1. DESCRIPTION OF THE PLAN

The following Plan description of the Jerry Leigh of California, Inc. (the "Company" or "Plan Sponsor") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contributions plan, established on January 1, 1998, covering substantially all full-time employees of the Company who have completed three months of service and are aged 21 or older. A Participants may enter the plan on the first day of any month following satisfaction of the eligibility requirements. The following employees are Excluded Employees: Collective Bargaining (union) employees, as defined in Code Section 410(b)(3)(A), and non-resident aliens, as defined in Code Section 410(b)(3)(C). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Administration

The Plan is administered by the Administrative Committee which is appointed by the Company Board of Directors and consists of officers of the Company. The Trustee for the Plan's investments is Ascensus Trust Company (ATC). ATC provides custodial and record keeping services to the Plan. Ascensus, Inc. (Ascensus) provides administrative services to the Plan.

Contributions

Each year, participants may contribute a percentage or dollar amount of compensation up to the statutory limit which was $18,000 and $17,500 for 2015 and 2014, respectively. Compensation is defined as total compensation paid that is subject to income tax for 2014, and excluding bonuses for the 2015 Plan year. Participants who have attained age 50 by the last day of the Plan year are eligible to make additional catch-up contributions up to $6,000 and $5,500 for 2015 and 2014, respectively. In addition, participants may also contribute amounts representing "rollover" distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company's policy is to fund employee and employer contributions on a bi-weekly basis.

Upon enrollment participants may direct the investment of their contributions into any of twenty-six investment options, which consist of one money market fund and twenty-five registered investment company funds.

The Plan includes an automatic enrollment provision whereby all eligible employees are automatically enrolled in the Plan. Upon eligibility, the employee is automatically enrolled at a deferral rate of 3% of compensation unless the employee opts out or elects an alternate deferral package. Unless otherwise directed, contributions of a participant who has been automatically enrolled are invested in the default investment alternative, which is a Vanguard Target Date Fund commensurate with the participants normal retirement date.

The Company may make matching contributions at the discretion of the Company's Board of Directors. For 2015 and 2014, matching contributions of 25% of employee elective deferrals up to 4% of compensation were made in each payroll period. The Company is also permitted to make an annual discretionary profit sharing contribution. In order to receive a profit sharing contribution, an employee must be actively employed on the last day of the Plan year, and have completed at least 1,000 hours of service during the Plan year. No profit sharing contributions were made for the Plan years ended December 31, 2015 and 2014.

1. DESCRIPTION OF PLAN (continued)

Participant Accounts

Each account is participant-directed and is credited with the participant's elective deferral contributions, related employer matching contributions, an allocation of employer discretionary profit sharing contributions, and investment earnings or loss, and reduced by an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contributions and discretionary profit sharing contributions, plus actual earnings thereon, is based on years of continuous service in accordance with the following schedule. Participants earn one year of service upon completion of 1,000 hours of service in the Plan year:

Years of Service	Vesting Percentage
Less than 2 Years	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 or more Years	100%

Forfeited Accounts

Forfeitures represent that part of the participant's account that is not vested when the participant leaves the Plan. Under the Plan document, forfeitures may be used to reduce employer matching contributions and/or pay administrative fees. During 2015 and 2014, $14,007 and $12,744 of forfeited funds were used to pay administration fees, respectively. At December 31, 2015 and 2014, $1,673 and $0, respectively, of forfeitures remain available to reduce employer contributions or pay administration fees.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reason, a participant may elect to receive a distribution equal to the value of the participant's vested interest in his or her account. Participants may also elect to have their account balance rollover into another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. The value of the account balance will continue to increase or decrease, as appropriate based on investment returns, until it is distributed. Vested account balances of $5,000 or less will be distributed as a lump-sum upon termination of service. Upon the death, disability, or reaching retirement age of a participant, the account balance will become 100% vested and the beneficiary will receive the full account balance in the form of a lump-sum payment. Hardship distributions are permitted by the Plan document if the employee satisfies the eligibility criteria. Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and changes in those assets. Accordingly, income is recognized when earned and expenses are recorded when incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrative committee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Note terms range from one to five years; however, the term may be longer if the loan is used to purchase a primary residence. The notes are secured by the balance of the participant's account and interest rates are between 4.25% and 7.75%. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest, which is recognized on the interest method. Delinquent notes receivables from participants are reclassified as distributions based upon the terms of the Plan agreement. Because the notes are fully secured by the participant account balances, no allowance for doubtful accounts is considered necessary.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value or net asset value as determined by ATC, based on factors such as quoted market prices in active markets and prevailing interest rates. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The statement of changes in net assets available for benefits presents the net appreciation in the fair value of its investments, which consists of the realized and unrealized gains on investments.

