Independent Auditor's Report

To the Plan Administrator
AK Steel Corporation Thrift Plans

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of AK Steel Corporation Thrift Plan - Plan Document A, AK Steel Corporation Thrift Plan - Plan Document B, and AK Steel Corporation Thrift Plan - Plan Document C (collectively, the "Plans"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014 and the related statements of changes in net assets available for benefits for the year ended December 31, 2015 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by T. Rowe Price Trust Company and Fidelity Management Trust Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plans' investment assets and participant notes receivable and execute related transactions. The plan administrator has obtained certifications from the Trustees as of December 31, 2015 and 2014 and for the year ended December 31, 2015 that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held at end of year - AK Steel Corporation Thrift Plan Document A, supplemental schedule of assets held at end of year - AK Steel Corporation Thrift Plan - Plan Document B, and supplemental schedule of assets held at end of year - AK Steel Corporation Thrift Plan - Plan Document C are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of the AK Steel Corporation Thrift Plan - Plan Document A (Plan A), AK Steel Corporation Thrift Plan - Plan Document B (Plan B), and AK Steel Corporation Thrift Plan - Plan Document C (Plan C) (collectively, the "Plans") provides only general information. Participants should refer to the Plans' agreements for a more complete description of the Plans' provisions.

General - The Plans are defined contribution plans covering certain employees of AK Steel Corporation (the "Company" or AK Steel) who are employed at a location designated by the Benefits Plan Administrative Committee (BPAC) as being eligible to participate. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Plan B has been frozen to new entrants since 1994. Employees at locations designated to participate in Plan B who were eligible and elected to participate prior to the freeze may continue to participate in Plan B.

Contributions - The Plans allow participants to contribute up to 10 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plans in the form of a rollover of funds from another qualified plan.

Plan A participants may elect to invest in Plan A through payroll deductions up to 100 percent of eligible wages, as defined in the plan. Contributions by a represented participant, up to 5 percent of eligible wages, are eligible for a company matching contribution up to 100 percent of participant contributions and potential supplemental contributions based on company performance during the year. All participant contributions, including any earnings thereon, are 100 percent vested at all times. No company matching or supplemental contributions were made for the year ended December 31, 2015.

Plan A also provides specific employees a fixed pension contribution of $1.80 to $2.00 per hour based on location and labor agreement.

Plan A also provides to nonrepresented salaried participants a fixed company match contribution. The fixed company match provision is 50 percent of the participant's contribution up to 5 percent of base salary.

Plan A also provides to nonrepresented salaried participants, a salary retirement contribution of 3 percent of base salary.

Contributions by a nonrepresented participant of Plan A, up to 5 percent of base salary, are eligible for an additional company matching contribution up to 50 percent of participant contributions and potential supplemental contributions based on company performance during the year. All participant contributions, including any earnings thereon, are 100 percent vested at all times. No additional company matching and supplemental contributions were made for the year ended December 31, 2015.

Note 1 - Plan Description (Continued)

Plan B participants may elect to invest in Plan B through payroll deductions up to 20 percent of eligible wages, as defined by the Pan. Contributions by a participant, up to 5 percent of base salary, are eligible for a Company matching contribution up to 100 percent of participant contributions, and potential supplemental contributions based on company performance during the year. No supplemental contributions were made for the year ended December 31, 2015.

Plan C participants may elect to invest in Plan C through payroll deductions up to 100 percent of eligible wages, depending on the unit-specific plan provision. In addition, AK Steel may match some portion of employee contributions, depending on the unit-specific plan provision.

Certain employees participate in the International Association of Machinists and Aerospace Workers (IAM) Pension Plan. However, an IAM pension plan provision limits contributions to compensation for 40 hours per week for the year. Once an affected hourly employee at the Butler Works location reaches contributions for 2,080 hours in the IAM plan, participation will revert back to Plan C for the remainder of the calendar year. The contribution rates per hour are the same for both plans.

Plan B and Plan C provide for employer discretionary contributions as may be approved from time to time by the board of directors. No discretionary contributions were made for the year ended December 31, 2015.

