AMI, LLC 401(k) PLAN

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

1. DESCRIPTION OF THE PLAN

The following description of the AMI, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Active Minerals International, LLC (the Company) and was established on May 1, 1969. Leased and seasonal employees are not eligible to participate in the Plan. Employees are eligible to participate in the Plan upon reaching 18 years of age and completing 90 days of service. Participants may enter the Plan on the day on which they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and the Plan was most recently amended effective January 1, 2014 to adopt an annual calculation for Company matching contributions.

Participant Contributions

Participants may elect to contribute, on a tax-deferred basis, a percentage of their compensation, as defined by the Plan document. Participant contributions may not exceed the maximum allowable contributions under the Internal Revenue Code (the Code), which totaled \$18,000 and \$17,500 for the years ended December 31, 2015 and 2014, respectively. Participants may also contribute post tax compensation as a Roth elective contribution. A participant's Roth elective contributions are allocated to a separate account maintained for such contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions, subject to limitations imposed by the Code.

The Plan has an automatic enrollment provision whereby an eligible employee who does not elect to contribute a specific percentage of their compensation will be automatically enrolled to contribute to the Plan unless they elect not to contribute or elect a different deferral percentage. Automatic enrollment contributions are contributed to an appropriate target date fund, unless the participant elects a different fund within the Plan. Prior to January 1, 2011, this percentage increased annually for all participants in 1% increments starting at 1% up to a maximum of 5%.

Effective January 1, 2011, the Plan was amended to increase the automatic enrollment rate to 3% of current compensation. This percentage will increase annually on January 1 of each year for all participants in 1% increments up to a maximum of 6%.

Participants are permitted to make rollover contributions into the Plan.

AMI, LLC 401(k) PLAN

Notes to Financial Statements For the Years Ended December 31, 2015 and 2014

1. DESCRIPTION OF THE PLAN – cont'd.

Company Contributions

The Company may make matching contributions equal to a discretionary percentage of the participant's elective deferrals to be determined by the Company. Matching contributions are made for all participants currently deferring compensation into the Plan. Matching contributions are calculated on an annual basis. During the years ended December 31, 2015 and 2014, the Company made matching contributions equal to 100% of participant contributions up to 6% of compensation as part of a Qualified Automatic Contribution Arrangement (QACA) Safe Harbor Match. Matching contributions totaled \$539,142 and \$595,515 for the years ended December 31, 2015 and 2014, respectively.

The Company may make discretionary profit sharing contributions to the Plan as determined by management on an annual basis. Participants must have completed a year of service and be employed on the last day of the Plan year to receive such a contribution. Discretionary profit sharing contributions are allocated based on the ratio of each eligible participant's compensation to the total compensation paid for all eligible participants. During the years ended December 31, 2015 and 2014, the Company did not make any discretionary profit sharing contributions.

Participant Accounts

Each participant's account is participant-directed and credited with participant contributions, Company contributions, distributions and allocations of Plan earnings, losses and administrative expenses. Allocations are based on participant account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Notes Receivable from Participants

Participants may borrow from their accounts up to the lesser of \$50,000 or 50% of their vested account balance, without regard to the intended use of the funds. Notes must be at least \$1,000 and a participant can hold no more than one note at any given time. Notes are collateralized by the participant's vested account balance. Notes bear interest at rates commensurate with those offered by financial institutions at the time of the note's issuance. Interest and principal repayments are made ratably through bi-weekly payroll deductions. The maximum term for a note is 5 years unless for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 10 years from the date of the loan. Notes become due immediately upon termination of a participant's employment.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Forfeitures available to the Plan totaled \$45,427 and \$5,312 as of December 31, 2015 and 2014, respectively. For the years ended December 31, 2015 and 2014, forfeitures applied to reduce Company contributions totaled \$0 and \$15,000, respectively. The remaining direct expenses were paid by the Company. Loan and distribution fees are paid by the Plan and its participants. Investment related expenses are included in net depreciation in fair value of investments.

Reclassification

The Company reclassified certain prior year amounts to conform to the current year presentation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncement and Accounting Change

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to adopt Part II early.

Risks and Uncertainties

The Plan provides for investments in financial instruments, in general, that are exposed to risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur and materially affect the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurement

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

AMI, LLC 401(k) PLAN

Notes to Financial Statements For the Years Ended December 31, 2015 and 2014

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Fair Value Measurement – cont'd.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Interests in registered investment companies: Valued at the closing price of shares held by the Plan at year-end. Funds are traded on an active market.

Interests in self-directed funds: Valued at the closing price of shares held by the Plan at year end. Individual securities within the accounts are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2015 and 2014.

3. INVESTMENTS

All investment information contained in the accompanying financial statements and supplemental schedule, including investments held as of December 31, 2015 and 2014, interest and dividend income, and net depreciation in fair value of investments for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan, Fidelity Management Trust Company.

4. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds managed by Fidelity Investment Institutional Operations Company, Inc. (FIIOC). FIIOC is related to the Plan's Trustee. The Plan loans funds to its participants according to the applicable provisions of the Plan agreement. The Company provides the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

5. SELF-DIRECTED FUNDS

The Plan offers a self-directed program to participants allowing them to invest their account balances in any investment, as permitted by the Plan and in accordance with ERISA. Under this type of arrangement, participants may direct investments into the self-directed program in addition to, or in lieu of, the various investment alternatives offered by the Plan. The Plan's investment in self-directed accounts consists principally of interests in cash, common stock and interests in registered investment companies.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, affected participants will become 100% vested in their accounts.

7. INCOME TAX STATUS

The Plan has adopted a standardized prototype plan through Fidelity, which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Given the Plan is tax exempt and has no unrelated business income, the provisions of ASC 740 do not have an impact on the Plan's financial statements. The Plan recognizes interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of December 31, 2015 and 2014.
