Notes to Financial Statements

Note 1. Description of the Plan

The following description of TPC Wire & Cable Corp. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established by TPC Wire & Cable Corp. (the Company and Plan sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees who have completed at least 30 days of service with the Company, as defined in the Plan, and are age 21 or older are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions: Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the Plan, up to the maximum limits of the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). At the sole discretion of management of the Company, the Plan sponsor matches 100% of employee contributions for contributions up to 3% of the participant's compensation plus 50% of employee contributions for contributions that exceed 3% of the participant's compensation up to 5% of the participant's compensation. Additional Company contributions may be contributed at the discretion of the Company's Board of Trustees. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and Plan's earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions and earnings thereon.

Payment of benefits: Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65. The total participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship, if certain criteria are met, or who have attained age 59^{1/2} may withdraw a portion of this account balance as defined in the Plan.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Each participant is allowed to have only two loans outstanding at any time. Loan terms cannot exceed five years with the exception of the purchase of a primary residence, as defined in the Plan. These loans are secured by the balance in the participant's account. The loans bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Plan termination: Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the account of each participant shall be nonforfeitable and shall continue to participate in the earnings credited, expenses charged and any appreciation or depreciation of the applicable investment fund until the vested account is distributed.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Valuation of investments and income recognition: Money market taxable funds and shares of registered investment companies are valued at the fair market value of shares held by the Plan at year-end. Notes receivable from participants, for which there is no market, are recorded at amortized cost, which approximates fair value. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as benefit payments to participants based upon the terms of the Plan document.

Benefit payments: Benefit payments to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments or paid through revenue sharing payments made from investment managers to the recordkeeper and shown as other income on the statement of changes in net assets available for benefit for the year ended December 31, 2015.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently adopted accounting pronouncements: In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements where applicable.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this Update for the 2015 plan year and the amendments in Part I and Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan administrator has evaluated subsequent events through October 4, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Charles Schwab Bank

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014 and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that were prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 3. Information Certified and Provided by Charles Schwab Bank (Continued)

The following table presents the fair value of the Plan's assets as certified by the trustee as of December 31.

	2015	2014
Registered investment companies	\$ 6,941,452	\$ 6,418,821
Money market taxable fund	\$ 251,435	\$ 104,644
Cash	\$ 67,723	\$ 60,972
Notes receivable from participants	\$ 316,452	\$ 227,939

The trustee also certified the completeness and accuracy of the following for the year ended December 31, 2015 as follows:

Net depreciation in fair value of investments	\$ (474,394)
Interest and dividends	\$ 310,767
Interest income on notes receivable	\$ 11,181

Note 4. Fair Value Measurements

FASB establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

TPC Wire & Cable Corp. 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market taxable fund: Money market fund is valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Registered investment companies: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, which the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a difference fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

		2015			
		Level 1	Level 2	Level 3	Total
Registered investment companies	\$	6,941,452	\$ -	\$ -	\$ 6,941,452

TPC Wire & Cable Corp. 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 5. Party-in-Interest Transactions

Certain of the Plan's investments are managed by the Trustee, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees paid by the plan for administrative services amount to \$34,018 for the year ended December 31, 2015.

Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by management or employees of the Company, but are not compensated from the Plan.

Note 6. Tax Status

The Plan adopted a prototype defined contribution plan sponsored by Sungard Corbel, LLC. The prototype plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (Code). The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator is not aware of any events that have occurred that might adversely affect the plan's qualified status.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
