Trustees and Plan Administrator of the Plans, and is not intended to be and should not be used by anyone other than these specified parties.

Assumptions Prescribed by Law	
Mortality	During Benefit Payment Period IRS Prescribed Mortality - Static Annuitant, male and female. Before Benefit Payment Period IRS Prescribed Mortality - Static Non-annuitant, male and female.
Assumptions Selected by Actuary	
Asset Return	6.50% for the current plan year. The Asset Return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the See Long-Term Capital Market Assumptions link.
Expected Expense	The expected expense included in Target Normal Cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female, multiplied by 0.50 We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.25. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.25 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Inactive participants are assumed to retire at age 62 with 10 years of service.

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 55.</td></tr>
<tr><td>Marriage</td><td>80% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</td></tr>
<tr><td>Form of Benefit</td><td>Participants are assumed to receive their benefits on the normal form at the assumed retirement age.</td></tr>
<tr><td colspan="2">Methods Prescribed by Law</td></tr>
<tr><td>Liability Measure</td><td>Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</td></tr>
<tr><td>Benefit Accrual</td><td>All benefits paid at decrement are considered in total and then split to determine how much is included in Funding Target. The following pieces are included in the Funding Target.
The portion based on the plan's definition of accrued benefit.
The benefit portion in excess of the accrued benefit based on the ratio of the participant’s years of service on the valuation date to the years of service the participant will have at the time of decrement.
The benefits included in Target Normal Cost are calculated similarly, by splitting the benefits. The Target Normal Cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.</td></tr>
</table>

Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment Rates	24 month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Variable Rate Premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.
Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
Vested Benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the Survivor Annuity Death Benefit and post retirement death benefits for non-retired participants except as noted in the Plan Provisions.

Assumptions and Methods Elected by Actuary
Plan Accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.

Interest Rate Used to Value Liabilities

6.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Mortality

Rates: Total mortality rates as of 2007 from SOA RP-2014 study (baseline 2006 table trued up to 2007 with actual improvement rate).

Mortality Improvement: RPEC_2014 model beyond 2007 with following assumptions:

- Convergence period of 10-years.
- Long-term mortality improvement is the sex-distinct and the age-based assumption calibrated to the annual improvement averages, for the period 2010-2088 published in the Social Security Administration (SSA) Trustees report for 2014.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
CONE DRIVE HOURLY UNION PENSION PLAN (UAW LOCAL 21 - TRAVERSE CITY, MI)
EIN 05-0425787 Plan No. 003

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the 2012 plan restatement signed 01/04/2013.

Plan Eligibility	
Class	All persons covered by the collective bargaining agreement at the Traverse City, Michigan plant and Local 21 of the International Union, United Automobile, Aerospace and Agriculture Implement Workers of America.
Entry Date	The first day of the month coinciding with or following the date on which an employee meets the eligibility requirements. Employees hired or rehired on or after 10/26/2010 will not be eligible for plan participation.

Normal Retirement Benefit	
Age	Attained age 65.
Form	Single life annuity unless married. If married, 95% (adjusted based on retiree/spouse age difference) of the single life annuity will automatically be payable, with a 60% continuation to the surviving spouse after the retiree's death. Upon the death or divorce of the spouse, the form of payment reverts to a single life annuity.
Amount (accrued benefit)	• $30.75 per year of accrual service on and after December 1, 2006 and before December 1, 2012. • $31.25 per year of accrual service on and after December 1, 2012 and before December 1, 2014. • $31.75 per year of accrual service on and after December 1, 2014.

Early Retirement Benefit	
Eligibility	Active participant: Age 55 with at least 10 years of accrual service. Inactive participant: Age 60 or age 55 with at least 10 years of accrual service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit multiplied by percentage in table below:

Age	Active Percent of Pension	Inactive Percent of Pension
55	57.9%	28.0%
56	63.5%	35.2%
57	69.4%	42.4%
58	75.2%	49.6%
59	80.8%	56.8%
60	86.7%	64.0%
61	93.3%	71.2%
62	100.0%	78.4%
63	100.0%	85.6%
64	100.0%	92.8%
65 +	100.0%	100.0%

Late Retirement Benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on late retirement date.

