Note 1 - Plan Description

The following description of Silva International 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Silva International (the "Company") who have completed 12 months of service and are age 21 or older. Certain non-resident alien employees and those covered by other collective bargaining agreements are not eligible for participation in the Plan. Employees are eligible to participate on the first day of the quarter coinciding with, or following, the date when plan eligibility criteria are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for 401(k) deferral contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in addition to their regular deferral contributions. Participants may designate all or a portion of their contributions as Roth 401(k) contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company makes a safe harbor matching contribution equal to 100 percent of the first 3 percent of the participant's contribution and 50 percent of the next 2 percent of the participant's contribution.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings (losses), and administrative expenses. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in all employee deferral and Company safe harbor matching contributions, including any earnings thereon.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Hardship distributions are not permitted.

After age $59^{1/2}$, a participant may make withdrawals of 401(k) contributions, employer contributions, and/or rollover contributions and related investment earnings, which are subject to income tax to the participant at ordinary tax rates.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Capital Bank and Trust Company or its affiliates. Capital Bank and Trust Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value except as noted below.

Mutual funds and money market funds are valued at closing quoted prices reported in active markets.

The pooled separate account investments are valued at net asset value (NAV) per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. There were no redemption restrictions or unfunded commitments on these investments.

The fixed account investment is a fully benefit-responsive group annuity contract issued by Great-West Life & Annuity Insurance Company (Great-West). Great-West considers the fixed account to be benefit responsive. Benefit-responsive contracts are recorded at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include investments in various publicly traded securities that are valued based on closing quoted prices reported in active markets.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized losses on investments include gains and losses on investments bought and sold, as well as held, during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

New Accounting Pronouncements - During 2015, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent),* and 2015-12*, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient.* ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Parts I and II of ASU No. 2015-12 were applicable to the Plan. Part I requires the fully benefit-responsive investment contract be recorded at contract value without presentation of fair value or the difference between fair value and contract value and reduces the related disclosures. Part II modified the investment disclosures under ASC 820 and 962.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 4, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Capital Bank and Trust Company (the "Custodian") holds the Plan's investments, other than the self-directed brokerage accounts, and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements and schedule of assets held at end of year, other than the self-directed brokerage accounts, are based solely on information provided by the Custodian.

Note 3 - Unaudited Information (Continued)

The Plan's investments in self-directed brokerage accounts totaling $101,964 and $97,315 at December 31, 2015 and 2014, respectively, and related investment losses and income of $1,857 and ($51) for the years ended December 31, 2015 and 2014, respectively, were not certified by Capital Bank and Trust Company.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Self-directed brokerage accounts	$ 101,964	$ 101,964	$ -	$ -
Investments measured at NAV - Pooled separate accounts	2,411,876			
Total investments at fair value	$ 2,513,840			

Note 4 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual funds	$ 2,137,299	$ 2,137,299	$ -	$ -
Money market fund	3,317	3,317	-	-
Self-directed brokerage accounts	97,315	97,315	-	-
Total investments at fair value	$ 2,237,931	$ 2,237,931	$ -	$ -

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 5 - Investment Contract

The Plan has a benefit-responsive investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in its general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Great-West is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Great-West establishes interest rates for monies invested in the insurance contract that may change periodically. When establishing interest credit rates for this contract, Great-West considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Generally there are no conditions, limits, or restrictions on the ability of the plan participants to transact at contract value. In the event of a contract termination, a market value adjustment and/or liquidation change may apply to the general account assets. Great-West does not believe a contract termination is probable of occurring.

Note 6 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.
