Contributions – Participants may elect to reduce their compensation by a specific percentage or dollar amount and have the amount contributed to the Plan as an elective deferral not to exceed a dollar limit which is set by law. There are two types of elective deferrals: pre-tax 401(k) deferrals and Roth 401(k) deferrals. Participants may revoke or make modifications to their salary deferral election. Participants who are at least age 50 or will attain age 50 before the end of a calendar year may make additional catch-up contributions.

The Plan also includes an automatic salary deferral feature. Accordingly, the Company will automatically withhold 3% of a participant's compensation each payroll period. Participants may enter into a salary deferral agreement at any time to select an alternative deferral amount or to elect not to defer under the Plan.

The Company may make a discretionary matching contribution equal to a uniform percentage of the participant's elective deferrals. Each year, the Company will determine the amount of the discretionary percentage. For 2015, the Company made a matching contribution equal to 1.5% of a participant's eligible compensation.

Participants are also permitted to deposit into the Plan distributions that have received from other retirement plans and certain IRAs as rollover contributions.

Participant Accounts – Each participant's account is credited with the participant's contributions, employer contributions, rollovers, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are always 100% vested in their salary deferrals, rollovers, and gains or losses thereon. The participant's vested percentage for employer contributions is based on vesting years of service. A participant becomes 100% vested at six years of service.

Investment Options – Participants direct the investment of their entire interest in the Plan into various investment securities offered by the Plan. The Plan currently offers cash equivalents, mutual funds, and collective investment trusts as investment options for participants. Participants may reallocate or transfer their investment selections at any time.

Notes Receivable From Participants – Loans are available to participants on a reasonably equivalent basis. Participants may borrow from their Plan accounts a minimum of $1,000 up to a maximum of $50,000 reduced by the highest outstanding loan balance during the prior one-year period, or ½ of their vested interest in the Plan, whichever is less. The loans are adequately secured and charged a reasonable rate of interest. Principal and interest payments are paid ratably through payroll deductions, over a term not to exceed five years, unless the loan was obtained to acquire a principal residence.

Payment of Benefits – Participants may receive a distribution of the vested portion of some or all of their accounts upon termination of employment, normal retirement, disability or death. All distributions from the Plan will be made in a single lump-sum payment. If the vested account balance exceeds $5,000, the participant must consent to the distribution before it may be made.

Participants may be entitled to receive an in-service distribution. Prior to termination of employment, a participant may withdraw from their account if the participant has attained age 59½. Hardship distributions are also available to active participants to satisfy certain immediate and heavy financial needs.

Forfeited Accounts – If a participant terminates employment before being fully vested, then the non-vested portion of the terminated participant's account balance remains in the Plan and is called a forfeiture. Forfeitures may first be used to pay any administrative expenses and then used to reduce employer contributions. Forfeited non-vested accounts totaled $15,692 at December 31, 2014. During 2015, $16,151 and $2,666 of forfeitures were used to reduce employer match and pay Plan expenses, respectively.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

Excess Participant Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

Benefits Paid to Participants – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through August 9, 2016, the date the financial statements were available to be issued.

As of January 4, 2016, the Plan assets were wired to Insperity Retirement Services and deposited on January 13, 2016. The Plan experienced a blackout period from December 23, 2015 through January 27, 2016.

Recent Accounting Pronouncements – In May 2015, FASB issued ASU No. 2015-07, *Fair Value Measurement (Topic 820) – Disclosures for Investments in Certain Entities That Calculate Net Asset Value* (*NAV*) *per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using NAV per share as a practical expedient and also removes the requirement to make certain disclosures. This update is effective for fiscal years beginning after December 15, 2015 and must be applied retrospectively, with early adoption permitted.

In July 2015, the FASB released ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (*Topic 960*) *Defined Contribution Pension Plans* (*Topic 962*) *Health and Welfare Benefit Plans* (*Topic 965*)*:* (*Part I*) *Fully Benefit-Responsive Investment Contracts*, (*Part II*) *Plan Investment Disclosures*, (*Part III*) *Measurement Date Practical Expedient*. ASU 2015-12 removes the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value and also simplifies the investment disclosures required for employee benefit plans. This update is effective for fiscal years beginning after December 15, 2015. Parts I and II should be applied retrospectively, while Part III should be applied prospectively.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1 –** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2 –** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3 –** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Cash Equivalents – Valued at closing price of the NAV of shares held by the Plan at year-end as reported on an active market.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trusts – Valued at the NAV of units of a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 – INFORMATION CERTIFIED BY CUSTODIAN

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, *Note 5*, and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015. The Company has instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing the information certified by the custodian with information included in the Plan's financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

The following presents investments that represented 5% or more of the Plan's net assets at December 31:

	2015	2014
Schwab US Treasury Money Fund*	**$ 780,169**	$ 329,764
JHancock2 Lifestyle 2020 R5	**777,890**	780,183

Reliance Trt Svf Metlife 25157 Cl 68*	**583,999**	505,408

* Indicates party in interest

During 2015, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in fair value by $259,989.

NOTE 6 – COLLECTIVE INVESTMENT TRUSTS

The Plan invests in a fully benefit-responsive collective investment trust managed by Reliance Trust Company which invests solely in a contract with Metropolitan Life Insurance Company (issuer), MetLife Group Annuity Contract 25157. The collective investment trust is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the collective investment trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective investment trust. The collective investment trust is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the issuer or otherwise. The crediting interest rate of the contract is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

The group annuity contract specifies certain conditions under which distributions from the contracts would be payable at amounts below contract value. Such circumstances include premature contract termination initiated by the employer and certain other employer-initiated events. The contract limits the circumstances under which the issuer may terminate the contract. Examples of circumstances which would allow the issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the issuer could terminate the contract at an amount less than contract value.

The average yields earned by the contract for 2015 are as follows:

Based on actual earnings	-1.13%
Based on interest rate credited to participants	3.02%

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Charles Schwab Bank and Reliance Trust Company and, therefore, these transactions qualify as party in interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transactions rules under ERISA.

NOTE 8 – PLAN TERMINATION

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time. Upon termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become 100% vested. The Company will direct the distribution of participants' accounts in a manner permitted by the Plan as soon as practicable.

NOTE 9 – TAX STATUS

The Company adopted a volume submitter profit sharing plan with CODA sponsored by Alliance Benefit Group of Houston Inc. The volume submitter plan obtained its latest opinion letter on September 30, 2014, in which the IRS stated that the plan, as then designed, was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
