Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

20c If the ADP/ACP test is used, did the 401(k) plan perform ADP/ACP testing for the plan year using the "current year testing method" for nonhighly compensated employees (Treas. Reg sections 1.401(k)-2(a)(2)(ii) and 1.401(m)-2(a)(2)(ii))?	☐ Yes ☐ No
21a Check the box to indicate the method used by the plan to satisfy the coverage requirements under section 410(b):	☐ Ratio percentage test ☐ Average benefit test
21b Does the plan satisfy the coverage and nondiscrimination tests of sections 410(b) and 401(a)(4) by combining this plan with any other plans under the permissive aggregation rules?	☐ Yes ☐ No
22a Has the plan been timely amended for all required tax law changes?	☐ Yes ☐ No ☐ N/A
22b Date the last plan amendment/restatement for the required tax law changes was adopted ____/____/____. Enter the applicable code _____. (See instructions for tax law changes and codes).	
22c If the plan sponsor is an adopter of a pre-approved master and prototype (M&P) or volume submitter plan that is subject to a favorable IRS opinion or advisory letter, enter the date of that favorable letter ____/____/____ and the letter's serial number _____.	
22d If the plan is an individually-designed plan and received a favorable determination letter from the IRS, enter the date of the plan's last favorable determination letter ____/____/____.	
23 Is the Plan maintained in a U.S. territory (i.e., Puerto Rico (if no election under ERISA section 1022(i)(2) has been made), American Samoa, Guam, the Commonwealth of the Northern Mariana Islands or the U.S. Virgin Islands)?	☐ Yes ☒ No

Report of Independent Auditors

To the Participants and Administrator of
Keystone Employees' Retirement Plan:

We have audited the accompanying financial statements of the Keystone Employees' Retirement Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Keystone Employees' Retirement Plan as of December 31, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Attachment to 2015 Schedule SB of Form 5500

Schedule SB, line 24 – Change in Actuarial Assumptions

Per recent observed experience, 90% of married Bartonville participants with 15 years of service are assumed to elect the plan's Supplemental Surviving Spouse's Benefit at Retirement.

The salary scale assumption was updated to reflect management's current expectations and budgeting for future salary increases.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding, Expense and Present Value of Accrued Benefits

Liability Valuation Method

Funding Target and Target Normal Cost as Defined in PPA

The Funding Target is defined to be the present value of the benefits accrued or earned at valuation date. The earned benefits include retirement-type benefits and ancillary benefits (1.430(d)-1(c)(1)(i)). If the amount of a benefit that is expected to be paid is neither a function of the accrued benefit at the time the benefit is expected to be paid nor a function of the participant's service at that time, then the portion of the benefit taken into account for purposes of determining the Funding Target for a plan year is based on the proportion of a participant's service as of the first day of the plan year relative to the service the participant will have when the participant decrements. The portion of the benefit that is taken into account in the Target Normal Cost is the increase in the proportional benefit for the plan year (1.430(d)-1(c)(1)(ii)(C)). The determination of the Funding Target and Target Normal Cost of a plan for a plan year is not permitted to take into account any limitations or anticipated limitations under section 436 (1.430(d)-1(c)(1)(iii)).

The Target Normal Cost is the present value of all the benefits expected to accrue or to be earned during the year (benefits attributable to services performed in a prior year that are increased by reason of a compensation increase in the current year are treated as having accrued during the current year). Plan administrative expenses paid (or expected to be paid) from Actuarial Value of Assets for a plan year are not reflected in the determination of a plan's Funding Target for that plan year (1.430(d)-1(c)(2)), but are reflected in the determination of a plan's Target Normal Cost.

Generally if insurance contracts are held by the Plan, they are included in Actuarial Value of Assets and the related benefits are included in the liability. In the case of benefits that are funded through insurance contracts purchased from an insurance company licensed under the laws of a State, the Plan is permitted to exclude the benefits from the liability and the insurance policy from the assets, but only to the extent that the right to receive benefits is an irrevocable contractual right based on premiums paid prior to the valuation date (1.430(d)-1(c)(3)).

The determination of a plan's Funding Target and Target Normal Cost for a plan year is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year. Section 412(d)(2) applies for purposes of determining whether a plan amendment is treated as having been adopted on the first day of the plan year (including a plan amendment adopted within two and one half months after the close of the plan year) (1.430(d)-1(d)).

