Kindred 401(k) Plan

Notes to Financial Statements, continued

December 31, 2015 and 2014

1. Description of the Plan, continued

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions (as applicable), and allocations of Plan earnings or losses. Participant accounts are also charged with an allocation of administrative expenses. Allocations are based upon participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and earnings thereon. Vesting in employer matching contributions (as applicable) is based upon the participant's years of service with the Company. A participant becomes fully vested following four years of service. A participant vests in employer matching contributions as follows:

<u>Participant Years of Service</u>	<u>Vesting Percentage</u>
Less than one	0%
One but less than two	25%
Two but less than three	50%
Three but less than four	75%
Four or more	100%

Forfeitures

Forfeiture of employer matching contributions by participants who withdraw from the Plan prior to full vesting reduces future matching contributions by the employer in accordance with the Plan document. Forfeited account balances applied to reduce employer contributions in 2015 and 2014 totaled \$243,557 and \$287,752, respectively. Forfeited account balances not yet applied to reduce future employer contributions totaled \$143,435 and \$101,445 at December 31, 2015 and 2014, respectively.

Payment of Benefits

Upon termination of service due to retirement, death, or disability, a participant or participant's beneficiary may receive a lump-sum distribution equal to the vested balance of their account, or if the account balance exceeds \$5,000, the participant may defer payment until April 1 following the attainment of age 70 ½. In the event of financial hardship, as defined in the Plan document, a participant may withdraw all or any part of their contributed amounts, regardless of age. Participants are limited to two hardship withdrawal distributions per calendar year.

Kindred 401(k) Plan

Notes to Financial Statements, continued

December 31, 2015 and 2014

1. Description of the Plan, continued

Payment of Benefits, continued

Employees age 59 ½ or older may request an in-service withdrawal of all or any part of their contributed or vested employer contributed amounts. All profit sharing amounts are eligible for in-service withdrawal, regardless of age.

Expenses

Certain Plan expenses are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes Receivable from Participants

Although the Plan does not contain a provision that allows participants to take loans from the Plan, it does allow for repayment of loans acquired through plan mergers.

Outstanding participant loans were transferred to the Plan in 2015 and 2014 as part of plan mergers.

Principal and interest are paid through payroll deductions. The interest rate charged to participants is a fixed rate equal to the Prime Rate, as stated in the Wall Street Journal as of the day the loan is initiated plus 1%. Outstanding loans become due and payable in full upon the loan's maturity date or for terminated participants, at the end of the calendar quarter following the calendar quarter in which a participant terminates. The loans are secured by the balance in the participant's account and bear interest rates ranging from 0.04% to 6.25% for the year ended December 31, 2015 and 3.25% to 10.25% for the year ended December 31, 2014.

Plan Termination

Although the Company expects to continue the Plan, it reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Company elect to terminate the Plan, participants would become fully vested in their employer matching contribution balances.

2. Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule have been prepared on the accrual basis in accordance with generally accepted accounting principles in the United States of America and may include amounts based upon the estimates and judgments of the Plan's management. Actual amounts may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Mutual funds are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan. The Plan's interests in collective trusts are based upon the fair value of the collective trusts' units held by the Plan, which is based upon information reported by the Trustee using the audited financial statements of the collective trusts. There are no restrictions on participant redemptions and there are no unfunded commitments for investments in collective trusts. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly manner.

As described in the authoritative guidance related to reporting for fully benefit-responsive investment contracts, the investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through a collective trust. Contract value for this collective trust is based upon the net asset value of the fund as reported by the Trustee. As required, the Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment from fair value to contract value related to the fully benefit-responsive investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

At December 31, 2015 and 2014, all Plan investments were held by the Trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized gains or losses on the sale of investments, together with unrealized appreciation or depreciation in investments, are presented as net appreciation or depreciation in fair value of investments in the accompanying Statements of Changes in Net Assets Available for Benefits.

