INDEPENDENT AUDITORS' REPORT

The Benefits Committee
CoorsTek, LLC Savings and Investment Plan
Golden, Colorado

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the CoorsTek, LLC Savings and Investment Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis of Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014, and for the years ended December 31, 2015 and 2014, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets Held at Year End as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CoorsTek, LLC Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

1. Description of the Plan

The following brief description of the CoorsTek, LLC Savings and Investment Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees described below. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Benefits Committee is responsible for the oversight of the Plan. The Benefits Committee also determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The CoorsTek, Inc. Savings and Investment Plan, formerly the ACX Technologies, Inc. Savings and Investment Plan B, (the Plan) and the related Trust Agreement (the Trust) were established effective December 28, 1992. The Plan's purpose is to encourage employees of CoorsTek, Inc. and certain designated affiliates (the Company or CoorsTek) to accumulate savings systematically to provide an additional source of income upon retirement. Prior to December 28, 1992, employees of the Company were eligible to participate in the Coors Savings and Investment Plan. On December 28, 1992, these participants' accounts in the Coors Savings and Investment Plan were transferred into the CoorsTek, Inc. Savings and Investment Plan concurrent with the spin-off of the Company from Adolph Coors Company.

Assets of the Plan were held in a master trust with assets of the Graphic Packaging Savings and Investment Plan, formerly the ACX Technologies Savings and Investment Plan A (the GPC Plan) until the spin-off of CoorsTek from Graphic Packaging International Corporation, formerly ACX Technologies, Inc., on December 31, 1999. Effective January 1, 2000, the Plan assets were transferred from the master trust into a separate trust sponsored by CoorsTek.

On March 18, 2003, CoorsTek merged with Keystone Acquisition Corp. and became a wholly owned subsidiary of Keystone Holdings LLC. As a result, CoorsTek is no longer a public company and participants of the CoorsTek, Inc. Savings and Investment Plan can no longer invest in the Unitized Stock Fund that consists of CoorsTek common stock. Participants holding shares in the Unitized Stock Fund were required to invest the \$26 received per share of CoorsTek common stock into remaining investment options within the CoorsTek, Inc. Savings and Investment Plan.

Effective April 1, 2014, the Plan's name was changed to CoorsTek, LLC Savings and Investment Plan from CoorsTek, Inc. Savings and Investment Plan. CoorsTek, LLC is charged with assuming the direct responsibility for all health, welfare, retirement and benefit plans for CoorsTek, Inc. and its portfolio companies (the Company).

Eligibility

All full-time employees of the Company and certain affiliates who are at least age 18 are eligible to participate in the Plan as of the first day of the month coinciding with or following 30 days of service. The following groups are excluded from participation: residents of Puerto Rico, employees covered by collective bargaining agreements, leased employees, nonresident aliens with no income from U.S. sources, and independent contractors.

Contributions

For the years ended December 31, 2015 and 2014, participants were allowed to make contributions based on any whole percentage of compensation, as defined in the Plan, received in a pay period up to a maximum of 80% of compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into investment options offered by the Plan. Participants may change their investment options at any time. The Plan currently offers 37 investment options for participants as follows: one common/collective

CoorsTek, LLC Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

trust option, one guaranteed investment contract, one self-directed brokerage account, and 34 mutual funds. The mutual funds are qualified investments under the Investment Act of 1940.

Effective January 1, 2012, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set initially at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant. The auto-enrollment deferral percentage increases 1% annually until a maximum deferral rate of 6% is reached.

Any participant contributions deposited prior to December 1, 1986, as part of the Coors Savings and Investment Plan have been taxed previously and are not taxable when paid to the participant. Participant contributions deposited subsequent to November 30, 1986, are taxable when paid to participants.

Beginning January 1, 2002 and through April 13, 2009, CoorsTek's contribution match to the Plan was 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation. Effective April 13, 2009, CoorsTek's safe-harbor matching contribution (100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation) was eliminated. The Plan could, however, make a discretionary matching contribution. No discretionary matching contributions for the period from April 1, 2009 to December 31, 2009 were made. Prior to January 1, 2002, CoorsTek matched 50% of each participant's basic contribution up to a maximum of 1% of the participant's eligible contribution.

