Part I	Asset and Liability Statement		(a) Beginning of Year	(b) End of Year
1	Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Department of Labor Form 5500, Schedule H, Part IV, Line 4i
Schedule of Assets (Held at End of Year)
December 31, 2015

Note:

The accompanying financial statements have been prepared for the purpose of filing with the Department of Labor's Form 5500. Supplemental schedules required by 29 CFR 2520.103-10 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, other than the schedule listed above, are omitted because of the absence of the conditions under which they are required.

Independent Auditors' Report

To the Participants and Plan Administrator of
the EFH Thrift Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the EFH Thrift Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with GAAP.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents as of December 31, 2015 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the

responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

EFH THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description is provided for general information purposes only. Reference should be made to the EFH Thrift Plan (Plan) document for more complete information.

General — The Plan is a participant-directed defined contribution plan established in 1968 by Energy Future Holdings Corp. (EFH) and its participating subsidiaries (Employers). The EFH Thrift Plan Committee manages the operation and administration of the Plan. Fidelity Investments is the trustee, custodian of the assets and record-keeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On April 29, 2014, EFH and the substantial majority of its direct and indirect subsidiaries (the Debtors), excluding Oncor Holdings and its subsidiaries (Oncor), filed voluntary petitions for relief under chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the Bankruptcy Court).

Pursuant to the bankruptcy proceedings, on July 17, 2014 the Bankruptcy Court approved a proposed separation of the current EFH Thrift Plan into two plans: (1) a new qualified defined contribution plan for Oncor employees administered by Oncor and (2) a remaining qualified defined contribution plan for the Debtors' employees. The separation of the EFH Thrift Plan was executed on January 1, 2015 prior to the open of business. The net assets available for benefits associated with Oncor employees transferred to Oncor's new qualified defined contribution plan totaled \$658,948,191 as of January 1, 2015.

Other than the separation of the EFH Thrift Plan, the bankruptcy proceedings did not have a significant impact on the EFH Thrift Plan.

On October 3, 2016, EFH transferred sponsorship of the EFH Thrift Plan and other certain employee benefit plans (including related assets) to TEX Energy LLC, which changed its name to TCEH Corp., and TCEH Corp. and the debtors contributed to TCEH Corp. in a plan of reorganization (TCEH Debtors) consummated their reorganization under chapter 11 of the United States Bankruptcy Code and emerged from the Bankruptcy Court proceedings.

The Plan is intended to be a participant-directed "individual account plan" under ERISA Section 404(c). As such, the fiduciaries of the Plan are not liable for any losses that are the direct result of participant investment decisions. Although the Plan has an automatic enrollment feature for new employees, continued participation in the Plan by employees of the Employers is entirely voluntary.

The Plan had the following investment options at December 31, 2015 and 2014:

- Interest Income Fund (stable value investment option);
- PIMCO Total Return Fund — Institutional Class (fixed income mutual fund);
- Vanguard Total Bond Market Index Fund — Institutional Shares (fixed income mutual fund);
- Fidelity Extended Market Index Fund — Premium Class (domestic equity mutual fund);
- MFS Institutional International Equity Fund (international/global equity fund);
- AB Small Cap Growth Portfolio — Class I (domestic equity mutual fund);
- NT Collective S&P 500 Index Fund — Non Lending (US equity collective fund for qualified and governmental retirement plans);
- Integrity Asset Management's Small Cap Value Equity Strategy — (managed separate account small value equity portfolio);
- T. Rowe Price Institutional Large Cap Growth Fund — (large growth mutual fund);