For maximum deductible purposes, the cushion amount is equal to the sum of 50 percent of the Funding Target for the plan year and the amount the Funding Target for the plan year would increase if the Plan were to take into account increases in compensation which are expected to occur in succeeding plan years. If the Plan does not base benefits for service to date on compensation, increases in benefits which are expected to occur in succeeding plan years (determined on the basis of the average annual increase in benefits over the six preceding plan years) are taken into account in lieu of expected increases in compensation. For plans that have less than 100 participants, increases in benefits for highly compensated employees as a result of plan amendments within the last two years are excluded from the calculation of the cushion amount.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Actuarial Methods for Funding

Asset Valuation Method

Actuarial Value of Assets are determined using the two-year averaging method as set forth in Notice 2009-22. Under this method, the Actuarial Value of Assets is the average of the fair market value of the assets on the valuation date and the adjusted fair Market Value of Assets determined as of the two prior determination dates. The adjusted fair Market Value of Assets as of a determination date is the Market Value of Assets on that date, increased by contributions that were not included in the plan's asset Balance on the determination date and decreased by benefits and administrative expenses between that determination date and the valuation date plus an adjustment for expected earnings as the sum of the expected earnings separately determined for each period between the determination date and the valuation date. The calculated value is then further constrained to be no more than 110% of the Market Value of Assets plus discounted receivable contributions and no less than 90% of the Market Value of Assets plus discounted contributions.

Procedures

Financial and census data: Financial data was submitted by the Trustee and census data was submitted by the plan sponsor. Information provided was reviewed for internal consistency and we have no reason to doubt its substantial accuracy.

No benefits of materiality were excluded from the valuation of the liabilities.

The limitations of the Internal Revenue Code 415(b) and 401(a)(17) have been incorporated into our calculations.

No liability is included for participants who terminated without vesting in their benefit prior to the valuation date.

The plan sponsor provided us with the data on its employees as of the valuation date, but only those employees who have completed the Plan's eligibility requirements are included in the valuation of liabilities.

Method Changes Since Last Year

There were no method changes since the prior valuation.

Report of Independent Auditors

To the Participants and Administrator of
Keystone Employees' Retirement Plan:

We have audited the accompanying financial statements of the Keystone Employees' Retirement Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Keystone Employees' Retirement Plan as of December 31, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

KEYSTONE EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

General. The following description of the Keystone Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit plan for certain employees of Keystone Consolidated Industries, Inc. ("Keystone") not covered by a collective bargaining agreement including those at the following divisions: Keystone Steel and Wire ("KSW") and the corporate office. The Plan also covers employees at the following subsidiaries: Sherman Wire Company (formerly DeSoto, Inc.) ("Sherman") and Engineered Wire Products, Inc. ("EWP"). In addition, the Plan covers bargaining unit employees at KSW. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). In 2004, the Plan was amended to state that no hourly or salaried employee hired after August 12, 2004 could participate in the Plan.

Keystone was a wholly-owned subsidiary of Contran Corporation ("Contran") at December 31, 2015. All of Contran's outstanding voting stock is held by a family trust established for the benefit of Lisa K. Simmons and Serena Simmons Connelly and their children for which Ms. Simmons and Ms. Connelly are co-trustees, or is held directly by Ms. Simmons and Ms. Connelly or entities related to them. Consequently, Ms. Simmons and Ms. Connelly may be deemed to control Keystone and the Plan.

As permitted by ERISA, applicable Department of Labor regulations and the Internal Revenue Code, effective December 31, 2015, Keystone and Contran undertook a spin-off and merger involving the Keystone Employees' Retirement Plan for Inactive Employees ("Keystone Plan"), pursuant to which specified groups of participants in the Keystone Plan were transferred out of the Keystone Plan and merged into the Contran Corporation Pension Plan ("Contran Plan") and the Plan. As such, the Contran Plan and the Plan assumed the obligation to pay the pension benefits for these groups of former Keystone Plan participants, and the Keystone Plan transferred \$91.7 million and \$137.2 million to the Contran Plan and the Plan, respectively. ERISA and the Internal Revenue Code prescribes the method of determining the amount of Plan assets which were transferred to the Contran Plan and the Keystone Plan. Under the prescribed method, the amount of the Plan assets transferred to the Contran Plan and the Keystone Plan was based on the relative portion of the Plan pension liabilities transferred, with such pension liabilities determined on an ERISA plan termination basis (as if the Plan had been terminated as of the date of the spin-off).