Effective January 1, 2010 going forward, CoorsTek's safe harbor match was reinstated and increased to 100% of the first 6% of eligible compensation. Additionally, effective January 1, 2010, the Plan was amended to allow for a discretionary match. There were no discretionary match contributions for the years ended December 31, 2015 and 2014.

Effective January 1, 1987, employer contributions to the Coors Payroll Stock Ownership Plan (PAYSOP) were discontinued. However, PAYSOP account values generated by prior employer contributions remain in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions, earnings on investments and related expenses are recorded in separate accounts maintained for each participant. Participants may change their investment options at any time.

Vesting

Participants are immediately vested in their entire account balance, including their voluntary contributions, the employer's contributions, and all investment earnings on those funds.

On March 15, 2012, the assets of Ceramtec, Inc. Profit Sharing 401(k) Plan were transferred into the Plan (see Note 12). As part of the transfer, a prior vesting schedule related to pre-2010 employer matching and profit sharing contributions was preserved for participants in the Ceramtec, Inc. Profit Sharing 401(k) Plan who terminated on or before November 8, 2011. The preserved vesting schedule for the pre-2010 employer matching and profit sharing contributions is as follows.

Notes Receivable from Participants

A participant may borrow from their fund accounts up to 50% of the total value of his or her Plan accounts, excluding the PAYSOP account. The minimum loan amount is \$1,000 and the maximum loan amount is \$50,000 minus the highest outstanding loan balance in the preceding 12 months. These loans are available to active employees who are participants. Only one loan may be outstanding at any time. The loans are secured by the participant's account balance. Rates are equal to the U.S. Prime rate plus one percent and are reset when the U.S. Prime rate changes. A loan origination fee is charged to participants upon initiation of a loan. Loan terms are available for 12, 24, 36, 48 or 60 months. Loans are normally repaid by bi-weekly payroll deductions and these payments are credited back to the participants' Plan accounts and invested according to the most current investment election. At December 31, 2015 and 2014, rates ranged from 4.25% to 9.50%. Loans are subject to certain payment provisions upon termination of employment, default, lay-off, unpaid leave of absence and disability.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or various annuity options. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

The Plan provides for hardship withdrawals. A participant may withdraw certain contributions to satisfy immediate and heavy financial needs for any of the following: medical expenses, purchase of a primary residence, to prevent eviction or foreclosure from a primary residence, post-secondary education expenses, burial or funeral expenses, or certain repairs as defined for repairs to a primary residence. Before obtaining a hardship withdrawal, a participant must exhaust all other assets reasonably available including participant loans available through the Plan. Following a hardship withdrawal, a participant's elective deferral contributions are suspended for a six-month period.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. It is reasonably possible that the Plan's estimates may change in the near term.

CoorsTek, LLC Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are presented as a reduction to the net appreciation of fair value of investments.

Plan Amendments

The Plan has implemented the provisions of the Pension Protection Act of 2006. The Plan has also been amended to comply with applicable provisions of the Pension Reform Act, the HEROES Act, the Worker, Retiree, and Employer Recovery Act, and the Emergency Economic Stabilization Act.

In 2013, the Company amended the Plan to add new participating employers. Additionally, the Plan was amended as result of the merger of the EmiSense Technologies, LLC 401(k) Plan into the Plan.

Effective June 20, 2014, the Managed Income Portfolio investment option was eliminated. All funds in the Managed Income Portfolio I were transferred to the Managed Income Portfolio II.

On July 11, 2014, the Benefits Committee decided to close the Janus Overseas Fund. Participants with balances in the fund option had their investments transferred to the Fidelity Diversified International Fund.

On September 12, 2014, an Amendment was made to add the Fidelity Freedom K Class Funds to the investment lineup and to discontinue the current Fidelity Freedom Fund investment options as of November 5, 2014. Participants with balances in the Fidelity Freedom Fund options had their investments transferred to the Fidelity Freedom K Class Fund which corresponded to the year originally selected for each fund. Participants with balances in the Fidelity Freedom Income Fund had their investments transferred to the Fidelity Freedom K Income Fund.

