BLAIR MEDICAL ASSOCIATES EMPLOYEES' 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

1 - DESCRIPTION OF PLAN

The following description of the Blair Medical Associates ("Company") Employees' 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed six (6) months of service and are age twenty-one (21) or older, as defined. The Plan is administered by a written trust agreement and the trustees of that agreement control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 31, 2014, the plan sponsor voted to amend the Plan. As a result of this amendment, the Plan was effectively frozen as of this date. Contributions, of any type, are no longer permitted, all benefit accruals ceased, as of that date, and as of January 1, 2015 employees are no longer eligible to become a participant in the Plan. All employees who were active participants prior to January 1, 2015 shall continue as an active participant.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently has thirteen (13) mutual funds as investment options for participants. The Company may make discretionary employer contributions, which are determined annually. Contributions are subject to certain limitations.

The employer contributions were, for 2014, allocated based upon group classifications as follows: Groups A, B, C, D, E, and F consist of physicians. Group G consists of all non-physician employees who have attained five (5) years of service under the Plan, as of the allocation date. Group H consists of all other non-physician employees. The employer designates the amount of contribution to each group annually. The contribution is allocated by the compensation within each group. Total compensation is limited in accordance with IRC rules and regulations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based upon years of continuous service. Participants are 100% vested after six (6) years of service.

Notes Receivable - Participants

The Plan does not currently provide for loans to participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value in the participant's vested interest in his or her account, or annual installments over a specified period, as defined.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled approximately \$3,000 and \$21,000, respectively. These accounts are to be used to reduce future Company contributions.

Investment Options

The Plan allows participants to make their investments under a self-directed program. Under this program, participants invest their account balances in any one of thirteen (13) investment options currently offered by the Plan. Participants may transfer funds between investments and make changes in the allocation of future contributions among funds at any time by either calling or by accessing their accounts with the custodians of the Plan assets.

2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting and are prepared in conformity with U.S. generally accepted accounting principles ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC").

New Accounting Pronouncements

The Plan adopted the plan investment disclosure provisions of FASB ASU 2015-12, Topic 962. Under this guidance, the provisions were adopted on a retroactive basis for all years presented. Management believes that the disclosures provided by the provisions continue to provide pertinent information to participants regarding the investments offered by the Plan.

As a result of adopting the guidance noted above, certain 2014 disclosures have been restated to conform with the current year presentation.

BLAIR MEDICAL ASSOCIATES EMPLOYEES' 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
(CONTINUED)

2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The accompanying financial statements include an evaluation of events or transactions that have occurred after December 31, 2015 and through September 28, 2016, the date the financial statements were available to be issued.

3 - INVESTMENTS

Fair Value Hierarchy

FASB ASC defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability, or an orderly transaction to sell the asset or transfer the liability which occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Valuations based on unadjusted quoted prices available in active markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.
- Level 2: Valuations based on quoted prices for similar assets in active or inactive markets, inputs other than quoted prices that are observable, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

NOTES TO FINANCIAL STATEMENTS

3 - INVESTMENTS (CONTINUED)

Fair Value Hierarchy (Continued)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Processes and Structure

Management is responsible for the Plan's fair value valuation policies, processes, and procedures. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and that the assumptions are reasonable.

Fair Value Measurements

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that the Plan believes market participants would use in pricing the asset or liability at the measurement date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments are initially recorded at their acquisition cost (if they were purchased) and at fair value (if they were received as a contribution). Subsequent to acquisition, investments are reported at their fair value. The net change in the difference between fair value and the cost of investments is reflected in the accompanying statements of changes in net assets available for benefits under the caption "Net Depreciation in Fair Value of Investments".

The net realized gain on investments is the difference between the proceeds received and the carrying value of the investments sold. The cost of the investments includes earnings that are reinvested. Realized gains and losses on investments are accounted for on an individual security basis. Investment income is recorded on the accrual basis.

NOTES TO FINANCIAL STATEMENTS

3 - INVESTMENTS (CONTINUED)

Fair Value Measurements (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The following table summarizes the valuation of the Plan's investments by fair value hierarchy as described above as of:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>December 31, 2015:</u>				
Mutual Funds	\$ <u>19,228,328</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>19,228,328</u>
<u>December 31, 2014:</u>				
Mutual Funds	\$ <u>28,146,558</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>28,146,558</u>

The Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by approximately \$1.1 million and \$102,000 in 2015 and 2014, respectively.

4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. 6 - ADMINISTRATIVE EXPENSES

Plan administrative expenses consisted of service and asset charges of approximately \$9,000 in 2015 and \$16,000 in 2014, respectively. Investment related expenses are included in "Net Depreciation in Fair Value of Investments". Remaining operating and administrative expenses are paid by the Plan sponsor.

7 - TAX STATUS

The Internal Revenue Service has determined and informed the Sponsor by a letter dated January 9, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax exempt.

GAAP prescribes rules for the recognition, measurement, classification, and disclosure in the financial statements of uncertain tax positions taken or expected to be taken in the Plan's tax returns. Management has determined that the Plan does not have any uncertain tax positions and associated unrecognized tax benefits that materially impact the financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that the Plan's tax returns will not be challenged by the taxing authorities and that the Plan will not be subject to additional tax, penalties, and interest as a result of such a challenge. Generally, the Plan's federal returns remain open for income tax examination for three years from date of filing.

8 - RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the participant's account balances and the amounts reported in the statements of net assets available for benefits.

9 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Reliance Trust Company. Reliance Trust Company is the custodian under the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made a direct payment to the third-party administrator of approximately \$9,000 in 2015 and \$11,000 in 2014, respectively.

10 - SEPARATED PARTICIPANTS

At December 31, 2015 and 2014, participants separated from service for which distributions have not been remitted was approximately \$918,000 and \$257,000 respectively.
