1. DESCRIPTION OF THE PLAN:

The following description of the DPI 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was established on March 11, 2014, was a defined contribution plan covering eligible employees of DPI NEWCO LLC (the "Plan Sponsor"), DPC and DPP (collectively the "Company" or "Employer"). Eligible employees included all employees of the Company that were full time and part-time employees who were schedule to work at least 1,000 hours of service. There was no age requirement to participate in the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Prior to the acquisition of DSM Pharmaceutical Products, Inc. (DSM) in 2014, the employees were participating in the DSM USA Defined Contribution Plan (the "DSM Plan"). Subsequent to the acquisition, the DSM employees became employees of the Company. Upon enrollment into the DPI 401(k) Plan, the former DSM employees had the option to rollover their DSM Plan account balances into the new plan. The DSM Plan was not terminated. An aggregate of \$19,312,312 was rolled into the Plan during the period ended December 31, 2014, and is included in rollovers on the statement of changes in net assets available for benefits.

Plan transfer and merger

Effective December 31, 2015, the assets of the Plan were transferred into the Patheon U.S. Retirement Saving Plan ("Patheon Plan"), sponsored by Patheon Pharmaceuticals Inc. and Patheon Pharmaceuticals Services Inc., affiliated companies of the Plan Sponsor. DPI NEWCO LLC became a participating sponsor of the Patheon Plan. Participants in the Plan hired prior to January 1, 2016 became 100 percent vested in transferred contributions to the Patheon Plan. The Plan ceased to exist on December 31, 2015 as a result of the asset transfer and merger into the Patheon Plan.

Contributions

Each year, participants contributed up to 100 percent of pre or post-tax annual compensation, as defined in the Plan. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants also contributed amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants directed the investment of their contributions into various investment options offered by the Plan. The Company provided matching contributions up to 100 percent of the first 3 percent of deferrals and 50 percent of the next 3 percent of deferrals that a participant contributed to the Plan. The Plan allowed the Company to make discretionary profit sharing contribution. For the year ended December 31, 2015 and the period from inception to December 31, 2014, the Company made profit sharing contributions to the Plan equal to 5 percent of eligible employees' compensation.

Participant accounts

Each participant's account was credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that are paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit provided from the participant's vested account.

Vesting

Participants vested immediately in their contributions and the Company matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution was based on years of continuous service. A participant became 100 percent vested after three years of credited service.

Notes receivable from participants

Participants borrowed from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans were secured by the balance in the participant's account and bore interest at rates which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through monthly payroll deductions.

Payment of benefits

On termination of service due to death, disability, or normal retirement, a participant elected to receive all or a portion of the participant's vested interest in his or her account as a lump-sum. Additionally, prior to termination from employment, a participant could have withdrawn all or a portion of his vested account balance upon attaining age 59 1/2 or for financial hardship, if certain requirements were satisfied. In the event of a participant's death, payment was made to designated beneficiaries. For termination of service due to other reasons, a participant received the value of the vested interest in his or her account as a lump-sum distribution, or rollover their vested amounts to another qualified retirement account.

Forfeited accounts

At December 31, 2014 forfeited nonvested accounts totaled \$20,191. These accounts may be used to reduce future employer contributions. During 2015 and 2014, employer contributions were not reduced by the forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan were prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presented the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits was prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could have differed from those estimates.

Investment valuation and income recognition

The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for disclosure of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they are incurred. No allowance for credit losses was recorded as of December 31, 2015 or 2014. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits were recorded when paid.

Administrative expenses

Certain professional, accounting and administrative fees incurred in connection with the operation of the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the recordkeeping and administration of benefit payments and loans were charged directly to the participant's accounts and were included in administrative expense. Investment related expenses were included in net depreciation in fair value of investments.

Accounting Change

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2016, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability; |

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Money market funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Registered investment companies: Valued at the daily closing price as reported by the fund.

Registered investments held by the Plan are open-ended registered investments that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The registered investments held by the Plan were deemed to be actively traded.

Investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (See Note 5).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

<u>Investments at fair value as of December 31, 2014</u>				
	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Money market fund	\$ 20,193	20,193	-	-
Registered investment companies	26,543,398	26,543,398	-	-
Investment contract	<u>285,278</u>	<u>-</u>	<u>285,278</u>	<u>-</u>
Total investments at fair value	\$ <u>26,848,869</u>	<u>26,563,591</u>	<u>285,278</u>	<u>-</u>

4. INFORMATION CERTIFIED BY THE TRUSTEE:

The plan administrator elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Institutional Trust Services, the trustee of the Plan, certified to the completeness and accuracy of all investment information included on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the supplemental schedules of assets (held at end of year) as of December 31, 2014; the related investment activity shown on the statements of changes in net assets available for benefits for the year ended December 31, 2015 and the period from inception to December 31, 2014.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan participated in a benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company (Voya). Voya maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represented contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were reviewed throughout the year and reset annually. Average yield for the year ended December 31, 2015 and the period from inception to December 31, 2014 was 3.00%.

While certain events limit the ability of the Plan to transact at contract value with the issuer, including a plan merger, the entire contract value of this investment as of December 31, 2015 was able to be transferred in full to the same investment account with the Patheon Plan. Thus no loss occurred with this investment due to the merger on December 31, 2015.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments were managed by Voya Institutional Trust Services. Voya Institutional Trust Services was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. TAX STATUS:

The Company adopted a prototype plan that received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS), in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan was currently designed and was operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan was qualified and the related trust was tax-exempt.