Effective December 5, 2014, the Plan was amended as a result of the merger of the iMDs 401(k) and Profit Sharing Plan.

On January 1, 2015 and March 2, 2015, the Plan was amended to add new participating employers.

New Accounting Pronouncements

In May of 2015, the FASB issued ASU 2015-07, "*Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*". Under the amendments in this update, investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy. The amendments are effective for fiscal years beginning after December 15, 2016. The Plan is currently reviewing the effect of this standard on its financial reporting and will determine an implementation strategy.

In July of 2015, the FASB issued ASU 2015-12, "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*". This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. The Plan is currently reviewing the effect of this standard on its financial reporting and will determine an implementation strategy.

Subsequent Events

Management has evaluated subsequent events and transactions that occurred after the balance sheet date through October 12, 2016, which is the date the financial statements were available to be issued.

3. Investments - Unaudited

The Plan's investments are described below. All of the mutual funds are qualified investments under the Investment Act of 1940.

Fidelity BrokerageLink – This investment option is a self-directed brokerage account that allows participants to manage their retirement savings more actively. The fund seeks to provide a broad range of investment products that allow participants to manage their retirement savings more actively.

Managed Income Portfolio II-Class I – These funds seek to preserve the principal investment while earning a level interest income that is consistent with principal preservation. The funds seek to maintain a stable net asset value (NAV) of \$1 per share, but cannot guarantee that they will be able to do so. The yields of the fund will fluctuate. The funds invest in benefit-responsive investment contracts issued by insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements.

Fidelity Blended Stable Value Portfolio – The fund seeks to provide safety of principal and consistency of returns while attempting to maintain minimal volatility. The Fund is designed for investors seeking more income than money market funds without the price fluctuation of stock or bond funds. The fund is a combination of units of the Fidelity Money Market Trust Retirement Money Market Portfolio and the Great-West Guaranteed Portfolio Fund.

Cohen & Steers Realty Shares, Inc. – The investment seeks total return through investment in real estate securities. The fund invests at least 80%, and normally substantially all, of its total assets in common stocks

CoorsTek, LLC Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

and other equity securities issued by real estate companies. The fund may invest up to 20% of assets in securities of foreign issuers (including emerging market issuers) which meet the same criteria for investment as domestic companies, including investments in such companies in the form of American Depositary Receipts (ADRs), Global Depositary Receipts (GDRs) and European Depositary Receipts (EDRs). It is non-diversified.

PIMCO Total Return Fund Institutional Class – The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 65% of total assets in a diversified portfolio of Fixed-Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of total assets in high-yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers.

Royce Pennsylvania Mutual Fund Investment Class –The investment seeks long-term growth of capital. The fund invests its assets primarily in the equity securities of small-cap companies with stock market capitalization up to \$3 billion that it believes are trading below its estimate of their current worth. The fund normally invests at least 65% of assets in the equities of such small-cap companies. The fund may invest up to 25% of its net assets (measured at the time of investment) in securities of companies headquartered in foreign countries.

Morgan Stanley Institutional Fund, Inc. – Small Company Growth Portfolio - Class A – The investment seeks long-term capital appreciation by investing primarily in growth-oriented equity securities of small capitalization companies. The fund invests primarily in established and emerging companies from a universe comprised of small capitalization companies, most with market capitalizations of generally less than \$4 billion. The fund invests at least 80% of assets in equity securities of small capitalization companies. It may invest up to 25% of the Portfolio's net assets in foreign securities.

T. Rowe Price Mid-Cap Growth Fund – The investment seeks long-term capital appreciation. The fund normally invests at least 80% of net assets (including any borrowings for investment purposes) in a diversified portfolio of common stocks of mid-cap companies whose earnings T. Rowe Price expects to grow at a faster rate than the average company. It defines mid-cap companies as those whose market capitalization falls within the range of either the S&P Mid-Cap 400 Index or the Russell Midcap Growth Index. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives.