Contributions. The contributions to the Plan are designed to fund at least the minimum required by ERISA. For the years ended December 31, 2014 and 2015, the Company made no contributions to the Plan due to the full funding limitations imposed by the Internal Revenue Code of 1986, as amended, (the "Code").

Pension benefits. All participants are 100% vested after five years of service, as defined, and are entitled to receive monthly pension benefits beginning at normal retirement date (generally age 65). A participant's benefits are calculated based upon a percentage of the participant's average monthly compensation, as defined. The percentage rate used depends on the section of the Plan covering the participant.

Benefit payment options available at the time of retirement are straight life annuity, 10-year certain annuity and joint and survivor annuity (100%, 75% and 50%). The Plan permits early retirement with reduced benefits, as specified in the Plan.

Disability and death benefits. The Plan includes provisions for disability and for survivor's benefits for beneficiaries of participants who die after completion of at least one year of service, as defined.

Plan termination. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, in compliance with the provisions of ERISA. In the event the Plan is terminated, the accrued benefits of each participant would become fully vested to the extent funded. The net assets of the Plan, after providing for liquidation expenses, are to be allocated to participants and beneficiaries in accordance with Section 4044 of ERISA. To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation, subject to certain limitations.

Expenses of administering the Plan. The administrative expenses are paid by the Plan.

Tax status. The Plan obtained a favorable "determination letter" from the Internal Revenue Service ("IRS") dated August 24, 2011. The Plan had no significant uncertain tax positions for the years ended December 31, 2014 and 2015. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

Note 2 - Summary of significant accounting policies:

Basis of accounting. The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Payment of benefits. Benefits are recorded when paid.

Management estimates. The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may, in some instances, differ from previously estimated amounts.

Risks and uncertainties. The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan indirectly invests in a variety of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. In addition, the Plan on occasion sells securities short which obligates the Plan to purchase securities in the future at the then market price. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's statement of net assets available for benefits.

Investment valuation and income recognition. The Plan's investments are stated at fair value. See Note 3 for a discussion of fair value measurements. The net appreciation (depreciation) for the year includes the Plan's gains and losses on investments bought and sold as well as held throughout the year and is reflected in the Plan's statements of changes in net assets available for benefits.

Subsequent events. The Plan has evaluated subsequent events through October 5, 2016, the date these financial statements were available to be issued.

Note 3 – The Combined Master Retirement Trust:

At December 31, 2014 and 2015, significantly all of the assets of the Plan were held and related investment transactions were executed by U.S. Bank National Association ("U.S. Bank") as Trustee of the Keystone Consolidated Industries, Inc. Master Retirement Trust I (the "Keystone Trust"). The Keystone Trust invests in units of The Combined Master Retirement Trust (the "Combined Trust"), a collective investment trust formed by Valhi, Inc. ("Valhi"), a majority-owned subsidiary of Contran. The Combined Trust provides for the collective investment of part or all of the assets of various employee benefit plans maintained by Keystone and certain other Contran affiliated corporations (the "Qualified Plans").

Prior to his death in December 2013, Mr. Harold C. Simmons was trustee of the Combined Trust and deemed to control Keystone, Contran and Valhi. Following the death of Mr. Simmons in December 2013, the Contran board of directors in January 2014 appointed U.S. Bank as the new directed trustee of the Combined Trust, and the Contran board appointed five individuals (all executive officers of Contran) as the new investment committee of the Combined Trust to replace the prior investment committee. During 2014, the new investment committee began a process of reallocating to current and/or new investment managers or various mutual funds and commingled funds the portion of the Combined Trust assets that had previously been under direct and active management by Mr. Simmons. The reallocation process was undertaken prudently over a period of time, given the diverse asset composition of this portion of the portfolio, and was substantially complete at December 31, 2015.

Investments held by the Combined Trust are stated at fair value. The fair value per Combined Trust unit is determined semi-monthly by dividing the fair value of the net assets of the Combined Trust by the number of units outstanding for the Combined Trust. Units are issued or redeemed based on the most recent unit value. In accordance with the plan of trust, net income from investment activities is distributed only through the redemption of units.

