NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE 1. PLAN DESCRIPTION

General

The Plan was a defined contribution plan covering all qualifying non-union employees of SP Fiber Technologies LLC (the "Company"). There were no eligibility service and age requirements. Employees could immediately elect to defer salary. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

SP Fiber Technologies LLC was acquired by WestRock Company effective October 1, 2015. The SP Fiber Technologies LLC Retirement Savings Plan was merged with the WestRock Company 401K Retirement Savings Plan effective December 31, 2015.

Contributions

Each year, participants could contribute 1% to 50% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered a money market fund, mutual funds and an insurance contract as investment options for participants. The Company contributed the lesser of 50% of base compensation that a participant contributed to the Plan or 3% of employee compensation. The Company could also make a discretionary profit sharing contribution. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately 100% vested and had a non-forfeitable interest in their basic and rollover contributions and subsequent investment growth in their contributions. Vesting in the Company's matching and discretionary profit sharing contributions were based on years of service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	100%

Notes Receivable from Participants

Participants could borrow from their participant account a minimum of \$500 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested interest in the Plan. The loans were secured by the balance in the participant's account and bore reasonable interest rates, currently ranging from 3.25% to 7%. Loan terms currently range from 1 to 5 years. Principal and interest were paid through payroll deductions. Loan transactions were treated as transfers from the investment fund to the participants' loan fund.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly or annual installments over a period not exceeding 20 years. For termination of service due to other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$131,464 and \$66,459, respectively. The forfeited accounts were transferred to WestRock Company 401k Retirement Savings Plan.

December 31, 2015 and 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for discussion of fair value measurements.)

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits were recorded when paid.

Administrative Costs

The Plan's administrative expenses were paid by the Plan and reduced net assets available for benefits unless the Company elected to pay such expenses.

NOTE 3. CERTIFICATION OF ASSETS

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Vanguard Fiduciary Trust Company ("Vanguard"), the trustee of the Plan, as complete and accurate to the best of their knowledge, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

NOTE 5. CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with MassMutual Diversified SAGIC II ("MassMutual") in 2013. MassMutual maintains the contributions in a separate account. MassMutual guaranteed principal and accrued interest, based on credited interest rates, for participant-initiated withdrawals as long as the contract remained active. Interest was credited to the contract at interest rates that reflected the performance of the underlying portfolio. MassMutual guarantees that no interest rate will ever be less than 0%. Participants received the principal and accrued earnings credited to their accounts upon withdrawal for allowed events. These events included transfers to other Plan investment options, and payments due to retirement, termination of employment, disability, death, and in-service withdrawals as permitted by the Plan.

Because the guaranteed investment contract was fully-benefit responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully-benefit responsive investment contracts. The guaranteed investment contract was presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual and Vanguard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average Yields	2015	2014
Based on actual earnings	3.17%	2.44%
Based on interest rate credited to participants	3.17%	2.44%

NOTE 6. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

Money market fund: Valued at the net asset value of shares held by the Plan at year end.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Contract with insurance company: Valued daily, using a mil rate which is a blend of the contracts' rate of return and the liquidity components daily mil rate. The contracts' rate of return is typically reset on a quarterly basis. The assets daily value is calculated based on the contract value which is based on the provisions of the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 66,405	\$ -	\$ -	\$ 66,405
Mutual funds:				
Balanced	17,727,307	-	-	17,727,307
Bonds	3,334,255	-	-	3,334,255
Domestic equity	39,493,333	-	-	39,493,333
International equity	2,114,033	-	-	2,114,033
Total mutual funds	62,668,928	-	-	62,668,928
Contract with insurance company	-	12,260,461	-	12,260,461
Total assets at fair value	\$ 62,735,333	\$ 12,260,461	\$ -	\$ 74,995,794

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2015 and 2014, there were no transfers in or out of levels 1, 2, or 3.

The contract with the insurance company fair value is estimated using net asset value per share.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE 7. RELATED PARTY TRANSACTIONS

Certain Plan investments were shares of mutual funds and investment contracts, which were managed by Vanguard. Vanguard was the trustee and therefore, transactions with Vanguard qualify as party-in-interest transactions.

Notes receivable from participants, with interest rates of 3.25% to 7.00%, totaled \$0 and \$1,686,501 at December 31, 2015 and 2014, respectively, and qualify as party-in-interest transactions.

Administrative fees of the Plan were paid on behalf of the Plan by the Company.

NOTE 8. PLAN TERMINATION

The Company anticipates and believes that the Plan will continue without interruption but has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balances and the Plan assets would be distributed to participants on the basis of their prorated values at the termination date.

NOTE 9. TAX STATUS

The Company has adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement, which received its original favorable opinion letter from the Internal Revenue Service ("IRS") on January 31, 2006, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has since been amended. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

FASB ASC requires the Plan Administrator to annually evaluate the Plan's tax positions, including accounting and measurement of uncertain tax positions. For the years ending December 31, 2015 and 2014 the Plan Administrator concluded that no uncertain tax positions had been taken that would require adjustment to or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by federal, state, or local tax authorities for years before 2012.

NOTE 10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