T. Rowe Price Blue Chip Growth Fund –The fund seeks long-term capital growth; income is a secondary objective. The fund will normally invest at least 80% of assets (including any borrowings for investment purposes) in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market position, seasoned management, and strong financial fundamentals. The fund may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

T. Rowe Price Dividend Growth Fund – The fund seeks to provide dividend income and long-term growth primarily through investments in stocks. The fund normally invests at least 65% of total assets in stocks, with an emphasis on stocks that have a strong track record of paying dividends or that are expected to increase their dividends over time. T. Rowe Price believes that a track record of dividend increases is an excellent indicator of financial health and growth prospects, and that over the long term, income can contribute significantly to total return.

T. Rowe Price Equity Income Fund – The fund seeks to provide a high level dividend income and long-term capital growth primarily through investments in stocks. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in common stocks, with an emphasis on large-capitalization stocks that have a strong track record of paying dividends or that are believed to be undervalued. It generally seeks investments in large-capitalization companies and the fund's yield, which

CoorsTek, LLC Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

reflects the level of dividends paid by the fund, is expected to normally exceed the yield of the S&P 500 Stock Index.

Fidelity Inflation- Protected Bond Fund – This fund seeks a total return that exceeds the rate of inflation over the long term. It normally invests at least 80% of its assets in inflation-protected debt securities of all types. The fund invests primarily in U.S. dollar-denominated inflation-protected debt securities. The fund may engage in transactions that have a leveraging effect on the fund.

Fidelity Magellan K Fund – This fund seeks capital appreciation and invests normally in common stocks, either “growth” or “value” stocks or both.

Fidelity Equity-Income Fund – The fund seeks reasonable income. The fund will also consider the potential for capital appreciation. The fund seeks a yield for its shareholders that exceeds the yield on the securities comprising the S&P 500 Index. The fund normally invests at least 80% of assets in equity securities and investing primarily in income-producing equity securities, which tends to lead to investments in large cap “value” stocks. Potentially, the fund may invest in other types of equity securities and debt securities, including lower-quality debt securities, while investing in domestic and foreign issuers.

Fidelity Low-Priced Stock Fund – This fund seeks to provide capital appreciation and primarily invests at least 80% of its assets in low-priced stocks (priced at or below \$35 per share), which can lead to investments in small and medium-sized companies. The fund invests in either “growth” or “value” stocks or both and primarily in common stocks.

Fidelity Diversified International Fund – This fund seeks to provide capital growth through investing primarily in non-U.S. securities. The fund normally invests primarily in common stocks.

Fidelity Freedom K Funds (Fidelity Freedom 2005, 2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055, 2060 Funds) – Fidelity Freedom Funds are invested in a diversified portfolio of Fidelity mutual funds. The Freedom Funds seek to provide a high total current income and, as a secondary objective, capital appreciation. The Freedom 2005, 2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055 and 2060 funds seek a high total return until their target retirement date. The Freedom 2005, 2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055 and 2060 funds invest in a combination of underlying Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds and short-term funds. The asset allocation among underlying Fidelity funds is based on an asset allocation that becomes increasingly conservative until it reaches approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds (approximately 10 to 19 years after the target year). Ultimately, the funds will merge with the Fidelity Freedom Income Fund. Strategic Advisers may continue to seek high total return for several years beyond the fund’s target retirement date in an effort to achieve the fund’s overall investment objective.

Fidelity Freedom K Income Fund – The fund seeks high current income and, as a secondary objective, capital appreciation by investing in a combination of underlying Fidelity domestic equity, international equity funds (developed and emerging markets), bond funds, and short-term funds. Assets are allocated among underlying Fidelity funds according to a stable target asset allocation of approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds.

Fidelity Money Market Trust Retirement Government Money Market Portfolio – This fund seeks to provide as high a level of current income as is consistent with the preservation of principal and liquidity. The fund primarily invests at least 99.5% of its assets in cash, U.S. Government securities and/or repurchase agreements for those securities that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress, but their securities are neither issued nor guaranteed by the U. S Treasury. The fund may also enter into reverse repurchase agreements.

