Note 1. Plan Description

The following brief description of the ViraCor-IBT Laboratories, Inc. 401(k) Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan was established January 1, 2000, as a defined contribution plan formed for eligible Company employees. The Plan Sponsor of the Plan is ViraCor-IBT Laboratories, Inc. (the Company). The Plan and the Trust of which it is a part of are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees must have completed at least one month of service to participate in the salary reduction portion of the Plan.

Employees must have attained 21 years of age and completed at least 1,000 hours of service in a consecutive period of 12 months to participate in the employer matching and safe harbor nonelective portions of the Plan.

The employee may enter the Plan on the first day of the pay period following completion of the eligibility requirements described above. Employees covered by a collective bargaining agreement and nonresident aliens are not eligible to enter the Plan.

Contributions: Each year, participants may contribute any percentage (subject to the maximum allowed by the Internal Revenue Service) of their pretax annual compensation, as defined in the Plan. In lieu of pretax contributions to the Plan, participants, may contribute any percentage (subject to the maximum allowed by the Internal Revenue Service) of their after tax annual compensation as defined in the Plan, as ROTH elective contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor nonelective contributions equal to 3 percent of the employee's total compensation as defined by the Plan. For the plan year ended December 31, 2015, the safe harbor nonelective contribution was $623,488, and this amount is included in employer contributions.

The Company also makes an employer matching contributions equal to 100 percent of each participant's deferral, up to 2 percent of the participant's compensation. For the plan year ended December 31, 2015, the matching contribution was $310,530.

Participants have the option of directing their contributions and the allocations of the employer safe harbor nonelective contributions and the employer matching contributions to any of the selected investment options as made available and determined by the Plan Administrator, John Hancock Life Insurance Company (U.S.A.) for the period from January 1, 2015 to June 5, 2016, and Great-West Trust Company, LLC for the period from June 6, 2015 to December 31, 2015.

Contributions are subject to certain limitations.

Note 1. Plan Description (Continued)

Participant accounts: Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, employer matching contributions, employer safe harbor nonelective contributions and allocations of plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may change their investment options monthly via the phone or the internet.

Vesting: Participants are vested immediately in their salary reduction contributions and employer safe harbor nonelective contributions, plus the actual earnings thereon. Vesting in employer matching contributions plus earnings thereon is based on years of continuous service according to the following schedule:

Years of Service	Employer Matching Contribution Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants: Effective January 1, 2011, notes receivable from participants held by Progene Biomedical Laboratories, Inc. 401(k) Plan were merged into the Plan. Effective January 1, 2014, notes receivable from participants held by National Institute of Transplantation Tax Deferred Annuity Plan were transferred into the Plan. The Plan does not have a provision for notes from participants. The outstanding note receivables are secured by the balance in the participant's account and bear interest rates at 4.25 percent. Principal and interest are paid ratably through monthly payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: On termination of service because of death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or installment payments, but only for required minimum distributions as defined by the Plan. On termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service distributions are not permitted unless the participant has attained age 59½, certain hardship conditions are met or rollover contributions are available.

Forfeitures: Forfeitures of terminated participants' nonvested balances are used to reduce employer safe harbor nonelective contributions and may be used to reduce administrative expenses. During the year ended December 31, 2015, $56,915 of forfeitures was applied to reduce employer safe harbor nonelective contributions. At December 31, 2015 and 2014, the Plan had $18,450 and $52,745, respectively, of unallocated forfeitures.

Note 2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The accompanying financial statements of the Plan have been prepared on the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the plan year 2015, and it was retrospectively applied to 2014. Prior-year disclosures have been revised to reflect the retrospective application of this update. The impact of adopting this update is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plans*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The ASU 2015-12 may be adopted in whole or by part (I, II and III), as applicable. The amendments in this ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted this update for the plan year 2015, and it was retrospectively applied to 2014. Prior-year disclosures have been revised to reflect the retrospective application of this update. The impact of adopting this update is reflected in Note 4.

Note 3. Information Certified and Provided by the Current and Former Custodians

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the current and former custodians and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate to the best of its knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedule related to the following assets:

	December 31	
	2015	2014
Investments at fair value:		
Mutual funds	$ 15,496,367	$ -
Pooled separate accounts	-	14,897,663
Common collective trusts	191,150	-
Guaranteed interest accounts	-	82,993
	$ 15,687,517	$ 14,980,656
Notes receivable from participants	$ 34,413	$ 82,659

Note 3. Information Certified and Provided by the Current and Former Custodians

The current and former custodians also certified to the completeness and accuracy of $43,875 of net appreciation in fair value of investments and $2,401 of interest income on notes receivable from participants related to the aforementioned assets for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Investment funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission and are required to publish their daily net asset value (NAV) and to transact at that price. The investment funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Pooled separate accounts are valued at the NAV of the underlying assets at the end of the plan year.

Guaranteed interest contracts: Guaranteed interest contracts are valued at the principal contributed plus compounded interest over the term of the investment, less any applicable contract or participant-level recordkeeping charges.

Note 4. Fair Value Measurements (Continued)

Common collective trusts: Common collective trusts are valued at the NAV of the underlying investments at the end of the plan year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,496,367	$ -	$ -	$ 15,496,367
Common collective trusts (a)	-	-	-	191,150
	$ 15,496,367	$ -	$ -	$ 15,687,517

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts (a)	$ -	$ -	$ -	$ 14,897,663
Guaranteed interest accounts	-	-	82,993	82,993
	$ -	$ -	$ 82,993	$ 14,980,656

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statement of net assets available for benefits.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

Level 3 gains and losses: The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Guaranteed Interest Accounts
Balance, beginning of year	$ 82,993
Purchases	4,079
Interest income	(2,855)
Sales	(84,217)
Balance, end of year	$ -

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2015 and 2014:

Investment	Fair Value 2015	Fair Value 2014	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trusts	$ 191,150	$ -	None	Immediate	None
Pooled separate accounts	-	14,897,663	None	Immediate	None
	$ 191,150	$ 14,897,663			

Note 5. Guaranteed Interest Accounts

The Plan invests in guaranteed interest accounts offered under the John Hancock group annuity contract, which is held in John Hancock's general account. These investments guarantee the return of principal plus compound interest earned over a defined 3- or 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. At the end of each reporting year, a composite rate of interest is determined for each participant account, and contributions continue to earn the calculated composite interest rate for the duration of the guarantee term.

The fair value of the guaranteed interest accounts at December 31, 2015 and 2014, was $0 and $82,993, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are viewed on a monthly basis for resetting.

The guaranteed interest accounts do not permit the insurance company to terminate the agreement prior to 30 days' written notice.

Note 6. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of auditing the Plan are paid by the Plan Sponsor. Administrative expenses related to distributions and special calculations are paid by the Plan. However, the Plan document provides that administrative expenses may be paid through forfeitures.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 9. Income Tax Status

The Plan has adopted a volume submitter document. The volume submitter plan has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status as of March 31, 2014. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Related-Party Transactions

Certain plan investments are shares of mutual funds common collective trusts, pooled separate accounts and guaranteed interest accounts managed by Great-West Trust Company, LLC and John Hancock Life Insurance Company (U.S.A.). Great-West Trust Company, LLC and John Hancock Life Insurance Company (U.S.A.) are the current and former custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are netted against investment income. In addition, other administrative expenses paid to Great-West Trust Company, LLC and John Hancock Life Insurance Company (U.S.A.) were $42,155 for the year ended December 31, 2015.

Note 11. Subsequent Events

The Plan Administrator has evaluated and disclosed subsequent events up to and including October 10, 2016, which is the date the financial statements were available to be issued.