Termination Benefit	
Vesting Percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability Benefit	
Eligibility	Total and Permanent Disability in the opinion of a physician.
Service	Ten years of accrual service.
Form	Monthly income payable until normal retirement, death, or recovery; and a deferred annuity payable at normal retirement date.
Amount	Accrued benefit on date of disability with a temporary supplement equal to $20 times years of credited service up to 25 years. This temporary supplement benefit shall be payable to the earlier of the earlier of age 65 or eligibility for Federal Social Security disability benefits.

Pre-Retirement Death Benefit	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a joint and 60% survivor annuity in effect, then died the next day.

Definitions	
Accrual Service	One year of service in which an employee is credited with at least 1,700 hours of service. A partial year of service shall be equal to the quotient of hours of service credited divided by 1,700.
Optional Forms of Benefit Payments	The optional forms of benefit payments are: Ø Monthly annuity payable for life Ø Monthly annuity payable as a survivorship life annuity with survivorship percentages of 60, or 75%. If the participant is receiving benefits under this option and his spouse dies whiles he is still living his benefit will increase to the amount that would have been payable under the straight life option. The optional form conversion basis is 7.0% interest and 1994 GAR Mortality Table.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Administrative Committee of
Cone Drive Operations Hourly Union Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the ***Cone Drive Operations Hourly Union Pension Plan*** (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the *Department of Labor's Rules and Regulations for Reporting and Disclosure* under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Principal Financial Group, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certification from the Trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters - Supplemental Schedules

The supplemental Schedules of Assets (Held at End of Year) and Reportable Transactions as of and for the year ended December 31, 2015, which is the responsibility of Plan management, are required by the *Department of Labor's Rules and Regulations for Reporting and Disclosure* under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the *Department of Labor's Rules and Regulations for Reporting and Disclosure* under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF PLAN

The following description of the Cone Drive Operations Hourly Union Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, effective September 1, 1955, is a noncontributory defined benefit pension plan covering all eligible hourly union employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established to enable certain employees of Cone Drive Operations, Inc. (the "Company") to accumulate capital for retirement.

On October 26, 2010, the Plan was frozen, closing entrance to new participants.

Eligibility

Eligibility is met if the hourly employee is in the collective bargaining unit at the Traverse City, Michigan plant represented by Local 21 of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAAAIW Local 21).

The Plan freeze prevents new entrants to the Plan.

Vesting

Participants earn rights to benefits based on years of continuous service. A participant is 100% vested after five years of credited service.

Actuarial Present Value of Accumulated Plan Benefits

Upon retirement or termination of service, a participant's benefits are based on a benefit rate and years of credited service. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date. Accumulated Plan benefits (see Note C) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

Plan transactions are recorded on the accrual basis of accounting.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan. Separate accounts are valued at the net asset values of the underlying mutual fund.

Appreciation or depreciation in the fair value of investments represents the change in the difference between aggregate fair value and aggregate cost of investments, including investments purchased, sold and held during the year.

Purchases and sales of securities are recorded on a trade-date basis.

Payment of Benefits

Benefits are recorded when paid.

Funding Policy

Contributions depend on the Plan's funded status and are determined by an independent actuary using the Long-Term Contribution Level assumption and Plan Accounting method. The Long-Term Contribution Level allocates the difference between the Benefit Liability and the Actuarial Value of Assets as a level dollar amount per year. This reflects the service projected to the age benefits are assumed to be paid and increase in benefit limits projected at 0 percent per year. The minimum contribution requirement of ERISA was met in 2015.

