NOTE A: DESCRIPTION OF THE PLAN

The following description of the Air-Flo Manufacturing Co., Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Air-Flo Manufacturing Co. Inc., Crown Tank Company, LLC, and SP Fabricators, LLC (the Company). An employee becomes eligible to participate in the Plan upon hire and is age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Individuals electing to participate in the Plan may contribute a percentage of their eligible compensation to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches up to 50% of the first 4% of the employee's contribution, determined on an annual basis.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions. Vesting in the employer matching account is based on years of service. Plan participants become fully vested in employer contributions after six years of service, as defined in the Plan.

Investment options

Plan participants may direct the investment of their funds among various investment options provided by the plan.

Participant notes receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and currently bear interest at 4.25% which are commensurate with local prevailing rates at the time the loan was taken as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon termination of service, a participant may elect to leave their funds in the plan, receive a lump sum amount equal to the vested value of their account, or roll their funds into another plan. Payments of all vested amounts of $1,000 or less are made in lump sum payments.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan's mutual fund investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Net investment gain includes gains and losses based on the change in fair value of the mutual funds, as well as dividend income, which is recorded on the ex-dividend date, and capital gain distributions, less investment fees.

Participant notes receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net investment gain in the accompanying statement of changes in net assets available for benefits.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Cont'd

New accounting pronouncement

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure fully benefit-responsive investment contracts (FBRICs") and provide certain disclosures. Contract value is the only required measure for FBRICs. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II of ASU 2015-12. Accordingly, these provisions were retrospectively applied.

Subsequent events

The Plan has conducted an evaluation of potential subsequent events occurring after the statement of net assets available for benefits date through October 13, 2016, which is the date the financial statements are available to be issued. No subsequent events requiring disclosure were noted.

NOTE C: FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments measured using the NAV practical expedient are not categorized in this fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Cash and cash equivalents: Fair value equals cost.

Mutual Funds: Valued at the quoted net asset value of shares or units held by the Plan at year end.

Guaranteed Investment Account: Valued at contract value.

The Guaranteed Investment Account is a fixed return product with quarterly interest rate guarantees. Deposits are guaranteed in both principal and interest by Nationwide Life Insurance Company. Amounts are held in Nationwide Life Insurance Company's general account and are credited on a net daily basis at annual effective rates. This contract is fully benefit responsive and is reported at contract value.

NOTE C: FAIR VALUE MEASUREMENTS, Cont'd

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Certain investments that are measured at contract value have not been categorized in the fair value hierarchy. The contract value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net asset available for benefits.

	Level 1	Level 2	Level 3	Total

	$ 1,517,031	$ -	$ -	$ 1,517,031

NOTE D: TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the prototype plan under which the Plan was adopted is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE E: FORFEITURES

If a participant terminates employment, the unvested value of their account is forfeited. The forfeited amounts may be used by the Company to reduce future contributions to the Plan or for administrative expenses of the Plan. At December 31, 2015 and 2014, forfeited non-vested accounts totaled approximately $12,100 and $10,400, respectively.

NOTE F: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

NOTE G: FINANCIAL INFORMATION CERTIFIED BY THE CUSTODIANS (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by Nationwide Trust Company FSB or Manufacturers and Traders Trust Company, the custodians, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the custodians that such information is complete and accurate:

	December 31,	
	2015	2014
Investments	$ 1,474,793	$ 1,517,031

	Year ended December 31, 2015
Investment income:	
Net investment gain	$ 23,785

All information included in the attached supplemental Schedule of Assets Held for Investment Purposes at End of Year – December 31, 2015, except participant notes receivable.

NOTE H: TRANSACTIONS WITH PARTY-IN-INTEREST

A certain plan investment is an investment contract which is managed by Nationwide Life Insurance Company, an affiliate of Nationwide Trust Company FSB. Nationwide Trust Company FSB acts as custodian for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. As described in Note B, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

NOTE I: RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.
