Note 1: Description of the Plan

General

Effective January 1, 1996, Greater Houston Anesthesiology, P.A. (the Employer, the Company or the Plan Sponsor) adopted the Greater Houston Anesthesiology, P.A. 401(k) Profit Sharing Plan (the Plan) to provide retirement benefits for all eligible employees. The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan, as amended and restated effective January 1, 2011, is a defined contribution plan covering eligible employees of the Employer and certain affiliated service groups (Physician Association or P.A.) employers. Employees of the Company and employees of P.A. (collectively employees or participants) who are 20½ years or older are eligible to contribute to the Plan. Per the restated Plan document, employees are immediately eligible to become a contributing participant. Employees are eligible for employer matching and discretionary contributions after reaching age 20½, one year of service or 1,000 hours of service. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, as amended (ERISA) and subsequent related amendments and revisions.

Effective December 29, 2013, the employees of MSO Newco, LLC. (subsidiary of Emergency Medical Services Corporation) began participating in the Plan. Also, effective June 26, 2014, the employees of North Houston Anesthesiology, P.A. began participating in the Plan.

Contributions

Participants may contribute up to 100% of their pre-tax compensation (elective deferral) to the Plan. The Plan also allows participants to make Roth, after-tax contributions which, combined with pre-tax contributions, are subject to Internal Revenue Code (IRC) limits of $18,000 with a $6,000 per year catch-up for participants age 50 and older in 2015. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate (Auto-Percentage) set at 3% of eligible compensation with a 1% automatic annual increase escalating to 8%. The Employer matches the lesser of 4% of eligible compensation or an amount equal to 67% of a participant's elective deferral which does not exceed 6% of the participant's compensation. The Plan also provides for an additional discretionary Employer contribution to be made to eligible participants. During 2015, the Employer made discretionary contributions in the amount of $5,440,297.

Participant Account Balances

Each participant's account is credited with the participant's contribution, the Employer's contributions and Plan earnings. Income or loss allocations, where applicable, are based on a participant's pro rata account balance in the applicable funds, as defined in the plan document. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants have the option of utilizing a self-directed brokerage account through which participants are able to invest in a variety of securities including common stocks, mutual funds, and exchange traded fund in accordance with the Plan document.

Vesting

Participants are always fully vested in their participant contributions, Employers' matching and discretionary contributions, and in the actual earnings attributable thereon.

Forfeitures

Forfeitures result from excess aggregate contributions to the Plan that the Company has already funded. Amounts forfeited are used to reduce future Company contributions. The forfeiture balance at December 31, 2015 and 2014 was $27,321 and $3,408, respectively, and $96,056 was used to reduce Company contributions during 2015.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance during the prior 12-month period or 50% of their account balance at the discretion of the plan administrator. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Under the terms of the Plan Agreement, participants who terminate their employment with the Employer may receive all amounts credited to their accounts. Upon the death of the participant while actively employed, distribution is made in accordance with the participant's previous direction. Upon becoming eligible to receive the value of their Plan account, participants may choose to receive such account either in the form of a single lump sum cash payment or in the form of installment payments. The Plan also allows participants to make hardship and in-service withdrawals, subject to certain limitations, as defined in the Plan document.

Administrative Expenses

The Employer, at its discretion, pays certain administrative fees on behalf of the Plan. All expenses not paid by the Employer are paid by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to discontinue its contribution and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants' accounts will be distributed in a manner consistent with the provisions of the Plan document.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to use estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes gains and losses on investments bought and sold as well as held during the year, and expenses related to the Plan's investment portfolio.

Payment of Benefits

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-07). Impacting reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient, the amendments in ASU 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy for which fair value is measured using the NAV per share practical expedient under Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures (ASC 820). Instead, an entity would be required to include those investments in the disclosure so that the total fair value of investment amount is consistent with the fair value investment balance on the Statements of Net Assets Available for Benefits. For the Plan, the amendments in ASU 2015-07 are effective on a retrospective basis for fiscal years starting after

December 15, 2015, with early adoption permitted. Plan management has elected to adopt ASU 2015-07 as of and for the year ended December 31, 2015. Accordingly, investments for which fair value is measured using net asset value per share as a practical expedient have not been categorized within the fair value hierarchy.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. For indirect investments in fully benefit-responsive investment contracts through collective investment trusts, NAV per share should be calculated in a manner consistent with the measurement principles of ASC 946, *Financial Services — Investment Companies* (ASC 946). As required by ASC 946, the NAV is calculated by the fund is based on the net assets which includes fully benefit-responsive contracts at contract value. This NAV represents the Plan's fair value. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Plan management has elected to adopt Part II as of and for the year ended December 31, 2015, and has applied the provisions retrospectively. Plan management has eliminated the historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Furthermore, Plan management also simplified the level of disaggregation of investments in the fair value hierarchy table.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2015 and through September 19, 2016, the date which the financial statements are available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments and Investment Income

