Beam Suntory Retirement Savings Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014
(Dollars in thousands)

NOTE A - DESCRIPTION OF PLAN

General

The Beam Suntory Retirement Savings Plan (the “Plan”) is designed to encourage and facilitate systematic savings and investment by eligible employees of Beam Suntory Inc., Beam Global Spirits & Wine, Inc., Jim Beam Brands Co., Maker’s Mark Distillery, Inc., and Cruzan Viril, Ltd. (collectively the “Company” or “Beam”) for their retirement. The following provides a brief description of the Plan. Participants should refer to the Plan document for a more complete description of the Plan’s provisions, which is available from the Plan Administrator.

The Plan is a tax-qualified defined contribution retirement plan that is intended to comply with Section 401(k) of the Internal Revenue Code of 1986, as amended (the “Code”). The Plan is subject to various provisions of the Code and the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The assets of the Plan are held in the Beam Suntory Retirement Savings Plan Trust (the “Trust”), which is a single employer trust holding assets exclusively for the Plan. Fidelity serves as the Trustee of the Trust.

Contributions

Contributions are held by the Trustee and accumulated in individual participant accounts. Pursuant to the terms of the Plan, participants may make tax deferred contributions under Section 401(k) of the Code of up to 50% of “eligible compensation” (as defined under the Plan), subject to lower limits for “highly compensated employees” (as defined under the Code) who participate in the Plan. Participants’ annual tax deferred contributions are limited by the Code to \$18 and \$17.5 in 2015 and 2014. In addition, during the year in which a participant attains age 50 and in subsequent years, the participant may elect additional, pretax “catch up” contributions of up to \$6 and \$5.5 in 2015 and 2014.

Participants may also make after-tax contributions, but the sum of tax deferred contributions and after-tax contributions may not exceed 50% of eligible compensation (lower limitations apply to highly compensated employees).

Participants that are eligible to make tax deferred contributions may roll over balances from another eligible tax qualified retirement plan or individual retirement account into the Plan.

Eligible employees who have neither enrolled in the Plan nor affirmatively declined enrollment in the Plan become automatically enrolled in the Plan and are deemed to have elected to make tax deferred contributions equal to 3% of their eligible compensation. Participants may change or discontinue their participation in the Plan at any time.

The Company provides a matching contribution of a participant’s elective contributions that is dollar for dollar on the first 3% of the participant’s earnings contributed and 50 cents for every dollar contributed between 4% and 5% of the participant’s earnings. In addition, the Company provides a profit sharing contribution to eligible participants who were employed on the last day of the year with the exception of those terminated during the year due to retirement, death, disability, or termination of employment without fault.

Participants may direct the investment of their accounts in the available investment funds under the Plan. If a participant does not make an investment election, it will be deemed that the age-appropriate BlackRock LifePath Fund is selected.

Participant account balances are maintained to reflect each participant's beneficial interest in each of the investment funds available under the Plan. Participant account balances are increased by Company and participant contributions (including rollovers from other plans) and decreased by the amount of withdrawals and distributions. Income and losses on Plan assets are allocated to participants' accounts based on the ratio of each participant's account balance invested in an investment fund to the total of all participants' account balances invested in that fund as of the preceding valuation date.

Vesting

Participants are immediately vested in their own contributions, in the event there are any Qualified Nonelective Contributions (QNEC), in the QNECs, plus earnings on those contributions. Vesting in the Company matching contributions, plus earnings on those contributions, occurs after one year of service.

Participants vest in the Company profit-sharing contribution plus related earnings based on the earliest to occur of the following: (1) retirement; (2) death; (3) disability; (4) attainment of age 65; (5) termination of employment without fault, or (6) after five years of service as summarized below:

<u>Number of years of service</u>	<u>Percentage vested</u>
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Forfeitures

On December 31, 2015 and 2014, forfeited nonvested accounts totaled \$365 and \$673, respectively. These accounts will be used to reduce future Company contributions or Plan expenses. Forfeited nonvested accounts were used to reduce \$719 of Company contributions in 2015.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1 up to a maximum equal to the lesser of 50% of their vested account balance or \$50 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. The term of any loan shall not exceed five years, unless the loan is related to the purchase of the participant's principal residence for which the term is ten years. A participant may only have one loan outstanding for general purposes and one loan outstanding for purchasing a principal residence. The loans are collateralized by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions.