- Boston Partners Large Cap Value Equity Fund Class D — (collective investment trust value equities);
- Fidelity Institutional Asset Management Trust Company (FIAM) Index Target Date Commingled Pools (a series of commingled pools using a lower-cost, index-based approach that allow a participant to select an appropriate pool based on expected retirement year) including:
 - FIAM Index Target Date Income Commingled Pool;
 - FIAM Index Target Date 2005 Commingled Pool;
 - FIAM Index Target Date 2010 Commingled Pool;
 - FIAM Index Target Date 2015 Commingled Pool;
 - FIAM Index Target Date 2020 Commingled Pool;
 - FIAM Index Target Date 2025 Commingled Pool;
 - FIAM Index Target Date 2030 Commingled Pool;
 - FIAM Index Target Date 2035 Commingled Pool;
 - FIAM Index Target Date 2040 Commingled Pool;
 - FIAM Index Target Date 2045 Commingled Pool;
 - FIAM Index Target Date 2050 Commingled Pool, and
 - FIAM Index Target Date 2055 Commingled Pool;
- Fidelity Global ex U.S. Index Fund — Institutional Class (international equity fund), and
- Fidelity BrokerageLink (a brokerage account with the Plan that offers the opportunity to choose investments from a range of Fidelity Investment and non-Fidelity Investment mutual funds).

A Roth 401(k) contribution feature provides for participants to make after-tax contributions to the Plan and to ultimately receive a distribution of the earnings attributable to these contributions that are tax free if certain conditions are met.

Eligibility, Participation and Employee Savings — All employees of a participating Employer are eligible to participate in the Plan upon employment except: (1) nonresident alien employees who receive no earned United States of America (US) sourced income, (2) leased employees, or (3) any individuals who are treated by or characterized in the internal records of an Employer as independent contractors, loaned employees, staff augmentation personnel, or scope of work contractors, or (4) individuals who perform services for an Employer under a special arrangement with a third party, regardless of any determination by the US Internal Revenue Service (IRS), other governmental agency, or a court or other tribunal, that any such individual is, or was, a common law employee of an Employer for any period of time.

The Plan has an automatic enrollment feature whereby new employees are automatically enrolled in the Plan with a pretax contribution rate of 3% of eligible compensation unless the new employee affirmatively makes an election not to participate or to participate at a different contribution rate. If no change is made by the participant, the contribution rate will automatically increase by 1% each year up to a maximum of 10% at the end of seven years. Such contributions initiated through this automatic enrollment feature are automatically invested in the age appropriate FIAM Index Target Date Commingled Pool for the participant unless they choose a different investment.

The Plan was amended effective January 1, 2011 to exclude summer interns from participation, and was amended effective April 1, 2011 to allow distribution of account balances that do not exceed \$1,000 to terminated participants without the participants' consent after required notification has been provided to the participant.

Additionally, the Plan was amended effective January 1, 2012 as follows:

- The maximum contribution for highly compensated employees was increased from 16% to 20%;
- Participants will be charged a \$25 fee for in-service withdrawals (except for hardship withdrawals), and
- A Roth in-plan conversion feature was added to allow participants to elect to convert all or any portion of their otherwise distributable non-Roth accounts to Roth contributions. Converted amounts (less any portion already taxed) are taxable in the year converted. The earnings on converted amounts can be withdrawn five years after the year of the first Roth contribution for participants who have attained the age of 59 ½, become disabled or die.

The Plan was also amended effective August 1, 2012 to provide for a 90-day eligibility period for door-to-door sales representatives of TXU Energy Retail Company LLC and its subsidiaries.

Under the Plan, except as limited by law, a participating employee may invest a specified percentage of eligible compensation each payroll period, either through pretax salary deferral or after-tax payroll deduction. The total of a participant's pretax and after-tax salary deferral/payroll deductions is known as Employee Savings. The maximum amount of Employee Savings for participants earning less than the IRS threshold for determining "highly compensated employees" is 75% of eligible compensation, and for participants earning more than the IRS threshold for determining "highly compensated employees" is 20% of eligible compensation.

