Enesco, LLC Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Enesco, LLC Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established by Enesco, LLC (the “Company”) to provide eligible employees, as defined in the Plan, with a program to save for retirement. There is no age or service requirement to participate in the Plan. Eligible employees may begin participation in the Plan on the first day of each calendar month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute a minimum of 1% up to a maximum of 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (“IRC”) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans (rollover).

The Company may make a discretionary matching contribution each year. For the years ended December 31, 2015 and 2014, the Company contributed a matching contribution equal to 50% of a participant’s contributions up to 5% of the participant’s annual compensation.

The Company may also elect to make additional discretionary profit-sharing contributions to the Plan. Each participant will receive an allocation of any discretionary profit-sharing contribution in a ratio equal to each participant’s compensation as it bears to total compensation for the year. Participants must have completed 1,000 hours of service during the Plan year and must be employed on the last day of the Plan year to receive any discretionary profit-sharing contributions. The Company did not make any discretionary profit-sharing contributions for the years ended December 31, 2015 and 2014.

Contributions are subject to certain IRC limitations.

Participants may direct all their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan’s provisions.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and any Company discretionary matching contributions, as well as allocations of any Company discretionary profit-sharing contributions and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Enesco, LLC Retirement Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are secured by the balance in the participant's account and bear interest at prime interest rate plus 1% (4.50% and 4.25% as of December 31, 2015 and 2014, respectively). Principal and interest payments are made through payroll deductions and are payable within five years, except for loans used to acquire a principal residence, which are payable within 20 years.

Payment of Benefits

On termination of service due to retirement, death, permanent disability, separation of service, or attainment of age 59 ½, a participant may elect to receive the value of their vested interest in his or her account in the form of a lump-sum amount, installment payments, or a rollover to another entity. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Vesting

Participants are immediately vested in their contributions, Company discretionary matching contributions, and any Company discretionary profit-sharing contributions, plus actual earnings thereon.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "*Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*" (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value ("NAV") practical expedient provided by Accounting Standards Codification ("ASC") 820, "*Fair Value Measurement.*" Disclosures about investments in certain entities that calculate NAV per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the NAV practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with early application permitted.

In July 2015, the FASB issued ASU 2015-12, "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965), (ASU 2015-12): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*" (ASU 2015-12). This three-part update simplifies current benefit Plan accounting. Part I requires fully benefit responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value. Part II eliminates the requirement of benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements. Part II also

Enesco, LLC Retirement Plan

Notes to Financial Statements

requires the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent 5% or more of net assets available for benefits. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using NAV per share. Part I and Part II are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. Part III of this update provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. This portion of the update is effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted.

Plan management reviewed both ASU 2015-07 and ASU 2015-12, and will early adopt both standards as applicable based on the Plan's investments as they believe it will simplify Plan accounting and its presentation in the financial statements. The adoption of ASU 2015-07 had no effect on the financial statement disclosures. As such, the accounting and disclosures in these financial statements and notes follow ASU 2015-12. The adoption was applied retrospectively and certain investment disclosures were revised or eliminated as a result of the adoption of the ASUs, as applicable.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policy utilizing information provided by Vanguard Fiduciary Trust Company, the trustee of the Plan. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

3. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2015 and 2014, and for the year ended December 31, 2015. Accordingly, the Plan's trustee, Vanguard Fiduciary Trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- a. Investments and notes receivable from participants, as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- b. Investment income (loss) and interest income on notes receivable from participants, as shown in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.
- c. Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by the trustee to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

ASC Topic 820, "*Fair Value Measurements and Disclosures*," establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014, other than the adoption of ASU 2015-12, as disclosed in Note 2.

Registered Investment Companies: Valued at the daily closing prices as reported by the fund. Registered investment companies held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Investments at Fair Value as of December 31, 2015 Level 1	
Registered investment companies, measured at fair value	\$ 34,095,230
Total Investments	\$ 34,095,230
Investments at Fair Value at December 31, 2014 Level 1	
Registered investment companies, measured at fair value	\$ 33,481,133
Total Investments	\$ 33,481,133

5. Related-Party and Parties-in-Interest Transactions

Certain Plan investments are managed by Vanguard Fiduciary Trust Company, the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their Company contributions.

7. Tax Status

The Plan adopted a prototype profit-sharing plan document from VanGuard Group, which received an opinion letter from the Internal Revenue Service on May 28, 2014, stating that the Plan document, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the aforementioned letter, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Subsequent Events

The Plan administrator has evaluated subsequent events through October 10, 2016, the date the accompanying financial statements were available to be issued. The Plan was restated and amended effective January 1, 2016 to comply with recent legislation updates. There were no significant changes to the Plan's provisions as a result. No material additional subsequent events have occurred through this date that required recognition in the financial statements.