Recent Accounting Policies

In July 2015, the Financial Accounting Standards Board ("FASB") issued an Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* ASU No. 2015-12 has three parts. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part's I and II have been applied retrospectively, and Plan management has adopted this ASU on the Plan and its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Policies (continued)

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent).* ASU 2015-07 removes the requirement to include all investments in the fair value hierarchy for which the fair value is measured at net asset value (NAV) per share using the practical expedient, under Fair Value Measurements and Disclosures (Topic 820). ASU 2015-07 is effective for nonpublic business entities for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. Management does not expect adopting ASU 2015-07 will have a material impact on the Plan's financial statements.

Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative, and management services without charge to the Plan. The Plan incurs certain general investment expenses and administrative expenses on an on-going basis which may be paid by the Plan under the Plan document. Participants are charged for transactions they generate and for loan and distribution requests.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Reclassification

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation with no effect on previously reported net income.

3. INVESTMENTS

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held at the yearend depreciated in value by $179,956.

4. FAIR VALUE MEASUREMENTS

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy under FASB ASC, Fair Value Measurements, are described as follows:

4. FAIR VALUE MEASUREMENTS (continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable other than Level 1 prices, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable, supported by the little or no market data, and are significant to the fair value of the assets and liabilities.

The asset or liability's fair value measure level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Money Market Fund: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by investment custodian. The NAV is quoted on a private market that is not active. However, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents assets measured at fair value on a recurring basis at December 31, 2015:

As of December 31, 2015 and 2014, the Plan had no assets measured at fair value on a non-recurring basis and no liabilities measured at fair value on a recurring or non-recurring basis.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan has investments in shares of mutual funds managed by ATC, the trustee, as defined by the Plan.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to ATC, Ascensus, and other investment custodians and advisors.

As noted in Note 1, certain administrative expenses related to participant related activity and certain recordkeeping fees are paid directly to ATC. Additionally, fees may be paid to certain service providers that are considered parties-in-interest under ERISA and there fees are included in administrative fees.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

7. PLAN OPERATIONAL AND COMPLIANCE ISSUES

During the year ended December 31, 2015, the Plan has experienced certain operational and compliance issues including prohibited transactions. These issues primarily relate to administration errors in the application of the definition of compensation for determining employee and employer deferrals.

7. PLAN OPERATIONAL AND COMPLIANCE ISSUES (continued)

The Plan Sponsor has filed an application under the Internal Revenue Services' Voluntary Correction Program ("VCP") to request a compliance statement with respect to the Plan's tax qualified status based on correction by retroactive amendment. The retroactive amendment has addressed the administration error relating to the improper application of the definition of compensation to bonuses for determining employee and employer deferrals.

Additionally, subsequent to December 31, 2015 the Plan Sponsor has made qualified non-elective contributions of $2,599 to correct the incorrectly omitted portions of certain participants' eligible compensation during the year ended December 31, 2015, such as manual checks, commissions, and final paychecks of terminating participants, through VCP. During September 2016, the Plan sponsor deposited 50% of employee deferrals, as well as 100% of employer match related to the compensation that was incorrectly omitted from eligible contributions, into the affected participants' accounts.

The Plan's management does not believe any of these issues will have a material impact on the Plan's financial statements or have any adverse effect on the Plan's tax status.

8. TAX STATUS

The Plan adopted the Ascensus Prototype Non-standardized Profit Sharing Plan with cash-or-deferred arrangement ("CODA"), which has been reviewed by the Internal Revenue Service ("IRS"). The IRS opined in a letter dated January 31, 2006, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter, however, the Administrative committee believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. The Company is aware of certain operational issues but will take all necessary action to maintain the Plan's qualified status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The administrative committee has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

10. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S TRUSTEE

ATC, the trustee, has certified that the following information included in the financial statements as of December 31, 2015 and 2014, respectively, is complete and accurate:
