INDEPENDENT AUDITORS' REPORT

To the Plan Committee and Participants
of the Active International Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Active International Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2015, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Active International Employee Stock Ownership Plan (the "Plan" or the "ESOP") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

Active Media Services, Inc. (the "Company" or the "Sponsor") established the Plan in August 1998. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). A Plan committee appointed by the Company's Board of Directors administers the Plan. The trust department of an independent third-party bank is the Plan's trustee.

The Plan purchased the Company's Class B common stock using proceeds of a $45 million loan (the "Acquisition Loan") from the Sponsor. The Sponsor financed the Acquisition Loan by using a combination of its cash and by entering into a loan arrangement with certain financial institutions. The shares of the Company's Class B common stock acquired with the Acquisition Loan were placed in a separate account (the "Loan Suspense Account") and were pledged as collateral to the lenders that loaned the Company the funds to lend to the Plan. On June 30, 2007, the Company's loan with certain financial institutions was repaid in full.

Contributions to the Plan by the Company, along with dividends received, if any, on the Company's Class B common stock, were used to repay the Acquisition Loan and interest on such loan. The Class B common stock was entitled to an annual preferential dividend at the rate of approximately $1.30 per share through August 2007, after which such dividends ceased in their entirety. As the Acquisition Loan was repaid, a certain amount of the Company's Class B common stock was allocated from the Loan Suspense Account to eligible participants' accounts. The number of shares transferred was determined by multiplying the number of shares in the unreleased share account by a fraction, the numerator of which was the principal and interest payments during the applicable accounting period and the denominator of which was the sum of the numerator plus the total projected principal and interest payments during the remainder of the term of the Acquisition Loan. Released shares were allocated to participants' accounts in the following order: 1) reinvested dividends on allocated shares were based on participants' beginning of the year share balance (less shares sold for distribution during the year) in proportion to the total of all beginning of the year allocated shares (less the total of all shares sold for distribution during the year); 2) a 100% match of participants' contributions to their Active International 401(k) Savings Plan, up to 6% of compensation, limited by the annual compensation limit as determined by the Internal Revenue Service; and 3) regular share allocation based on participants' individual compensation to total compensation, limited by the annual compensation limit as determined by the Internal Revenue Service, multiplied by the total shares released less shares allocated in steps one and two. Shares released from the Loan Suspense Account immediately ceased to be collateral to the lenders that loaned the Company the funds to lend to the Plan.

During 2012, all remaining unallocated shares were released to the allocated accounts. Accordingly, Class B shares are currently being allocated to participants' accounts for reinvested dividends, if any, on previously allocated shares (less the total of all shares sold for distribution during the year) and for annual contributions of the Company's Class B common stock in amounts necessary to enable the Plan to fully match employees' contributions to the 401(k) Savings Plan.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[2] Vesting:

Stock vests based upon the following schedule:

Number of Completed Years of Service	401(k) Match Vested Percentage	ESOP Vested Percentage
Less than 1 year	0%	0%
1 year but less than 2 years	20%	0%
2 years but less than 3 years	40%	0%
3 years but less than 4 years	60%	33%
4 years but less than 5 years	80%	66%
5 years or more	100%	100%

[3] Eligibility:

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan immediately on their date of hire. Employees who are less than 18 years of age, leased or are represented by a collective bargaining group are not eligible to participate in the Plan. Eligibility for the Plan is limited to participants who make a pre-tax contribution under the Active International 401(k) Savings Plan (the "401(k) Plan"). Employer matching contributions for a plan year shall be allocated only to participants who (i) made pre-tax contributions under the 401(k) Plan during such plan year, and (ii) completed at least 1,000 hours of service in such plan year and are employed by the Company on the last day of such plan year, unless terminated due to normal retirement, disability, or death.

[4] Participant accounts:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Allocations to participants are based on the method described above.

[5] Payment of benefits:

Distributions from the Plan will generally be made when a participant retires, becomes disabled, elects to diversify his or her account if eligible, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company and its participating subsidiaries. Participant's account balances will be determined as of the last day of the Plan year immediately preceding the date of distribution of the participant's account.

[6] Voting rights:

Each participant has the right to direct the trustee on how to vote with respect to any corporate matters which involve the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the assets of a trade or business. The trustee is permitted to vote any shares for which a participant has not given any instructions, as directed by the Plan committee.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[7] Plan termination:

The Company expects to continue the Plan indefinitely. However, the Company reserves the right to amend, discontinue, or terminate the Plan at any time by action of its Board of Directors. If the Plan is discontinued or terminated, all affected employees will become fully vested in their accounts. Upon such termination of the Plan, the interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan's terms and the Code.

[8] Put option:

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

[9] Forfeitures:

Plan forfeitures are allocated to each participant's account in a method consistent with the allocation of released shares as described above. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2015 and 2014 totaled 4,147 and 2,918 shares, respectively.

