Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by The Northern Trust Company, the current trustee of the Plan and Principal Life Insurance Company, the former custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the current trustee and former custodian held the Plan's assets and executed transactions. The Plan Administrator has obtained a certification from the current trustee as of December 31, 2015 and for the period from December 1, 2015, to December 31, 2015, and the former custodian from January 1, 2015, to November 30, 2015, and as of and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the former custodian and current trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

SALARIED RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1—Description of the Plan

The following brief description of the Cooper-Standard Automotive Inc. Salaried Retirement Plan (the Plan) provides only general information. Participants should refer to their specific Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all salaried and non-union hourly employees of the Plan Sponsor hired prior to January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan established an agreement with Principal Life Insurance Company (the Former Custodian), to act as custodian of the Plan's assets. The Former Custodian administered and invested the Plan's assets and income for the benefit of the Plan's participants through November 30, 2015. The Plan established a new agreement with The Northern Trust Company (the Current Trustee), effective December 1, 2015, to act as trustee of the Plan's assets. Effective July 1, 2008, a master trust was formed with other plans administered by the Plan Sponsor to hold and administer all of the Plan's assets. See Note 5 for master trust disclosures.

Some of the Plan's participants may be eligible for unreduced monthly pension benefits upon attainment of 30 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62.

The amount of any pension benefit otherwise available may be reduced by certain disability payments (but not payments under the Federal Insurance Contribution Act (FICA)). The Plan provides certain survivor and disability benefits, and various optional forms of payment, some actuarially reduced.

Eligibility

Any employee of the Plan Sponsor (including any United States citizen who is employed by a "foreign affiliate" (as defined in Section 3121(I)(6) of the Internal Revenue Code (the Code)) for which the Plan Sponsor has entered into an agreement with the Internal Revenue Service pursuant to Section 3121(I) of the Code, who is a nonbargaining employee, is not a nonresident alien, is not a Leased Employee, is not an independent contract or an employee of an independent contractor, and is not a member of the Employer's Board of Directors acting solely in that capacity is eligible for participation in the Plan. For part-time employees, the service requirement is 1 year and 1,000 hours and for full-time employees, the service requirement is 1 year. Effective January 1, 2009, the plan was frozen to all new employees.

Hourly employees from the Newlex Plan represented by UAW Local 1686 are eligible to participate. The current bargaining agreement is effective through September 16, 2017. Effective January 1, 2007, eligibility was frozen and no new employees will be eligible for the plan. Effective December 31, 2013, the participants in the Newlex Hourly Pension Plan will no longer accrue service.

Employees from the Bowling Green Seal Plan who are subject to the collective bargaining agreements between the Plan Sponsor and Local Union #1042 of the United Steelworkers of America are eligible for participation in the Plan. The current bargaining agreement is effective July 23, 2015 and expires July 23, 2020. Effective January 1, 2009, the plan was frozen to all new employees.

Note 1—Description of the Plan—continued

Funding policy/contributions

The Plan is funded entirely through contributions made by the Plan Sponsor. The Plan Sponsor contributes such amounts as are deemed necessary on an actuarial basis to provide the Trust with assets sufficient to meet the benefits to be paid to the Plan's participants. The contributions are designed to fund current service costs and to fund prior service costs over periods of ten to twenty years. The Plan Sponsor's contributions for 2015 and 2014 exceeded the minimum funding requirements of ERISA.

Vesting

Prior to January 1, 2008, participants in the Plan became vested upon completion of 5 years of vesting service or reaching normal retirement age (age 65). Effective January 1, 2008, in accordance with the provisions of the Pension Protection Act, participants that are receiving benefits in the Plan under a cash balance formula become vested upon completion of 3 years of vesting service.

Pension benefits

The Plan includes participants that were participants in other plans that have been merged into this plan. Benefit payment calculations vary as described below depending on the prior plan under which service was accrued.

Participants that were participants in the Cooper Tire & Rubber Company Spectrum Retirement Plan (Cooper Tire Plan) as of December 31, 2001, who were born before 1962 and whose credited service is before 1987 (Cooper Tire grandfathered participants), are entitled to a monthly "protected benefit" equal to 1.5 percent of the monthly average of all compensation (as defined in the Plan) during the highest five of the ten calendar years prior to the year of termination or retirement (minimum of \$20), multiplied by the years of continuous credited service.

