General - The Plan was established effective January 5, 2010 as a defined contribution plan covering all full-time employees of Western Extrusions Corporation ("Company"). The Company is also the Plan Administrator. Eligible employees of the Company are permitted to make pretax contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility - All full-time employees who have at least six months of service and are age eighteen or older are eligible to participate in the Plan. Participants are automatically enrolled into the Plan with a three percent contribution rate on the Plan's next entry date after the aforementioned requirements are met. The entry date to the Plan is the first day of each plan year and the first day of the fourth, seventh, and tenth months of each plan year.

Contributions - Each year, participants may elect to defer a portion of their pretax compensation subject to certain maximum limitations imposed by the IRC. Participants who have attained age fifty before the close of the plan year are eligible to make catch-up contributions in accordance with the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may, at its sole discretion, make matching contributions to the Plan for any plan year. Only participants who have made a contribution election for the plan year, and who are employed with the Company on the last day of the plan year shall be eligible to receive a matching contribution. The amount of the matching contribution for each eligible participant shall be twenty-five percent of first $2,000 of participant's elective deferral and then ten percent of elective deferral above $2,000, not to exceed five percent of the participant's eligible compensation for the plan year. During the year ended December 31, 2015, the Company's matching contributions totaled $70,232. The Company contributed the amount on March 3, 2016.

Participant's accounts - Each participant's account is credited with the participant's contributions, the Company's matching contribution, plus a proportionate interest in the investment earnings and losses of the funds in which the contributions are invested. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is vested twenty percent per year after two years of service and is 100 percent vested after six years of credited service. A participant is also fully vested upon reaching normal retirement age, early retirement age with six years of service, upon death, or upon becoming totally and permanently disabled.

Investment options - Upon enrollment in the Plan, participants may direct the investment of all contributions into various investment options offered by the Plan. The Plan allows participants to direct their contributions and account balances among various investment options. Participants may change their investment elections at any time.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their account balance. Loan transactions are treated as a transfer from the investment fund to the participant notes fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through periodic payroll deductions with the term not to exceed five years, unless the loan is for the purchase of a principal residence, in which case the term may not extend beyond fifteen years. The maximum number of loans which a participant may have outstanding at any one time is one.

Payment of benefits - On termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account or transfer an eligible rollover distribution to an eligible retirement plan.

Participant consent is required for a distribution only if the distribution is over $5,000. Participants may withdraw their contributions and related earnings thereon at any time if the participant qualifies for a hardship withdrawal, as defined in the plan document, or upon attaining the age of 59 ½ years subject to plan terms. If a participant terminates before normal retirement age, and the vested account balance does not exceed $1,000, the Plan will distribute a mandatory single lump-sum payment in cash. If the amount of the distribution exceeds $1,000 (including any rollover contribution) and the participant does not elect to either receive or roll over the distribution, the distribution will be automatically rolled over to an individual retirement account.

Forfeited accounts - Forfeited, non-vested accounts are retained in the Plan and may first be used by the Plan to pay administrative expenses, if so directed by the Company. Remaining amounts shall be used to reduce future Company contributions. Forfeited accounts used totaled $1,289 and $1,229 for the years ended December 31, 2015 and 2014, respectively. The forfeiture account balanced totaled $17,246 and $15,954 as of December 31, 2015 and 2014, respectively.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding of the Plan's financial statements. The financial statements and notes are representations of the Plan's management, who is responsible for their integrity and objectivity.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in United States of America ("GAAP").

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the plan year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits - Benefits are recorded when paid by the Plan.

Expenses - The Plan's expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

Excess participant contributions payable - Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants prior to March 15, 2016.

3. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor ("DOL") Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Company, and certain others. As such, transactions conducted with the Trustee, the Third Party Administrator ("TPA"), and the Company qualify as party-in-interest transactions.

4. Excess Contributions Payable

During the years ended December 31, 2015 and 2014, the Plan failed certain of its nondiscrimination tests. As a result, refunds of excess contributions are required to be paid out to participants in order for the Plan to meet compliance testing requirements. Accruals were made for the excess totaling $30,653 and $25,280 for the years ending December 31, 2015 and 2014, respectively. Refunds to the participants were made in the year subsequent to the year in which these excess contributions occurred.

5. Tax Status

The Plan sponsor adopted a prototype, non-standardized section 401(k) plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which states that the Plan is designed in accordance with the applicable sections of the IRC and is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the opinion letter. The Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status

6. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the information certified by the Trustee, which included total investments as of December 31, 2015 and 2014, the total investment income for the year ended December 31, 2015, and all information in the supplemental schedule Form 5500, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year).

6. Information Certified by the Trustee (continued)

The following investment information was obtained or derived from the information provided to the Plan Administrator and certified as complete and accurate by the Trustee as of December 31, 2015 and 2014 and for the year ended December 31, 2015:

	2015	2014
Investment values certified by the Trustee	$ 8,840,180	$ 8,485,895
Notes receivable from participants	307,500	324,697
Investment income (loss) certified by the Trustee:		
Net appreciation (depreciation) in fair value of investment	$ (407,842)	
Interest and dividends	380,527	
Interest on notes receivable from participants	17,686	

7. New Accounting Pronouncements

The Plan has elected to early adopt Accounting Standards Update ("ASU") 2015-12. The ASU is in three parts: Part 1 designates contract value as the only required measure for fully benefit-responsive investment contracts; Part II eliminates the requirement that plans disclose: (a) individual investments that represent five percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments; Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning after December 15, 2015. Early adoption is permitted.

8. Fair Value Measurements

Financial Accounting Standards Board ("FASB") ASC 820-10 establishes a framework for measuring fair value under GAAP. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's Level 1 assets include investments in money market funds and equity mutual funds.

8. Fair Value Measurements (continued)

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets in active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. The Plan does not have any Level 2 assets.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan does not have any Level 3 assets.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Money market fund: Valued at the closing price reported by the fund sponsor from an actively traded exchange.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used at the Plan for the years ended December 31, 2015 and 2014.

8. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014, respectively:

December 31, 2015:	Level 1
Money market funds	$ 1,320,885
Equity mutual funds	7,519,295
	$ 8,840,180

December 31, 2014:	Level 1
Money market funds	$ 1,249,511
Equity mutual funds	7,236,384
	$ 8,485,895

Gains and losses, realized and unrealized, included in net assets available for benefits for the year ended December 31, 2015 are reported in net appreciation (depreciation) in fair value of investments.

9. Reportable Transactions

There were no reportable transactions, non-exempt transactions with parties-in-interest or any other prohibited transactions that would require supplemental presentation under DOL regulations.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

11. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2015 and 2014:
