Note 1 - Description of the Plan and Significant Accounting Policies

The following description of JAB Wireless DBA Skybeam, Inc. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2014 and covers all U.S. employees except union employees, who are covered by a collective bargaining agreement. The Plan is available to employees who have completed three consecutive months of employment. On September 1, 2014, the Plan was amended to require completion of 60 consecutive days of employment for eligibility. Effective April 1, 2016, the Plan was amended to require completion of only 30 consecutive days of employment for eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

JAB Wireless DBA Skybeam, Inc. (the "Company") is the Plan sponsor. Great-West Trust Company, LLC ("Great-West") serves as custodian, manages Plan assets, and maintains the Plan's records. Group Health and Benefit Administrators, Inc. ("GHBA") serves as a third-party administrator. Great-West offers Plan participants a variety of investment options through various mutual funds and a guaranteed interest contract. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to the maximum amount allowed by law, subject to annual limitations established by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum may be reduced by the Plan administrator in certain circumstances. The Plan allows Roth contributions and permits rollover contributions from other qualified retirement plans. Participants who are age 50 or older during the Plan year are eligible to make catch-up contributions based on IRS limits. The Plan also includes an automatic contribution arrangement, which consists of 3% of compensation for each payroll period and a scheduled increase of 1%, up to a maximum of 5%, on the first day of each Plan year. Employee contributions to the Plan are made through regular payroll deductions.

The Company may also choose to make discretionary profit sharing and matching contributions to the Plan equal to a discretionary percentage, to be determined by the Company, of the participants' elective deferrals. The Company chose to make no discretionary contributions to the Plan for the year ended December 31, 2015.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, if any; Plan earnings or losses; forfeitures; and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions plus allocated earnings or losses thereon. Vesting in the Company's contributions, if any, is based on years of continuous service. The vesting for the employer discretionary profit sharing and matching contributions, if any, is as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The maximum number of Plan loans that participants may have outstanding at any one time is one. The loans are collateralized by the vested balances in the participants' accounts and bear interest at prime plus 1% (4.25% at December 31, 2015), which is commensurate with local prevailing rates at loan inception as determined quarterly by the Plan administrator. As of December 31, 2015, outstanding loan balances had maturity dates ranging from May 2016 to December 2020. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payment of Benefits

Upon termination of service, death, disability, or attainment of retirement age of 65, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installments sufficient to satisfy required minimum distribution amounts. A participant may withdraw benefits from the Plan in certain hardship situations as specified in the Plan document. Accounts with balances less than $5,000 are immediately distributed as a lump-sum payment upon a distribution event. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or shall be allocated to participants in the same manner as the employer's matching contributions. The balance of this account at December 31, 2015 and 2014 was $27,893 and $9,758, respectively. During the year ended December 31, 2015, forfeitures in the amount of $17,910 were used to offset Plan administrative expenses.

Valuation of Investments and Income Recognition

Investments are recorded at fair and contract value as reported to the Plan by Great-West. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

Investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests fully benefit-responsive investment contracts through a guaranteed interest contract. As required by GAAP, the statements of net assets available for benefits present the contract value of the investment in the guaranteed interest contract. The Plan has elected to early adopt the Financial Accounting Standards Board's ("FASB") Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Plans (Topic 962); and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, which requires fully benefit-responsive investment contracts to be measured, presented, and disclosed at contract value only.

The guaranteed interest contract account is under a group annuity contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting interest rates are reset by Great-West on a quarterly basis.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

Certain events may limit the ability of the Plan to transact at contract value with Great-West. Such events may include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, layoffs, divestitures, and spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (3) the failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. In addition, certain events may allow the issuer to terminate the contract with the Plan and settle at an amount different from fair value. Such events may include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer. The Plan administrator does not believe that the occurrence of any such events is probable.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected on the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Concentrations

At December 31, 2015 and 2014, three investments accounted for 63% and 67% of total investments, respectively. During the year ended December 31, 2015, three investments accounted for 56% of net depreciation in fair value of investments.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In May 2015, the FASB issued ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2016. Earlier application is permitted. Entities should apply the amendments in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under FASB Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan elected to early adopt all three parts of this standard update for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Note 2 - Investments

Great-West has certified in writing to the Plan administrator that the stated amounts for investments at fair and contract value and the participant loan at amortized cost as of December 31, 2015 and 2014 and the income earned on the assets for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis.

Note 3 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,457,013	$ -	$ -	$ 1,457,013

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 757,743	$ -	$ -	$ 757,743

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with GHBA's opinion letter from the IRS dated March 31, 2014, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provisions for federal or state income taxes have been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a guaranteed investment contract managed by Great-West, which serves as the asset custodian and maintains the Plan records, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

The Plan's participant loans are receivables from participants in the Plan; therefore, these receivables qualify as a party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 8 - Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance, noting no additional events that require disclosure based upon this evaluation.