The sum of the Cooper Tire grandfathered participant's retirement benefit under the Plan and his/her primary social security (FICA) benefit may not exceed 90 percent of the monthly average of all compensation (as defined in the Plan) during the highest five of the last ten calendar years prior to the year of termination or retirement, unless the \$20 minimum would serve to exceed the above amount.

For Cooper Tire grandfathered participants with less than 30 years of continuous credited service, the above 90 percent limitation and the amount of FICA benefit taken into account in computing the Plan benefit will be reduced by 1/30th for each year of continuous credited service less than 30.

Participants that were participants in the Standard Products Plan as of December 31, 2001 (Standard Products grandfathered participants), who were employed prior to June 30, 1976, are entitled to a monthly benefit equal to the greater of a) an amount equal to a percentage of average compensation (ranging from 22 percent-40 percent) multiplied by years of service or b) 1 1/15 percent of average compensation not in excess of 1/12 annual covered compensation plus 1 2/3 percent of any compensation in excess of average compensation multiplied by accrual service (not to exceed 30 years) or c) retirement (minimum of \$30), multiplied by the years of continuous credited service.

Pension benefits—continued

Standard Products grandfathered participants, who became an employee on or after June 30, 1976, are entitled to a monthly benefit equal to the greater of a) 1 1/15 percent of average compensation not in excess of 1/12 annual covered compensation plus 1 2/3 percent of any compensation in excess of average compensation multiplied by accrual service (not to exceed 30 years) or b) retirement (minimum of \$30), multiplied by the years of continuous credited service.

For participants that are not grandfathered participants and who were participants as of December 31, 2001, their cash balance account includes an opening account balance as of January 1, 2002, which represents their accrued benefit under the provisions of the Plan prior to the establishment of the cash balance feature.

Participants who accrued service prior to December 31, 2006 in the Northern Plants Plan and the Leonard Plan will receive benefits determined by multiplication of a benefit rate, which depends upon the period of credited service by the total number of years of credited service, in addition to any benefits accrued under the Plan beginning January 1, 2007.

Participants who accrued service prior to February 28, 2007 in the El Dorado Plan will receive benefits determined by multiplication of a benefit rate, which depends upon the period of credited service by the total number of years of credited service, in addition to any benefits accrued under the Plan beginning March 1, 2007. Participants also have the option of receiving a lump sum distribution for service accrued in the El Dorado Plan.

Participants from the Archbold Plan (Archbold Participants) are eligible for monthly benefit payments upon reaching age 65 or the completion of five years of service, if later. The normal monthly benefit payments are determined by multiplication of a benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 42 years. Archbold Participants are eligible to receive early retirement benefits between the ages of 50 and 65 upon the completion of 10 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Archbold Plan document, for each month that the early retirement date precedes the normal retirement date.

Participants from the Bowling Green Hose Plan are eligible for unreduced monthly pension benefits upon 20 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years of continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62. Effective April 1, 2009, credited service was frozen and no participants will be eligible to accrue service.

Note 1—Description of the Plan—continued

Pension benefits—continued

Participants from the Auburn Plan are entitled to monthly pension benefits equal to the amount specified in the plan agreement, which was increased effective July 1, 2007, multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit. Effective August 31, 2011, credited service was frozen and no participants will be eligible to accrue service.

Participants from the Newlex Plan are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplication of a benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 35 years. A participant is 100 percent vested after five years of service. Prior to that time, the participant is 0 percent vested. Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 15 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65 except, that they are reduced by certain factors, as outlined in the Plan document for each month that the early retirement date precedes the normal retirement date.

Participants from the Bowling Green Seal Plan are entitled to monthly pension benefits equal to the amount specified in the plan agreement multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit.

Effective January 1, 2002, the Plan established a cash balance feature under which cash balance accounts are maintained for participants that are not grandfathered participants. The cash balance account is the accumulation of interest and pay credits during a participant's active employment. Pay credits are based upon a participant's eligible compensation for the year and range from 3 percent to 10 percent of eligible compensation, based on the age of the participant and years of credited service. Effective February 1, 2009, the Plan was frozen and no additional benefits will accrue.

Termination of the Plan

While the Plan sponsor has not expressed any intent to terminate the Plan or its contributions thereto, it has the right to do so at any time, subject to the provisions of ERISA. In the event of partial or total termination of the Plan, participants' benefits become nonforfeitable.