Participant Accounts - Each participant's account is credited with the participant and company contributions, investment earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation, contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plans. Certain participants continue to hold AK Steel Holding Corporation common stock as an investment; however, no contributions have been allowed since 1999, as such investment option was frozen at that time.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual net earnings thereon, is based on years of service. Pension contributions in Plan A vest over three to five years based on location and labor agreement. Plan A participants become fully vested in the remaining company contributions and related net earnings after three years of service. Plan B participants are fully vested in all contributions and related net earnings at all times and are not subject to forfeiture for any reason. Plan C participants become fully vested in the fixed contributions made by the Company and related net earnings after five years of service.

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plans and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Any portion of the participant's account balance invested in Company stock may be paid in cash or company stock.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan documents. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on the participant's termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2015 and 2014, forfeited account balances in Plan A totaled $442,921 and $49,475, respectively. At December 31, 2015 and 2014, there were no forfeited account balances in Plan B. At both December 31, 2015 and 2014, forfeited account balances in Plan C totaled $51.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company or Fidelity Management Trust Company or their affiliates. T. Rowe Price Trust Company and Fidelity Management Trust Company are the trustees of the Plans; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Plans invest in the common stock of the Company and the Company pays certain administrative fees on behalf of the Plans. The Company is the Plans' sponsor; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While the Company has not expressed any intent to do so, it has the right under each plan to discontinue its contributions at any time and to terminate each plan subject to the provisions set forth in the plan documents and ERISA. Upon termination of any of the Plans, affected participants of the terminated plan become 100 percent vested in their account balances.

Note 2 – Summary of Significant Accounting Policies

Investment Valuation - The fair value of each plan's interest in the AK Steel Corporation Thrift Plans Master Trust (the "Master Trust") is based on the beginning of year value of each plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value except for the AK Steel Fixed Income Fund, which is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Notes 4 and 6 for further information.

Investments held outside the Master Trust are valued as follows: the common collective trust funds are valued at net asset value (NAV) per share or its equivalent of the funds, which are based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. All other investments are valued based on quoted market prices. See Notes 4 and 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

The Plans also hold other assets and liabilities not measured at fair value on a recurring basis, including employee and employer contributions receivable. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to the short maturity of the instruments.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Risks and Uncertainties - The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Change in Presentation - The presentation of Plan A's investment in a stable value common collective trust for 2014 has been changed to be consistent with a clarification by the Financial Accounting Standards Board. The Master Trust's investment in the fund is presented using NAV per share as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board and had no effect on total net assets available for benefits or the change in net assets available for benefits.

New Accounting Pronouncements - During 2015, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient.* ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share as a practical expedient. Parts I and II of ASU No. 2015-12 were applicable to the Plan. Part I requires the fully benefit-responsive investment contract be recorded at contract value without presentation of fair value or the difference between fair value and contract value and reduces the related disclosures. Part II modified the investment disclosures under ASC 820 and 962. These standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events through and including October 3, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. A prior trustee, Fidelity Management Trust Company, held Plan A investments and participant notes receivable and executed all related transactions until Plan A transferred the investments to the Trustee. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year, as well as the Master Trust information included in Note 4, are based solely on information provided by the Trustee and Fidelity Management Trust Company.

Note 4 - Interest in Master Trust

The Plans' investments are in the Master Trust which was established for the investment of assets of the Plans. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. The assets of the Master Trust are held by T. Rowe Price Trust Company, a trustee. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon actual balances invested by each plan.

At December 31, 2015 and 2014, each plan's respective interests in the Master Trust were as follows:

	2015	2014
Plan A	54.7 %	65.0 %
Plan B	0.9	1.2
Plan C	44.4	33.8

Investments held by the Master Trust are stated at fair value except for the AK Steel Fixed Income Fund, which is stated at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches. The hierarchy of those valuation approaches is broken down into three levels based on the reliability of inputs as follows:

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset at the measurement date. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. Management's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 4 – Interest in Master Trust (Continued)

The following valuation methodologies have been used to value the Plans' investments:

Common Stock - Common stocks are valued at closing quoted prices reported in active markets.

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Funds - The common collective trust funds are valued at NAV per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying net assets.

Money Market Funds - The money market funds are valued at their outstanding balance, which is the best estimate of fair value, or at closing quoted prices reported in active markets.

Self-directed Brokerage Accounts - Plan A allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities which are valued at the closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Interest in Master Trust (Continued)

The following tables present information about the Master Trust's net assets measured at fair value on a recurring basis at December 31, 2015 and 2014 and the valuation techniques used by the Plans to determine those fair values.