At December 31, 2014 and 2015, the Combined Trust had net assets of \$715,498,836 and \$648,786,030, respectively. Summarized financial information of the Combined Trust at December 31, 2014 and 2015, and the statements of changes in net assets for the years then ended are presented below.

At December 31, 2014 and 2015, the Plan held 104,429 units and 218,357 units, respectively, in the Combined Trust account.

The Plan and the Combined Trust carry their investments at fair value in accordance with Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, which establishes a consistent framework for measuring fair value and is applied to all financial statement items required to be measured at fair value. The standard requires fair value measurements to be classified and disclosed in one of the following three categories:

- ☐ *Level 1* – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- ☐ *Level 2* – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the assets or liability; and
- ☐ *Level 3* – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Combined Trust's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2015.

Common stocks: Investments are valued at the closing price reported on the active market on which the individual securities are traded. Other investments in this class that trade infrequently or not at all are valued based on recent third-party transactions in the investment, third party valuations during the year, potential sales and other unobservable inputs.

Mutual funds: Investments are valued at the daily closing price as reported by the fund. Mutual funds held by the Combined Trust are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Combined Trust are deemed to be actively traded.

Commingled funds: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Combined Trust will sell the investment for an amount different than the reported NAV. All of the Combined Trust's commingled funds were valued at the NAV at December 31, 2014 and 2015.

Limited partnerships: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Combined Trust will sell the investment for an amount different than the reported NAV. All of the Combined Trust's limited partnerships eligible to be valued at the NAV were valued at the NAV at December 31, 2014 and 2015. Other investments in this class, not eligible to be valued at the NAV, trade infrequently or not at all and are valued based on financial information obtained from the issuer, current and projected financial condition and results of operations of the issuer and other unobservable inputs. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

Corporate bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

U.S. government securities: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities.

Municipal bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

Real estate mortgage notes: Real estate mortgage notes are valued based on the Developer's estimate of actual and projected sales for the projects.

Cash and cash equivalents: Investments are valued at the daily closing price as reported by the money market fund. The money market fund held by the Combined Trust is an open-end mutual fund that is registered with the U.S. Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Combined Trust is deemed to be actively traded.

The Plan and the Combined Trust also hold other assets and liabilities not measured at fair value on a recurring basis. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to the short maturity of the instruments.

The following table sets forth by level, within the fair value hierarchy of ASC Topic 820, *Fair Value Measurements and Disclosures*, the Combined Trust's investments at fair value as of December 31, 2014 and 2015.

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the total investments presented in the statement of net assets.

The following table sets forth a summary of changes in the fair value of the Level 3 assets of the Combined Trust's level 3 assets for the years ended December 31, 2014 and 2015.

The Combined Trust's policy is to recognize transfers into and out of Level 3 as of December 31st. There were no transfers between levels in the fair value hierarchy during 2014 and 2015. Additional information concerning the Combined Trust's significant level 3 assets as of December 31, 2015 (comprised only of common stocks) is presented below. The Combined Trust has no unfunded commitments with respect to these investments at December 31, 2015.

Common stocks: This class includes investments in privately held companies primarily in the education and financial industries that are focused on growth. The Combined Trust's investment in these companies can only be sold with the approval of the respective issuer.

The following tables summarize the valuation methodology and significant unobservable inputs used for the Combined Trust's investments in securities that are categorized within Level 3 of the fair value hierarchy as of December 31, 2014 and 2015:

The following table summarizes the Combined Trust's investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2014 and 2015.

Investments measured at NAV practical expedient	<u>\$ 194,547</u>	<u>\$ 894</u>		

* See discussion regarding redemptions below.

Commingled funds – Fixed income funds: This class includes fixed income funds with the investment objective to provide returns 300 to 500 basis points above the 3-Month LIBOR after fees over a full market cycle. The funds invest primarily in fixed income securities along with derivatives and currencies in markets including developing markets.

Commingled funds – Growth funds: This class includes growth funds with the investment objective to seek long-term capital appreciation over the medium to long term in all market conditions. These funds invest mainly in equity securities across a broad capitalization range of companies and countries including securities in emerging market countries.