In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA, generally in the following order:

- a. Certain annuity benefits that former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) as discussed below.
- c. All other vested benefits.
- d. All non-vested benefits.

Note 1—Description of the Plan—continued

Termination of the Plan—continued

The PBGC guarantees most, but not all, vested retirement benefits and certain disability and survivor's pensions. However, there is a statutory ceiling on the amount of any individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits, and the level of benefits guaranteed by the PBGC.

Note 2—Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements for the underlying assets of the Master Trust.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The administrative expenses of the Plan are paid by either the Plan Sponsor or the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Estimates are most significantly utilized in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Subsequent events

The Plan Sponsor has evaluated subsequent events through October 11, 2016, the date the financial statements were available to be issued.

Note 2—Summary of significant accounting policies

Recently issued accounting pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. The Plan is still in the process of evaluating Part II.

Note 3—Investments

All investment information for the years ending December 31, 2015 and 2014 disclosed in the accompanying financial statements, including investments held at December 31, 2015 and 2014, interest and dividends and net appreciation (depreciation) in fair value of investments and investment fees and expenses for the years ended December 31, 2015 and 2014, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Former Custodian for the period from January 1, 2015 through November 30, 2015 and as of and for the year ended December 31, 2014 and the Current Trustee, as of December 31, 2015 and for the period from December 1, 2015 through December 31, 2015. Such information has not been examined by independent auditors.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

- Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

COOPER-STANDARD AUTOMOTIVE INC.
SALARIED RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED

Note 4—Fair value measurements - continued

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Note 4-Fair value measurements—continued

Mutual Funds – These are valued at quoted market prices, which represent the net asset value (“NAV”) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities.

Real estate funds – These are valued on the relevant business day with an evaluation price based on the total value of the security for a client’s share of the holdings.

Hedge funds – These are valued at the point the fund is obtained by the Plan. Estimated NAV prices may be used when no other source is available.

Pooled Separate Accounts – Assets held in money market securities where cost approximates fair value.

Collective Investment Trusts – The fair value of the investments in these categories have been estimated using the net asset value per share. The NAV of these accounts is based on the market value of its underlying investments. The NAV is not a publically quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5—Master Trust

Investments within the Master Trust are valued at their fair value as determined by the Trustee. The Plan's interest in the Master Trust is determined by the Plan's relative asset value to the Master Trust's total asset value at the end of the year. Although assets of participating Plans are commingled, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating Plans are maintained. The net investment income (loss) and administrative expenses of the investment assets are allocated by the custodian to each participating Plan based on the relationship of the interest of each Plan to the total of the interests of the participating Plans. The following has been derived from information which the Custodian has certified as complete and accurate by the Former Custodian for the period from January 1, 2015 through November 30, 2015 and as of and for the year ended December 31, 2014 and the Current Trustee, as of December 31, 2015 and for the period from December 1, 2015 through December 31, 2015.

The following presents the values of investments in the Master Trust as of December 31, 2015 and 2014:

SALARIED RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2015 and 2014

Note 6–Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated June 17, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7–Party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by the Custodian, and therefore, these transactions qualify as party-in-interest transactions. There are no known prohibited transactions with a party-in-interest.

Note 8–Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) terminated employees with vested benefits, (c) beneficiaries of employees who have died, and (d) present employees or their beneficiaries. Benefits for active employees under the Plan are based on the employees' years of credited service computed to the nearest completed 1/12 of a year, multiplied by the pension amount in effect on the valuation date. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in performing the valuations include: (1) interest rate of 6.70 percent in 2015 and 7.15 percent in 2014; (2) mortality based on the 2014 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants for 2014 and the 2014 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants for 2014; (3) probability table of retirement with ages ranging from 55 to 65 with ten years of service; and (4) disability pension is based upon the alternative disabled life mortality tables as defined under Revenue Ruling 96-7 and (5) cash balance interest crediting rate of 3.04 percent in 2015 and 3.68 percent in 2014.