Master Trust Assets at December 31, 2015

Investments at Contract Value - AK Steel Fixed Income Fund (Note 5)	171,610,651	
Net assets of the Master Trust	$ 646,135,316	

(1) This class represents investments in an actively managed common collective trust fund that invests primarily in U.S. and non-U.S. equity securities. There were no unfunded commitments or redemption restrictions.

Note 4 - Interest in Master Trust (Continued)

The components of investment income for the Master Trust for the year ended December 31, 2015 are as follows:

Net realized and unrealized gains and losses - Investments at fair value	$ (25,034,072)
Interest and dividends	36,548,733
Other income	25,772
Net investment income	$ 11,540,433

Note 5 - AK Steel Fixed Income Fund

The Plans provide a separately managed stable value investment option to participants that includes guaranteed investment contracts (GICs) and synthetic investment contracts (SICs) that are 100 percent owned by the Master Trust. The SICs consist of a portfolio of underlying assets that includes common collective trusts, bonds, mortgage securities, and cash reserves owned by the Plans and a wrap contract issued by financial services institutions. The contract provides that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates on the SICs typically reset quarterly based on market rates of other similar investments, the current yield of the underlying investments, and the spread between the market value and the contract value. The rate cannot be less than zero. The interest rates on the GICs are typically fixed. Certain events, such as plan terminations or a plan merger initiated by the Plans' sponsor, may limit the ability of the Plans to transact at contract value, or may allow for the termination of the SICs or GICs at less than contract value. The Plans' sponsor does not believe that any events that may limit the ability of the Plans to transact at contract value are probable. As described in Note 2, because the SICs are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the SICs. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plans' assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

The following tables present information about Plan A's assets outside the Master Trust measured at fair value on a recurring basis at December 31, 2014.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1

(2) This class represents investments in actively managed common collective trust funds that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

Note 7 - Tax Status

The Plans have received determination letters from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 8 - Plan Merger

On October 1, 2015, the AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan, the AK Steel Corporation United Steelworkers of America Retirement Savings Plan, and the AK Steel Tax-Efficient Savings Plan for Hourly Employees (collectively the "Plans") were merged with and into Plan C. The Plans ceased to be separate plans as of September 30, 2015. Accordingly, assets of approximately $155 million were transferred into Plan C in 2015.

Note 9 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements of December 31, 2015 to Form 5500:

	2015

Independent Auditor's Report

To the Plan Administrator
AK Steel Corporation Thrift Plans

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of AK Steel Corporation Thrift Plan - Plan Document A, AK Steel Corporation Thrift Plan - Plan Document B, and AK Steel Corporation Thrift Plan - Plan Document C (collectively, the "Plans"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014 and the related statements of changes in net assets available for benefits for the year ended December 31, 2015 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by T. Rowe Price Trust Company and Fidelity Management Trust Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plans' investment assets and participant notes receivable and execute related transactions. The plan administrator has obtained certifications from the Trustees as of December 31, 2015 and 2014 and for the year ended December 31, 2015 that the information provided to the plan administrator by the Trustees is complete and accurate.

Note 1 - Plan Description

The following description of the AK Steel Corporation Thrift Plan - Plan Document A (Plan A), AK Steel Corporation Thrift Plan - Plan Document B (Plan B), and AK Steel Corporation Thrift Plan - Plan Document C (Plan C) (collectively, the "Plans") provides only general information. Participants should refer to the Plans' agreements for a more complete description of the Plans' provisions.

General - The Plans are defined contribution plans covering certain employees of AK Steel Corporation (the "Company" or AK Steel) who are employed at a location designated by the Benefits Plan Administrative Committee (BPAC) as being eligible to participate. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Plan B has been frozen to new entrants since 1994. Employees at locations designated to participate in Plan B who were eligible and elected to participate prior to the freeze may continue to participate in Plan B.

Contributions - The Plans allow participants to contribute up to 10 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plans in the form of a rollover of funds from another qualified plan.

Plan A participants may elect to invest in Plan A through payroll deductions up to 100 percent of eligible wages, as defined in the plan. Contributions by a represented participant, up to 5 percent of eligible wages, are eligible for a company matching contribution up to 100 percent of participant contributions and potential supplemental contributions based on company performance during the year. All participant contributions, including any earnings thereon, are 100 percent vested at all times. No company matching or supplemental contributions were made for the year ended December 31, 2015.

Plan A also provides specific employees a fixed pension contribution of $1.80 to $2.00 per hour based on location and labor agreement.

