COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN

The following description of the American Freight Management Company 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have 1,000 hours of service within twelve consecutive months of services, and are twenty one years or older. Eligible employees may begin participating in the Plan on any January 1 or July 1. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Committee is responsible for oversight of the plan and determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides for Company matching and profit sharing contributions of a discretionary manner, determined by the Plan Sponsor. The Company did not make a discretionary contribution for the current year. Each participant directs the manner in which his contributions, as well as those of the Company, are to be allocated among the investment options available under the Plan.

Participant Accounts

Each participant account is credited with the participant’s contribution and allocations of the Company’s contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the investment options.

Participants may change their investment options anytime via the telephone or internet.

Vesting

Participants are immediately vested in their contributions plus actual earnings on these portions of their accounts. Prior to normal retirement age, the employees’ interest in Company discretionary contributions and related earnings become vested at the rate of 20 percent per year from the participants second to sixth years of completed service.

COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN (continued)

Payment of Benefits

On termination of service due to death, disability or retirement, participants may elect to receive a distribution equal to the value of their vested interest in their account, or defer receipt of their account balance until age 65. Furthermore, participants, upon a hardship (as defined by the Plan), may elect to withdraw a portion of their salary deferral (redirection) account.

Forfeitures

Forfeitures represent the non-vested portion of the Company's discretionary contributions plus earnings thereon, which are not distributable to participants who terminate employment before they are 100 percent vested. The amounts forfeited are used to pay any administrative expenses and then used to reduce the amount of the employer's discretionary contribution. For the years ended December 31, 2015 and 2014, forfeited non-vested accounts totaled \$2,344 and \$2,276, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net asset available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are reported on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administration Expenses

Plan recordkeeping expenses and certain other administrative expenses are paid by the Plan. Investment management fees are netted against plan earnings.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosure, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of the net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements (continued)

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively, with Part III to be applied prospectively. Parts III is not applicable to the Plan. Plan management is currently evaluating the impact Part I of this update will have on the Plan's financial statements. Management has elected to adopt Part II early for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update.

Subsequent Events

Subsequent events have been evaluated through October 10, 2016 which is the date the financial statements were available to be issued.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, and net (depreciation) appreciation in fair value of investments, interest and dividends for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Mass Mutual Life Insurance Company (the custodian of the Plan). The contract value of the guaranteed investment contract was certified by the custodian.

NOTE 4: INVESTMENTS

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	<u>2015</u>	<u>2014</u>
Pooled Separate Accounts	\$ (4,423)	\$ 18,755
Guaranteed Investment Contract	<u>3,216</u>	<u>3,819</u>

NOTE 5: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 6).

Pooled separate accounts: Valued at net asset value per unit based on quoted market prices of underlying investments.

AMERICAN FREIGHT MANAGEMENT
COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Assets at Fair Value as of December 31, 2015

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Guaranteed Investment Contract	\$ 0	\$ 0	\$123,758	\$ 123,758
Pooled Separate Accounts	<u>0</u>	<u>436,844</u>	<u>0</u>	<u>436,844</u>
Total assets at fair value	<u>\$ 0</u>	<u>\$ 436,844</u>	<u>\$ 123,758</u>	<u>\$ 560,602</u>

Assets at Fair Value as of December 31, 2014

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Guaranteed Investment Contract	\$ 0	\$ 0	\$111,148	\$ 111,148
Pooled Separate Accounts	<u>0</u>	<u>434,487</u>	<u>0</u>	<u>434,487</u>
Total assets at fair value	<u>\$ 0</u>	<u>\$ 434,487</u>	<u>\$ 111,147</u>	<u>\$ 545,635</u>

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in to Level 3.

AMERICAN FREIGHT MANAGEMENT
COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (continued)

The following table sets forth the Plan's assets that are carried at fair value on a recurring basis, classified within Level 3 of the valuation hierarchy for the years ended December 31:

	2015	2014
	Guaranteed income fund	Guaranteed income fund
Beginning balance	\$ 111,148	\$ 200,485
Contributions, net exchanges	26,151	15,949
Transfer in to level 3	68	66
Gain (Loss)	2,425	(568)
Distributions/Fees	<u>(16,034)</u>	<u>(104,784)</u>
Ending balance	<u>\$ 123,758</u>	<u>\$ 111,148</u>

The fair value of the Guaranteed Income Fund is based on significant unobservable inputs, including the credit worthiness of the issuer, Hartford Life Insurance Company and the terms of the investment contract. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2015 and 2014, respectively.

- (a) This category includes funds that seek long-term capital growth; income is a secondary consideration. The category typically includes funds that invest at least 80% in small cap companies, which are defined as those with market capitalization no larger than that of the largest company in the S&P Small Cap 600®Index or the Russell 2000®Index, which is a market cap of \$300 million to \$2 billion. Over long periods of time, small-cap stocks have had higher returns than large-cap stocks, but are much more volatile and have higher short-term risk.
- (b) This category includes funds that seek long term capital appreciation. These funds primarily invest in equity and equity-related securities of medium-sized companies with the potential for above-average growth. Such companies are defined as existing in the \$2 billion to \$10 billion market cap range. Because of the fluctuation in mid-cap stocks, there is a potential for greater long-term growth as well as higher risk.
- (c) This category includes funds that seek to provide growth of capital primarily through investments in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. Current income is a secondary consideration. Shares are represented by large, financially established “blue chip” companies with a market cap of over \$10 billion. Risk and return are typically moderate to high.
- (d) This category includes funds that seek maximum total return, consistent with preservation of capital and prudent investment management. These represent “loans” made to corporations, governments or agencies designed to provide stability, income, and some appreciation in value. Those held to maturity offer a fixed rate of return and a fixed principal value.
- (e) This category includes funds that seek long-term growth of capital, while helping to diversify portfolios, primarily through investments in common stocks and other equity securities of non-U.S. companies and some U.S. stocks. Foreign stocks may offer greater returns than U.S. investments but also involve higher risks relating to interest and currency exchange rates, securities regulation, and taxes, as well as unstable economic or political conditions.

AMERICAN FREIGHT MANAGEMENT

NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (continued)

- (f) This category includes funds that seek long-term capital growth by investing in a worldwide and diversified portfolio of health sciences companies. Because of the focus on a small market segment, this category tends to have both a higher risk and higher potential for return than more diversified investments.
- (g) This category includes asset allocation portfolios that provide a broad range of investment objectives. The category includes target date funds, which allocate and reallocate assets among a combination of equity, bond and money market funds until the intended target date is reached.

NOTE 6: INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2007, the plan entered into a benefit-responsive investment contract with the Hartford Life Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Hartford. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 was \$123,758 and \$111,148. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3.00% for the years ended December 31, 2015 and 2014. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity was provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The plan administrator does not believe that any events, which would limit the plan's ability to transact at contract value with participants, are probable of occurring.

AMERICAN FREIGHT MANAGEMENT
COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 6: INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior the scheduled maturity date.

	<u>2015</u>	<u>2014</u>
Average yield:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 8: TAX STATUS

The Internal Revenue Service has determined and informed the Plan, by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

NOTE 9: RISK AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rates, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