Commingled funds – Hedge funds: This class includes hedge funds with the investment objective to seek above average returns over time with lower risk than traditional investments. The funds may use any number of strategies including convertible arbitrage, distressed credit, long/short equity, event driven, fixed income arbitrage, managed futures and niche strategies. One fund, valued at \$16.6 million at December 31, 2015, may be redeemed monthly with not less than 61 days notice and redemptions may be suspended or delayed at the discretion of the manager. Another fund, valued at \$13.8 million at December 31, 2015, may be redeemed quarterly with not less than 65 days notice, however, redemption prior to the first anniversary of investment is subject to a 5% penalty and redemptions may be suspended or delayed at the discretion of the manager. For the third fund in this class, valued at \$3.6 million at December 31, 2015, redemptions may be made annually after a three year lock-up with 180 days notice.

Limited partnerships: This class includes investment in private equity funds that have different areas of focus with the goal of capital appreciation. The agreements covering certain of the Combined Trust's limited partnership interests contain provisions that obligate the Combined Trust to invest additional amounts when and as determined by the general partner. Each of the commitment periods are subject to extension and amendment as provided in the respective limited partnership agreements. At December 31, 2015, the commitment periods range from 2016 through 2023. One fund, valued at \$17.8 million at December 31, 2015, may be partially redeemed with at least 60 days notice. The remaining

Combined Trust investment in that fund may only be redeemed as the underlying investments are liquidated. The remaining private equity funds in this class may be redeemed only with the approval of the general partner of the partnership. If the Combined Trust remains invested, distributions will be made from investments as the underlying investments of the partnerships are liquidated. It is estimated that the underlying assets of the funds would be liquidated over the next 1 to 8 years.

Note 4 - Actuarial present value of accumulated benefits:

Accumulated benefits are those estimated future payments that are attributable under the Plan's provisions to the services employees have rendered. Accumulated benefits include benefits expected to be paid to (i) retired and terminated participants or their spouses, (ii) spouses of deceased participants, and (iii) active participants or their spouses. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Actual valuations are determined at January 1 of each Plan year.

The significant assumptions used in the valuations as of December 31, 2014 and 2015 were: (i) life expectancy of participants - RP 2014 Blue Collar fully generational table with Scale MP in 2014 and the Adjusted RP 2014 Blue Collar fully generation table with Scale MP in 2015; (ii) retirement age assumption - ranging from age 50 to 65, if eligible, otherwise age 65; (iii) based on MAP-21 segment rates, resulting effective interest rates were 6.44% in 2014 and 6.11% in 2015; (iv) employee turnover withdrawal table consistent with Keystone's expected experience; disability - none. The foregoing assumptions were based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits at December 31, 2014 and 2015 and the changes in the actuarial present value of accumulated benefits for the years then ended are summarized below.

	<u>December 31,</u>	
	<u>2014</u>	<u>2015</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 29,207,261	\$124,229,241

Total actuarial present value of accumulated plan benefits	<u>\$114,854,681</u>	<u>\$209,480,446</u>
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 98,184,209</u>	<u>\$ 114,854,681</u>
Change during the year attributable to:		
Plan Amendments	-	86,067,467
Net benefits accumulated and experience	4,499,887	5,834,106
Increase for interest	4,899,392	5,338,851
Change in actuarial assumptions and methods	9,528,967	912,887
Benefits paid to participants adjusted for interest	<u>(2,257,774)</u>	<u>(3,527,546)</u>

Actuarial present value of accumulated plan benefits at end of year	<u>\$114,854,681</u>	<u>\$209,480,446</u>

Benefits paid above are different than the amount reported in the Plan's financial statements due to certain timing differences related to benefit payments.

Note 5 – Recent accounting pronouncements adopted:

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculated NAV per Share (or its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, and is to be applied retrospectively, with early adoption permitted. The Plan has elected to early adopt this ASU as of December 31, 2015, and there was no impact to the net assets available for benefits as of December 31, 2014 or 2015 as a result of the adoption.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965)*. ASU 2015-12 is a three part standard that: i) requires an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts; ii) simplifies and increases the effectiveness of plan investment disclosure requirements; and iii) provides employee benefit plans with a measurement-date practical expedient. ASU 2015-12 is effective for periods beginning after December 15, 2016, and is to be applied retrospectively, with early adoption permitted. The Plan has elected to early adopt this ASU as of December 31, 2015, and there was no impact to the net assets available for benefits as of December 31, 2014 or 2015 as a result of the adoption.
