Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. SunTrust Banks, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2015

1. Plan Description

General

SunTrust Banks, Inc. Retirement Plan (the “Plan”) is a defined benefit pension plan.

The Plan was frozen effective January 1, 2012 (Freeze Date). No new participants will be admitted to the Plan, and for existing participants, no additional compensation or service will be considered to determine benefit accruals. Service on or after January 1, 2012, will continue to be considered for vesting purposes and for determining eligibility for retirement benefits. Interest credits will continue to be credited to Participant Cash Balance Benefits, also known as Personal Pension Accounts, as provided in the Plan document.

The Plan is managed by two fiduciary committees. The Benefits Plan Committee is responsible for the administration and operation of the Plan. SunTrust Banks, Inc.’s (“SunTrust” or the “Company”) Chief Human Resources Officer is Chairman of the Benefits Plan Committee and is responsible for appointing the other committee members. The Benefits Finance Committee is responsible for all financial decisions including Plan funding and investing. The Company’s Chief Financial Officer is Chairman of the Benefits Finance Committee and is responsible for appointing the other committee members.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Information about the Plan, its benefit provisions and the Pension Benefit Guaranty Corporation’s (PBGC) benefit guarantee is contained in the Plan’s Summary Plan Description (SPD). Copies of this SPD or Plan Document are available on the Company intranet site *my HR* online or by contacting the SunTrust Benefits Service Center, “*my HR*.”

Contributions

SunTrust makes all contributions required to fund the Plan for its participating employees as determined on the basis of an actuarial valuation. No participant contributions are permitted. The Plan met the ERISA minimum funding requirements for the year ended December 31, 2015.

The Company contributes such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The Company’s present intention is to make the minimum required contribution to fund the Plan’s current year’s target normal cost plus any funding shortfall over a period of seven years, offset by any credit balance election.

1. Plan Description (continued)

Eligibility and Vesting

No new Participants may join the Plan after December 31, 2011. Participants are fully vested in their accrued benefits after completing three years of service. However, all participants become 100% vested upon reaching Normal Retirement Age under the Plan.

Retirement Benefits

Normal retirement age is the latter of age 65 or completion of five years of service. The Plan has been a traditional defined benefit plan and was amended, effective January 1, 2008, to incorporate a cash balance feature. All full-time, part-time, on-call, prime-time and temporary employees with at least one year of service but less than 20 years of service on December 31, 2007, became eligible for the cash balance formula beginning January 1, 2008. Employees with less than one year of service on December 31, 2007, became eligible for the cash balance formula after completing one year of service. Participants with at least 20 years of service on December 31, 2007, were given a choice to continue to earn traditional benefits under a 1.0% base pay formula, or begin to earn benefits under the cash balance provisions as required for all participants who became eligible to participate in the Plan subsequent to December 31, 2007.

Effective August 1, 2015, the Plan was amended to provide that if a terminated participant's (including participants who had a termination date prior to August 1, 2015) total accrued benefit has an actuarial equivalent value of \$5,000 or less as of the Benefit Commencement Date, the benefit would be paid automatically as a lump sum payment without the participant's consent. If the participant does not affirmatively elect to either have such distribution paid directly to him in a direct rollover to an eligible retirement plan, then the Benefits Plan Committee shall pay the distribution of the Total Accrued Benefit as an eligible rollover distribution to an individual retirement plan designated by the Benefits Plan Committee.

SunTrust Banks, Inc. Retirement Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

The cash balance benefit provides each participant with a hypothetical account that is credited with semi-monthly pay and interest credits prior to the Freeze Date. Pay credits which were based on age and vesting service were as follows:

Projected Age Plus Vesting Service as of Each December 31	Pay Credit for the Year is the Below Percentage of Pay
Less than 30	2.5%
30 – 39	3.0%
40 – 49	4.0%
50 +	5.0%

Effective January 1, 2012, there were no further Pay Credits added to the Personal Pension Accounts, however, the Personal Pension Account will continue to receive interest credits after December 31, 2011, through the date of distribution in accordance with the Plan. The Plan provides for participants to have vested ownership in Plan benefits after three years of service. When participants can receive a vested benefit from the Plan depends on the type of benefit and when they stopped working for SunTrust. Below is a chart noting the benefit type and the timing upon which participants may generally receive the benefit.