Federal law limits the amount a participant may invest on a pretax basis (\$18,000 in 2015 and \$17,500 in 2014). However, a participant who is eligible to make pretax salary deferrals, and attained age 50 before the close of the Plan year, may make an additional pretax catch-up contribution each year. This catch-up limit was \$6,000 in 2015 and \$5,500 in 2014 for participants who reached age 50 during the respective Plan year. The Plan year begins January 1 and ends December 31.

Subject to certain conditions, a participant may transfer or rollover to the Plan cash amounts distributed or distributable from an individual retirement account (IRA) or a qualified retirement plan. Only taxable contributions held in an IRA may be transferred or rolled over from an IRA, while taxable and nontaxable contributions may be transferred or rolled over from a qualified retirement plan.

Employer Matching Contributions — In August 2012, EFH approved certain amendments to the EFH Retirement Plan. As a result of these amendments, on September 26, 2012, all eligible Plan participants began receiving Employer matching contributions of 100% up to the first 6% of eligible compensation, except for Luminant bargaining unit employees of Texas Competitive Electric Holdings Company LLC and its subsidiaries participating in the Traditional Retirement Plan Formula who receive a 75% Employer matching contribution on the first 6% of eligible compensation contributed.

Investment of Funds — All Employer matching contributions are made in cash and invested according to the participant's investment election. Each participant may invest his/her Employee Savings, in 1% increments, among the various available investment options.

All assets of the Plan are held by the trustee for the exclusive benefit of participants and their beneficiaries. Separate account records for each participant are maintained by the record-keeper. The record-keeper provides a summary of financial performance by investment fund directly to Plan participants.

A participant may diversify investments of Employee Savings among the available investment funds under the Plan at any time by liquidating the investments attributable to such Employee Savings and reinvesting such amounts in other investment options as may be available under the Plan.

Participants may also effectively diversify their Employer matching contributions amount at any time by making a total withdrawal of such accounts. See below for information regarding withdrawal from the Plan. Additionally, a participant may diversify investments of Employer matching contributions at any time by liquidating the investments attributable to such matching contributions and reinvesting such amounts in other investment options available under the Plan.

Unit Values — Participants do not have beneficial ownership in specific securities or other assets in the Interest Income funds, but have an interest therein represented by units valued as of the close of each business day. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit value, and the appropriate account is charged or credited with the number of units properly attributable to the participant.

Withdrawals from the Plan — Withdrawals from the Plan are governed by applicable IRS regulations and provisions of ERISA. Penalties may apply in certain instances.

Participants are fully vested in all amounts in their accounts (i.e., pretax contributions, after-tax contributions, Employer matching contributions, rollover contributions, Roth contributions and all earnings and dividends thereon).

A participant who terminates employment may retain the funds in the Plan or withdraw them at any time; however, the participant must begin withdrawals no later than April 1st following the later of: (1) the calendar year in which the participant attains age 70 ½ or (2) the calendar year in which the participant retires. To avoid immediate taxation, a withdrawal made upon termination may be rolled into an IRA or a qualified retirement plan sponsored by another employer, provided that the other qualified retirement plan accepts rollovers. Terminated participants who leave their account in the Plan are charged a monthly administrative maintenance fee.

Participants may make partial or total withdrawals from their rollover and after-tax Employee Savings accounts at any time and for any reason. Participants may make withdrawals from pretax Employee Savings accounts upon termination of employment or attainment of age 59 ½. Participants may make total withdrawals of their Employer matching contributions account at any time. Additionally, participants who meet certain qualifications defined by the IRS may make hardship withdrawals from their pretax Employee Savings account. Participants who receive a hardship withdrawal may not contribute to the Plan for a period of six months.

Participants making withdrawals can choose from the following optional forms of payment: (a) publicly traded fund units (to the extent permitted by the fund) credited to a participant's account; (b) single lump sum cash payment; or (c) a combination of (a) and (b).

Notes Receivable From Participants — The Plan includes a loan feature allowing participants to borrow up to 50% of their pretax Employee Savings, after-tax Employee Savings, Employer matching contributions and rollover contributions and repay the loan with after-tax payroll deductions. A participant may not have more than two outstanding loans at one time. The minimum amount of a Plan loan is \$1,000 and the maximum is \$50,000 less the highest outstanding loan balance in the preceding 12 months. Participants may repay the loan into their account(s) over a period of one to five years for a general purpose loan, and the shorter of 15 years or their remaining mortgage term for a primary home loan. The rate of interest charged for a loan initiated in any given month is the prime lending rate published in the Wall Street Journal on the last business day of the prior month, plus 2.0%. During 2015, the interest rate ranged from 5.25% to 5.50%. During 2014, the interest rate charged on new loans was 5.25%.

Federal Income Taxes — EFH has been advised by the IRS that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code) as to form; that the Trust is exempt from federal income taxes under Section 501(a) of the Code; and that Employer contributions paid to the Trust under the Plan are allowable federal income tax deductions to the Employers subject to the conditions and limitations of Section 404 of the Code. The Plan received its last favorable determination letter from the IRS on May 7, 2014. Certain amendments have been made to the Plan that are not covered by the new determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

The Plan is subject to examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. Plan management believes the Plan is no longer subject to income tax examinations for years 2012 or prior. The Plan has recorded no uncertain tax positions.

Amendment, Modification, Suspension and Termination — It is the intention of the Plan Sponsor to continue the Plan indefinitely; however, the Plan Sponsor, by action of its Board of Directors, may amend, modify or suspend the Plan at any time, or from time to time, and may terminate the Plan at any time; and any Employer may withdraw from participation in the Plan at any time upon prior notice.

In the event of termination of the Plan, in whole or in part, or termination of participation of any Employer, each participant in the Plan affected by such termination shall receive a distribution of the entire balance in the participant's account, whether derived from Employee Savings, rollovers or Employer matching contributions.

Party-in-Interest — Certain plan investments are managed by Fidelity Institutional Asset Management, Fidelity Management Research Company and Fidelity Brokerage Services LLC, all of which are subsidiaries of the plan trustee. These transactions qualify as party-in-interest transactions allowable under ERISA regulations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the US (GAAP). Benefit payments are recorded when paid. Subsequent events have been evaluated through October 6, 2016, the date these financial statements were available to be issued.

Accounting Pronouncements — In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07 (ASU 2015-07), *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016, with retrospective application to all periods presented. Early adoption was permitted, and the Plan adopted the guidance as of December 31, 2015. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The Plan's adoption of ASU 2015-07 affected disclosure only (see Note 3) and did not have an impact on the Plan's financial statements or net assets available for benefits.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* - consensus of the Emerging Issues Task Force (ASU 2015-12). ASU 2015-12 (1) requires a defined contribution plan to use contract value as the only measure for fully benefit-responsive investment contracts and (2) simplifies and increases the effectiveness of the investment disclosure requirements for employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early application permitted. The Plan early adopted Parts I and II and is required to apply the amendments retrospectively for all statements presented. Plan management believes the adoption of Part II affects disclosure only and will not have an impact on the Plan's financial statements or net assets available for benefits.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment instruments, it is reasonably possible that changes in the values of investment instruments will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Valuation of Investment Securities — The Plan's investments (other than benefit-responsive investment contracts) are stated at fair value. See Note 3 for additional disclosures on fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

Benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan corresponding to fully benefit-responsive investment contracts because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the Interest Income Fund at contract value of the investment contracts. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis.

