CardinalCommerce 401(k) Plan

Notes to Financial Statements

1. The Plan and Significant Accounting Policies

The CardinalCommerce 401(k) Plan (the “Plan”), was originally established on January 6, 2014. The Plan is a defined contribution profit-sharing plan and includes a 401(k) feature. The Plan operates on a calendar year basis. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

The following description of the Plan is provided for general information purposes only and does not bind the Plan. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan covers substantially all employees of CardinalCommerce Corporation (the “Company”). For Company profit sharing and matching contributions, participation begins immediately after the first anniversary of the employee’s original hire date. For elective salary deferrals (401(k) contributions), participation begins on their hire date.

The Plan contains eligibility provisions to ensure that all eligible employees enter the Plan by the latest participation date required under the applicable provisions of the Internal Revenue Code (the “Code”). Eligible employees are automatically enrolled in the Plan on their hire date with a salary deferral contribution equal to 4% of eligible compensation as defined by the Plan. Employees have the option to change their salary deferral percentage at any time in accordance with the Plan.

Plan Year

The Plan operates on a calendar year ending on December 31st. References to 2015 and 2014 relate to the Plan years ended December 31, 2015 and December 31, 2014, respectively. As the Plan was established on January 6, 2014, the 2014 Plan year is considered a short year.

Trustees and Administrator of the Plan

The asset trustee of the Plan is the Reliance Trust Company.

The Plan is administered by the Company in conjunction with the Company’s 401(k) Plan Administrative Committee (“Plan Administrator”). Dyatech, LLC provided administrative services in 2015 and 2014.

Contributions

Contributions to the Plan are made through employee 401(k) contributions, including catch-up contributions, Company matching contributions, Company profit sharing contributions, and participant rollover contributions.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

Employee 401(k) Contributions – Eligible employees may elect to defer eligible compensation on a pre-tax basis, an after-tax (Roth) basis, or a combination of both. The maximum elective salary deferral is 100% of pre-tax compensation. Employees age 50 and over are allowed a catch-up contribution on a pre-tax basis, an after-tax (Roth) basis or a combination of both. For all employees, the Internal Revenue Service (“IRS”) limits participant contributions to a maximum of \$18,000 (\$24,000 for those age 50 and over). Participants may elect to start, increase, or reduce their elections to contribute to the Plan effective as of the first day of any calendar month. Participants may totally suspend their elections at any time.

Company 401(k) Matching and Profit Sharing Contributions - The Company may make matching contributions of a discretionary percentage as well as non-elective profit sharing contributions at the option of the Company’s Board of Directors, subject to certain limitations and eligibility requirements. No discretionary matching or non-elective profit sharing contributions were made by the Company during 2015 or 2014.

Participant Rollover Contributions – Participants who have received a withdrawal from another eligible retirement plan or traditional or Roth Individual Retirement Account (“IRA”) may roll over all or part of that amount into the Plan. In general, any eligible rollover distribution will be accepted by the Plan; however, the Plan Administrator may establish procedures that regulate the method by which Rollover Contributions will be accepted.

Investments

Participants are able to direct the investment of their accounts (including Company matching and profit sharing contributions) among any of the available funds.

Participation in Investment Activities

Each participant’s account is credited with the participant’s contributions, the Company’s discretionary matching contributions, an allocation of the Company’s discretionary profit sharing contribution, and the Plan’s earnings, net of administrative expenses and forfeitures of terminated participants’ non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Employees who terminate employment due to retirement, death or total disability are 100% vested in their Plan accounts, regardless of years of service. For the purposes of the Plan, “retirement” is defined as ending employment at age 65 or older. On termination of employment for reasons other than retirement, death or total disability the amounts credited to the accounts of participants are vested as follows:

Employee 401(k) Contributions – Employee contributions (i.e. salary deferral, catch-up and rollover contributions) are always 100% vested.

Company 401(k) Matching and Profit Sharing Contributions – Participants will vest in the discretionary employer matching and non-elective profit-sharing contributions following the below schedule:

CardinalCommerce 401(k) Plan

Notes to Financial Statements

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Forfeitures

When a participant terminates, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture, unless the participant resumes services with the Company within five years. Forfeitures of terminated participants' non-vested accounts may first be used to pay any administrative expenses of the Plan. Any remaining forfeitures may be used to reduce any employer contributions to the Plan or be allocated to all participants eligible to share in the allocations of profit sharing contributions. There were no forfeitures of non-vested accounts during 2015 or 2014.