Plan A also provides to nonrepresented salaried participants a fixed company match contribution. The fixed company match provision is 50 percent of the participant's contribution up to 5 percent of base salary.

Plan A also provides to nonrepresented salaried participants, a salary retirement contribution of 3 percent of base salary.

Contributions by a nonrepresented participant of Plan A, up to 5 percent of base salary, are eligible for an additional company matching contribution up to 50 percent of participant contributions and potential supplemental contributions based on company performance during the year. All participant contributions, including any earnings thereon, are 100 percent vested at all times. No additional company matching and supplemental contributions were made for the year ended December 31, 2015.

Note 1 - Plan Description (Continued)

Plan B participants may elect to invest in Plan B through payroll deductions up to 20 percent of eligible wages, as defined by the Pan. Contributions by a participant, up to 5 percent of base salary, are eligible for a Company matching contribution up to 100 percent of participant contributions, and potential supplemental contributions based on company performance during the year. No supplemental contributions were made for the year ended December 31, 2015.

Plan C participants may elect to invest in Plan C through payroll deductions up to 100 percent of eligible wages, depending on the unit-specific plan provision. In addition, AK Steel may match some portion of employee contributions, depending on the unit-specific plan provision.

Certain employees participate in the International Association of Machinists and Aerospace Workers (IAM) Pension Plan. However, an IAM pension plan provision limits contributions to compensation for 40 hours per week for the year. Once an affected hourly employee at the Butler Works location reaches contributions for 2,080 hours in the IAM plan, participation will revert back to Plan C for the remainder of the calendar year. The contribution rates per hour are the same for both plans.

Plan B and Plan C provide for employer discretionary contributions as may be approved from time to time by the board of directors. No discretionary contributions were made for the year ended December 31, 2015.

Participant Accounts - Each participant's account is credited with the participant and company contributions, investment earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation, contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plans. Certain participants continue to hold AK Steel Holding Corporation common stock as an investment; however, no contributions have been allowed since 1999, as such investment option was frozen at that time.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual net earnings thereon, is based on years of service. Pension contributions in Plan A vest over three to five years based on location and labor agreement. Plan A participants become fully vested in the remaining company contributions and related net earnings after three years of service. Plan B participants are fully vested in all contributions and related net earnings at all times and are not subject to forfeiture for any reason. Plan C participants become fully vested in the fixed contributions made by the Company and related net earnings after five years of service.

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plans and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Any portion of the participant's account balance invested in Company stock may be paid in cash or company stock.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan documents. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on the participant's termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2015 and 2014, forfeited account balances in Plan A totaled $442,921 and $49,475, respectively. At December 31, 2015 and 2014, there were no forfeited account balances in Plan B. At both December 31, 2015 and 2014, forfeited account balances in Plan C totaled $51.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company or Fidelity Management Trust Company or their affiliates. T. Rowe Price Trust Company and Fidelity Management Trust Company are the trustees of the Plans; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Plans invest in the common stock of the Company and the Company pays certain administrative fees on behalf of the Plans. The Company is the Plans' sponsor; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While the Company has not expressed any intent to do so, it has the right under each plan to discontinue its contributions at any time and to terminate each plan subject to the provisions set forth in the plan documents and ERISA. Upon termination of any of the Plans, affected participants of the terminated plan become 100 percent vested in their account balances.

Note 2 – Summary of Significant Accounting Policies

Investment Valuation - The fair value of each plan's interest in the AK Steel Corporation Thrift Plans Master Trust (the "Master Trust") is based on the beginning of year value of each plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value except for the AK Steel Fixed Income Fund, which is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Notes 4 and 6 for further information.

Investments held outside the Master Trust are valued as follows: the common collective trust funds are valued at net asset value (NAV) per share or its equivalent of the funds, which are based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. All other investments are valued based on quoted market prices. See Notes 4 and 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

The Plans also hold other assets and liabilities not measured at fair value on a recurring basis, including employee and employer contributions receivable. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to the short maturity of the instruments.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Risks and Uncertainties - The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Change in Presentation - The presentation of Plan A's investment in a stable value common collective trust for 2014 has been changed to be consistent with a clarification by the Financial Accounting Standards Board. The Master Trust's investment in the fund is presented using NAV per share as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board and had no effect on total net assets available for benefits or the change in net assets available for benefits.