Note 8—Actuarial present value of accumulated plan benefits—continued

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuary has determined the present value of the accumulated plan benefits as of January 1, 2015 and 2014, to be as follows:

	<u>2015</u>	<u>2014</u>
Actuarial present value of accumulated plan benefits		
Vested benefits:		
Participants currently receiving benefits	\$ 131,409,639	\$ 119,850,054
Other participants	<u>85,549,528</u>	<u>89,995,294</u>
Total vested benefits	<u>216,959,167</u>	<u>209,845,348</u>
Non-vested benefits:	<u>4,527,446</u>	<u>1,851,363</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 221,486,613</u>	<u>\$ 211,696,711</u>

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	<u>2015</u>	<u>2014</u>
Actuarial present value of accumulated plan benefits as of January 1, 2014 and 2013	\$ 211,696,711	\$ 215,938,699
Increase (decrease) during year due to:		
Change in assumptions	17,476,524	(2,747,494)
Benefits paid	(30,762,685)	(16,472,944)
Change in discount period	14,073,296	14,585,833
Benefits accumulated and net actuarial losses	<u>9,002,767</u>	<u>392,617</u>
Actuarial present value of accumulated plan benefits as of January 1, 2015 and 2014	<u>\$ 221,486,613</u>	<u>\$ 211,696,711</u>

Note 9—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Disability 50% of Pension Disability Table (DP-85) class 1 Incidence Rates. 100% of the rates are assumed for merged Archbold, Auburn, BG Hose, BG Seal and Newlex participants.

Benefit commencement date:

Preretirement death benefit The later of the death of the active participant or the date the participant would have attained the earliest retirement age (age 55 for Newlex).

Deferred vested benefit Generally, the participant is assumed to commence payment at the age their benefit is unreduced.

Disability benefit Upon disablement

Retirement benefit Upon termination of employment

Form of payment For valuation purposes, participants are assumed to elect the normal pension payment option, except cash balance participants are assumed to elect a lump sum. Auburn, BG Hose and BG Seal actives who terminate before their early retirement age are assumed to take a lump sum (based on UP84 [set forward one year] mortality and a 4% interest rate).

Percent married For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible male and female participants are assumed to be married.

Spouse age Male participants are assumed to be 3 years older than their spouses and female participants are assumed to be 3 years younger than their spouses.

Covered pay N/A

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets [for determining minimum required contributions]	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	Willis Towers Watson has reviewed the plan provisions with Cooper Standard and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the October 30-year Treasury rate. The plan sponsor has selected an expected future 30-year Treasury rate of 4.00%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population, adjusted for observed plan experience.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions, adjusted for observed plan experience.
Retirement	Retirement rates are based on plan sponsor expectations for the future and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits:

Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
Deferred vested benefit	Generally, deferred vested participants are assumed to begin benefits at the age when benefits are first unreduced.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Accrual Service

Cash Balance, Grandfathered Cooper Tire and Standard Products, Northern Plants, Archbold, and Leonard:

Full Time Employees: Period of time (in complete years and months) between an employee's employment commencement date and their most recent severance date.

Part Time Employees: A year of service for every 12 consecutive-month period of employment, starting with the employment commencement date, in which the employee is credited with at least 1,000 hours of service.

Accrual service is frozen effective January 31, 2009

Merged BG Hose and BG Seal:

A participant earns a year of Accrual Service for each year of continuous service or period of service while an active participant in completed months. Service before January 1, 1976, which was not included in the employee's continuous service credit under the plan as in effect on December 31, 1975, is excluded. Accrual service was frozen for all purposes except for determining a Participant's eligibility for a reduced Early Retirement Benefit as of April 1, 2009 for BG Hose participants.

Merged Newlex:

The participant earns one full year of service if compensated for working at least 1,680 hours in the year, and earns 1/10th of a year of service for each 168 hours worked if total hours worked in the year was less than 1,680.

Service prior to January 1, 1972 is excluded.

Merged Auburn:

A participant earns a year of Accrual Service for each year of continuous service or period of service while an active participant in completed months. Service before January 1, 1976, which was not included in the employee's continuous service credit under the plan as in effect on December 31, 1975, is excluded.

SCHEDULE SB ATTACHMENTS

Benefit Accrual service was frozen for the period April 1, 2009 to March 31, 2010 and permanently as of August 31, 2011.

Vesting Service

Same as Accrual Service. Merged Archbold participants receive one year of continuous service for each plan year in which they work at least 1,000 hours of service.

Merged Newlex:

Vesting service includes all years of uninterrupted service since January 1, 1972 as a regular employee of the company not including calendar years with less than 1,000 hours worked.