Payment of Benefits

On termination of services, a participant (or participant's beneficiary in the case of death) may elect to rollover the value of the vested interest in his or her account to another qualified plan, to receive the value as a lump-sum distribution, or elect to remain in the Plan, if the vested account balance (including the rollover account) exceeds \$1,000. These distributions are subject to required distributions under Section 401(a)(9) of the Code. When an active participant reaches age 59½ and continues to work for the Company, the participant is eligible to receive a partial or full distribution of his or her retirement benefits.

The Plan provides for hardship withdrawals from a participant's elective deferral and rollover contribution accounts. Hardship withdrawals are subject to the demonstration of immediate and heavy financial need as determined by the Plan Administrator.

Participant Loans

The Plan does not permit loans.

Termination of the Plan

Although it has not expressed any intent to do so, the Company reserves the right to suspend, discontinue, or terminate the Plan at any time subject to the provisions set forth in ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

Federal Income Tax Status

The Plan has adopted the Dyatech, LLC defined contribution prototype plan and trust. The Internal Revenue Service has determined and informed Dyatech, LLC by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Code. Accordingly, the Plan is permitted to rely on the opinion letter. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. No provision for Federal income tax has been made in the financial statements.

U.S. generally accepted accounting principles ("GAAP") requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting in accordance with GAAP.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

The Plan holds various investment instruments, including, but not limited to, Pooled Separate Accounts ("PSAs") and a Fixed Term Guaranteed Interest Account ("FT GIA"). Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments in PSAs are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price).

CardinalCommerce 401(k) Plan

Notes to Financial Statements

The fair value of participation units in the pooled separate accounts is based upon the net asset values of such accounts. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

Investment in the general account is reported at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Investment transactions are accounted for on trade-date and identified costs is the basis followed in determining the costs of investments sold for financial statement purposes. Dividend income and gains from realized gain distributions are recorded on the ex-distribution date, and are reinvested in the underlying investments.

Net unrealized appreciation or depreciation on investments held at the end of the Plan year represents the net change in fair value of investments during the year. The Statement of Changes in Net Assets Available for Benefits presents the net depreciation in fair value of investments, which consists of realized and unrealized gains and losses.

Expenses

Certain expenses incurred to maintain the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net depreciation of the fair value of investments.

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)", which seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. The standard is effective for annual periods beginning after December 15, 2015. Management has elected to early adopt this standard and it is reflected as such in these financial statements.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient". Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments be general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using value by general type; however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early, and they are reflected as such in these financial statements.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

In October 2015, the FASB issued ASU No. 2015-10, "Technical Corrections and Improvements", to clarify the FASB Accounting Standards Codification (ASC), correct unintended application of guidance, or make minor improvements to the ASC that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. Included in this ASU is a change in the FASB definition of *readily determinable fair value*. Transition guidance varies based on the individual amendments. The amendments that require transition guidance are effective for all entities for fiscal years beginning after December 15, 2015. Early adoption is permitted. All other amendments became effective upon issuance. The Company is in process of evaluating the impact of the ASU for amendments that require transition guidance, and has adopted the remaining amendments.

Subsequent Events

In January 2016, the Plan Administrator approved an amendment to the Plan. Effective January 1, 2016, the Plan will include a non-discretionary Company match for eligible employees, as defined by the Plan.

The Company has evaluated subsequent events through October 11, 2016, the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the Notes.

2. Information Certified by Massachusetts Mutual Life Insurance Company

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certification from the custodian, Massachusetts Mutual Life Insurance Company ("MassMutual"), of the Plan that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and supplemental schedule as to investments and investment income/loss is presented solely in reliance upon that certificate.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

3. Investment Contracts with Insurance Companies

The plan has a benefit-responsive investment fixed annuity contract with MassMutual. MassMutual maintains contributions in the general fund of MassMutual created for the purpose of backing the guaranteed interest account. Participants of the guaranteed interest account receive a book value account interest rate that is determined based on the anticipated market returns in the general fund, in addition to any plan-specific contract charges. The declared interest rate as of the end of the plan year was 1.70%.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

4. Party-in-Interest Transaction

Certain Plan investments are managed by MassMutual, and therefore, these transactions qualify as party-in-interest transactions. Fees are paid to MassMutual for these services.