For participants who completed an hour of service on or after October 1, 2010, and commenced benefits on or after January 1, 2011:

Benefit Type:	Available:
Cash balance benefit, also known as Personal Pension Account	Upon termination of employment, or may defer payment until a later date
Traditional pension benefit representing the December 31, 2007 accrued benefit	At normal retirement age (generally age 65); or may elect to receive a reduced amount anytime between termination of employment and normal retirement age

SunTrust Banks, Inc. Retirement Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

Participants that did not complete an hour of service on or after October 1, 2010, or commence benefits prior to January 1, 2011:

Benefit Type:	Available:
Cash balance benefit, also known as Personal Pension Account	Upon termination of employment, or may defer payment until a later date; the payment forms available are limited if benefits commence before age 55
Traditional pension benefit representing the December 31, 2007, accrued benefit	At normal retirement age (generally age 65); may elect to receive a reduced amount as early as age 55

If the total value of the vested benefit as of the termination date was \$5,000 or less for participants that terminated prior to October 1, 2010, a lump sum payment option versus an annuity payment option is available. Effective January 1, 2011, the Plan has a lump sum option regardless of the amount or type of benefit for participants with an hour of service on or after October 1, 2010. For married participants, a spousal consent form is required on some elected forms of payment such as lump sum, and specific types of annuity forms of payment.

Plan Termination

The Company has the right to amend, suspend, or terminate the Plan at any time subject to the provisions of ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

The Trustee

SunTrust Bank (the "Trustee"), a wholly owned subsidiary of the Company, serves as the Trustee of the Plan and administers the Plan's assets along with any income generated. The Trustee is the custodian of all of the investments held by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting other than benefit payments, which are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to use estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Fair Value Measurements

All investments, except the guaranteed investment contract which was a deposit administration agreement, are stated at fair value. The guaranteed investment contract was reported at contract value as the Plan is a defined benefit plan and therefore, the contract is not subject to the guidance issued by the Financial Accounting Standards Board (FASB) SOP 94-4-1 Reporting of Fully Benefit-Responsive Investment Contracts which was codified in Accounting Standards Codification (ASC) 960. The contract was issued by Prudential.

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Pricing models are utilized to estimate fair value for certain financial assets and liabilities categorized in Level 2.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurements and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

SunTrust Banks, Inc. Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 compared to December 31, 2014.

Money Market Funds: Valued at quoted market prices reported in the active market where the funds are traded on an active basis.

U.S. Treasury Securities: Valued at the closing price reported on the active market on which the security is traded.

Corporate and Foreign Bonds, Municipal Obligations and Foreign Obligations: Valued by an independent pricing service that is widely used by market participants. The Company has determined that this pricing service is using similar instruments, or in some cases the same instruments, that are trading in the markets as the basis for its estimates of fair value based on observable market data.

Common Stocks and Real Estate Investment Trusts: Valued at the quoted closing price reported on the active market on which the security is traded.

Options and Futures Derivatives: Valued by an independent pricing service that is widely used by market participants. The derivatives are priced via observable market assumptions at a mid-market valuation point, with appropriate adjustments for liquidity and credit risk.

Cash: Cash is reported at cost which approximates fair value

In obtaining such data from external pricing services, the Plan sponsor has evaluated the methodologies used to develop the fair value in order to determine whether such valuations are representative of an exit price in the Plan's principal markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of

SunTrust Banks, Inc. Retirement Plan

2. Summary of Significant Accounting Policies (continued)

different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Refer to Note 3 for further fair value measurement disclosures.