Compensation

All W-2 wages paid during a calendar year excluding employer contributions to a deferred compensation plan, stock options, director fees, sales awards, relocation and signing bonuses, lump sum severance payments, system awards, and certain other exclusions. Signing bonuses and lump sum severance payments are included for grandfathered Cooper participants. Grandfathered Standard compensation is W-2 wages excluding expense allowances, fringe benefits, moving expenses, deferred compensation, and welfare benefits.

Final Average Compensation/Salary

The average of the highest 5 of the latest 10 compensation years of pay.

Grandfathered Standard Products: 60 consecutive months out of the latest 120 which give the highest average.

Average compensation is frozen as of January 31, 2009. For Grandfathered Cooper Tire, no compensation paid after December 31, 2008 will be included in average compensation. For Grandfathered Standard Products, no compensation paid after January 31, 2009 will be included in average compensation.

Normal Retirement Benefit

Benefit:

Cash Balance: The normal pension benefit, reduced by 0.6% for each month (up to 36 months) and 0.4% for each additional month (up to 84 months) by which the date of benefit commencement precedes age 65 and 5 years of Vesting Service.

Grandfathered Cooper Tire: The normal pension benefit reduced by 0.4% for each month by which the date of benefit commencement precedes age 62. If 30 years of vesting service, benefit is unreduced at age 55.

Grandfathered Standard Products and BG Hose: An actuarially equivalent normal pension benefit based on the number of years by which the date of benefit commencement precedes normal retirement age. In addition, a Supplemental Allowance is payable equal to \$150 per month for Grandfathered Standard Products (\$250 for BG Hose plus \$5 for each year of Accrual Service or 30, \$10 for each year of age over 55), reduced by $\$0.41\frac{2}{3}$ for each month that accrual service is less than 30 years at the Early Retirement Date. Supplement is paid after retirement and age 60, and is payable to age 62.

Merged Archbold: the normal pension benefit reduced $\frac{1}{180}$ per month for the first 60 months, $\frac{1}{250}$ per month for the next 60 months, and $\frac{1}{400}$ per month for the next 60 months.

Merged Northern Plants and Leonard: The normal pension benefit reduced by $\frac{1}{180}$ per month for the first 60 months, and $\frac{1}{360}$ per month for the next 60 months by which the date of benefit commencement precedes the Normal Retirement Date.

Merged Auburn, El Dorado and BG Seal: Monthly accrued benefit reduced by 0.4% for each complete month by which the date of commencement precedes age 62. If the participant has not attained age 55, but has at least 30 years of accrual service, the benefit is unreduced.

A participant who is at least age 55 with 30 or more years of Accrual Service receives a supplemental benefit, payable until the participant is eligible to commence Social Security benefits at the 80% reduced amount (age 62 if born before 1938). The monthly supplemental benefit is equal to \$350 plus \$5 for each year of Accrual Service over 30, and \$10 for each year of age over 55 on the Early Retirement Date.

The Auburn plan was frozen on August 31, 2011 except for the Kicker for those that at least 26 years of Accrual Service as of July 1, 2011 but were not yet eligible for early retirement.

Merged Newlex: Normal retirement benefit reduced by $\frac{1}{180}^{\text{th}}$ for each of the first 60 months by which the date of commencement precedes normal retirement date and further reduced by $\frac{1}{360}^{\text{th}}$ for each month in excess of 60 months by which commencement precedes normal retirement date.

Disability Benefit

Eligibility:

Cash Balance, El Dorado, Grandfathered Cooper Tire and Standard Products, Northern Plants, Archbold, and Leonard: Totally and permanently disabled and completed at 10 years of Vesting Service and have not attained age 65. For merged Archbold, 15 years of Continuous Service.

Newlex and BG Hose: 10 years of Vesting Service (age 50 for Newlex), totally and permanently disabled, and not receiving payments for the same disability under the Permanent Total Disability provision of the Group Life Insurance Program.

Auburn and BG Seal: 20 years of Vesting Service, totally and permanently disabled, and not receiving payments for the same disability under the Permanent Total Disability provision of the Group Life Insurance Program.

Benefit:

Cash Balance, El Dorado and Grandfathered Cooper Tire: Unreduced accrued benefit until age 65. At age 65 the benefit is reduced by 1%.

