1. Description of Plan and Summary of Significant Accounting Polices

The following description of Road Runner Sports 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan's sponsor is Road Runner Sports, Inc. (the "Company" or the "Employer").

General

The Plan was established on January 1, 1995, and was amended and restated effective March 31, 2008. The Plan is a defined contribution plan covering all eligible employees of the Company. An employee is eligible to become a participant of the Plan upon completing one month of eligible service as defined by the Plan and attaining the age of twenty-one. A participant's entry date is the first day of the month coinciding with or next following the date that the employee satisfies the eligibility requirements. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently has numerous investment options for participants.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting and have been prepared in accordance with accounting principles generally accepted in the United States of America.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by Capital Bank and Trust Company ("CB&T" or "Trustee"). Shares of registered investment companies are valued at the net asset value based on quoted market prices of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. See Note 7 for discussion of fair value measurements.

Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions, and an allocation of Plan earnings (net of administrative fees). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their contributions and the earnings and appreciation or depreciation thereon. Participants vest in employer contributions based on years of service or upon reaching retirement age as defined in the Plan.

Contributions

Plan participants may elect to have 1% to 50% of their compensation contributed to the Plan through payroll deductions, subject to an annual maximum as established by Internal Revenue Service ("IRS") regulations ($18,000 in 2015). Participants age fifty years or over can make catch-up contributions in addition to the above, up to the maximum amount allowed by the IRS ($6,000 in 2015). Participants direct the investment of their contributions into various investment options offered by the plan.

The Company has the option to make profit sharing or matching contributions to the Plan. There were no Company contributions to the Plan for the year ended December 31, 2015.

The Plan allows for participants in a former employer's qualified plan to contribute direct rollovers to this Plan.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance or systematic installments. For terminated participants' account balances that are less than $1,000, the Plan administrator may distribute the entire amount in a lump sum without the participant's consent. For terminated participants' account balances between $1,000 and $5,000, the Plan administrator may automatically rollover the balance into an individual retirement account if they do not receive distribution instructions from the participant. Hardship distributions are also permitted from the participant's deferral account. Benefits are recorded when paid.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the value of the participant's vested account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator at the time the loan is made. Principal and interest is paid ratably through monthly payroll deductions. Participant loans are measured at unpaid principal balance plus unpaid interest.

Administrative Expenses

Plan fees and expenses, including administrative services provided by external service providers are paid from Plan assets or the Company. Substantially all administrative expenses of the Plan were paid by the Company during the year ended December 31, 2015. In addition, the Company provides administrative services to the Plan.

Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance is effective for fiscal years beginning after December 31, 2015, and requires retrospective presentation. Early adoption of ASU 2015-07 is permitted. This amendment is not applicable to the Plan year 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. The purpose of this ASU is to simplify plan accounting.

- The amendments in Part I of this ASU designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this ASU will eliminate the requirements to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Further, the disclosure of the information about fair value measurements shall be provided by general type of plan asset.

- The amendments in Part III of this ASU reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure its investments and investment-related accounts as of a month-end date closest to its fiscal year, when the fiscal period does not coincide with a calendar month.

The amendments in ASU No. 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. The ASU may be adopted in whole or by part (I, II and III), as applicable. Parts I and II shall be applied retrospectively, while Part III shall be applied prospectively. The Plan adopted this ASU for the 2015 plan year, and the amendments in Part II were retrospectively applied to the 2014 plan year. Parts I and III are not applicable to the Plan. The impact of adopting this ASU is reflected in Notes 6 and 7.

In January 2016, FASB issued ASU No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The

amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. With certain exceptions, early adoption is not permitted. Plan management is currently evaluating the impact that ASU 2016-01 will have on its financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standard setting bodies are not expected to have a material impact on the Plan's net assets available for benefits, or changes in net assets available for benefits.

2. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

3. Income Tax Status

The Plan uses a non-standardized prototype profit sharing plan agreement provided by its third party administrator. In a letter dated March 31, 2008 received from the Internal Revenue Service, it stated that the prototype Plan was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the above determination letter and the Plan's administrator and Trustee believe that the Plan is operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for any year prior to 2011.

4. Party-in-Interest Transactions

Certain Plan investments are managed by CB&T. CB&T is the Trustee as defined by the Plan, which qualifies these transactions as party-in-interest transactions. American Funds is the third party administrator of the Plan. The Plan's investments include mutual funds managed by American Funds, which qualifies as party-in-interest transactions. Administrative fees paid to American Funds totaled $300 during the year ended December 31, 2015. Investment advisory and other fees are incurred at the individual investment level and included in the net appreciation or depreciation of investments in the accompanying Statement of Changes in Net Assets Available for Benefits.

5. Risks and Uncertainties

The Plan provides for various investment options in investment securities (see Note 7). Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the

level of risks associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the Statements of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits.

6. Information Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, CB&T, as the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

(a) Investments, as shown in the Statements of Net Assets Available for Benefits;

(b) Interest and dividend income and net depreciation in fair value of investments, as shown in the Statements of Changes in Net Assets Available for Benefits;

(c) Investment information disclosed in Note 7; and

(d) All information included in the Schedule H, Line 4i – Schedule of Assets (Held at End of year), as shown in the supplemental schedules.

The Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

7. Investments

Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement and Disclosures* ("ASC Topic 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. ASC Topic 820 does not require any new fair value measurements.

The three levels of the fair value hierarchy under ASC Topic 820 and a description of the valuation methodologies used for assets measured at fair value are described below:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 147,709	$ -	$ -	$ 147,709
Mutual funds	5,406,694			5,406,694
Total	$ 5,554,403	$ -	$ -	$ 5,554,403

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 151,794	$ -	$ -	$ 151,794
Mutual funds:	5,466,798			5,466,798
Total assets at fair value	$ 5,618,592	$ -	$ -	$ 5,618,592

8. Subsequent Events

In accordance with ASC Topic 855, *Subsequent Events,* the Company has evaluated subsequent events through October 10, 2016, which is the date these financial statements were available to be issued. All subsequent events requiring recognition or disclosure have been incorporated into these financial statements.