Investment Transactions and Income Recognition

Investment transactions are recorded on the trade date. Interest is recognized on an accrual basis. Dividends are recognized on the ex-dividend date. Realized gains/losses from the sale of investments and changes in unrealized depreciation on investments held during the year are recorded in the accompanying financial statements as net depreciation in fair value of investments. Distributions of capital gains/losses from mutual funds are included in dividends in the accompanying financial statements. The deposit administration agreement held by the Plan was entered into prior to 1992, and accordingly, was valued at contract value as permitted by ASC 960, *Plan Accounting – Defined Benefit Pension Plans*.

Recently Adopted Accounting Pronouncements

On July 31, 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting (Topics 960, 962, and 965) — (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. This update is designed to provide guidance on the simplification of accounting and financial statement disclosures for employee benefit plans. ASU No. 2015-12 takes effect for plans with fiscal years beginning after December 15, 2015. Earlier adoption is permitted. Management of the Plan has elected to early adopt ASU 2015-12. As a result of this adoption, the Plan has eliminated its historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits as well as the net appreciation/depreciation of fair values by type and the disaggregation of investments by nature, characteristics, and risks within the fair value hierarchy. This adoption was applied retrospectively to the year ended December 31, 2014 disclosures.

In May 2015, the FASB issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical

expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management elected to adopt ASU 2015-07 in 2014. The adoption of ASU 2015-07 had no effect on the financial statements.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses are paid primarily by the Plan's trust. These administrative expenses include actuarial fees, PBGC premiums, and other fees paid for legal and accounting services.

SunTrust Banks, Inc. Retirement Plan

Notes to Financial Statements (continued)

4. Derivative Financial Instruments

The Plan has an Investment Policy Statement for investment guidelines as monitored by the Benefits Finance Committee. Through activities of certain investment managers, derivative financial instruments on a discretionary basis may be used to manage exposure to market risks. In all cases, investment managers are prohibited from using derivatives for speculative purposes and are not permitted to use derivatives to leverage a portfolio. Futures and swaps used to manage interest rate exposure are the most common derivatives used by the Plan. Changes in the Fair value of the derivative financial instruments is recorded separately from the related investment.

The Plan began investing in derivatives during 2013. Gains (losses) from derivatives are included in the Plan's statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Futures and swaps within the Plan are based on various interest rate benchmarks, and are used exclusively to manage interest rate exposure. The Plan does not enter into futures and swaps for trading purposes, but rather as a risk management tool. During the Plan year ended 2015, purchases of derivatives were \$1,533,645,587 while sales were \$1,612,911,007. The Plan's fiduciaries do not anticipate any material adverse effects on the Plan's financials resulting from its involvement in these instruments.

The following table presents the gross values of the derivatives in the Trust as of December 31:

	2015	2014
Swap assets	\$ 187,500,939	\$ 70,201,474
Futures assets	288,408,489	398,161,395
Swap liabilities	(197,575,924)	(102,542,296)

4. Derivative Financial Instruments (continued)

The futures and swaps within the Plan are subject to enforceable master netting arrangements or similar agreements. Under the terms of the master netting agreements, all transactions between the Trust and the counterparty constitute a single business relationship such that in the event of default, the non-defaulting party is entitled to set off claims and apply property held by that party in respect of any transaction against obligations owed. Any payments, deliveries or other transfers may be applied against each other and netted. Cash collateral held or pledged at December 31, 2015 and 2014 was \$10,359,134 and \$16,304,709, respectively.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

6. Insurance Contracts

In prior years, the Plan purchased annuity contracts with various insurance companies under which the insurers assumed a legal obligation to make benefit payments to certain participants for which consideration was received. For administrative ease, these benefit payments are paid by the Plan directly to participants, and the insurance carriers reimburse the Plan for all payments. Payments received under these contracts by the Plan totaled \$4,431,645 in 2015, and are reflected in benefit payments on the statement of changes in net assets available for benefits. Since reimbursements are received in the same month as the annuity payments are made, no receivable is required at December 31, 2015 or 2014.

7. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by the employees through the Freeze Date.

Accumulated plan benefits include benefits expected to be paid (a) to vested, retired or terminated employees or their beneficiaries, and (b) to present employees or their beneficiaries. The traditional defined benefit plan formula for retired or terminated employees or their beneficiaries is based on the employees' eligible compensation during their highest five years out of the last ten consecutive years immediately preceding the earlier of termination, retirement or the Freeze Date. The accumulated plan benefits for active employees are based on each participant's eligible compensation and service history as of the Freeze Date. As described in note 1, the Plan has been a traditional defined benefit plan and was amended, effective January 1, 2008, to incorporate a cash balance feature also known as a Personal Pension Account. Participants with at least 20 years of service on December 31, 2007, were given a choice to continue to earn traditional benefits under a 1.0% base pay formula, or begin to earn benefits under the cash balance provisions as required for all participants who became eligible to participate in the Plan subsequent to December 31, 2007. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included to the extent that they are deemed attributable to employee service rendered to the Freeze Date. The Plan's actuary determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

7. Accumulated Plan Benefits (continued)

The significant actuarial assumptions used to determine the present value of accumulated plan benefits as of December 31, 2015 and 2014 are as follows:

	2015	2014
Assumed rate of return on investments	6.58%	6.78%
Average retirement age	60.49 years	60.49 years
Mortality	RP-2014 Mortality Table for Employees and Healthy Annuitants, (adjusted back to 2006) with a fully generational projection using scale MP-2015	RP-2014 Mortality Table for Employees and Healthy Annuitants with a fully generational projection using scale MP-2014

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefit information as of December 31, 2015 and 2014 is as follows:

	2015	2014
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 756,929,949	\$ 706,755,391

7. Accumulated Plan Benefits (continued)

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2015, are as follows:

	2015
Actuarial present value of accumulated plan benefits, beginning of the year	\$ 2,021,190,180
Increase for interest due to the decrease in the discount period	132,009,744
Additional benefits accumulated	
Benefits paid, net of reimbursements	(150,759,862)

Other changes	(24,320,681)
Actuarial present value of accumulated plan benefits, end of the year	<u><u>\$ 1,979,923,899</u></u>

The accumulated benefits do not reflect amendments becoming effective after December 31, 2015.

8. Party-in-Interest Transactions

Since SunTrust Bank is Trustee of the Plan all investments and income relating to all investments held by the Plan are transactions with parties-in-interest. These parties-in-interest transactions are exempt from the prohibited transaction rules under a class exemption for banks under ERISA.

9. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2016, stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Benefits Plan Committee has indicated that it will continue to take the necessary steps to maintain the qualified status of the Plan.

SunTrust Banks, Inc. Retirement Plan

Notes to Financial Statements (continued)

9. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America (U.S. GAAP) require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

10. Reconciliation to Form 5500

As of December 31, 2015 and 2014, the Plan had \$3,968 and \$1,928, respectively, of distributions which had been requested but not paid as of year-end. This amount is recorded as a liability in the Plan's Form 5500; however, this amount is not recorded as a liability in the Plan's financial statements in accordance with accounting standards generally accepted in the United States of America (U.S. GAAP).

Based on this evaluation, no additional disclosures or adjustments were required to the financial statements as of December 31, 2015.

Schedule SB, Part V—Summary of Plan Provisions

Plan Provisions

Effective Date

The Plan was most recently restated effective January 1, 2012.

The most recent amendment reflected in the following plan provisions was executed December 2014.

