1. Description of Plan

The following description of the Valley Stream Payroll Corp. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan, which was started January 1, 1997, is a defined contribution profit sharing plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") and includes a cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan covers all employees of the Company who have completed one year of service, have worked at least 1,000 hours during that period and attained 21 years of age. In addition to Valley Stream Payroll Corp., other companies under common ownership are participating employers of the Plan. The Plan Administrative Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

b. Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined in the Plan. Total participant contributions in any calendar year are limited to the applicable limit under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes a discretionary matching contribution provision which is determined on an annual basis. Matching contributions are determined based on either a percentage of salary deferrals formula or a uniform dollar amount. Certain limits on matching contributions are imposed in accordance with the terms of the plan document. During the year ended December 31, 2015, the Company made a $322,448 matching contribution. The Company may at its discretion, make additional employer contributions which are allocated in accordance with provisions as outlined in the plan document. In 2015, the company did not make any profit sharing contributions to the Plan.

c. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their voluntary contributions and the Company's matching and profit sharing contributions plus actual earnings thereon. Participants will be 100% vested in the Company's safe harbor matching contribution after the completion of two years of service.

e. Payment of Benefits

Upon termination of service due to death, disability, retirement or for other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or other form of payment permitted under the Plan. If the vested account balance is less than $5,000, the vested benefit will be automatically rolled over to an IRA provider selected by the plan administrator unless the participant consents to a distribution of the vested account balance.

1. **Description of Plan (continued)**

f. Notes Receivable from Participants

After January 1, 2014, participants were no longer permitted to borrow from their accounts. The outstanding loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts

At December 31, 2015 and 2014, there was no balance in the forfeited non-vested accounts. Forfeitures are used to reduce future employer contributions.

h. Plan Amendment

Effective April 15, 2015, the Plan was amended and restated ("Plan Amendment") and a new trustee and record keeper were appointed. Plan assets were transferred to the new Trustee and Custodian and were invested in funds comparable to those offered by the previous trustee. The conversion initiated a "Black Out" period beginning April 21, 2015 and ending May 14, 2015. During this period, funds could not be applied to the specific participant directed investment options or withdrawn from the Plan until the trustee had time to accurately complete the transaction. During this period, employee contributions continued to be made through payroll deductions and the contributions were deposited and invested in one of the funds selected by the Trustee. At the end of the Black Out period, the balance in that fund was allocated to the new investment options chosen by the participants for their accounts.

2. **Summary of Significant Accounting Policies**

a. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

e. Newly Adopted Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, and Part (III) Measurement Date Practical Expedient. This three-part ASU simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits.

Further, the amendments in this ASU eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value ("NAV") per share using the practical expedient in the FASB ASC Topic 820. Part III of the ASU provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The Plan administrator has chosen to retrospectively early adopt ASU 2015-12 for all periods presented in these financial statements. Parts I and III of this standard were not applicable to this Plan.

f. Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

g. Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in the net depreciation of fair value of investments.

h. Subsequent Events

The Plan has evaluated subsequent events through October 10, 2016, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

3. Fair Value Measurements (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund: Valued at cost which approximates fair value.

Mutual funds: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Money market fund	$ 964,194			$ 964,194
Mutual funds	8,760,163	-	-	8,760,163
Investments at fair value	$ 9,724,357	$ -	$ -	$ 9,724,357

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Money Market fund	$ 889,676			$ 889,676
Mutual funds	8,457,960	-	-	8,457,960
Investments at fair value	$ 9,347,636	$ -	$ -	$ 9,347,636

4. Certified Investments

The plan management has elected the method of compliance as permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan management instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BMO Harris Bank N.A. and Central Bank and Trust Company, the trustees, except for comparing such information certified by the trustees to information included in the plan's financial statements and supplemental Schedule H, line 4i- Schedule of Assets (Held At End of Year)

	2015	2014
Investments at fair value	$ 9,724,357	$ 9,347,636

The trustees also certified to the completeness and accuracy of the net investment earnings as shown in the accompanying Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2015. The certifications also include all investment related information in the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2015.

5. Party in Interest Transactions and Related-Party Transactions

Plan investments include shares of mutual funds managed by BMO Harris Bank N.A. BMO Harris Bank N.A. is the trustee and custodian for the Plan. BMO Retirement Services was the Plan record keeper and was acquired in 2015 by OneAmerica Retirement Services. Transactions with these entities qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in the net depreciation in fair value of investments, since they are paid through revenue sharing arrangements. The Plan Sponsor pays other fees related to the Plan's operation.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Tax Status

The Plan is structured and follows a volume submitter plan pre-approved by the IRS. The IRS issued an opinion letter dated January 27, 2015, that the volume submitter plan is acceptable in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
