Fluor Puerto Rico Salaried Employees Retirement Plan

**Financial Statements
As of December 31, 2015
Together with Independent Auditors' Report**

Independent Auditor's Report

To the Plan Administrator of the
Fluor Puerto Rico Salaried Employees Retirement Plan:

We have audited the accompanying financial statements of Fluor Puerto Rico Salaried Employees Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes, as of and for the year ended December 31, 2015, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Fluor Puerto Rico Salaried Employees Retirement Plan

Notes to Financial Statements December 31, 2015

1. Plan Description:

The following description of the Fluor Puerto Rico Salaried Employees Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a qualified defined contribution plan covering substantially all employees of Fluor Daniel Caribbean, Inc. and participating subsidiaries (the Company).

The Plan became effective on December 1, 2010. The Plan was established for the purpose of providing retirement benefits to employees and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the applicable laws of the Commonwealth of Puerto Rico. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2013, the Plan Administrative Committee appointed Company representatives to assume the trustee function previously shared with a financial institution.

Since February 2012, Fidelity Investments is the custodian and broker-dealer of the Plan's assets. Pension Administrators Group, Inc. is the record keeper of the Plan.

The Plan was amended and restated to conform it to the requirements of the 2011 Internal Revenue Code for a New Puerto Rico (2011 IRCPR), as amended.

Eligibility

An employee is eligible to become a member of the Plan after attainment of age 18.

Contributions

Participants of the Plan may authorize the Company to make contributions to the Plan from payroll deductions of their weekly or biweekly compensation. At no time may participant pre-tax contributions exceed \$15,000, the limit imposed per Section 1081.01(d) of the 2011 Internal Revenue Code for a New Puerto Rico, as amended.

With the approval of the Plan's Administrator, Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans. Additionally, the Company may make discretionary contributions to eligible Participants in such amount as it is determined by the Global Benefits Committee. Supplemental discretionary contributions amounted to \$143,508 and \$169,764 for the plan years ended December 31, 2015 and 2014, respectively.

After completing one year of service, the Company matches Participants' pre-tax contributions based on predetermined matching contribution percentages. Currently, the employer matching is \$1:\$1 up to the first 5% of eligible compensation.

Participants' Accounts

Individual accounts are maintained for each Plan Participant. Each Participant's account is credited with the Participant's applicable pre-tax and/or rollover contributions and allocations of (a) the Company's matching and supplemental contributions, and (b) plan earnings. Allocations are based on Participant's share of the Plan's income (losses) and any related expenses. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account. The change in the value of the Plan's invested assets is posted to the Participant's account on a daily basis.

Investment Alternatives

Upon enrollment in the Plan, a Participant may direct his/her contributions, along with the Company's matching contribution, (a) entirely in any one of the available funds; or (b) divided between any two or more of such investment funds in increments of 1%.

In the event that a Participant does not have an investment election on file, his/her contributions, Company's matching contributions, and Company's discretionary contributions will be directed to an age-appropriate LifePath fund as the default investment alternative. Participants may change their investment allocation at any time.

Vesting

Participant contributions and employer matching contributions are vested at all times and shall not be subject to forfeitures for any reason. The Company's discretionary contributions are vested upon three years of service.

Payment of Benefits and Withdrawals

Distribution of Participant accounts may be made in: (a) one lump-sum cash payment, or (b) cash installments over a certain period. In the case of a Participant termination because of death or disability, the entire account balance amount is paid to the person or persons legally entitled thereto regardless of the years of service.

If, at the time of termination, the value of a Participant's vested benefit is \$1,000 or less, the Plan administrator will immediately distribute such benefit without the Participant's consent. However, a Participant's vested benefit may not be paid without written consent if the value exceeds \$1,000.