Distributions and Withdrawals

Benefits are payable from a participant's account under the Plan's provisions upon a participant's death, retirement or other termination of employment in a lump sum or in installment payments. The Plan also

permits withdrawals by participants who have incurred a “hardship” as defined in the Plan or who have attained age 59-1/2. Participants are permitted to request rollover distributions from their accounts into an IRA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Adoption of New Accounting Rules

In May 2015 the Financial Accounting Standards Board (“FASB”) issued updated guidance related to fair value measurement and the disclosures for investments in certain entities that calculate net asset value (“NAV”) per share (or its equivalent). The updated guidance applies to reporting entities that elect to measure the fair value of certain investments using the NAV per share (or its equivalent) of the investment as a practical expedient. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of when the investment is redeemable with the investee at NAV. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient.

The amendments are effective for the Plan for fiscal years beginning after December 15, 2016 and shall apply retrospectively to all periods presented. Earlier application is permitted. The Plan’s administrator is currently evaluating the impact the updated guidance will have on the Plan’s financial statement disclosures, but does not expect the effect to be material.

In July 2015, the Financial Accounting Standards Board (“FASB”) issued a three-part update to the guidance for plan accounting of employee benefit plans. The update simplifies employee benefit plan reporting as outlined in Part (I) of the guidance for fully benefit-responsive investment contracts and in Part (II) for plan investment disclosures. Part (III) provides for a measurement date practical expedient. Parts (I) and (III) do not apply to the Plan. Part (II) is effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. The Plan’s administrator has elected to early adopt Part (II) of the guidance and accordingly the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type instead of disaggregating by nature, characteristics and risks and the investment strategies for the investments measured at NAV that are funds that file an annual report on Form 5500 as a direct-filing entity have been removed in the Investment Valuation note. In addition, the disclosure of individual investments greater than 5% of net assets and the net appreciation or depreciation in fair value of investments by general type have been removed from former Note C – Investments.

Use of Estimates

The preparation of the Plan’s financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting

(Dollars in thousands)

period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are reflected at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

Accounting guidance provides a three-tiered hierarchy of inputs for classifying fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

1. Quoted prices for similar assets or liabilities in active markets.
2. Quoted prices for identical or similar assets or liabilities in inactive markets.
3. Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management uses the following methods and significant assumptions to estimate fair value of investments. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Beam Suntory Retirement Savings Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014
(Dollars in thousands)

The investments held by the Plan are valued as follows:

Interest bearing cash: Valued at cost plus earnings from investments for the period, which approximates fair market value due to the short-term duration.

Mutual funds: Valued at the NAV of shares held by the plan at year end, which is obtained from an active market.

Collective trust funds: Valued at the NAV of units of each bank collective trust. The NAV, as provided by the trustee, is based on the fair value of the underlying investments held by the funds less their liabilities. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Full redemption from these funds is permitted with 30-days notice.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following tables present the Plan's investments by level within the fair value hierarchy as of December 31, (in thousands):

(Dollars in thousands)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Income

Security transactions are accounted for on the trade-date basis. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis. Net realized and unrealized appreciation/depreciation is recorded in the accompanying statement of changes in net assets available for benefits as net depreciation in fair value of investments.

Payment of Benefits

Distributions and withdrawals are recorded when paid.

Administrative Expenses

Certain expenses incurred by the Plan are netted against earnings prior to allocation to participant accounts. These include investment manager, trust and record keeper expenses and are recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments. Other expenses are paid by the Plan or the Company at the Company's discretion.

NOTE C - RISKS AND UNCERTAINTIES

The Plan invests in various investments including stocks, mutual funds and collective trust funds. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in market value could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits and the statements of changes in net assets available for Plan benefits.

NOTE D - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated November 22, 2013, that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and is currently being operated in compliance, in all material respects, with the applicable requirements of the Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

(Dollars in thousands)

The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

NOTE E - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity Investments. Fidelity Investments is an affiliated company of the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees have been paid to Fidelity by the Plan for recordkeeping and investment management services for the year ended December 31, 2015.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in the Company contribution portion of their accounts.

NOTE G - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2015 and 2014.
- Net investment (loss) income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE H - SUBSEQUENT EVENTS

Management of the Plan has evaluated subsequent events from December 31, 2015 through October 13, 2016, the date these financial statements were available to be issued. There were no subsequent events that require recognition or additional disclosure in these financial statements.
