DHL RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE 1 - DESCRIPTION OF PLAN

The following description of the DHL Retirement Savings Plan ("the Plan"), formerly known as the DHL Worldwide Express LIFE Savings and Retirement Plan, provides only general information. Participants should refer to the legal plan document for more complete information.

General: The Plan was originally adopted September 1, 1985 and was restated effective January 1, 2005 to: (i) reflect the merger of the Airborne Express Capital Accumulation Plan, the Airborne Express Union Employees Capital Accumulation Plan, the Airborne Express Profit Sharing Plan and the Danzas AEI 401(k) Plan, and (ii) change the Plan name to the DHL Retirement Savings Plan. The Plan was further restated January 1, 2008 to: (i) comply with provisions of the Pension Protection Act of 2006 and (ii) reflect eligibility and vesting provisions for Exel Global Logistics, Inc. Effective January 1, 2013 a wrap document went into effect to consolidate and streamline the plan documents of the Plan and the DHL Global Mail 401(k) Plan. This statement did not change any plan provisions, but simply combined the two plan documents under one plan document. The Plan is a defined contribution plan covering employees of DPWN Holdings (USA), Inc. ("the Company"), who work at a DPWN Affiliate that has adopted the Plan. This excludes employees covered under terms of a collective bargaining agreement, unless the agreement specifically provides for coverage of such employees under the Plan, nonresident aliens, and temporary or leased employees. Employees are eligible to participate in the Plan upon hiring. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions: Participants in the Plan may elect to defer up to 80% of their pre-tax and after-tax pay each pay period, with a combined maximum limit of 80% for investment in the Plan. Effective January 1, 2005, unless an active participant elected otherwise, they were automatically enrolled and deemed to have elected to make a pre-tax contribution of 3% of eligible compensation. Effective January 1, 2015, this percentage will automatically increase by 1% annually up to 10% unless an active participant elects otherwise. Participants who reach age 50 during the calendar year and are making the maximum Internal Revenue Service pre-tax contribution may make additional pre-tax "catch-up" contributions in accordance with the provisions of Code Section 414(v). Participants may contribute amounts representing distributions from other qualified plans. The Company makes a matching contribution of 100% up to the first 4% of each participant's eligible compensation deferred as pre-tax contributions. The Company match is calculated on a quarterly basis. The Company also makes an annual base contribution of 2% of each participant's eligible compensation on an annual basis. The participants must be eligible for the Plan and be active in status or have a termination date of December 31 to receive the annual base contribution. Additional profit sharing amounts may be contributed on a quarterly basis at the option of the Company and are allocated as a uniform percentage of basic compensation as defined by the Plan document. The participant must be eligible for the Plan and be in active status or have a termination date of the last day of the calendar quarter to receive an allocation of additional profit sharing contributions. For the year ended December 31, 2015 there were no profit sharing contributions made. All contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings (losses) and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting and Forfeitures: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. Except as noted in the supplement to the plan document, prior to January 1, 2010, vesting in the company match and profit sharing contributions is 20% per year for 5 years. Amounts representing the company match or base contributions credited on and after January 1, 2010 are 100% vested after 2 years of service. All non-vested Company contributions remain in the separated participants account and are impacted by the market gains and losses, in the event that the participant is rehired. If the participant is not rehired within 5 years, all non-vested Company contributions are forfeited from the separated participants' accounts and are used to reduce future Company contributions or used to reduce plan expenses. As of December 31, 2015 and 2014, the Plan had \$857,406 and \$446,189, respectively, of forfeited non-vested funds available to reduce future Company contributions to the Plan and to reduce plan expenses. For the plan year ended December 31, 2015, \$381,487 of forfeited amounts were used to reduce Company contributions.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability. Normal retirement age is 65.

Payment of Benefits: Except as provided in the supplement to the plan document, on termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her vested interest in the Plan. Withdrawals other than for termination are permitted under circumstances provided by the Plan. Former participants in the Transworld 401(k) Plan may withdraw up to 100% of the balance in their matching account balance if the participant has attained age 55, provided that no such withdrawal shall be permitted unless the participant's matching account is fully 100% vested. Distributions may be made in the form of a single lump-sum or equal monthly, quarterly, semi-annual or annual installments, over a period permitted by the IRC.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions into any of the investment options offered by the Plan. Participants may change their investment options daily.

Notes Receivable from Participants: The Plan provides that participants can borrow from their accounts in the Plan. These notes are secured by the balance in the participant's account. These notes must be at least \$1,000 but are limited to the lesser of \$50,000 or 50% of the participant's vested account balance. Note issuances are treated as a transfer between a participant's investment fund(s) and the notes receivable in a participant's account. Note principal and interest payments are made in accordance with the note's amortization schedule, and are made via payroll withholding or direct payments to the Plan trustee. Notes must be paid back within a five year time period according to IRS Regulations.

Administrative and Investment Management Expenses: Plan record keeping and trustee fees that remain after allocation to participant accounts are paid for by the Plan. These fees, both those paid for by the participant and the Plan, are reflected in the financial statements as administrative expenses of the Plan. QDRO fees charged by the record keeper are paid by the participant. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The accounting principles and procedures followed by the Plan conform to accounting principles generally accepted in the United States of America. The financial statements of the Plan are prepared under the accrual basis of accounting.

December 31, 2015 and 2014

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Adoption of New Accounting Standards: In May and July 2015, the FASB amended various disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance clarifies that a plan's investments in stable value funds are not fully benefit-responsive investment contracts (FBRICs) and should be measured and presented only at fair value. The new guidance also eliminates or simplifies various disclosure requirements applicable to plan investments. Adoption of the new guidance resulted in removal of FBRICs and investments for which fair value is measured at net asset value (or its equivalent) from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received and the notes are collateralized by the participants' account balances.

Risks and Uncertainties: The Plan utilizes various investments. Investments, in general, are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and in participants' individual account balances.

Payment of Benefits: Plan benefits are recorded when paid.

Fair Value of Financial Instruments: The fair values of employer's and participant contributions receivable approximates carrying values.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its operations at any time, subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

(Continued)

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLES FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by, Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - FAIR VALUE MEASUREMENT

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. The collective trusts provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated May 29, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are mutual funds managed by Fidelity Investments, an affiliate of the plan trustee, and a collective trust managed by Fidelity Management Trust Company, the plan trustee. These investments qualify as party-in-interest investments. Notes receivable from participants also reflect party-in-interest transactions.

Fidelity is a service provider to the Plan and, therefore, these transactions and the Plan's payment of fees to Fidelity qualify as party-in-interest transactions. Certain professional fees related to the administration of the Plan were paid by the Company on behalf of the Plan. Each quarter, the Trustee shall make a payment in the amount of a revenue credit to a suspense account of the Plan. The amounts held in the suspense account may be used to reimburse the Company for fees that were paid on behalf of the Plan or pay vendors, including the Trustee for expenses associated with the Plan.

Investment management fees paid to parties-in-interest are reflected as reductions in the investment returns earned by the Plan on its investments.