New Accounting Pronouncements - During 2015, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient.* ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share as a practical expedient. Parts I and II of ASU No. 2015-12 were applicable to the Plan. Part I requires the fully benefit-responsive investment contract be recorded at contract value without presentation of fair value or the difference between fair value and contract value and reduces the related disclosures. Part II modified the investment disclosures under ASC 820 and 962. These standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events through and including October 3, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. A prior trustee, Fidelity Management Trust Company, held Plan A investments and participant notes receivable and executed all related transactions until Plan A transferred the investments to the Trustee. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year, as well as the Master Trust information included in Note 4, are based solely on information provided by the Trustee and Fidelity Management Trust Company.

Note 4 - Interest in Master Trust

The Plans' investments are in the Master Trust which was established for the investment of assets of the Plans. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. The assets of the Master Trust are held by T. Rowe Price Trust Company, a trustee. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon actual balances invested by each plan.

At December 31, 2015 and 2014, each plan's respective interests in the Master Trust were as follows:

	2015	2014
Plan A	54.7 %	65.0 %
Plan B	0.9	1.2
Plan C	44.4	33.8

Investments held by the Master Trust are stated at fair value except for the AK Steel Fixed Income Fund, which is stated at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches. The hierarchy of those valuation approaches is broken down into three levels based on the reliability of inputs as follows:

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset at the measurement date. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. Management's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 4 – Interest in Master Trust (Continued)

The following valuation methodologies have been used to value the Plans' investments:

Common Stock - Common stocks are valued at closing quoted prices reported in active markets.

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Funds - The common collective trust funds are valued at NAV per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying net assets.

Money Market Funds - The money market funds are valued at their outstanding balance, which is the best estimate of fair value, or at closing quoted prices reported in active markets.

Self-directed Brokerage Accounts - Plan A allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities which are valued at the closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Interest in Master Trust (Continued)

The following tables present information about the Master Trust's net assets measured at fair value on a recurring basis at December 31, 2015 and 2014 and the valuation techniques used by the Plans to determine those fair values.

Investments at Contract Value - AK Steel Fixed Income Fund (Note 5)	171,610,651	
Net assets of the Master Trust	$ 646,135,316	

(1) This class represents investments in an actively managed common collective trust fund that invests primarily in U.S. and non-U.S. equity securities. There were no unfunded commitments or redemption restrictions.

Note 4 - Interest in Master Trust (Continued)

The components of investment income for the Master Trust for the year ended December 31, 2015 are as follows:

Net realized and unrealized gains and losses - Investments at fair value	$ (25,034,072)
Interest and dividends	36,548,733
Other income	25,772
Net investment income	$ 11,540,433

Note 5 - AK Steel Fixed Income Fund

The Plans provide a separately managed stable value investment option to participants that includes guaranteed investment contracts (GICs) and synthetic investment contracts (SICs) that are 100 percent owned by the Master Trust. The SICs consist of a portfolio of underlying assets that includes common collective trusts, bonds, mortgage securities, and cash reserves owned by the Plans and a wrap contract issued by financial services institutions. The contract provides that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates on the SICs typically reset quarterly based on market rates of other similar investments, the current yield of the underlying investments, and the spread between the market value and the contract value. The rate cannot be less than zero. The interest rates on the GICs are typically fixed. Certain events, such as plan terminations or a plan merger initiated by the Plans' sponsor, may limit the ability of the Plans to transact at contract value, or may allow for the termination of the SICs or GICs at less than contract value. The Plans' sponsor does not believe that any events that may limit the ability of the Plans to transact at contract value are probable. As described in Note 2, because the SICs are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the SICs. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plans' assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

The following tables present information about Plan A's assets outside the Master Trust measured at fair value on a recurring basis at December 31, 2014.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1

(2) This class represents investments in actively managed common collective trust funds that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

Note 7 - Tax Status

The Plans have received determination letters from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 8 - Plan Merger

On October 1, 2015, the AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan, the AK Steel Corporation United Steelworkers of America Retirement Savings Plan, and the AK Steel Tax-Efficient Savings Plan for Hourly Employees (collectively the "Plans") were merged with and into Plan C. The Plans ceased to be separate plans as of September 30, 2015. Accordingly, assets of approximately $155 million were transferred into Plan C in 2015.

Note 9 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements of December 31, 2015 to Form 5500:

	2015