Information related to investments as of December 31, 2015 and 2014 and related investment income for the year ended December 31, 2015 was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan (Trustee), as permitted by Regulation 29 CFR 2520.103-8 of the Department of Labor rules under ERISA

Stable Value Fund

The Vanguard Retirement Savings Master Trust (Stable Value Fund) utilizes synthetic guaranteed investment contracts (Synthetic GICs). A Synthetic GIC includes a wrap contract issued by an insurance company or other financial institution and a portfolio of fixed income assets that are owned by the Stable Value Fund. The wrap contract provides that realized and unrealized gains and losses on the assets covered by the wrap contract are not reflected immediately in the net assets of the Stable Value Fund, but rather are amortized over the duration of the assets or other agreed upon period, through adjustments to the future interest crediting rates. The wrap contract provides a guarantee that all qualified participant withdrawals will occur at contract value which represents contributions made under the contract, plus earnings, less withdrawals made under the contract and administrative expenses.

The crediting rates for Synthetic GICs are reset periodically and are based on the market value of the portfolio of assets covered by the contracts. The average yields earned by the contract at December 31, 2015 and 2014 are as follows:

	2015	2014
Average yields:		
Based on actual earnings	2.29%	2.30%
Based on interest rates credited to participants	1.92%	1.89%

Wrap contracts provide that withdrawals associated with certain events not in the ordinary course of fund operations may be paid at market rather than contract value. Examples of such circumstances may include significant plan design changes, complete or partial plan terminations, severance programs, early retirement programs, the closing or sale of a subsidiary, bankruptcy of the plan sponsor or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Note 4: Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1
Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2
Inputs include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; (c) observable inputs other than quoted prices; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3
Inputs which are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at quoted net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust: Valued at the NAV of shares held by the Plan at year end, which is based on the fair value of the underlying investments using information reported by the investment advisor at year end, and allocated on a pro rata basis based on shares in the collective trust.

Vanguard Brokerage Option: Self-directed brokerage accounts may include a variety of securities including common stocks, mutual funds, and exchange traded fund. These investments are valued by the administrator of the fund based on quoted market prices and are classified within Level 1 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	2015	2014
Level 1:		
Registered investment companies	$ 150,433,011	$ 141,513,008
Vanguard Brokerage Option	25,843,721	29,135,714
	176,276,732	170,648,722
Common/collective trust measured at NAV:		
Stable value fund	16,313,367	15,472,618
Total investments at fair value	$ 192,590,099	$ 186,121,340

Note 5 Investments in Certain Entities that Calculate NAV Per Share

The tables below set forth fair value measurements of the investments in certain entities that calculate NAV per share or its equivalent, as of December 31, 2015 and 2014:

	Fair Value [1]		Estimated Using NAV per Share			
	2015	2014	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Common/collective trust Vanguard Retirement Savings Trust [2]	$16,313,367	$15,472,618	None	Daily	None	None

[1] The fair values of the investment have been estimated using the NAV of the investment.

[2] Represents pooled funds invested primarily in short-term, high credit-quality fixed income consistent with a 2 to 4-year average duration that seeks to maintain a stable net asset value.

Note 6: Party-in-Interest Transactions

The Plan invests in shares of mutual funds and a common/collective trust fund managed by Vanguard Fiduciary Trust Company, the trustee of the Plan, therefore, these transactions qualify as party-in-interest. Certain fees paid to the Trustee for investment management services are incorporated into the expense ratios of the individual mutual funds and common/collective trust and are paid directly from investment fund balances thereby affecting fund earnings. Participants should refer to the individual fund's prospectus for additional information regarding fund fees.

Note 7: Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Note 8: Plan Tax Status

Effective January 1, 2008, the Plan Sponsor amended and restated the Plan by adopting a non-standardized prototype plan developed by the Trustee. The prototype plan received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which stated that the form of the prototype plan is acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The Plan has not applied for its own determination

letter. Plan management intends for the Plan to operate as a qualified Plan and will do whatever is necessary to maintain the tax qualified status of the Plan.

US GAAP requires the plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9: Late Contributions

In 2014, the Company determined that certain employee deferrals aggregating $18,391 for plan year 2014 had not been remitted to the Plan in a timely manner, in compliance with Department of Labor regulations. The Company has undertaken the necessary procedures in order to reimburse affected participants for earnings lost due to the late contributions. New procedures have been implemented by the Company in order to avoid untimely contributions in the future. These non-exempt party-in-interest transactions do not affect the tax status of the Plan. The Company paid all fines imposed during 2016, which was not material to the financial statements.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the net assets per Form 5500 at December 31, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 194,895,095	$ 189,357,150

Net assets per Form 5500	$ 195,166,190	$ 189,817,970

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the net income per Form 5500 for the year ended December 31, 2015:
