Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contribution.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Plan Sponsor's matching contribution, (b) the Plan earnings (losses) and charges with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in pre-tax deferral and rollover contributions, as well as, Plan Sponsor matching contributions plus actual earnings (losses) thereon.

Note 1–Description of the plan–continued

Notes receivable from participants

Participants may borrow against their vested account balances a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the vested balance in the participant's account and bear interest at rates commensurate with current interest rates charged for loans made under similar circumstances by lending institutions. The term of any loan shall not exceed five years. Certain loans originating from businesses acquired by the Plan Sponsor that were assumed by the Plan in 2008 have longer terms as was permitted under the acquired businesses' plan at the time the loans were made.

Payment of benefits

On termination of service due to death, permanent disability, financial hardship, retirement or upon attainment of age 59 ½, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. At separation of service, participants may elect distribution of their account balance or maintain the account until the age of 70 ½.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the Plan Sponsor's matching contributions. Unused forfeitures as of December 31, 2015 and 2014 totaled \$0 and \$10,916, respectively.

Administrative expenses

Administrative expenses are paid by the Plan or the Plan Sponsor as provided in the Plan document.

Note 2–Significant accounting policies

Basis of accounting

The Plan maintains its records on the accrual basis, whereby income is recognized when earned and expenses are recognized when the obligations are incurred. Benefit payments are recorded when distributed by the Plan.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investment transactions are accounted for on a trade-date basis and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned.

Purchases and sales of securities are recorded on a trade date basis. Interest income is rewarded on the accrual basis. Dividends are recorded on the ex-dividend basis.

Note 2—Significant accounting policies—continued

Investment valuation and income recognition—continued

The Plan has investments in the Morley Stable Value Fund as of December 31, 2015 and 2014. These investments are comprised of fully benefit-responsive investment contracts which are recorded at fair value and adjusted to contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The Morley Stable Value Fund has separately audited financial statements which provide additional information on this fully benefit-responsive investment.

The yield earned by the Morley Stable Value Fund at December 31, 2015 and 2014 was 1.64% and 1.41%, respectively. This represents the annualized earnings of all investments in the fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the fund at December 31, 2015 and 2014.

The yield earned by the fund with an adjustment to reflect the actual interest rate credited to the participants in the fund at December 31, 2015 and 2014 was 1.92% and 1.46%, respectively. This represents the annualized earnings credited to participants in the fund, divided by the fair value of all investments in the fund at December 31, 2015 and 2014.

Financial Accounting Standards Board (FASB) guidance, “Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide” and “Defined-Contribution Health and Welfare and Pension Plans” require that investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FASB guidance, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The fully benefit-responsive investment fund and investment contracts are recorded at fair value and adjusted to contract value. Contract value represents investment contracts at cost plus accrued interest income less amounts withdrawn to pay benefits.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds, common/collective trust funds, and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Recently issued accounting pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan is evaluating the impact of Part I on the financial statements. The Plan has elected early adoption of Part II.

Subsequent events

The Plan Sponsor has evaluated subsequent events through October 10, 2016, the date the financial statements were available to be issued.

Reclassifications

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation of the current year financial statements.

Note 3—Investments

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying 2015 and 2014 financial statements is complete and accurate with respect to investments:

- Investments
- Net appreciation (depreciation) in fair value of investments
- Interest and other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued by the trustee, Charles Schwab. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Mutual Funds/Money Market – valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with Securities Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

OMG RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED

Note 4–Fair value measurements–continued

Common/Collective Trust Fund – The fair values of participation units held in collective trusts are based on net assets values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). The investment objectives and underlying investment of the collective trusts vary, with some holding diversified portfolios of domestic or international stocks and open-ended mutual funds, some holding securities of U.S. Companies in a particular industry sector, some holding short-term and/or medium-term corporate, government and government agency bonds, and others holding a blend of various domestic stocks, bonds and mutual funds. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Self-Directed Brokerage Accounts – Included within the self-directed brokerage accounts are cash and cash equivalents, common stocks, mutual funds, and unit investment trusts. Common stocks, mutual funds, and unit investment trusts are valued at the closing price reported on the active market on which the individual investments are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

Description	Total	Fair Value Measurements at December 31, 2015 Using		
		Quoted Prices in Active Markets for Identical Assets Level (1)	Significant Other Observable Inputs Level (2)	Significant Unobservable Inputs Level (3)

Under the terms of a trust agreement between the Trustee and the Plan Sponsor, the Trustee invests all contributions to the Plan in various fund options as directed by the individual participants.

Note 5–Related party and party in interest transactions

Certain Plan investments are shares of mutual funds and common/collective trust funds managed by Charles Schwab Bank. Charles Schwab Bank is the trustee as defined by the Plan and, accordingly, these transactions qualify as party in interest transactions. The Plan made direct payments to the trustee in the amount of \$68,256 during 2015.

Note 6–Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Plan Sponsor may determine.

Note 7–Tax status

The Internal Revenue Service has determined and informed the Plan Sponsor by letter dated May 23, 2008 that the Prototype Plan and related trust are designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Prototype Plan has been amended since receiving the determination letter; however, the Plan Sponsor and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Note 7–Tax status–continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8–Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to the Form 5500:

The following is a reconciliation of changes in net assets available for benefits per the financial statements for 2015 to the Form 5500:
