Independent Auditor's Report

RSM US LLP

To the Participants, the Board of Directors of the Plan
Sponsor and the ESOT Committee
Hanson Group, Inc.
Employees Stock Ownership Trust

Report on the Financial Statements
We have audited the accompanying financial statements of the Hanson Group, Inc. Employees Stock Ownership Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Emphasis of Matters
As discussed in Note2 to the financial statements, the Plan adopted new accounting guidance related to presentation of fair value of certain investments and disclosure of investments. Prior year disclosures have also been revised to reflect the retrospective application of adopting these changes in accounting.

As discussed in Note 3, the financial statements includes an investment representing approximately 80 percent of net assets available for benefits as of December 31, 2015 and 2014, whose fair value has been estimated by management based upon independent appraisal valuations in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Our opinion is not modified with respect to these matters.

Other Matter - Report on Supplementary Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2015 and the supplemental schedule of reportable transactions for the year ended December 31, 2015, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description

The following description of the Hanson Group, Inc. Employees Stock Ownership Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Hanson Group, Inc. (the Company) established the Plan effective as of January 1, 1989. The Plan, as amended, operates, in relevant part, as a non-leveraged employee stock ownership plan, and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by Principal Financial Group. First Bankers Trust Services, Inc. is the Plan's Trustee.

The Plan originally purchased Company common shares using the proceeds of borrowings from both financial institution and non-financial institution lenders. The borrowings have been fully repaid.

Eligibility: The Plan covers all eligible employees of Hanson Professional Services, Inc., a wholly owned subsidiary of Hanson Group, Inc., who have completed six months of service.

Employer contributions: Each year, amounts are contributed to the Plan at the discretion of the Company's Board of Directors.

Payment of benefits: With the exception of distributions to 100 percent vested participants who are age 59½ and participants eligible for a diversification distribution, no distributions from the Plan will be made until a participant retires, becomes totally and permanently disabled, dies (in which case, payment shall be made to their beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with Hanson Professional Services, Inc. Distributions can be made in cash or stock.

Participants with a vested interest of $1,000 or less shall be paid a lump-sum amount equal to their account value as soon as administratively feasible after the close of the plan year following their date of termination. If a participant's vested benefit under the Plan exceeds $1,000, but does not exceed $5,000 and the participant does not make a distribution election in the plan year following the participant's date of termination, the benefit will be paid by a direct rollover to an individual retirement plan designated by the Plan Administrator. A participant who attains normal retirement age, or who retires after reaching age 55, can elect to receive a lump-sum distribution of his or her account, which shall be paid as soon as administratively possible, following the participant's election. A participant that separates from service as a result of death or disability, if elected, shall be paid a lump-sum amount equal to the value of his or her account no later than one year after the close of the plan year in which death or disability occurs. All other participants who terminate can elect to receive their distribution in a lump-sum as soon as administratively feasible, after the close of the plan year in which termination occurs. A participant who has attained age 59½, is 100 percent vested, and has not separated from service can elect to receive a distribution of all or a portion of his or her account payable in a lump-sum as soon as administratively possible, following the participant's election.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Plan did not distribute any participant shares during 2015.

Voting rights: In certain situations, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised.

Note 1. Plan Description (Continued)

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of (a) Company contributions, (b) plan earnings (losses) and (c) forfeitures of terminated participant's non-vested accounts. Only those participants who are eligible employees of Hanson Professional Services, Inc. as of the last day of the plan year and eligible employees who terminated during the plan year due to retirement, total and permanent disability, or death will receive an allocation of Company contributions and forfeitures.

The repurchase of stock from participants who received a distribution is limited to active participants and is based on the participant's cash balance. Allocations of plan earnings (losses) are based on participant account balances. Employer contributions and forfeitures are allocated based on the ratio that each participants total plan year eligible compensation bears to the total plan year eligible compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Vesting in the participants' accounts is based on years of continuous service at the following rate: 20 percent after 1 year of service, 40 percent after 2 years, 60 percent after 3 years, 80 percent after 4 years and 100 percent after 5 years.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or that is subject to trading limitations, includes a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its stock distributed to participants for which there is no market. The liquidity put price is representative of the fair market value of the stock. The Company can pay for the purchase in a lump sum, or in installments over a period of time, generally not to exceed five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Forfeited accounts: Forfeited non-vested accounts totaling $15,107 were allocated to continuing participants during the year ended December 31, 2015. There were no unallocated forfeitures held by the Plan at December 31, 2015 or 2014.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates in the preparation of financial statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's ESOT committee determines the Plan's valuation policies utilizing information provided by the Plan trustee and investment custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: All expenses of maintaining the Plan are paid by Hanson Professional Services, Inc.

