EDUCATIONAL BUS TRANSPORTATION, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

Note 1 - Plan Description:

The Educational Bus Transportation, Inc. 401(k) Plan (the "Plan") is a defined contribution plan for Educational Bus Transportation, Inc., Educational Bus, Inc., and E.B.T., Inc. (collectively, the "Company"). The Plan was amended January 1, 2014 to allow E.B.T., Inc., to become a Participating Employer. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with a 401(k) feature covering all employees of the Company. Employees who are eighteen years or older can enter the Plan and commence elective deferrals on the first day of the month following the date of being hired. Participants are eligible to receive discretionary matching and profit sharing contributions on the first day of the month following their completion of one year of service (consisting of 1,000 hours of service within one employment year) if they are still employed by the Company at year end. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 90% of eligible pretax compensation up to the maximum allowed by law. Participants are permitted to make contributions as "Roth" contributions. Participants may also contribute distributions from other qualified plans (rollovers). Each year the Company may elect to make a matching and/or profit sharing contribution to the Plan at the discretion of the Company's Board of Directors and subject to limitation by law. For 2015, the Board of Directors elected to match 25% of each employee's annual contribution, up to a maximum of 2.5% of eligible compensation. All contributions are participant directed.

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company's matching and allocations of discretionary contributions and Plan earnings and charged with the participant's withdrawals or distributions and an allocation of administrative expenses. Allocations are based on participant account balances as defined. The benefit to which a participant is entitled is the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Participants' vesting of Company contributions plus actual earnings thereon is based on years of service. A participant vests 20% after two years of credited service and each year thereafter, until 100% vested after six years of credited service. Upon death, disability, or retirement, as defined by the Plan Documents, a participant will become fully vested.

Participants' Notes Receivable - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans require repayment within no more than 5 years, or up to 30 years if for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest must be paid ratably through payroll deductions or otherwise in at least equal quarterly installments.

Note 1 - Plan Description (Continued):

Payment of Benefits - Upon termination of service due to death, disability, retirement or other reasons, a participant, or his or her beneficiary, may elect to receive one of the following forms of payment equal to the value of the participant's vested interest in his or her account: 1) Lump sum; 2) Life annuity; 3) Survivor annuity; or 4) partial distribution. In those cases where the vested balance, excluding rollovers, is less than $5,000, a participant will receive the value of the vested interest as a lump sum distribution. Death benefits paid to a beneficiary will be paid in a lump sum distribution.

Forfeited Accounts - The Plan provides for forfeitures to reduce either administrative expenses or employer matching contributions. As of December 31, 2015, forfeitures available to reduce future employer contributions totaled $473. There were forfeitures of $1,099 during the year ended December 31, 2015.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Shares/units of the registered investment companies and common collective trusts are valued at quoted market prices, which represent the net asset value of shares/units held by the Plan at year-end. Participant notes receivable are valued at cost, which approximates fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. See Note 5 for discussion of fair value measurements.

Expenses - Professional fees and other administrative expenses are paid by the Plan, unless paid by the Company.

Payment of Benefits - Benefits are recorded when paid.

Accounting for Uncertainty in Income Taxes - Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740, Subtopic 10 prescribes a comprehensive model for how a plan should measure, recognize, present, and disclose in its financial statements uncertain tax positions that the plan has taken or expects to take on a tax return. The Plan recognizes tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. There was no impact to the Plan's financial statements as a result of FASB ASC Topic 740, Subtopic 10.

Subsequent Events - Plan management evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure. The accompanying financial statements consider events through October 12, 2016, the date the financial statements were available to be issued.

Note 2 - Summary of Significant Accounting Policies (Continued):

Recent Accounting Pronouncement - In July 2015, FASB issued *Accounting Standard Update ("ASU") 2015-12 Plan Accounting: Defined Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Neither Part I nor Part III is applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan has elected to early adopt ASU 2015-12, applied retrospectively to all prior periods presented. This change has no impact on net assets available for benefits.

Note 3 - Party-In-Interest Transactions:

As of December 31, 2015 and 2014, Plan assets include funds held in common collective trusts managed by State Street Bank and Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest.

Note 4 - Information Prepared and Certified by Trustee:

The following information included in the accompanying financial statements and supplemental schedule as of December 31, 2015 and 2014 was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2015	2014
Fair Value of Interest In:		
Common Collective Trusts	$ 329,766	$ 218,636
Registered Investment Companies	2,891,068	2,603,866
	$ 3,220,834	$ 2,822,502

Note 5 - Fair Value Measurements:

FASB ASC 820, *Fair Value Measurement*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements - The fair value of shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Level 2 Fair Value Measurements - The fair value of the common collective trusts are based on observable inputs including quoted net asset values for similar assets or liabilities in active or non-active markets.

Note 5 - Fair Value Measurements (Continued):

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit:

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
December 31, 2015:			
Common Collective Trusts	$ 329,766	$ -	$ 329,766
Registered Investment Companies	2,891,068	2,891,068	-
Total	$ 3,220,834	$ 2,891,068	$ 329,766
December 31, 2014:			
Common Collective Trusts	$ 218,636	$ -	$ 218,636
Registered Investment Companies	2,603,866	2,603,866	-
Total	$ 2,822,502	$ 2,603,866	$ 218,636

Note 6 - Tax Status:

The Plan was designed in accordance with a prototype plan developed by the Plan trust. The Internal Revenue Service has determined by a letter dated March 31, 2008, that the prototype plan and its related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the related trust was tax exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right, under the Plan Document, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. In the case of a partial termination, only those who separate from service will become fully vested.

Note 8 - Current Vulnerability Due to Concentrations of Credit Risk:

The Plan may invest in various types of investment securities. Investment securities are exposed to various market risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.