[10] Diversification:

Active participants may elect to diversify portions of their ESOP stock accounts when the participant has attained the age of 55 years old and has at least ten years of participation in the Plan. Each participant who is eligible to diversify and elects to may diversify up to 25% of the qualified participant's ESOP stock account, or up to 50% in the case of the qualified participant's last year of the qualified election period. Distributions are made in the form of cash or other property with a fair value equal to the participant's account balance.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

[3] Valuation of investments and income recognition:

The Class B common shares of the Company are valued at estimated fair value on December 31, 2015 and 2014. Fair value is determined by annual independent appraisals (see Note H for discussion of fair value of investments).

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[4] Operating expenses:

All expenses of maintaining the Plan are paid by the Company.

[5] Payment of benefits:

Benefits are recorded when paid.

[6] Recent accounting pronouncements:

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-12 ("ASU 2015-12"), *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965) (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III allows an employee benefit plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments using the month end closest to its fiscal year end. The amendments are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. The Plan elected to adopt ASU 2015-12 as of and for the year ended December 31, 2015. The applicable amendments of ASU 2015-12 have been applied retrospectively to all periods presented.

NOTE C - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 24, 2013, that the Plan is qualified under the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. The Plan Administrator believes the Plan and related trust are designed and operated in accordance with applicable sections of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE D - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist solely of the Company's Class B common stock, are held by the trustee of the Plan. Company contributions are held and managed by the trustee.

Officers or employees of the Company perform certain administrative functions for the Plan. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

NOTE E - INVESTMENTS

The Plan's investments at December 31, 2015 and 2014 are presented in the following table:

	2015	2014
Number of shares	**1,564,091**	1,553,827
Cost	**$ 35,317,175**	$ 35,085,391
Fair value	**$ 21,271,639**	$ 19,422,831

During 2015 and 2014, terminated employees of the Company sold 116,136 and 78,342, respectively, of vested shares of Class B common stock to the Company at fair value as determined at the last balance sheet date for $1,451,694 and $744,245, respectively.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in the Company's Class B common stock, which is exposed to various risks, such as interest rate, market, credit, liquidity, and market perception risks. The fair value of investments and securities are sensitive to changes in economic conditions, delinquencies, and defaults, and may be adversely affected by shifts in the market perception of the issuers. Due to the level of risk associated with the Class B common stock, it is at least reasonably possible that changes in the value of the Class B common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significant impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2015 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE G - EMPLOYER CONTRIBUTIONS

The Company was previously obligated to make contributions in cash or shares of the Company stock as defined in the Plan, which when aggregated with any dividends and interest earnings, equaled the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on the Acquisition Loan. Currently, the Company makes contributions as described in Note A to the Plan's financial statements.

On December 31, 2015 and 2014, the Company made share-based special retirement plan contributions to the ESOP by utilizing 126,400 and 140,247, respectively, of its Class B common stock held as treasury shares in order to contribute the amount required to fully match participants' contributions to the Company's 401(k) plans. The value of the contributed shares amounted to $1,719,042 and $1,753,093, respectively.

NOTE H - INVESTMENTS AT FAIR VALUE

FASB's Accounting Standards Codification ("ASC") 820, *"Fair Value Measurements and Disclosures"*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

The Company provides advertising placement, marketing advisory services, travel, logistics and other goods and services to its clients on a global basis. The fair value of the Company's Class B common stock held by the Plan is valued at fair value based upon an independent appraisal. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future cash flows or earnings discounted to present value. The measurement is based on the value indicated by current market expectations about those future amounts. Other factors that were taken into consideration included significant material events for the Company and industry.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE H - INVESTMENTS AT FAIR VALUE (CONTINUED)

The following table summarizes the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2015 and 2014:

	December 31,		
	2015 Significant Unobservable Inputs (Level 3)	2014 Significant Unobservable Inputs (Level 3)	Valuation Technique
Investment in Sponsor:			
Company Class B common stock	**$ 21,271,639**	$ 19,422,831	Income and market approach
Total investments at fair value	**$ 21,271,639**	$ 19,422,831	

The following table presents changes in the Plan's Level 3 investment representing the investments measured at fair value on a recurring basis for the year ended December 31, 2015:

Level 3 Investment Assets for the Year Ended December 31, 2015

	Company Class B Common Stock
Beginning balance	$ 19,422,831
Unrealized appreciation in fair value	1,581,460
Employer share-based special retirement plan contribution	1,719,042
Distributions to participants	(1,451,694)
Ending balance	$ 21,271,639

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the independent appraiser from the audited financial statements of the Company, along with projections of the Company's forecasted financial performance. The independent appraiser prepares a preliminary report which Plan management, along with the Plan committee, reviews in detail, discusses and approves. This process is used to develop and substantiate unobservable inputs used in Level 3 fair value measurement.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2015, there were no transfers into or out of levels 1, 2 or 3.

NOTE I - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are shares of Company stock, which qualify as party-in-interest transactions.