Adopted accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the 2015 plan year, however, the impact of adopting this update was not significant.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in this update for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior-year disclosures in Note 3 has been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Note 3. Investments and Fair Value Measurements

The Plan's investments in Company stock, at December 31, are as presented in the following table:

	2015	2014
	Allocated	Allocated
Hanson Group, Inc. common stock:		
Number of shares	42,859	41,221
Cost	$ 6,169,581	$ 5,623,079
Fair value	$ 13,106,712	$ 13,752,974

The market value per share of Hanson Group, Inc. common stock as of December 31, 2015 and 2014 was $305.81 and $333.64, respectively.

Hanson Group, Inc. had 79,264 and 79,174 shares of common stock issued and outstanding as of December 31, 2015 and 2014, respectively.

Note 3. Investments and Fair Value Measurements (Continued)

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end based upon the fair value of the underlying investments.

Certificates of deposit: Valued daily using a curve-based approach by a pricing service, based upon the rates for specific instruments, programs, currencies and maturity points obtained from a variety of market makers that reflect current trading levels.

Hanson Group, Inc. common stock: The fair value of Hanson Group, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the discounted cash flow method and the guideline public comparables method, which is consistent with prior years. The appraiser took into account historical and projected revenues, gross profit, EBIT, EBITDA, cash flow, capital expenditures and net income, return on assets, return on equity, market comparables in earnings and revenue. The valuation was weighted 75 percent to the discounted cash flow method and 25 percent to the guideline public comparables method. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Note 3. Investments and Fair Value Measurements (Continued)

The valuation process involves the Plan fiduciary's selection of an independent appraiser under a written contract. Company management accumulates the data for the appraiser from the audited financial statements of the Company and prepares the models for future growth or profitability expectations. The appraiser prepares a preliminary report which Company management, along with the ESOT fiduciary committee, reviews in detail, discusses, modifies, if appropriate and ultimately, approves. The results of this process are documented in minutes of the Plan fiduciary committee.

The following table represents the Plan's Level 3 financial instrument, valuation techniques used to measure the fair value of the Level 3 financial instrument, and the significant unobservable inputs as of December 31, 2015 and 2014:

Instrument	2015 Fair Value	2014 Fair Value	Principal Valuation Technique	Unobservable Inputs
Hanson Group, Inc. common stock	$ 13,106,712	$ 13,752,974	Discounted cash flow method	Financial information projections
				Capital expenditure and working capital projections
				Weighted average cost of capital
				Long-term revenue terminal growth rate
			Guideline public comparables method	Guideline public companies that operate in similar markets, have similar risk factors, and experience similar business cycles
				Publicly-traded to private comparables discount

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 309,929	$ -	$ -	$ 309,929

Hanson Group, Inc. common stock (42,859 shares)	-	-	13,106,712	13,106,712
	$ 2,309,364	$ -	$ 13,106,712	$ 15,416,076

Note 3. Investments and Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 179,308	$ -	$ -	$ 179,308
Certificate of deposit	1,999,580	-	-	1,999,580
Hanson Group, Inc. common stock (41,221 shares)	-	-	13,752,974	13,752,974
	$ 2,178,888	$ -	$ 13,752,974	$ 15,931,862

Changes in Fair Values

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Hanson Group, Inc. common stock
Balance, beginning of year	$ 13,752,974
Unrealized losses related to instruments still held at report date	(1,192,765)
Stock purchase	546,503
Balance, end of year	$ 13,106,712

Note 4. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of Company common stock. Company contributions are held and managed by the Trustee. In the event of a distribution, the Trustee transfers the funds to Principal Financial Group, who then makes distributions to participants.

Certain administrative functions are performed by officers or employees of Hanson Professional Services, Inc. for which no compensation is paid by the Plan. Administrative expenses for the Plan are paid directly by Hanson Professional Services, Inc.

Note 5. Tax Status

The Internal Revenue Service has determined and informed the plan sponsor, by a letter dated September 29, 2013, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities before 2012.

Note 6. Party-In-Interest Transactions and Plan Expenses Paid by the Company

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons. During the year, the Plan invested in shares of money market funds managed by First Banker Trust Services.

Fees paid by Hanson Professional Services Inc., the plan sponsor, to RSM US LLP; Prairie Capital Advisors, Inc; Davis & Campbell, LLC; Principal Financial Group; U.S. Treasury; and First Bankers Trust Services for services provided to the Plan were $102,973 for the year ended December 31, 2015.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts, and the interest of each participant in the trust fund would be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the Code.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Independent Auditor's Report

RSM US LLP

To the Participants, the Board of Directors of the Plan
Sponsor and the ESOT Committee
Hanson Group, Inc.
Employees Stock Ownership Trust

Report on the Financial Statements
We have audited the accompanying financial statements of the Hanson Group, Inc. Employees Stock Ownership Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Emphasis of Matters
As discussed in Note2 to the financial statements, the Plan adopted new accounting guidance related to presentation of fair value of certain investments and disclosure of investments. Prior year disclosures have also been revised to reflect the retrospective application of adopting these changes in accounting.

As discussed in Note 3, the financial statements includes an investment representing approximately 80 percent of net assets available for benefits as of December 31, 2015 and 2014, whose fair value has been estimated by management based upon independent appraisal valuations in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Our opinion is not modified with respect to these matters.

Other Matter - Report on Supplementary Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2015 and the supplemental schedule of reportable transactions for the year ended December 31, 2015, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description

The following description of the Hanson Group, Inc. Employees Stock Ownership Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Hanson Group, Inc. (the Company) established the Plan effective as of January 1, 1989. The Plan, as amended, operates, in relevant part, as a non-leveraged employee stock ownership plan, and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by Principal Financial Group. First Bankers Trust Services, Inc. is the Plan's Trustee.

The Plan originally purchased Company common shares using the proceeds of borrowings from both financial institution and non-financial institution lenders. The borrowings have been fully repaid.

Eligibility: The Plan covers all eligible employees of Hanson Professional Services, Inc., a wholly owned subsidiary of Hanson Group, Inc., who have completed six months of service.

Employer contributions: Each year, amounts are contributed to the Plan at the discretion of the Company's Board of Directors.

Payment of benefits: With the exception of distributions to 100 percent vested participants who are age 59½ and participants eligible for a diversification distribution, no distributions from the Plan will be made until a participant retires, becomes totally and permanently disabled, dies (in which case, payment shall be made to their beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with Hanson Professional Services, Inc. Distributions can be made in cash or stock.

Participants with a vested interest of $1,000 or less shall be paid a lump-sum amount equal to their account value as soon as administratively feasible after the close of the plan year following their date of termination. If a participant's vested benefit under the Plan exceeds $1,000, but does not exceed $5,000 and the participant does not make a distribution election in the plan year following the participant's date of termination, the benefit will be paid by a direct rollover to an individual retirement plan designated by the Plan Administrator. A participant who attains normal retirement age, or who retires after reaching age 55, can elect to receive a lump-sum distribution of his or her account, which shall be paid as soon as administratively possible, following the participant's election. A participant that separates from service as a result of death or disability, if elected, shall be paid a lump-sum amount equal to the value of his or her account no later than one year after the close of the plan year in which death or disability occurs. All other participants who terminate can elect to receive their distribution in a lump-sum as soon as administratively feasible, after the close of the plan year in which termination occurs. A participant who has attained age 59½, is 100 percent vested, and has not separated from service can elect to receive a distribution of all or a portion of his or her account payable in a lump-sum as soon as administratively possible, following the participant's election.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Plan did not distribute any participant shares during 2015.

Voting rights: In certain situations, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised.

Note 1. Plan Description (Continued)

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of (a) Company contributions, (b) plan earnings (losses) and (c) forfeitures of terminated participant's non-vested accounts. Only those participants who are eligible employees of Hanson Professional Services, Inc. as of the last day of the plan year and eligible employees who terminated during the plan year due to retirement, total and permanent disability, or death will receive an allocation of Company contributions and forfeitures.

