During the time period covered by these financial statements, except as noted below, the Plan was comprised of the following companies hereafter referred to as "the Company":

- PRM Corporation
- RUSNAK/Pasadena
- RUSNAK/Arcadia
- RUSNAK/Westlake
- RUSNAK Corporation dba Hyundai Inland Empire
- Pasadena Auto Outlet, Inc.
- Anaheim Hills Jaguar Land Rover, Inc.
- RUSNAK/Westlake Volvo
- Rusnak/South Bay, LLC

Pasadena Auto Outlet, Inc. no longer participated in the Plan, effective January 1, 2014. Rusnak/South Bay, LLC elected to become a participating employer in the Plan, effective December 1, 2015.

The Company established the Plan with an original effective date of January 1, 1968. The Plan is a defined contribution plan covering eligible employees who have completed 60 days of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).The Plan Entry Date is the first day of the month that is, or next follows, the date in which an employee satisfies the applicable eligibility requirements.

Contributions

Participant contributions consist of pre-tax elective deferrals and after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year.

Employer contributions include discretionary contributions and discretionary matching contributions. Contributions are subject to certain limitations. Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made to the Plan are allocated as of the last day of the Plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the Plan year.

Note A – Description of the Plan (continued)

Contributions (concluded)

The Company made matching contributions of $0 and $115,640 for the years 2015 and 2014, respectively. Also, the Company made employer contributions of $39,901 and $1,243 for the years 2015 and 2014, respectively.

The Rusnak 401(k) Plan was amended, effective January 1, 2014, to change the Elapsed Time Method of determining eligibility from a 90 day to a 60 day period and to include the Automatic Deferral Election. The Automatic Deferral Election indicates that upon becoming eligible to make Salary Deferrals under the Plan (pursuant to AA §3 and AA §4), a Participant will be deemed to have entered into a Salary Deferral Election with a 3% of Plan Compensation deferral election for each payroll period, unless the Participant completes a contrary Salary Deferral Election (subject to the limitations under AA §6A-2 and AA §6A-3) in accordance with procedures adopted by the Plan Administrator. Unless designated otherwise by the Participant, any Salary Deferrals made pursuant to an automatic deferral election will be treated as Pre-Tax Deferrals. In addition, an Automatic Increase will occur, causing the automatic deferral amount to increase each Plan Year by 1% of Plan Compensation up to a maximum of 10% of Plan Compensation. This automatic deferral election will only apply to Employees who become eligible to participate in the Plan on or after January 1, 2014, and who do not enter into a contrary Salary Deferral Election.

The maximum permissible amount that may be contributed to a participant's account each year shall not exceed the lesser of:

(1) The total of:

- The employee elective deferral, as prescribed by the Internal Revenue Code, currently at $18,000 and $17,500 for the years 2015 and 2014, respectively, plus
- The employee "catch-up" contribution for participants who are age 50 by the end of the Plan year, as prescribed by the Internal Revenue Code, currently at $6,000 and $5,500 for the years 2015 and 2014, respectively, plus
- Company matching contributions, plus
- Company discretionary profit sharing plan contributions, or

(2) The *Defined Contribution Dollar Limit* currently at $53,000 and $52,000 for years 2015 and 2014, respectively.

(3) 100% of a participant's annual gross compensation (not exceeding $265,000 and $260,000) for the years 2015 and 2014, respectively.

Note A – Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses are allocated according to participants' relative account balances in the investment options. Certain participant fees, if applicable, are also charged to participant accounts.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments, or elected to defer receipt of their benefits to a later date. Participants share in the earnings of the investments.

Vesting

Participants are immediately vested in their contributions (including rollovers), plus actual earnings thereon. Participant contributions and any gains pertaining to the participant contributions can be withdrawn at any time. The portion of the participant's account attributable to employer matching contributions and employer discretionary contributions are fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested in the event of death, total disability or the attainment of normal retirement age while still under the employ of the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 4.50% in 2015, which are commensurate with prime plus 1%. Principal and interest is paid ratably through monthly payroll deductions. The Plan Administrator will disclose the applicable interest rate at the time the loan is requested.

Payment of Benefits

Upon termination of service, other than due to death, disability or retirement, a participant with vested benefits of $5,000 or less as of the distribution date, will be eligible to receive a distribution in a lump sum. If the vested benefit is between $1,000 and $5,000 and consent to a distribution is not received, the vested benefit will automatically be rolled over to an IRA selected by the Plan Administrator. If the total vested benefit is $1,000 or less as of the distribution date, the entire vested benefit will be distributed in a lump sum, without consent. A participant with vested benefits greater than $5,000 must consent to distribution.

Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is greater than $5,000. However, the Plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 ½.

Note A – Description of the Plan (concluded)

Payment of Benefits (concluded)

In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their account balances, while actively employed, but such withdrawals are limited to the amount dictated by the hardship.

Forfeited Accounts

At December 31, 2015 and 2014 forfeited nonvested accounts totaled $45,102 and $30,198, respectively. Forfeited non-vested accounts are to be used to reduce employer and/or matching contributions for the Plan year in which the forfeiture occurs, after being used to pay Plan expenses. In 2015, employer contributions and Plan expenses were reduced by $0 and $0 respectively, from forfeited nonvested accounts. In 2014, employer contributions and Plan expenses were reduced by $8,436 and $150 respectively, from forfeited nonvested accounts.

Note B – Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 28, 2016, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Note B – Summary of Significant Accounting Policies (concluded)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Administrative Committee considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Administrative Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain operating expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Reclassification

Certain prior year amounts have been reclassified to conform to current year presentation, pursuant to changes outlined in Note L and otherwise.

Note C – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the assets and liability; • inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 inputs for the periods presented.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts (PSAs): These investments have invested in pools of assets called separate investment accounts (SIAs), in which the primary underlying investment is the named mutual fund. The values of each of these investments is determined by multiplying the units sold by the actual unit value of the SIA on the day of the sale, and then aggregating these amounts for all SIA investments.

Note C – Fair Value Measurements (concluded)

Although the methods above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values, the Plan believes its valuation methods are appropriate and consistent with other market participants and that the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

		Fair Value Measurements at the End of the Reporting Period Using:		
2015	Fair Value	Level 1	Level 2	Level 3
Pooled separate accounts	$ 16,839,938	$ 0	$ 16,839,938	$ 0
Total	$ 16,839,938	$ 0	$ 16,839,938	$ 0

		Fair Value Measurements at the End of the Reporting Period Using:		
2014	Fair Value	Level 1	Level 2	Level 3
Pooled separate accounts	$ 16,127,021	$ 0	$ 16,127,021	$ 0
Total	$ 16,127,021	$ 0	$ 16,127,021	$ 0

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2015, are reported in net depreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2015, there were no significant transfers between Level 1 and 2 and no transfers into or out of Level 3.

Note D – Guaranteed Investment Contract with Insurance Company

In 2010, the Plan entered into a synthetic fully benefit-responsive guaranteed investment contract with Mass Mutual Retirement Services ("Mass Mutual") totaling $3,137,704 for 2015 and $2,743,933 for 2014.

Note D – Guaranteed Investment Contract with Insurance Company (concluded)

Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The crediting rate is based on a formula established by the contract issuer but may not be less than 3.40% for the period January 1, 2015 through May 31, 2015, not less than 3.55% for the period June 1, 2015 through November 30, 2015 and not less than 3.50% for the period December 1, 2015 through December 31, 2015. The crediting rate is reviewed annually, semi-annually, or on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure fully benefit-responsive investment contracts because this is the amount received by participant if they were to initiate permitted transactions under the terms of the Plan. Contract Value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

The following table presents information about the type(s) of fully benefit-responsive investment contracts the Plan has invested in as of December 31, 2015 and 2014:

	2015	2014
Synthetic investment contracts	$ 3,137,704	$ 2,743,933
Traditional investment contracts	0	0
	$ 3,137,704	$ 2,743,933

Note E – Related Party and Party-In-Interest Transactions

The Plan has a number of service providers. Such parties are parties-in-interest under ERISA, including Reliance Trust Company, which is the trustee of Plan assets, State Street Bank and Trust, which is the Custodian of the Plan and Mass Mutual Retirement which is the record keeper for the Plan. Mass Mutual Premier Funds such as the Oppenheimer Funds Inc. (OFI) are subadvised by asset managers affiliated with Mass Mutual. The Plan issues loans to participants which are secured by the balances in the participants accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These are related party and parties-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer accounts.

Note G – Tax Status

The Plan has not received a determination letter on their adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2002-6, the Administrative Committee has chosen to rely on the current opinion letter dated February 20, 2015 that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Administrative Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require the Administrative Committee to evaluate tax positions taken by the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Administrative Committee believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note K – Plan Amendment

Effective December 1, 2015, Rusnak/South Bay, LLC became a participating employer in the Plan.

Note L – Change in Accounting Principles

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefits Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplified the level of disaggregation of investments that are measured using fair value.

Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

RUSNAK 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and December 31, 2014

Note A – Description of the Plan

The following description of the RUSNAK 401(k) PLAN ("Plan") provides only general information. Participants should refer to the Plan Agreement and/or the Summary Plan Description for a more complete description of the Plan's provisions.