Goldman Sachs Mid Cap Value Fund Institutional Class – The fund seeks long-term capital appreciation. The fund normally invests at least 80% of net assets plus borrowings for investment purposes in a diversified portfolio of equity investments in mid-cap issuers with public stock market capitalizations within the range of the market capitalization of companies constituting the Russell Midcap Value Index at the time of investment. Although it will invest primarily in publicly traded U.S. securities, the fund may invest in foreign securities, including securities of issuers in countries with emerging markets or economies (“emerging countries”) and securities quoted in foreign currencies.

Fidelity 500 Index Fund Institutional Class – The fund seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States. The fund normally invests at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

Fidelity Extended Market Index Fund - Premium Class – The fund seeks to provide investment results that correspond to the total return stocks of mid- to small-capitalization United States companies. The fund normally invests at least 80% of assets in common stocks included in the Dow Jones U.S. Completion Total Stock Market Index, which represents the performance of stocks of mid- to small-capitalization U.S. companies.

Fidelity International Index Fund - Premium Class – The fund seeks to provide investment results that correspond to the total return of foreign stock markets. The fund normally invests at least 80% of assets in common stocks included in the Morgan Stanley Capital International Europe, Australasia, Far East Index, which represents the performance of foreign stock markets.

Fidelity U.S. Bond Index Fund - Premium Class – The fund seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Barclays U.S. Aggregate Bond Index by normally investing at least 80% of the fund’s assets in bonds included in the Barclays U.S. Aggregate Bond Index, using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities, engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund’s risk exposure and investing in Fidelity’s central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

JPMorgan Small-Cap Value Fund - Class R6 – The fund seeks to provide long-term capital growth primarily by investing in equity securities of small-capitalization companies. The fund normally invests at least 80% of its assets in equity securities of small-cap companies. “Assets” means net assets, plus the amount of borrowings for investment purposes. Small-cap companies are companies with market capitalizations equal to those within the universe of the Russell 2000 Value Index stocks at the time of purchase. In reviewing investment opportunities for the fund, its adviser uses a value-oriented approach. In implementing its main strategies, the fund’s equity investments are primarily in common stocks and REITs.

Neuberger Berman Strategic Income Fund – Institutional Class – The fund seeks to provide high current income with a secondary objective of long-term capital appreciation. The fund invests primarily in a diversified mix of fixed rate and floating rate debt securities. The fund’s investments may include securities issued by domestic and foreign governments, corporate entities and trust structures. The fund may invest in a broad array of securities, including: securities issued or guaranteed as to principal or interest by the U.S. government or any of its agencies or instrumentalities; corporate bonds; commercial paper; mortgage-backed securities and other asset-backed securities; and loans.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CoorsTek, LLC Savings and Investment Plan
Notes to Financial Statements
Years Ended December 31, 2015 and 2014

Common/Collective Trusts: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Insurance Company General Account – Stable Value Fund: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Benefits Committee evaluates a variety of factors including a review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014 for all recurring items:

6. Managed Income Portfolio I and II

The Managed Income Portfolio I is a common/collective trust and stable value fund which invests, in part, in fully benefit responsive contracts with insurance companies and other financial institutions. The insurance companies and other financial institutions maintain the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Effective June 20, 2014, the Managed Income Portfolio investment option was eliminated. All funds in the Managed Income Portfolio were transferred to the Managed Income Portfolio II.

Because the Managed Income Portfolio I was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Managed Income Portfolio I. The investment in the Managed Income Portfolio I was presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported by Fidelity Management Trust Company, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the issuers or otherwise. The fair value of the investment contract at December 31, 2014 was more than the contract value by \$3,680. The crediting interest rate was based on the earnings of the underlying assets in the entire short-term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate was reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plans sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA (5) premature termination of the contract. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

The Managed Income Portfolio II is a common/collective trust and stable value fund which invests, in part, in fully benefit responsive contracts with insurance companies and other financial institutions. The fair value of the investment contract at December 31, 2015 was more than the contract value by \$192,859. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the issuers or otherwise. The Plan's ability to receive amounts due is dependent on the issuers' ability to meet its financial obligations. The issuers' ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plans sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA (5) premature termination of the contract. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer. The group trust agreement does not permit the trust company to terminate the agreement prior to the scheduled maturity date.