The repurchase of stock from participants who received a distribution is limited to active participants and is based on the participant's cash balance. Allocations of plan earnings (losses) are based on participant account balances. Employer contributions and forfeitures are allocated based on the ratio that each participants total plan year eligible compensation bears to the total plan year eligible compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Vesting in the participants' accounts is based on years of continuous service at the following rate: 20 percent after 1 year of service, 40 percent after 2 years, 60 percent after 3 years, 80 percent after 4 years and 100 percent after 5 years.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or that is subject to trading limitations, includes a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its stock distributed to participants for which there is no market. The liquidity put price is representative of the fair market value of the stock. The Company can pay for the purchase in a lump sum, or in installments over a period of time, generally not to exceed five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Forfeited accounts: Forfeited non-vested accounts totaling $15,107 were allocated to continuing participants during the year ended December 31, 2015. There were no unallocated forfeitures held by the Plan at December 31, 2015 or 2014.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates in the preparation of financial statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's ESOT committee determines the Plan's valuation policies utilizing information provided by the Plan trustee and investment custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: All expenses of maintaining the Plan are paid by Hanson Professional Services, Inc.

Adopted accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the 2015 plan year, however, the impact of adopting this update was not significant.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in this update for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior-year disclosures in Note 3 has been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Note 3. Investments and Fair Value Measurements

The Plan's investments in Company stock, at December 31, are as presented in the following table:

	2015	2014
	Allocated	Allocated
Hanson Group, Inc. common stock:		
Number of shares	42,859	41,221
Cost	$ 6,169,581	$ 5,623,079
Fair value	$ 13,106,712	$ 13,752,974

The market value per share of Hanson Group, Inc. common stock as of December 31, 2015 and 2014 was $305.81 and $333.64, respectively.

Hanson Group, Inc. had 79,264 and 79,174 shares of common stock issued and outstanding as of December 31, 2015 and 2014, respectively.

Note 3. Investments and Fair Value Measurements (Continued)

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end based upon the fair value of the underlying investments.

Certificates of deposit: Valued daily using a curve-based approach by a pricing service, based upon the rates for specific instruments, programs, currencies and maturity points obtained from a variety of market makers that reflect current trading levels.

Hanson Group, Inc. common stock: The fair value of Hanson Group, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the discounted cash flow method and the guideline public comparables method, which is consistent with prior years. The appraiser took into account historical and projected revenues, gross profit, EBIT, EBITDA, cash flow, capital expenditures and net income, return on assets, return on equity, market comparables in earnings and revenue. The valuation was weighted 75 percent to the discounted cash flow method and 25 percent to the guideline public comparables method. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Note 3. Investments and Fair Value Measurements (Continued)

The valuation process involves the Plan fiduciary's selection of an independent appraiser under a written contract. Company management accumulates the data for the appraiser from the audited financial statements of the Company and prepares the models for future growth or profitability expectations. The appraiser prepares a preliminary report which Company management, along with the ESOT fiduciary committee, reviews in detail, discusses, modifies, if appropriate and ultimately, approves. The results of this process are documented in minutes of the Plan fiduciary committee.

The following table represents the Plan's Level 3 financial instrument, valuation techniques used to measure the fair value of the Level 3 financial instrument, and the significant unobservable inputs as of December 31, 2015 and 2014:

Instrument	2015 Fair Value	2014 Fair Value	Principal Valuation Technique	Unobservable Inputs
Hanson Group, Inc. common stock	$ 13,106,712	$ 13,752,974	Discounted cash flow method	Financial information projections
				Capital expenditure and working capital projections
				Weighted average cost of capital
				Long-term revenue terminal growth rate
			Guideline public comparables method	Guideline public companies that operate in similar markets, have similar risk factors, and experience similar business cycles
				Publicly-traded to private comparables discount

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 309,929	$ -	$ -	$ 309,929
Certificate of deposit	1,999,435	-	-	1,999,435
Hanson Group, Inc. common stock (42,859 shares)	-	-	13,106,712	13,106,712
	$ 2,309,364	$ -	$ 13,106,712	$ 15,416,076

Note 3. Investments and Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 179,308	$ -	$ -	$ 179,308
Certificate of deposit	1,999,580	-	-	1,999,580
Hanson Group, Inc. common stock (41,221 shares)	-	-	13,752,974	13,752,974
	$ 2,178,888	$ -	$ 13,752,974	$ 15,931,862

Changes in Fair Values

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Hanson Group, Inc. common stock
Balance, beginning of year	$ 13,752,974
Unrealized losses related to instruments still held at report date	(1,192,765)
Stock purchase	546,503
Balance, end of year	$ 13,106,712

Note 4. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of Company common stock. Company contributions are held and managed by the Trustee. In the event of a distribution, the Trustee transfers the funds to Principal Financial Group, who then makes distributions to participants.