Notes Receivable from Participants

Notes receivable from participants should not exceed 50% of the participant's vested account balance. In no event will the amount of any loan disbursed to a Participant exceed \$50,000 or be less than \$500. General purpose loans to Participants under the Plan are amortized based on a period of no less than six months or more than 60 months. Primary residence loans are amortized based on a period of no less than 60 months and no more than 180 months. All notes are secured by the balance in the Participant's account and will bear an interest rate as determined by the Plan administrator. Principal and interest are repaid to the Participant's account ratably through payroll deductions or manual loan repayments. Only one loan is permitted to be outstanding at a time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants shall be fully vested and nonforfeitable in their accrued benefits as of the date of termination or discontinuance.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)", which amends ASC 820, Fair Value Measurement. This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-07 is effective for interim and annual reporting periods beginning after December 15, 2015, and should be applied retrospectively to all periods presented. ASU 2015-07 has been adopted for plan year 2015.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensus of the FASB Emerging Issues Task Force)", which simplifies certain aspects of employee benefit plan accounting. Part II of the guidance requires plans to disaggregate their investments measured using fair value by general type, rather than by class of assets. Plans are no longer required to disclose the net appreciation/depreciation in fair value of investments by general type or individual investments equal to or greater than 5% of net assets available for benefits. ASU 2015-12 is effective for interim and annual reporting periods beginning after December 15, 2015, and should be applied retrospectively to all periods presented. ASU 2015-12 has been adopted for plan year 2015.

Investments and Notes Receivable from Participants Valuation

The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments, which represent the net asset value of units held by the Plan at year-end. Notes receivable from participants are valued at their outstanding principal amount, plus accrued but unpaid interest. Refer to Note 5 for fair value measurements.

Purchases and sales of investment units are reflected on a trade date basis. Income is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair market value, net unrealized appreciation (depreciation) on investments for the year is reflected in the statement of changes in net assets available for benefits. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, these management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make repayments and the Plan administrator considers the participant to be in default, the balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. Notes are considered in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment.

Contributions

Participant contributions and employer matching contributions are recorded in the period in which the Company makes the payroll deductions from the Participant's compensation. Discretionary contributions are posted to Participant accounts annually.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses are paid from the assets of the Participants' accounts.

Subsequent Events

The Plan administrator has evaluated subsequent events occurring between December 31, 2015, and October 11, 2016, the date the financial statements were available to be issued.

3. Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market Participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

- Level 1 – Quoted market prices in active markets for identical assets or liabilities.
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3 – Unobservable inputs reflecting management's own assumptions.

The fair value hierarchy gives the highest priority to observable inputs and lowest priority to unobservable inputs.

The following is a description of the valuation techniques used to measure fair value. There were no changes in the techniques used to measure fair value during the plan years ended December 31, 2015 and 2014:

- Collective investment/common collective trusts: Valued at the net asset value (NAV) established by the fund's sponsor on the last business day of the plan year, based on the fair value of the assets underlying the funds. There are no redemption restrictions or future commitments on these investments.
- Registered investment companies (mutual funds): Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following are the major categories of assets measured at fair value on a recurring basis:

2015				
<i>Description</i>	<i>Total</i>	<i>Level 1: Quoted Prices in Active Markets for Identical Assets</i>	<i>Level 2: Significant Other Observable Inputs</i>	<i>Level 3: Significant Unobservable Inputs</i>

4. Tax Status:

The Plan has obtained its latest determination letter on March 3, 2015, wherein the Puerto Rico Department of the Treasury stated that the Plan, as designed, was exempt under the provisions of Section 1081.01 (d) of the 2011 Internal Revenue Code for a New Puerto Rico (2011 IRCPR), as amended. The Plan Administrator and the Plan's legal counsel believe that the Plan, as currently being operated, is in compliance with the applicable requirements of the 2011 IRCPR, as amended.

U.S. GAAP requires the Plan to evaluate uncertain tax positions. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the tax authorities. The Plan has concluded that as of December 31, 2015 and 2014, there were no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions and regulators; however, there are currently no audits for any tax periods in progress.