General

During the time period covered by these financial statements, except as noted below, the Plan was comprised of the following companies hereafter referred to as "the Company":

- PRM Corporation
- RUSNAK/Pasadena
- RUSNAK/Arcadia
- RUSNAK/Westlake
- RUSNAK Corporation dba Hyundai Inland Empire
- Pasadena Auto Outlet, Inc.
- Anaheim Hills Jaguar Land Rover, Inc.
- RUSNAK/Westlake Volvo
- Rusnak/South Bay, LLC

Pasadena Auto Outlet, Inc. no longer participated in the Plan, effective January 1, 2014. Rusnak/South Bay, LLC elected to become a participating employer in the Plan, effective December 1, 2015.

The Company established the Plan with an original effective date of January 1, 1968. The Plan is a defined contribution plan covering eligible employees who have completed 60 days of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).The Plan Entry Date is the first day of the month that is, or next follows, the date in which an employee satisfies the applicable eligibility requirements.

Contributions

Participant contributions consist of pre-tax elective deferrals and after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year.

Employer contributions include discretionary contributions and discretionary matching contributions. Contributions are subject to certain limitations. Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made to the Plan are allocated as of the last day of the Plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the Plan year.

Note A – Description of the Plan (continued)

Contributions (concluded)

The Company made matching contributions of $0 and $115,640 for the years 2015 and 2014, respectively. Also, the Company made employer contributions of $39,901 and $1,243 for the years 2015 and 2014, respectively.

The Rusnak 401(k) Plan was amended, effective January 1, 2014, to change the Elapsed Time Method of determining eligibility from a 90 day to a 60 day period and to include the Automatic Deferral Election. The Automatic Deferral Election indicates that upon becoming eligible to make Salary Deferrals under the Plan (pursuant to AA §3 and AA §4), a Participant will be deemed to have entered into a Salary Deferral Election with a 3% of Plan Compensation deferral election for each payroll period, unless the Participant completes a contrary Salary Deferral Election (subject to the limitations under AA §6A-2 and AA §6A-3) in accordance with procedures adopted by the Plan Administrator. Unless designated otherwise by the Participant, any Salary Deferrals made pursuant to an automatic deferral election will be treated as Pre-Tax Deferrals. In addition, an Automatic Increase will occur, causing the automatic deferral amount to increase each Plan Year by 1% of Plan Compensation up to a maximum of 10% of Plan Compensation. This automatic deferral election will only apply to Employees who become eligible to participate in the Plan on or after January 1, 2014, and who do not enter into a contrary Salary Deferral Election.

The maximum permissible amount that may be contributed to a participant's account each year shall not exceed the lesser of:

(1) The total of:

- The employee elective deferral, as prescribed by the Internal Revenue Code, currently at $18,000 and $17,500 for the years 2015 and 2014, respectively, plus
- The employee "catch-up" contribution for participants who are age 50 by the end of the Plan year, as prescribed by the Internal Revenue Code, currently at $6,000 and $5,500 for the years 2015 and 2014, respectively, plus
- Company matching contributions, plus
- Company discretionary profit sharing plan contributions, or

(2) The *Defined Contribution Dollar Limit* currently at $53,000 and $52,000 for years 2015 and 2014, respectively.

(3) 100% of a participant's annual gross compensation (not exceeding $265,000 and $260,000) for the years 2015 and 2014, respectively.

Note A – Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses are allocated according to participants' relative account balances in the investment options. Certain participant fees, if applicable, are also charged to participant accounts.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments, or elected to defer receipt of their benefits to a later date. Participants share in the earnings of the investments.

Vesting

Participants are immediately vested in their contributions (including rollovers), plus actual earnings thereon. Participant contributions and any gains pertaining to the participant contributions can be withdrawn at any time. The portion of the participant's account attributable to employer matching contributions and employer discretionary contributions are fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested in the event of death, total disability or the attainment of normal retirement age while still under the employ of the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 4.50% in 2015, which are commensurate with prime plus 1%. Principal and interest is paid ratably through monthly payroll deductions. The Plan Administrator will disclose the applicable interest rate at the time the loan is requested.

Payment of Benefits

Upon termination of service, other than due to death, disability or retirement, a participant with vested benefits of $5,000 or less as of the distribution date, will be eligible to receive a distribution in a lump sum. If the vested benefit is between $1,000 and $5,000 and consent to a distribution is not received, the vested benefit will automatically be rolled over to an IRA selected by the Plan Administrator. If the total vested benefit is $1,000 or less as of the distribution date, the entire vested benefit will be distributed in a lump sum, without consent. A participant with vested benefits greater than $5,000 must consent to distribution.

Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is greater than $5,000. However, the Plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 ½.

Note A – Description of the Plan (concluded)

Payment of Benefits (concluded)

In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their account balances, while actively employed, but such withdrawals are limited to the amount dictated by the hardship.

Forfeited Accounts

At December 31, 2015 and 2014 forfeited nonvested accounts totaled $45,102 and $30,198, respectively. Forfeited non-vested accounts are to be used to reduce employer and/or matching contributions for the Plan year in which the forfeiture occurs, after being used to pay Plan expenses. In 2015, employer contributions and Plan expenses were reduced by $0 and $0 respectively, from forfeited nonvested accounts. In 2014, employer contributions and Plan expenses were reduced by $8,436 and $150 respectively, from forfeited nonvested accounts.

Note B – Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 28, 2016, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Note B – Summary of Significant Accounting Policies (concluded)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Administrative Committee considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Administrative Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain operating expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Reclassification

Certain prior year amounts have been reclassified to conform to current year presentation, pursuant to changes outlined in Note L and otherwise.

Note C – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the assets and liability; • inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 inputs for the periods presented.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts (PSAs): These investments have invested in pools of assets called separate investment accounts (SIAs), in which the primary underlying investment is the named mutual fund. The values of each of these investments is determined by multiplying the units sold by the actual unit value of the SIA on the day of the sale, and then aggregating these amounts for all SIA investments.

Note C – Fair Value Measurements (concluded)

Although the methods above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values, the Plan believes its valuation methods are appropriate and consistent with other market participants and that the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

		Fair Value Measurements at the End of the Reporting Period Using:		
2015	Fair Value	Level 1	Level 2	Level 3
Pooled separate accounts	$ 16,839,938	$ 0	$ 16,839,938	$ 0
Total	$ 16,839,938	$ 0	$ 16,839,938	$ 0

		Fair Value Measurements at the End of the Reporting Period Using:		
2014	Fair Value	Level 1	Level 2	Level 3
Pooled separate accounts	$ 16,127,021	$ 0	$ 16,127,021	$ 0
Total	$ 16,127,021	$ 0	$ 16,127,021	$ 0

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2015, are reported in net depreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2015, there were no significant transfers between Level 1 and 2 and no transfers into or out of Level 3.

Note D – Guaranteed Investment Contract with Insurance Company

In 2010, the Plan entered into a synthetic fully benefit-responsive guaranteed investment contract with Mass Mutual Retirement Services ("Mass Mutual") totaling $3,137,704 for 2015 and $2,743,933 for 2014.

Note D – Guaranteed Investment Contract with Insurance Company (concluded)

Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The crediting rate is based on a formula established by the contract issuer but may not be less than 3.40% for the period January 1, 2015 through May 31, 2015, not less than 3.55% for the period June 1, 2015 through November 30, 2015 and not less than 3.50% for the period December 1, 2015 through December 31, 2015. The crediting rate is reviewed annually, semi-annually, or on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure fully benefit-responsive investment contracts because this is the amount received by participant if they were to initiate permitted transactions under the terms of the Plan. Contract Value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

The following table presents information about the type(s) of fully benefit-responsive investment contracts the Plan has invested in as of December 31, 2015 and 2014:

	2015	2014
Synthetic investment contracts	$ 3,137,704	$ 2,743,933
Traditional investment contracts	0	0
	$ 3,137,704	$ 2,743,933

Note E – Related Party and Party-In-Interest Transactions

The Plan has a number of service providers. Such parties are parties-in-interest under ERISA, including Reliance Trust Company, which is the trustee of Plan assets, State Street Bank and Trust, which is the Custodian of the Plan and Mass Mutual Retirement which is the record keeper for the Plan. Mass Mutual Premier Funds such as the Oppenheimer Funds Inc. (OFI) are subadvised by asset managers affiliated with Mass Mutual. The Plan issues loans to participants which are secured by the balances in the participants accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These are related party and parties-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer accounts.

Note G – Tax Status

The Plan has not received a determination letter on their adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2002-6, the Administrative Committee has chosen to rely on the current opinion letter dated February 20, 2015 that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Administrative Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require the Administrative Committee to evaluate tax positions taken by the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Administrative Committee believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note K – Plan Amendment

Effective December 1, 2015, Rusnak/South Bay, LLC became a participating employer in the Plan.

Note L – Change in Accounting Principles

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefits Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplified the level of disaggregation of investments that are measured using fair value.

Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.