The average yield earned by the T. Rowe Price Stable Value Fund (which may differ from the interest rate credited to participants in the Stable Value Fund) was 1.99% for 2015 and 1.83% for 2014. This average yield is calculated by dividing the annualized earnings of all investments in the Stable Value Fund (irrespective of the interest rate credited to participants in the Stable Value Fund) by the fair value of all investments in the Stable Value Fund.

The average yield credited to participants in the T. Rowe Price Stable Value Fund was 2.13% for 2015 and 2.29% for 2014. This average yield is calculated by dividing the annualized earnings credited to participants for all investments in the Stable Value Fund (irrespective of the actual earnings of the investments in the Stable Value Fund) by the fair value of all investments in the Stable Value Fund.

The average yield earned by the Wells Fargo Stable Return Fund (which may differ from the interest rate credited to participants in the Stable Return Fund) was 1.83% for 2015. This average yield is calculated by dividing the annualized earnings of all investments in the Stable Return Fund (irrespective of the interest rate credited to participants in the Stable Return Fund) by the fair value of all investments in the Stable Return Fund.

The average yield credited to participants in the Wells Fargo Stable Return Fund was 1.79% for 2015. This average yield is calculated by dividing the annualized earnings credited to participants for all investments in the Stable Return Fund (irrespective of the actual earnings of the investments in the Stable Return Fund) by the fair value of all investments in the Stable Value Fund.

Payment of Benefits

Benefits are recorded when paid.

Valuation of Notes Receivable from Participants

Notes receivable from participants are recorded at amortized cost, unpaid principal plus accrued interest. Interest is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was recorded at December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's note receivable balance is reduced and a benefit payment is recorded.

3. Investments, continued

The Plan invests in mutual funds and collective trusts, some of which are managed by the Trustee. Retirement funds are mutual funds in which the asset allocation changes over time based upon the age of the participant in relation to the targeted retirement age of the participant.

The Plan's net appreciation (depreciation) in fair value of investments in 2015 and 2014 was as follows:

	<u>2015</u>	<u>2014</u>
Mutual funds	\$ (34,012,154)	\$ 1,992,797
Collective trusts	(4,166,597)	10,798,784
Total	<u>\$ (38,178,751)</u>	<u>\$ 12,791,581</u>

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The authoritative guidance establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The guidance describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity that are significant to the fair value of the assets or liabilities. Fair value is determined using pricing models, discounted cash flows methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

4. Risks and Uncertainties

The Plan provides various investment options in registered investment companies and collective trusts which invest in stocks, bonds, fixed income securities, and other investment securities. These investments are subject to various risks, including interest rate, market and credit risks. Due to the risks associated with certain investments, it is possible that changes in the value of these investments could impact participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits and Statements of Changes in Net Assets Available for Benefits.

5. Related-Party Transactions

Certain Plan investments are mutual funds and collective trusts managed by the Trustee. Transactions in these investments qualify as party-in-interest transactions. These balances totaled \$919,985,287 and \$781,772,411 at December 31, 2015 and 2014, respectively. Fees incurred for investment management services are included in net appreciation (depreciation) in fair value of the investments.

The Plan made no direct payment to the Trustee. The Company, as the Plan sponsor, pays any fees related to the Plan's operations.

The Plan is not charged for administrative services performed by the Company. These administrative services qualify as party-in-interest transactions.

8. Income Tax Status

The Plan Administrator received a favorable tax determination letter from the Internal Revenue Service (“IRS”) dated June 4, 2014. The Plan Administrator believes the Plan, as amended, continues to qualify and operate in accordance with the applicable provisions of the Code. Accounting principles generally accepted in the United States of America require plan management to evaluate tax provisions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator believes there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements at December 31, 2015 or 2014. There are currently no audits in progress for any tax periods and the Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

9. Subsequent Events

The Plan Administrator has performed an evaluation of subsequent events through October 12, 2016, the date on which the financial statements were available for issuance. Nothing came to the Plan Administrator’s attention that was deemed necessary for disclosure.