Notes Receivable from Participants — Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Expenses — Plan administration fees (e.g., recordkeeping, accounting, legal and trustee services) are paid by the Employers and recorded as incurred. Investment fees are charged individually by each fund manager for asset management and administration of that fund. Investment fees are typically charged indirectly against individuals' accounts by being deducted from the investment return on each individual investment option. Individual service fees (e.g., short-term redemption fees, loan initiation fees, in-service withdrawal fees) are charged separately to the accounts of individuals who choose to utilize a particular plan feature, generally on a pro-rata basis against all investments and sources. Additionally, terminated participants pay a monthly account maintenance fee, which is recorded as a reduction of administrative fees reported in the statement of changes in net assets available for benefits, if they leave their account in the Plan.

3. FAIR VALUE MEASUREMENTS

Accounting standards related to the determination of fair value define fair value as the price that would be received to sell an asset or paid to transfer a liability, in an orderly transaction between willing market participants at the measurement date. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset. The Plan primarily uses the market approach of using prices and other market information for identical and/or comparable assets for those investments that are measured on a recurring basis and uses valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan categorizes its investments recorded at fair value based upon the following fair value hierarchy:

- Level 1 valuations use quoted prices in active markets for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis. For example, the Plan's Level 1 investments include equity and fixed income mutual funds that are valued using published market prices, such as those from the New York Stock Exchange.
- Level 2 valuations use inputs other than actively quoted market prices included in Level 1, which are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in markets that are not active, (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other mathematical means. None of the Plan's assets are classified as Level 2 assets.
- Level 3 valuations use unobservable inputs for the asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date. None of the Plan's assets are classified as Level 3 assets.

With respect to amounts presented in the following fair value hierarchy table, the fair value measurement of an asset (e.g. an investment) is required to fall in its entirety in one level, based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset being measured.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2015 and 2014, all Plan investments measured at fair value on a recurring basis are set forth in the following table:

	December 31,	
	2015	2014
Investments categorized as Level 1 under the fair value hierarchy:		
Mutual funds	\$ 274,745,149	\$ 461,143,205
Short Term Investment Fund (a)	\$ 15,918,371	\$ 20,281,615
Other - Brokeragelink	16,632,441	17,931,965
Subtotal investments categorized as Level 1 under the fair value hierarchy	\$ 307,295,961	\$ 499,356,785
Investments whose fair value is estimated using net asset value per share:		
Collective investment trusts - blended asset allocation (b)	302,549,101	525,166,675
Collective investment trusts - domestic equity (c)	127,264,423	242,287,847
Managed separate account (d)	38,144,611	88,516,196
Common funds whose fair value is estimated using net asset value per share	\$ 467,958,135	\$ 855,970,718
Total investments	\$ 775,254,096	\$ 1,355,327,503

- (a) This category consists of the Fidelity Short Term Investment Fund included in Interest Income Fund.
- (b) This category consists of targeted retirement pools seeking total return until the pool's targeted retirement year. Thereafter, the pool's objective will be to seek capital preservation. There is currently no short-term redemption fee. Each pool is a collective investment trust. The trustee and manager is Fidelity Institutional Asset Management. The fair value has been estimated using net asset value per share of each pool.
- (c) This category consists of the NT Collective S&P 500 Index Fund, which has an objective to approximate the risk and return characteristics of the S&P 500 Index and the Boston Partners Large Cap Value Equity Fund, which seeks to outperform the Russell 1000 Value over a market cycle. There are currently no short-term redemption fees. The funds are collective investment trusts managed by Northern Trust and Boston Partners. The fair values have been estimated using net asset value per share.
- (d) This is Integrity Asset Management's Small Cap Value Equity Strategy. The investment option is a managed separate account. It is managed by Integrity Asset Management. There are currently no short-term redemption fees. The fair value has been estimated using net asset value.

There were no transfers between the levels of the fair value hierarchy for the years ended December 31, 2015 or 2014.

In accordance with Financial Accounting Standards Board Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan's fair value disclosure includes the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share, or its equivalent, for which the fair value is not readily determinable at December 31, 2015 and 2014. For the Plan, such assets include investments in common collective trust funds.

The following table sets forth a summary of the Plan's investments for which the fair value has been estimated using the NAV of the investments.