History

January 1, 1989 (created through merger of Sun Banks, Inc. Retirement Plan and The Pension Plan and Trust for Employees of Trust Company of Georgia); the plan has been amended and restated from time to time to adopt special provisions for acquired companies, to merge into the plan the qualified defined benefit plans that had been maintained by some of the acquired companies before SunTrust Banks, Inc. acquired them, and to incorporate amendments to administrative provisions.

The plan was amended and restated effective January 1, 2008 to implement the Personal Pension Account and other plan changes that became effective at that time.

Effective July 1, 2009, the plan was amended to provide an ongoing cash balance crediting rate equal to the 30-year Treasury bond rate for the month of December in the immediately preceding plan year.

During 2009, the plan was amended to update the definition of plan compensation. In 2010, the plan was amended to provide lump sums for all Traditional FAE benefits, increase the pre-retirement death benefit to 100% and delay pay credits until date of participation.

Effective January 1, 2011, inactive participants were transferred to the SunTrust Retirement Plan for Inactive Participants, and assets and liabilities were spun-off according to ERISA Section 4044.

Effective January 1, 2012, the SunTrust Retirement Plan was amended to close the Plan to new entrants and freeze future benefit accruals for all participants in the Plan, including participants on a leave of absence and on disability.

Effective January 1, 2012, the SunTrust Banks, Inc. Retirement Plan for Inactive Participants merged into the SunTrust Banks, Inc. Retirement Plan.

The plan was amended effective August 1, 2013 to provide for small involuntary cash-outs of accrued benefit with an actuarial equivalent value not greater than \$5,000.

Definitions

Participation Date

First of the month after attaining one year of Vesting Service.

Vesting Service

The sum of eligible pre- and post-merger service. Pre-merger service is based on prior plan provisions. Post-service is expressed in full and fractional years of employment since merger, or date of hire, if later. Employees are credited for a full month of service for each month they work at least one hour of service, including the month they are hired and terminate employment. If rehired after June 1999, Vesting Service is subject to the five-year break-in-service rule.

For former NCF employees, 2005 is a transition year. All former NCF employees receive Vesting Service calculated under the NCF Plan rules or under the SunTrust Plan rules, whichever method gives more service. In addition, for purposes of the NCF Plan rules, it will be assumed that participants terminating employment after May 30, 2005 attained the 1,000 hours in 2005, and terminations prior to May 31, 2005 did not attain the 1,000 hours in 2005.

After 2005, the NCF Plan's service counting rules apply only to those CCB and NBC grandfathered participants in the NCF Plan who are defined below as "Grandfathered" former NBC and CCB Plan participants. For each year, these grandfathered participants receive credit for Benefit Service and Vesting Service based on the rules under the NCF Plan or the SunTrust Plan that gives them more service for the year. In applying the NCF Plan rules to the grandfathered group, a participant receives credit for 190 hours for each month in which the participant receives pay for working or is entitled to receive pay for non-work hours (e.g., for vacation, approved leave) for one or more days in that month, and a participant who has a termination of employment date after the last business day of May receives credit for a full year of service for the year of termination.

Benefit Service

Whole years and months of Vesting Service.

Compensation

Choice participants are generally defined as those with at least 20 years of Benefit or Vesting Service as of December 31, 2007.

For Choice participants who elected the Final Average Pay (FAP) formula beginning January 1, 2008, plan compensation is defined as basic monthly compensation plus any shift differential and any compensation which is classified on the payroll of a Company as "vacation pay" or "sick pay" which is paid at 100% of basic rate of compensation, but excluding overtime, bonuses, commissions, and other forms of non-basic compensation.

For Choice participants who elected the Personal Pension Account (PPA) formula beginning January 1, 2008 and for all non-Choice participants, plan compensation is defined as basic monthly compensation plus certain pre-tax deductions, shift differential and any compensation which is classified on the payroll of a Company as "vacation pay" or "sick pay" which is paid at 100% of basic rate of compensation, overtime, spot bonuses, certain bonuses and commissions, non-deferred payments under the MIP, amounts deferred under a non-qualified deferred compensation plan, and any amount generally described in the items above that would have otherwise been excluded solely because it was deferred under SunTrust Banks, Inc. 401(k) Excess Plan.