Certain administrative functions are performed by officers or employees of Hanson Professional Services, Inc. for which no compensation is paid by the Plan. Administrative expenses for the Plan are paid directly by Hanson Professional Services, Inc.

Note 5. Tax Status

The Internal Revenue Service has determined and informed the plan sponsor, by a letter dated September 29, 2013, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities before 2012.

Note 6. Party-In-Interest Transactions and Plan Expenses Paid by the Company

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons. During the year, the Plan invested in shares of money market funds managed by First Banker Trust Services.

Fees paid by Hanson Professional Services Inc., the plan sponsor, to RSM US LLP; Prairie Capital Advisors, Inc; Davis & Campbell, LLC; Principal Financial Group; U.S. Treasury; and First Bankers Trust Services for services provided to the Plan were $102,973 for the year ended December 31, 2015.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts, and the interest of each participant in the trust fund would be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the Code.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Independent Auditor's Report

To the Participants, the Board of Directors of the Plan
Sponsor and the ESOT Committee
Hanson Group, Inc.
Employees Stock Ownership Trust

Report on the Financial Statements
We have audited the accompanying financial statements of the Hanson Group, Inc. Employees Stock Ownership Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Emphasis of Matters
As discussed in Note2 to the financial statements, the Plan adopted new accounting guidance related to presentation of fair value of certain investments and disclosure of investments. Prior year disclosures have also been revised to reflect the retrospective application of adopting these changes in accounting.

As discussed in Note 3, the financial statements includes an investment representing approximately 80 percent of net assets available for benefits as of December 31, 2015 and 2014, whose fair value has been estimated by management based upon independent appraisal valuations in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Our opinion is not modified with respect to these matters.

Other Matter - Report on Supplementary Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2015 and the supplemental schedule of reportable transactions for the year ended December 31, 2015, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description

The following description of the Hanson Group, Inc. Employees Stock Ownership Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Hanson Group, Inc. (the Company) established the Plan effective as of January 1, 1989. The Plan, as amended, operates, in relevant part, as a non-leveraged employee stock ownership plan, and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by Principal Financial Group. First Bankers Trust Services, Inc. is the Plan's Trustee.

The Plan originally purchased Company common shares using the proceeds of borrowings from both financial institution and non-financial institution lenders. The borrowings have been fully repaid.

Eligibility: The Plan covers all eligible employees of Hanson Professional Services, Inc., a wholly owned subsidiary of Hanson Group, Inc., who have completed six months of service.

Employer contributions: Each year, amounts are contributed to the Plan at the discretion of the Company's Board of Directors.

Payment of benefits: With the exception of distributions to 100 percent vested participants who are age 59½ and participants eligible for a diversification distribution, no distributions from the Plan will be made until a participant retires, becomes totally and permanently disabled, dies (in which case, payment shall be made to their beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with Hanson Professional Services, Inc. Distributions can be made in cash or stock.

Participants with a vested interest of $1,000 or less shall be paid a lump-sum amount equal to their account value as soon as administratively feasible after the close of the plan year following their date of termination. If a participant's vested benefit under the Plan exceeds $1,000, but does not exceed $5,000 and the participant does not make a distribution election in the plan year following the participant's date of termination, the benefit will be paid by a direct rollover to an individual retirement plan designated by the Plan Administrator. A participant who attains normal retirement age, or who retires after reaching age 55, can elect to receive a lump-sum distribution of his or her account, which shall be paid as soon as administratively possible, following the participant's election. A participant that separates from service as a result of death or disability, if elected, shall be paid a lump-sum amount equal to the value of his or her account no later than one year after the close of the plan year in which death or disability occurs. All other participants who terminate can elect to receive their distribution in a lump-sum as soon as administratively feasible, after the close of the plan year in which termination occurs. A participant who has attained age 59½, is 100 percent vested, and has not separated from service can elect to receive a distribution of all or a portion of his or her account payable in a lump-sum as soon as administratively possible, following the participant's election.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Plan did not distribute any participant shares during 2015.

Voting rights: In certain situations, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised.

Note 1. Plan Description (Continued)

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of (a) Company contributions, (b) plan earnings (losses) and (c) forfeitures of terminated participant's non-vested accounts. Only those participants who are eligible employees of Hanson Professional Services, Inc. as of the last day of the plan year and eligible employees who terminated during the plan year due to retirement, total and permanent disability, or death will receive an allocation of Company contributions and forfeitures.

