Notes to Financial Statements
December 31, 2015

Note A – Description of Plan

The following description of the Project Resources Group, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Company who have the required twelve months of service and are age 21 or older. Employees may enter the Plan on the first day of each month once eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to a maximum dollar amount of pretax annual compensation, as defined in the Plan, up to the maximum amounts allowed by law. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Company contributions are at the discretion of the Company's administrative committee. Contributions are subject to certain limitations. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Non-vested participants' accounts that are forfeited upon termination of service may be used to reduce future employer contributions. There were no forfeitures for the year ended December 31, 2015. The Plan's Sponsor (employer) pays for the majority of administrative expenses.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service with an annual minimum of 1,000 hours and employed on the last day of the Plan year. A participant is 100 percent vested after four years of credited service.

Note A – Description of Plan (continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or defer receipt until age 65 or his or her normal retirement age (as defined in the Plan agreement), whichever is later. Participants with a balance less than $5,000 may receive a lump-sum or installment distribution net of required federal taxes withheld, or rollover the distribution to a qualified retirement plan.

Participant Loans

Participants may borrow from their funds in accordance with Plan provisions. Loan terms range from one to five years and must be secured by the balance in the participant's account. The Plan limits loans to the lesser of $50,000 or 50% of the vested account balance. Interest rates are determined by the Plan administrator commensurate with local prevailing rates. Interest rates as of December 31, 2015 were 5.25%. Payments are made ratably by bi-weekly payroll deductions.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments and Valuation

The Plan utilized Ascensus Trust Company as its service provider. Participants may contribute and allocate earnings to sponsored funds that include domestic and international stocks, bonds and money market mutual funds.

The Plan's investments and earnings are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Note B – Summary of Accounting Policies(continued)

Investments and Valuation (continued)
Purchases and sales of investments are recorded on the trade-date basis. Interest income is accrued when earned. Dividend income is recorded on ex-dividend date. Capital gain distributions are included in dividend income.

Note C – Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note D – Tax Status
The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2014, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. The Plan's federal tax returns are subject to examination by the IRS, generally for three years after they were filed.

Note E – Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for Plan benefits.

Note F – Fair Value Measurement
The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. All investments are classified as Level 1 in accordance with ASC 820. Level 1 investments consist of unadjusted quoted prices in active markets for identical assets.

Note G – Investment at Fair Value
