Air Comm Corporation 401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 – Description of the Plan

The following brief description of the Air Comm Corporation (the “Company,” “Plan Sponsor,” or “Plan Administrator”) 401(k) Profit-Sharing Plan and Trust (the “Plan”) is provided for general information purposes only. Participants and all others should refer to the Plan Document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering qualified employees of the Company and KRN Management, LLC (collectively, the “Employer”). The Plan excludes collectively bargained employees, non-resident aliens, leased employees, interns, and part-time / seasonal / temporary employees whose regularly scheduled service is less than 1,000 hours during a Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Plan Amendment. Effective January 1, 2015, fringe benefits are included in the Plan's definition of compensation.

Eligibility. Full time employees are eligible to participate in the Plan, make salary deferral contributions, and receive Employer safe harbor non-elective contributions after completing 3 months of service and attainment of age 18. Part-time employees are eligible to participate in the Plan, make salary deferral contributions, and receive Employer safe harbor non-elective contributions after completing 1 year of service (“YOS”) and attainment of age 18. A YOS is a consecutive 12-month period during which the employee has 1,000 or more hours of service. Participants are eligible to receive discretionary Employer matching contributions after completing a YOS. Participants are eligible to receive discretionary Employer profit sharing contributions if they are employed on the last day of the Plan year and have completed a YOS.

Entry Date. Employees may enter the Plan on the first day of each month coincident with or following the date they satisfy the Plan's eligibility requirements.

Contributions. Each year, participants may contribute up to the dollar limitations imposed by the Internal Revenue Code (“IRC”) of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth 401(k) contributions. The Employer makes a safe harbor non-elective contribution equal to 3% of each eligible participant's compensation during the Plan year. The Employer may also elect to make a discretionary profit sharing contribution to eligible participants. During 2015, a discretionary profit sharing contribution was made to eligible participants based on an employee group allocation method whereas each participant was in his/her own allocation group. Finally, the Employer may elect to make a discretionary Employer matching contribution in an amount not to exceed 4% of the participant's eligible compensation for the Plan year. During 2015, no such discretionary Employer matching contribution was made. Participants may also contribute amounts representing distributions from other qualified plans as a rollover contribution.

Note 1 – Description of the Plan (continued)

Participant Accounts. Each participant's account is credited with the participant's contributions (pretax, catchup, Roth, and rollovers, if any) and allocations of the (i) Employer's contribution (safe harbor non-elective, discretionary profit sharing, and discretionary matching) and Plan earnings, and charged with payments of benefits and an allocation of administrative expenses and Plan losses. Allocations are based on participant's compensation or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options. Upon enrollment in the Plan, a participant may direct employee and Employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. Loan terms range from 1 month up to a maximum of 5 years (a longer term, up to 15 years, is available if used for the purchase of a principal residence). The loans are secured by the balance in the participant's account and bear a rate of interest equal to the prime rate plus 2% at the date the loan is granted as determined by the Plan administrator. Principal and interest payments are paid ratably through payroll deductions.

Vesting. Participants are vested immediately in all employee and Employer safe harbor contributions plus actual earnings thereon. Participant vesting in discretionary Employer profit-sharing and matching contributions is based on a 6 year graded vesting schedule. Additionally, participants become 100% vested in their accounts upon attainment of normal retirement age, death, disability, and termination or partial termination of the Plan.

Forfeitures. When certain terminations of participation occur, the non-vested portion of a participant's account represents a forfeiture. Forfeitures are used to reduce discretionary Employer profit-sharing and matching contributions. During 2015, forfeitures of \$2,720 were used to reduce the 2014 Employer contribution receivable. As of December 31, 2015 and 2014, unutilized forfeitures totaled \$5,392 and \$2,720, respectively.

Payment of Benefits. Benefits to participants or beneficiaries are generally payable as a lump-sum equal to the value of their vested account balance upon retirement, termination of employment, death or disability. Participant may also elect a rollover distribution of their vested account balance into another qualified plan or Individual Retirement Account. Participants may elect in-service withdrawals upon attainment of age 59 ½, or upon incurring a financial hardship, as defined, if certain criteria are met.

Death Benefits. The designated beneficiary is entitled to a death benefit distribution equal to the participant's account balance.

Plan Termination. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits. Benefit payments to participants are recorded when paid.

Administrative Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Also included in administrative expenses are professional fees, third party administrator fees, and other administrative fees. Certain investment related expenses are included in net depreciation in fair value of investments.