Personal Pension Account (PPA) compensation does not include any other forms of compensation, such as payments from referral programs, employer payments for group insurance premiums, payments under this plan or any other qualified or nonqualified plan.

Average Compensation

The average compensation for five highest consecutive or non-consecutive full calendar years out of the last ten consecutive calendar years of employment, during which the participant earned at least one month of Benefit Service.

Highly Compensated Employee

Any participant whose compensation was greater than \$54,480 during 1989 or who is a highly compensated employee under Internal Revenue Code Section 414(q) for plan years after 1989.

Schedule SB Attachment (Form 5500)—2015 Plan Year
SunTrust Banks Inc. Retirement Plan
EIN: 581575035 PN: 001

Pay credits are credited semi-monthly and are calculated as a percentage of Pensionable Compensation to the following schedule:

Points	Retirement Credit Percentage
29 and under	2.5%
30-39	3.0%
40-49	4.0%
50 and over	5.0%

Points are determined at the beginning of each year as the sum of the participant's age and Vesting Service as of December 31 of that year.

Interest credits are credited semi-monthly on the cash balance at the beginning of each period. Beginning July 1, 2009, the interest rate used each year is based upon the monthly average 30-year Treasury bond rate for the month of December in the immediately preceding Plan Year, as published in the Federal Reserve Statistical Release. The applicable interest rate for each Plan Year shall not be lower than 3%.

Beginning January 1, 2011, pay credits are credited beginning at the date of participation, rather than the date of hire.

Retirement Income Beginning January 1, 2012

Plan Freeze Effective
January 1, 2012

Employees hired after December 31, 2010 may not participate in the Plan. Rehired employees may not participate in the SunTrust Plan if not rehired and eligible to participate by December 31, 2011.

Future benefit accruals are frozen as of December 31, 2011 for all participants in the Plan, including participants on a leave of absence and on disability.

Compensation paid after December 31, 2011 will not be considered in calculating benefits under the Plans. There will be no further pay credits added to the Personal Pension Account (PPA) under the SunTrust Plan. Average Compensation under the Final Average Pay (FAP) formula under the SunTrust Plan will be frozen at the December 31, 2011 level. The pay rollup factor applicable to the FAP benefit under the SunTrust Plan will be frozen at the December 31, 2011 level.

Personal Pension Accounts under the SunTrust Plan will continue to be credited with interest credits after December 31, 2011.

Benefit Service after December 31, 2011 will not be considered for purposes of calculating benefits under the SunTrust Plan.

Participants will continue to earn Vesting Service for employment with SunTrust and its affiliates after December 31, 2011. Future Vesting Service will count toward eligibility for early retirement under the SunTrust Plan.

For all purposes, the plan freeze information summarized in this section applies to all provisions summarized above.

Eligibility for Benefits
Normal Retirement

For each person who was a participant before January 1, 1989, the first of the month coinciding with or next following attainment of age 65.

For each person who becomes a participant on or after January 1, 1989, the later of (a) the first of the month coinciding with or next following attainment of age 65 or (b) the earlier of the fifth anniversary of plan participation or the completion of five years of Vesting Service.

Early Retirement

The Participant's Earliest Retirement Date is the first day of the month following the month in which he has both reached his 55th birthday and completed five years of Vesting Service. For any participant whose termination date occurred before January 1, 2000, the plan requires 10 Years of Vesting Service.

However, the participant who has at least three years of Vesting Service may elect to begin receiving benefits as early as age 55—his participant is considered a “vested terminated” participant and not a “retired” participant for purposes of the plan.

Delayed Retirement

Participants may remain in service after Normal Retirement Date, with benefit payments commencing the first of the month coinciding with or next following actual retirement.