Grandfathered Standard Products: Greater of:

- Average Compensation multiplied by the accrued benefit adjustment. The accrued benefit adjustment is based on accrual service at retirement (only if an Employee as of June 30, 1976).
- 1-1/15% of Average Compensation up to the Covered Compensation limit multiplied by Accrual Service (up to 30 years) plus 1- 2/3% of Average Compensation over the Covered Compensation limit multiplied by Accrual Service (up to 30 years) and
- \$26 multiplied by Accrual Service.

At age 65 the benefit is reduced by 1% if based on a or b and reduced by 50% if based on c.

Merged Archbold: Unreduced accrued benefit payable until age 65. At age 65 the benefit is recomputed as a joint and survivor benefit form if the disabled retiree is married.

Merged Northern Plants and Leonard: Unreduced frozen benefit.

Auburn, BG Seal, and BG Hose: Monthly accrued benefit based on Accrual Service at date of disability. The 5-year certain period under the form of elected benefit begins on the Disability Retirement date if Vesting Service is at least 30 years. If Vesting Service is less than 30 years the 5-year certain period begins on the later of age 55 or Disability Retirement Date.

Newlex:

- Benefit before Normal Retirement: Full monthly pension benefits reduced by certain worker's compensation benefits until age 65.
- Benefit after Normal Retirement: After age 65, any offset for public disability payments stops. The benefit is then recomputed based on the benefit form elected to be paid at that time.

Termination Benefit

Eligibility: 3 years of Vesting Service (5 years of Vesting Service for BG Hose, BG Seal, and Auburn; 5 years of Vesting Service with commencement at age 55 or later for Newlex). All merged Archbold and El Dorado participants are fully vested.

Benefit:

Cash Balance: Account balance at the date of termination

Grandfathered Cooper Tire and Standard Products: Accrued normal pension benefit, payable at normal retirement date. If Vesting Service is at least 10 years at termination date, then the benefit is payable on the Early Retirement Date and reduced in the same manner as the Early Retirement Benefit.

Merged Northern Plants and Leonard: Frozen benefit; reduced by the same factors as for an Early Retirement Benefit for commencement before age 65.

Merged Archbold: Accrued normal pension benefit; reduced by the same factors as for an Early Retirement Benefit for commencement before age 65.

Auburn, El Dorado, BG Seal, and BG Hose: Accrued normal pension reduced by 0.4% for each month commencement precedes age 62.

Newlex: Normal retirement benefit reduced by $1/180^{\text{th}}$ for each of the first 60 months by which the date of commencement precedes normal retirement date and further reduced by $1/360^{\text{th}}$ for each month in excess of 60 months by which commencement precedes normal retirement date.

Death Benefit

Eligibility: 3 years of Vesting Service. All merged Archbold and El Dorado participants are fully vested. For Auburn, BG Seal, and BG Hose, participants must be married at least one year, be vested and die before benefit commencement.

Newlex: Survivor benefits are automatically provided if a participant is married and dies either:

- In active service after completing five years of continuous service
- In active service after attaining age 65
- After termination of service on or after August 23, 1984 with entitlement to a vested benefit, but before pension payments have started, or
- After retirement (other than disability retirement), but before pension payments have started.

Benefit:

Cash Balance: Account balance at the date of death.

All others:

Pre-Retirement Benefit:

Upon the death of a participant after 5 years of Vesting Service, the surviving spouse shall receive a 50% survivor benefit computed as if the participant had terminated employment at date of death, survived to earliest retirement age and elected commencement of benefits under the Normal Form of Payment and at that time died.

Newlex: If the participant dies before reaching age 65, payments to the spouse will automatically begin when the participant would have reached age 65. However, the spouse can elect to receive a reduced benefit as early as the date the participant would have reached age 55 or upon the participants' death if after age 55. Payment to the spouse is 50% of the benefit that would have been payable to the participant, reduced to reflect the 50% survivor option.

If the participant continues working after age 65 and dies before retiring, payments to the spouse will begin the month following the participant's death.

Post-Retirement Benefit:

Elected form of payment plus a single sum benefit of \$2,250 (\$2,000 for BG Hose and Newlex, \$750 for El Dorado, and \$4,000 for BG Seal). A participant who terminated employment before age 60 and did not commencement retirement or disability payments immediately is not eligible for a single sum death benefit.

Newlex: Payable to participants who retired after June 24, 2002. Elected form of payment plus a single sum benefit of \$2,000.