Note 3– Investments

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2015 and 2014, are as follows:

	2015
Pooled Separate Accounts:	
JP Morgan SmartRet Inc Fnd R2	\$ 845,493
JP Morgan SmartRet 2025 Fund R2	1,600,057
JP Morgan SmartRet 2035 Fund R2	1,385,104
JP Morgan SmartRet 2045 Fund R2	860,451
Voya Intermediate Bond Fund R	511,102
	2014
Pooled Separate Accounts:	
JP Morgan SmartRet Inc Fnd R2	\$ 1,596,382
JP Morgan SmartRet 2025 Fund R2	1,814,347
JP Morgan SmartRet 2035 Fund R2	1,326,835
JP Morgan SmartRet 2045 Fund R2	961,433
PIMCO Total Return Fd R	568,792

During 2015, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$82,358.

Note 4 – Fair Value Measurements

Topic ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Air Comm Corporation 401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

December 31, 2015 and 2014

Note 4 – Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- Pooled separate accounts ("PSA"): Valued at the NAV of units held by the Plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.
- Unallocated insurance contracts are valued at fair value which equals contract value less market value adjustments in an assumed transaction where the contract is terminated as of the last day of the Plan year. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses (see Note 5).

Because the participants can transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Unobservable inputs are assessed through review of contract terms (for example, guaranteed rates and current crediting interest rates).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 Gains and Losses. The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2015:

	Level 3 Assets for the year ended December 31, 2015
	Unallocated Insurance Contract
Balance, beginning of year	\$ 244,667

Balance, end of year	\$ 254,374
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	\$ (1,358)

Unrealized gains and losses from the unallocated insurance contract are not included in the Statement of Changes in Net Assets Available for Benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Changes in Fair Value Levels. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no significant transfers in or out of levels 1, 2 or 3.

Note 5 – Investment Contract with Insurance Company

The Plan has entered into a benefit-responsive investment contract, Voya Fixed Account, with Voya Retirement Insurance and Annuity Company ("Voya"). Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the investment contract with Voya is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of their investment at contract value.

There are certain restrictions on transfers from the investment contract to other investment options. For any Plan account, transfers from the Fixed Account to other investment options are allowed at any time, provided:

- The Fixed Account is not directed to a competing investment option;
- A transfer into a competing investing option from any non-competing investment option has not occurred within 90 days; and
- A partial surrender has not occurred within 90 days.

Transfers or surrenders into a competing investment option, from other than the Fixed Account, are allowed at any time provided that no prior transfers or surrenders from the Fixed Account have occurred within 90 calendar days.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014, was \$254,374 and \$244,667, respectively. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a regular basis for resetting.

Certain events, such as contract termination, limit the ability of the Plan to transact at contract value with the issuer. In the event of contract termination, a market value adjustment will apply. Additionally, a final maintenance fee may also be deducted depending on timing and contractual requirements.

The investment contract does not have a defined maturity specified in the contract. The average yields earned by the investment contract are as follows:

	<u>2015</u>	<u>2014</u>
Average Yields:		
Based on actual earnings	1.00%	1.00%
Based on interest rate credited to participants	1.00%	1.00%

Note 6 – Certified Information

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014, and Note 3;
- Notes receivable from participants and adjustment from fair value to contract value for fully benefit responsive investment contracts, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014;
- Investment amounts and investment activity, as shown in Notes 4 and 5;
- Investment income (loss), as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015, and Note 3;
- Interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015; and
- The investment information in the Schedule of Assets (Held at End of Year) as of December 31, 2015, as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 7– Tax Status

The Plan Sponsor has adopted a United Retirement Plan Consultants Volume Submitter Profit Sharing Plan ("volume submitter plan"). The volume submitter plan received a favorable opinion letter from the IRS on March 31, 2014 which stated that the volume submitter plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the volume submitter plan and the Plan have been amended since receiving the IRS opinion letter, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related Trust is tax exempt as of December 31, 2015 and 2014. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8 – Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts and an unallocated insurance contract offered by Voya. As Voya is the custodian of the Plan, these transactions qualify as party-in-interest transactions. Additionally the Plan maintains notes receivable from participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9 – Risks and Uncertainties

The Plan provides for various investment options in pooled separate accounts and an unallocated insurance contract. Investment securities, in general, are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 10 – Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through August 29, 2016, which is the date the financial statements were available to be issued.

During 2016, Principal Financial Group ("Principal") was appointed as the Plan's new recordkeeper and custodian. In connection with this change, the following:

- The Plan document was amended and restated effective August 1, 2016;
- The Plan's assets were transferred from Voya to Principal on August 3, 2016; and
- A blackout period commenced on July 26, 2016 and ended in August 2016.