Early Retirement	<p>Retirement Income as described above for benefits calculated before January 1, 2008 and for benefits calculated under the FAP formula after January 1, 2008 will be reduced as follows:</p> <ol style="list-style-type: none"> (1) For employees hired prior to July 1, 1990, with at least 10 years of Vesting Service and at least 55 years of age at termination of employment with SunTrust, 5/12ths of 1% for each month benefit commencement precedes the first of the month coinciding with or next following attainment of age 60. This also applies for participants who are involuntarily terminated from employment without cause in the 2007 or later plan year because of a reduction in force (i.e., they receive severance pay from their Employers pursuant to the SunTrust Banks, Inc. - (3) For Crestar December 31, 1999 frozen benefit, booster and grandfathered formulas, Retirement Income as described above assuming Benefit Service continued to Normal Retirement Date and Average Compensation as of determination date. The resulting benefit is multiplied by the ratio of Benefit Service at determination date to Benefit Service at Normal Retirement Date. The benefit is then reduced as follows:

Delayed Retirement

Retirement Income as described above determined as of delayed retirement date (with Social Security as of Normal Retirement Date, where applicable).

Disability Retirement

For participants who remain under the FAP formula, Retirement Income was frozen as of December 31, 2011 as described above assuming Benefit Service continued through December 31, 2011 and Compensation continued through December 31, 2011 at the same rate as in effect immediately prior to disability.

For participants who transition to the PPA formula, pay credits were frozen as of December 31, 2011. Interest credits will continue until the participant's actual retirement date.

Schedule SB Attachment (Form 5500)—2015 Plan Year
SunTrust Banks Inc. Retirement Plan

Termination with Vested Benefit

Retirement Income as described above multiplied by nonforfeitable percentage in accordance with the vesting schedule applicable. If payments commence prior to Normal Retirement Date, the benefit is reduced according to the applicable Early Retirement reduction factors described above. There is no reduction applied to vested cash balance benefits for commencement before Normal Retirement Date.

Death With Pre-Retirement Survivor Income Benefits
Annuity Benefits

Married participants

If eligible for early retirement, the surviving spouse will receive a monthly benefit equal to one-half the amount that would have been payable to the participant as a 50% joint and survivor annuity, based on his accrued benefit earned as of the date of death. Effective October 1, 2010, the pre-retirement death benefit was increased to a 100% joint and survivor annuity.

If the participant elected the 100% or 75% spousal joint and survivor annuity or a lump sum payment but died before his annuity starting date and within 90 days after submitting his election, the plan will pay the elected form to the surviving spouse, unless in the case of a lump sum payment where the surviving spouse elects to receive a qualified preretirement survivor annuity.

Notwithstanding the foregoing, effective for participant deaths that occur on or after January 1, 2008, the surviving spouse may elect to receive the survivor benefit in the form of a lump sum or a single life annuity, regardless of the present value of the survivor benefit.

For former Crestar employees, the pre-retirement death benefit cannot be less than the December 31, 1999 Crestar accrued benefit paid as a 100% spousal joint and survivor annuity. Additional minimums apply for grandfathered Crestar employees.

Unmarried participants

The benefit will be payable to the beneficiary as a lump sum and will be calculated in the same manner as the pre-retirement survivor benefit payable to a surviving spouse of the same age as the participant.

PPA Cash Balance Benefits

The PPA cash balance account will be payable to the participant's designated beneficiary.

Other Plan Provisions
Forms of Payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, 75% joint and survivor annuity, a ten-year certain and life annuity, unlimited lump sum (effective for certain grandfathered participants and all active participants as of October 1, 2010), involuntary cash-outs for lump sums up to \$5,000, or (for married participants) a life annuity.

Maximum on Benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Changes in Plan Provisions Since Prior Measurement

There have been no changes in plan provisions since the prior measurement on January 1, 2014.