7. Insurance Company General Account - Stable Value Fund

The stable value fund (Fidelity Blended Stable Value Portfolio) is a combination of units of the Fidelity Money Market Trust Retirement Money Market Portfolio and the Great-West Guaranteed Portfolio Fund. The fair value of the investment contract at December 31, 2015 was \$1,113,588. The stable value fund was created as result of the Plan merging in the assets of the iMDS 401(k) and Profit Sharing Plan as discussed in Note 13. The iMDS 401(k) and Profit Sharing Plan has a guaranteed investment contract option with a stated maturity of December 12, 2015. As of December 31, 2015, all stable value fund investments consist of units of the Fidelity Money Market Trust Retirement Money Market Portfolio. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than the contract's minimum guaranteed interest rate. Such interest rates are reviewed on a quarterly basis for resetting.

The Plan had entered into a fully benefit-responsive deposit annuity contract with Great-West Life & Annuity Insurance Company (GWL). GWL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. GWL is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the deposit annuity contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deposit annuity contract. The deposit annuity contract was presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by GWL, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan's ability to receive amounts due is dependent on the issuers' ability to meet its financial obligations. The issuers' ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plans sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA (5) premature termination of the contract. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

8. Related Party Transactions

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are presented as a reduction to investment income, as they are paid through revenue sharing rather than a direct payment. Fees paid directly by the Plan totaled \$42,179 and \$34,279 for the years ended December 31, 2015 and 2014, respectively. The Plan sponsor pays directly any other fees related to the Plan's operations.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Tax Status

The IRS has determined and informed the Company by a letter dated February 14, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the United States federal jurisdiction. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2011.

11. Risks and Uncertainties:

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. Realized Gains on Investment Transactions - Unaudited

The cost of investments sold or transferred is determined on a participant level by the average cost method.

The Department of Labor Form 5500 requires gains and losses to be determined using the current value method - that is, the current value of the assets as of the beginning of the Plan year, as carried forward from the end of the prior Plan year - or historical cost if the investment was acquired since the beginning of the Plan year. Realized and unrealized investment gains and losses disclosed in the Statement of Changes in Net Assets Available for Benefits have been calculated based upon historical cost.

<i>Realized gains on investment transactions</i>	<u>2015</u>	<u>2014</u>
As reported in the Statement of Changes in Net Assets using historical cost	\$ 230,806	\$462,077
As reported in Form 5500 using the current value method	(31,130)	(32,468)
<i>Unrealized gains (losses) on investment transactions</i>		
As reported in the Statement of Changes in Net Assets using historical cost	\$8,340,091	\$1,328,269
As reported in Form 5500 using the current value method	(213,798)	125,852

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end, but not yet paid as of that date. At December 31, 2015 and 2014, there were none and \$4,081, respectively, in benefit claims that had been processed and approved for payments that were not paid prior to year-end.

13. Plan Mergers

The Board of Directors of Coorstek, LLC, the Plan's sponsor, voted on December 5, 2014 to merge the iMDs, 401(k) and Profit Sharing Plan into the Plan as of December 5, 2014. The net assets of the iMDs 401(k) and Profit Sharing Plan were transferred into the Plan at the balances as previously carried in the accounts of the iMDs 401(k) and Profit Sharing Plan. Employees who were participants under the iMDs 401(k) and Profit Sharing Plan became participants in the Plan as of December 5, 2014. A summary of the transferred net assets follows:

Investments	\$ 11,591,604
Notes receivable from participants	421,777

14. Subsequent Events

The Plan has been amended in 2016 to add new participating employers to the Plan. Additionally, a merger of the assets of the Liberty Woods International Employee Savings Plan was approved on April 1, 2016. As a result, assets of \$5,417,359 were merged into the Plan.