Subsequent Events

The Company has evaluated subsequent events and transactions for potential recognition and disclosure through October 12, 2016, the date the financial statements were available to be issued.

NOTE C - ACCUMULATED PLAN BENEFITS

An actuary from Principal Financial Group estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information, as of January 1, 2015 is as follows:

Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 11,996,861
Other participants	6,550,429
Total vested benefits	18,547,290
Nonvested benefits	70,549
Total present value of accumulated Plan benefits	$ 18,617,839

Changes in the actuarial present value of accumulated Plan benefits are as follows:

Actuarial present value of accumulated Plan benefits at January 1, 2014	$ 16,635,080
Increase (decrease) for:	
Increase for interest due to decrease in the discount period	1,078,202
Benefits paid	(1,345,405)
Benefits accumulated and Plan experience	256,207
Change in assumptions	1,993,755
Actuarial present value of accumulated Plan benefits at January 1, 2015	$ 18,617,839

Significant assumptions underlying the actuarial computations are:

Assumed rate of return on investments	6.50%
Mortality	IRS prescribed static tables with separate rates for annuitants during benefit payment period and non-annuitants before benefit payment period
Retirement	Determined by company experience with a weighted-average retirement age of 65
Accrued monthly benefit amount	$30.75 per year of credited service $31.25 per year of credited service effective 12/01/2012 $31.75 per year of credited service effective 12/01/2014

All actuarial assumptions are based on the presumption that the Plan will continue.

Changes in assumptions

The assumed rate of return on investments was changed from 6.75% to 6.50% at January 1, 2015; and the mortality table was updated for the applicable year.

NOTE D - FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Insurance contracts - separate accounts: Valued at the NAV of the underlying mutual funds held by the Plan's insurance contract issuer at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Mutual funds	$12,391,274	$ -	$ -	$12,391,274
Insurance contracts - separate accounts	-	5,535,236	-	5,535,236
Total assets at fair value	$12,391,274	$ 5,535,236	$ -	$17,926,510

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Mutual funds	$13,557,395	$ -	$ -	$13,557,395
Insurance contracts - separate accounts	-	6,054,590	-	6,054,590
Total assets at fair value	$13,557,395	$ 6,054,590	$ -	$19,611,985

NOTE E - CERTIFIED INVESTMENTS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the *Department of Labor Rules and Regulations for Reporting and Disclosure* under ERISA. Accordingly, the Trustee has certified that the information listed below is complete and accurate:

	2015	2014
Statement of Net Assets Available for Benefits		
Investments	$17,926,510	$19,611,985
Statement of Changes in Net Assets Available for Benefits		
Net appreciation (depreciation) in fair value of investments	$ (447,911)	$ 712,751
Interest and dividends earned on investments	$ 267,041	$ 320,330

Disclosures in Note D.

All information in the supplemental schedule.

The Plan's independent certified public accountants did not perform auditing procedures with respect to information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

A party-in-interest is defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. Fees paid by the Plan for investment management services amounted to $77,073 and $26,832 for the years ended December 31, 2015 and 2014, respectively. Fees paid to mutual fund managers, the amounts of which are unknown, are netted against investment income. Professional fees for the administration and audit of the Plan were paid by the Company.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Plan assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. Information about the PBGC's benefit guarantee and priority of benefits are available in the Summary Plan Description which is available at the personnel office of Cone Drive Operations, Inc.

NOTE H - TAX STATUS

The Plan obtained its latest determination letter in May 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirement of the Internal Revenue Code. The Plan has not been amended subsequent to this determination.

All tax positions taken by the Plan have been assessed to have a near 100% likelihood of being sustained upon their ultimate settlement in the event they are examined by taxing authorities and, therefore, there are no unrecognized tax benefits. The tax years that remain subject to examination by the Internal Revenue Service are 2012 - 2014.

NOTE I - ACCOUNTING CHANGES

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan.

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected to adopt the ASUs early and has done so retrospectively.