Fair Value Estimated Using NAV per Share						
December 31, 2015 and 2014						
	Fair Value at December 31, 2015	Fair Value at December 31, 2014	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

Total	<u>\$ 467,958,135</u>	<u>\$ 855,970,718</u>				

- (a) The fund seeks high total current income and, as a secondary objective, capital appreciation.
- (b) The fund seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.
- (c) The fund seeks to approximate the risk and return characteristics of the S&P 500 Index. This index is commonly used to represent the large cap segment of the U.S. equity market.
- (d) The fund seeks to outperform the Russell 1000 Value over a market cycle.
- (e) The fund seeks to invest in small capitalization companies with low price-to-book, price-to-sales, and price-to-cash flow ratios to achieve consistent long-term performance.

4. INTEREST INCOME FUND

As of December 31, 2015, the investments held in the Interest Income Fund had an aggregate contract value of \$131,866,890 and \$216,694,714 as shown in the table below.

	December 31,	
	2015	2014
Traditional GICs	\$ 6,036,536	\$ 8,052,325
Separate Account GICs	31,566,155	50,921,882
Fixed Maturity Synthetic GICs	14,845,924	30,360,649
Constant Duration Synthetic GICs	79,418,275	127,359,858
Aggregate contract value	<u>\$ 131,866,890</u>	<u>\$ 216,694,714</u>

The interest income fund generally consists of investment contracts as described below:

Guaranteed Investment Contracts — Traditional Guaranteed Investment Contracts (GICs) are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The interest rate on this product is typically fixed for the life of the investment.

Insurance company separate account GICs are investments in a segregated account of assets maintained by an insurance company for the benefit of the investors. The total return of the segregated account assets supports the insurance company separate account GICs return. The credited rate on this product will reset periodically and it will have an interest rate of not less than 0%.

Synthetic Guaranteed Investment Contracts — General fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the fund (or plan) and a benefit-responsive (as discussed in Note 2) book value wrap contract. The wrap contract assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The interest rate of the contract is set at the start of the contract and typically resets every quarter. Generally, fixed maturity synthetic GICs are held to maturity. The initial interest rate is established based on the market interest rates at the time the initial asset is purchased, and it will have an interest rate not less than 0%.

Variable synthetic GICs consist of an asset or collection of assets that are managed by the bank or insurance company and are held in a bankruptcy-remote vehicle for the benefit of the fund (or plan). The contract is benefit-responsive and provides next day liquidity at book value. The crediting rate on this product resets every quarter based on the then current market index rates and an investment spread. The investment spread is established at the time of issuance and is guaranteed by the issuer for the life of the investment.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration, and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract and the market yield, the market value and the average duration of the underlying assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is based on the market interest rates at the time the underlying portfolio is initially established, and it will have an interest crediting rate of not less than 0%.

It is probable that withdrawals and transfers resulting from the events listed below, although no such events are considered probable, will limit the ability of the fund to transact at book or contract value. Instead, market value would likely be used in determining the payouts to the participants.

- Employer-initiated events — events within the control of the Plan or the plan sponsor that would have a material and adverse impact on the fund;
- Employer communications designed to induce participants to transfer from the fund;
- Competing fund transfer or violation of equity wash or equivalent rules in place;
- Changes of qualification status of Employer or plan.

In general, issuers may terminate the contract and settle at other than contract value if the qualification status of the Employer or plan changes, if there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The average yield of the Interest Income Fund (which is predominantly GICs) based on annualized earnings was approximately 1.85% and 1.86% as of December 31, 2015 and 2014, respectively, and the average yield based on interest rate credited to participants was approximately 1.88% and 1.92% as of December 31, 2015 and 2014, respectively.

Independent Auditors' Report

To the Participants and Plan Administrator of
the EFH Thrift Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the EFH Thrift Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with GAAP.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents as of December 31, 2015 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the

responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
