NOTE A – DESCRIPTION OF PLAN

The following description of the Buckingham Coal Company (Employer) 401(k) Savings Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan, effective June 1, 2000, is a defined contribution plan covering all eligible employees electing to participate who are age eighteen or older, except those employees classified as an intern or file clerk, represented by a bargaining unit, or classified as a nonresident alien. The Plan is subject to provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The Investment Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance. The Plan is sponsored by Buckingham Coal Company, a for profit corporation.

On January 1, 2015, Buckingham Coal Company was sold to Westmoreland Coal Company and Subsidiaries. Employees of Buckingham Coal Company began contributing to the Westmoreland Coal Company and Subsidiaries Employees' Savings Plan retirement plan during April 2015 and all Plan assets were transferred to the Westmoreland Coal Company and Subsidiaries Employees' Savings Plan during 2016.

2. *Contributions.* Each year, participants may contribute any percentage of pretax or after-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6 percent of eligible compensation and their contributions invested in Principal LifeTime Funds, which are investments that base the risk on the participant's age, until changed by the participant. The Employer contributes 100 percent of the first 6 percent of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Employer's management. Contributions are subject to certain IRS limitations. During the year ended December 31, 2015, there were no profit sharing contributions made to the Plan.
3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and Employer matching contributions, as well as allocations of the Employer's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. *Vesting.* Participants are 100% vested immediately in their contributions, Employer contributions, and Plan earnings thereon.
5. *Payment of Benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or monthly installments. A participant may also withdraw all or part of his or her account once they reach age 59 1/2 or older or early retirement date at age 55 or older. In the event of undue financial hardship, a participant may withdraw a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive all or any part of his or her account as a lump sum distribution.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Buckingham Coal Company 401(k) Savings Plan
NOTES TO THE FINANCIAL STATEMENTS

NOTE B – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Recent Accounting Pronouncement

In July 2015, the FASB issued Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contributions Pension Plans (Topic 962), and Health and Welfare Benefit Plan (Topic 965): I. Fully Benefit Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient (ASU 2015-12). The objective of issuing this Update is to reduce complexity in employee benefit accounting, which is consistent with its Simplification Initiative. The purpose of the Simplification Initiative is to identify, evaluate, and improve areas of U.S. GAAP for which costs and complexity can be reduced while maintaining or improving the usefulness of the information provided to the users of financial statements. Under this amendment, fully benefit-responsive investment contracts are measured, presented and disclosed only at contract value; classes of assets are grouped and disclosed by general type; and the disclosure of individual investments that represent 5 percent or more of net assets available is eliminated. The amendments to this Update are effective for fiscal years beginning after December 31, 2015 and early adoption is permitted. The Plan has early adopted this new pronouncement, as of December 31, 2015 and 2014, and for the year ended December 31, 2015.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2016, the date the financial statements were available to be issued.

All Plan assets were transferred to the Westmoreland Coal Company and Subsidiaries Employees' Savings Plan during 2016.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Buckingham Coal Company 401(k) Savings Plan
NOTES TO THE FINANCIAL STATEMENTS

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets
- b. Quoted prices for identical or similar assets or liabilities in inactive markets
- c. Inputs other than quoted prices that are observable for the asset or liability
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 77,988	\$ —	\$ —	\$ 77,988
Investments at fair value	\$ 77,988	\$ —	\$ —	\$ 77,988

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 16,627,415	\$ —	\$ —	\$ 16,627,415
Investments at fair value	\$ 16,627,415	\$ —	\$ —	\$ 16,627,415

Transfers between Levels

For the years ended December 31, 2015 and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

NOTE D – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds a portfolio of investment contracts that comprise a traditional investment contract. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the disaggregation of contract value between types of investment contracts held by the Plan.

**Buckingham Coal Company 401(k) Savings Plan
NOTES TO THE FINANCIAL STATEMENTS**

NOTE D – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (CONTINUED)

	2015	2014
Traditional investment contract	\$ 2,685,566	\$ 2,916,959

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but cannot be less than 3 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Although the Plan is being merged with another Plan, this event is not limiting the ability of the Plan to transact at contract value with the contract issuers nor limiting the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from the contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

NOTE E – RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company). Principal Trust Company is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

The Plan administrator (a party-in-interest) was the controller of a related party of the Employer before the merger and is not a participant in the Plan. In 2015, the Plan administrator was changed to an employee of the Westmoreland Company and Subsidiaries (new Employer) and is not a participant in the Plan.

NOTE F – PLAN TERMINATION

The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Due to the acquisition by Westmoreland Coal Company and Subsidiaries, contributions were discontinued and the Plan was merged with the Westmoreland Coal Company and Subsidiaries Employees' Savings Plan.

NOTE G – TAX STATUS

The IRS has determined and informed Principal Trust Company by a letter dated March 31, 2014, that the Prototype Non-Standardized Profit Sharing Plan, in effect, is acceptable under section 401 of the Internal Revenue Code (IRC) for use by the Employer for the benefit of their employees. The letter states that the IRC opinion on the acceptability

**Buckingham Coal Company 401(k) Savings Plan
NOTES TO THE FINANCIAL STATEMENTS**

NOTE G – TAX STATUS (CONTINUED)

of the form of the plan is not a ruling or determination as to whether an employer's plan qualifies under Code Section 401(a). However, an employer that adopts this plan may rely on this letter with respect to the qualification of its plan number Code Section 401(a). Although the Plan may have been amended since receiving the determination letter and due to the qualification of the prototype document abovementioned, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Certain compliance testing should be performed annually. These tests are required to comply with IRC requirements in order to maintain the Plan's tax exempt status. Tests were not completed for year ended December 31, 2015 as of the audit report date. Management is in process of completing the required compliance testing.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