The repurchase of stock from participants who received a distribution is limited to active participants and is based on the participant's cash balance. Allocations of plan earnings (losses) are based on participant account balances. Employer contributions and forfeitures are allocated based on the ratio that each participants total plan year eligible compensation bears to the total plan year eligible compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Vesting in the participants' accounts is based on years of continuous service at the following rate: 20 percent after 1 year of service, 40 percent after 2 years, 60 percent after 3 years, 80 percent after 4 years and 100 percent after 5 years.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or that is subject to trading limitations, includes a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its stock distributed to participants for which there is no market. The liquidity put price is representative of the fair market value of the stock. The Company can pay for the purchase in a lump sum, or in installments over a period of time, generally not to exceed five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Forfeited accounts: Forfeited non-vested accounts totaling $15,107 were allocated to continuing participants during the year ended December 31, 2015. There were no unallocated forfeitures held by the Plan at December 31, 2015 or 2014.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates in the preparation of financial statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's ESOT committee determines the Plan's valuation policies utilizing information provided by the Plan trustee and investment custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: All expenses of maintaining the Plan are paid by Hanson Professional Services, Inc.

Adopted accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the 2015 plan year, however, the impact of adopting this update was not significant.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in this update for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior-year disclosures in Note 3 has been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end based upon the fair value of the underlying investments.

Certificates of deposit: Valued daily using a curve-based approach by a pricing service, based upon the rates for specific instruments, programs, currencies and maturity points obtained from a variety of market makers that reflect current trading levels.

Hanson Group, Inc. common stock: The fair value of Hanson Group, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the discounted cash flow method and the guideline public comparables method, which is consistent with prior years. The appraiser took into account historical and projected revenues, gross profit, EBIT, EBITDA, cash flow, capital expenditures and net income, return on assets, return on equity, market comparables in earnings and revenue. The valuation was weighted 75 percent to the discounted cash flow method and 25 percent to the guideline public comparables method. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Note 3. Investments and Fair Value Measurements (Continued)

The valuation process involves the Plan fiduciary's selection of an independent appraiser under a written contract. Company management accumulates the data for the appraiser from the audited financial statements of the Company and prepares the models for future growth or profitability expectations. The appraiser prepares a preliminary report which Company management, along with the ESOT fiduciary committee, reviews in detail, discusses, modifies, if appropriate and ultimately, approves. The results of this process are documented in minutes of the Plan fiduciary committee.

The following table represents the Plan's Level 3 financial instrument, valuation techniques used to measure the fair value of the Level 3 financial instrument, and the significant unobservable inputs as of December 31, 2015 and 2014:

Instrument	2015 Fair Value	2014 Fair Value	Principal Valuation Technique	Unobservable Inputs
Hanson Group, Inc. common stock	$ 13,106,712	$ 13,752,974	Discounted cash flow method	Financial information projections
				Capital expenditure and working capital projections
				Weighted average cost of capital
				Long-term revenue terminal growth rate
			Guideline public comparables method	Guideline public companies that operate in similar markets, have similar risk factors, and experience similar business cycles
				Publicly-traded to private comparables discount

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015

Changes in Fair Values

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Hanson Group, Inc. common stock
Balance, beginning of year	$ 13,752,974
Unrealized losses related to instruments still held at report date	(1,192,765)
Stock purchase	546,503
Balance, end of year	$ 13,106,712

Note 4. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of Company common stock. Company contributions are held and managed by the Trustee. In the event of a distribution, the Trustee transfers the funds to Principal Financial Group, who then makes distributions to participants.

Certain administrative functions are performed by officers or employees of Hanson Professional Services, Inc. for which no compensation is paid by the Plan. Administrative expenses for the Plan are paid directly by Hanson Professional Services, Inc.

Note 5. Tax Status

The Internal Revenue Service has determined and informed the plan sponsor, by a letter dated September 29, 2013, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities before 2012.

Note 6. Party-In-Interest Transactions and Plan Expenses Paid by the Company

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons. During the year, the Plan invested in shares of money market funds managed by First Banker Trust Services.

Fees paid by Hanson Professional Services Inc., the plan sponsor, to RSM US LLP; Prairie Capital Advisors, Inc; Davis & Campbell, LLC; Principal Financial Group; U.S. Treasury; and First Bankers Trust Services for services provided to the Plan were $102,973 for the year ended December 31, 2015.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts, and the interest of each participant in the trust fund would be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the Code.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
