NOTE A - DESCRIPTION OF PLAN

The following description of Thorson Baker & Associates, Inc. Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Thorson Baker & Associates, Inc. (the Company and Plan Sponsor). Prior to December 1, 2015, no employees were excluded from participation. Effective December 1, 2015, the Plan was restated to cover all employees who are not interns, co-ops, or seasonal employees who have not attained the age of 21 and do not have at least 1,000 hours of service per Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is sponsored by the Company and is administered by a third-party administrator.

Contributions

Prior to December 1, 2015, participants could elect to defer the lesser of 100% of compensation as defined by the Plan on a pre-tax basis or the maximum contribution allowable by law. Effective December 1, 2015, participants may elect to defer the lesser of 90% of compensation as defined by the Plan on a pre-tax or after-tax basis or the maximum contribution allowable by law. Employees who have not declined participation in writing or completed a salary deferral election form as of the date of their eligibility to participate in the Plan will be automatically enrolled in the Plan with a deferral rate of 3%. Effective December 1, 2015, the Plan provides for discretionary employer matching contributions. No matching contributions were made for the year ended December 31, 2015. The Plan provides for a discretionary employer profit sharing contribution which was \$287,999 for the year ended December 31, 2015. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (IRC). The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and employer matching contributions and an allocation of (a) the Company's profit sharing contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based upon participant account earnings, compensation, or account balances, as defined. The benefit to which a participant is entitled to receive is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their deferral contributions plus actual earnings thereon. A participant's interest in the Company's discretionary matching and profit sharing contributions and actual earnings thereon become vested based on years of continuous service. A participant is 100% vested after six years of credited service.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Effective December 1, 2015, a participant may also elect to receive a distribution in the form of installment payments or partial withdrawals. If the value of the vested benefits credited to a participant's account is \$5,000 or less at the time of termination, the entire amount will be distributed to a participant without the participant's consent. In the event of a mandatory distribution of amounts greater than \$1,000 but not exceeding \$5,000, the entire amount will be distributed in the form of a direct rollover to an individual retirement plan (IRA) as designated by the Plan administrator.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable terms range from 1 - 5 years or up to 10 years for the purchase of a primary residence. Notes receivable are secured by the balances in the participants' accounts and bear interest at 4.25% at December 31, 2015. Principal and interest are paid ratably through bi-weekly payroll deductions.

Forfeited Accounts

Forfeitures are used to pay Plan expenses and to reduce the Company's employer profit sharing contribution to the plan. Unallocated forfeitures balances as of December 31, 2015 and 2014 were \$19,669 and \$17,909, respectively. No forfeitures were used to reduce employer profit sharing contributions for the year ended December 31, 2015.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

THORSON BAKER & ASSOCIATES, INC. PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2015 and 2014 and Year Ended December 31, 2015

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment contracts with Standard Insurance Company (Standard) and KeyBank EB MaGIC 75 Fund are considered to be fully benefit-responsive and are included in the statements of net assets available for benefits at contract value, which is deemed to approximate their fair value. As the contract value of the investments approximate their fair value, the accompanying statements of net assets available for benefits do not reflect an adjustment to contract value.

Investment Valuation

The Plan's investments are recorded at fair value, based upon the last trade or current bid prices in active markets. Where there are no readily available last traded or current bid prices, fair value is determined as discussed in Note D.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make repayments on a note receivable and the plan administrator deems the note receivable to be in default, the balance on the note receivable from the participant is reclassified to benefits paid to participants.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Gains and losses on securities transactions are determined using the average cost method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions

Participant contributions are recorded and credited to each participant's account when received by the trustee and custodian from the Company. Any contributions attributable to the plan year but not received by the trustee and custodian by the last day of the Plan year are recorded as a receivable.

THORSON BAKER & ASSOCIATES, INC. PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2015 and 2014 and Year Ended December 31, 2015

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Participant Rollover Contributions

During 2015, the Company's defined benefit plan, Thorson Baker & Associates, Inc. Defined Benefit Pension Plan, was terminated. All participants were provided with the option to have their account balances rolled into any qualified plan (including the Plan) or IRA, or receive a lump sum distribution. An aggregate of \$662,441 was rolled into the Plan during the year ended December 31, 2015.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

The Company adopted a volume submitter profit sharing plan with cash or deferred arrangement which received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the Plan was designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in investment income.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2016, the date which the financial statements were available to be issued.

NOTE D - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Money market and mutual funds are valued at the net asset value of shares held by the Plan at year end, as reported on the active markets on which the investments are traded.

Common collective trust is valued at the net asset value of shares held by the Plan at year end. The net asset value is used as a practical expedient to estimate fair value. Net asset value is based on the fair value of the trust's underlying assets, which are principally guaranteed investment contracts, synthetic guaranteed investment contracts, and cash and cash equivalents. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

The guaranteed investment contract is valued at contract value, which approximates fair value (see Note F). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2015:

	<u>Guaranteed Investment Contract</u>
Fair value, beginning of year	\$ -0-
Purchases	<u>422,778</u>
Fair value, end of year	<u>\$ 422,778</u>

NOTE E - INVESTMENT IN COMMON COLLECTIVE TRUST

The Plan invested in the KeyBank EB MaGIC 75 Fund (the Fund), a common collective trust fund. The primary investment objective of the Fund is a reasonable level of income together with stability of principal. The Fund achieves this objective by investing in synthetic guaranteed investment contracts, guaranteed investment contracts, and cash and cash equivalents.

Under the Fund's provisions, participants could ordinarily direct permitted withdrawals or transfers of all or a portion of their account balance within the Fund at contract value. Participants could make transfers or withdrawals without restrictions. Withdrawals or transfers made at the Plan level may not have been available until up to one year from the date the withdrawal was requested. Contract value represents deposits made to the contract, plus earnings, less withdrawals and fees. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

NOTE F - GUARANTEED INVESTMENT CONTRACT

The Plan has a guaranteed investment contract with Standard under which contributions from the Plan are maintained in Standard's general account. The account is credited with earnings on a net daily basis at quarterly guaranteed rates and charged for participant withdrawals and administrative expenses. Standard is contractually obligated to repay the principal and interest accumulated at the rate guaranteed to the Plan. Participants may ordinarily direct permitted withdrawals and transfers of all or a portion of their account balances at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The minimum credit rate under the contract is 1.00%. Interest crediting rates are reviewed on a quarterly basis for resetting by Standard. The net average yield and crediting interest rate on the general account were both approximately 1.94% for the year ended December 31, 2015. When establishing interest rates, Standard considers many factors, including projected investment earnings on investments held in the general account, projected cash flow, the interest rate at which new investment can be made, investment and interest rate risk, investment management expenses, liquidity needs, and the competitive environment, as well as potential profit or loss.

If the Plan Sponsor terminates the contract, a market value adjustment may apply. The Plan Sponsor does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their total participant account balances.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest transactions include investments in the funds of the trustee, and related dividend income and the payment of investment and administrative expenses by the Plan to the Plan's investment advisor, recordkeeper, custodian, trustee, auditor, and third party administrator. Such transactions are exempt from being prohibited transactions.

Ascensus, Inc. provided certain administrative services to the Plan through November 30, 2015. Ascensus, Inc. received revenue from mutual fund and common collective trust fund service providers for services Ascensus, Inc. provided to the funds. This revenue was used to offset the administrative costs of the Plan.
