Notes to the Financial Statements
December 31, 2015 and 2014

A. PLAN DESCRIPTION

The following description of The Shamrock Companies, Inc. (the “Company” or “Plan Sponsor”) 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and adoption agreement for a complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Code (“IRC”) Section 401(k) arrangement which allows plan participants to defer current taxation on a portion of their salaries by electing a percentage of their salary to be contributed to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility - The Plan covers all employees of the Company age twenty-one or older who have completed twelve months of service. Those eligible to participate in the Plan may enroll on the first day of the quarter following the date of eligibility.

Contributions - Eligible employees may contribute up to 100% of their compensation on a pre-tax or post-tax (“Roth”) basis subject to the IRC 402(g) limit. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. The Plan Sponsor, however, may be required to limit contributions of certain employees to comply with the IRC.

The Plan Sponsor may, at its option, match a portion of participants’ salary deferrals.

The Plan Sponsor may make additional discretionary contributions to the Plan. All eligible employees, as defined, may receive these discretionary contributions but must be actively employed as of December 31.

The Plan also permits rollover contributions from other qualified retirement plans and certain IRAs.

Participant Accounts - Each participant’s account is credited with the participant’s contributions, employer matching contributions, allocation of the Company’s discretionary contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant’s vested account.

Participants direct the investment of their contributions into the various funds provided, including a self-directed brokerage account. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in employer discretionary matching and non-matching discretionary contributions after six years of credited service.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

The Shamrock Companies, Inc. 401(k) Retirement Plan
Notes to the Financial Statements
December 31, 2015 and 2014

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years unless used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time the loan is taken based on Prime (3.50% and 3.25% at December 31, 2015 and 2014, respectively). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, the participant may elect to receive his or her account balance as a lump-sum payment or in periodic installments. The Plan Administrator may automatically make a lump-sum distribution for account balances less than \$5,000. Participants terminated are entitled to receive their benefits as soon as administratively feasible. Distributions of a participant's 401(k) account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

Forfeitures - Unvested amounts forfeited by terminated participants may be used by the Plan for the payment of Plan expenses. Any remaining forfeitures attributable to matching contributions will be used to reduce employer matching contributions. No forfeitures were used for the year ended December 31, 2015.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to full benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a Fixed Account. The Fixed Account is included in the financial statements at contract value.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and trustee. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

The Shamrock Companies, Inc. 401(k) Retirement Plan
Notes to the Financial Statements
December 31, 2015 and 2014

Administrative Expenses - Administrative expenses consisting of trustee and audit fees may be paid by Plan forfeitures. All other expenses of maintaining the Plan, including third party administration fees and investment advisory fees, are paid by the Company. Investment related expenses are included in net appreciation in fair value of investments.

Recently Issued Accounting Standards - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820), to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient as well as to remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The guidance is to be applied retrospectively and is effective for annual periods beginning after December 15, 2015, with early application permitted.

In July 2015, the FASB issued ASU 2015-12, *Defined Contribution Plans (Topic 962), (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient*. Part I removes the requirement to measure fully benefit-responsive investment contracts at fair value, with an adjustment to contract value and permits fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II removes the requirement to disclose (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The guidance in Part I and II is to be applied retrospectively. The guidance in Part III is to be applied prospectively. The guidance in Parts I, II and III is effective for annual periods beginning after December 15, 2015, with early application permitted.

Related Change of Accounting Methods and Presentation - Management has elected to apply the applicable section of the guidance described above to the Plan's financial statements as of and for the years ended December 31, 2015 and 2014. As a result, certain reclassifications have been made to the December 31, 2014 financial statements to conform to the December 31, 2015 presentation. Such reclassifications had no effect on the previously reported net increase in plan assets available for benefits.

Subsequent Events - Subsequent events have been evaluated through October 3, 2016, which is the date that the Plan's financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Voya, the custodian.

Voya has certified as to the completeness and accuracy of the investments it holds and changes in net assets arising from said investment activity as of December 31, 2015 and 2014, and for the year ended December 31, 2015.

The Shamrock Companies, Inc. 401(k) Retirement Plan
Notes to the Financial Statements
December 31, 2015 and 2014

Voya has certified as to the completeness and accuracy of the schedule of assets (held at end of year) for the year ended December 31, 2015.

D. INVESTMENT IN FIXED ACCOUNT

The Fixed Account, an annuity product issued by Voya, is an account credited with a declared rate of interest and valued daily. There are two guaranteed interest rates: 1) an annual effective yield guaranteed between 1% and 3% for each calendar year period within the life of the contract; 2) a calendar year floor interest rate which will never be less than the minimum guaranteed interest rate but which may be adjusted upwards on a quarterly basis. Once credited, the interest becomes part of the principal. The Fixed Account surrender value may bear a market value adjustment should the contract be terminated.

Amounts allocated to the Fixed Account are held in the general account of Voya, are managed on an aggregate basis, and support the general activities of Voya.

The Fixed Account is included in the financial statements at contract value. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of contract issues or otherwise.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The Fixed Account does not permit the trust company to terminate the agreement prior to the scheduled maturity date.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants. In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value.

E. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The levels of the fair value hierarchy under Financial Accounting Standards Board guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts - The separate account owns and holds the underlying mutual fund shares which are valued daily at their net asset value ("NAV"). Plans and participants hold units of participation in the separate account. The accumulation unit value ("AUV") is the value of each unit in the separate account and the separate account is valued daily as the number of accumulation units held multiplied by the AUV.

Self-directed brokerage account - The value of the account, as provided by the brokerage firm, is determined using external sources.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements

F. RELATED-PARTY TRANSACTIONS

Certain Plan investments are within funds issued by Voya who also serves as custodian to the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

Voya provides certain administrative services to the Plan pursuant to a Service Agreement ("SA") between the Company and Voya. Voya receives revenue from mutual fund service providers for services Voya provides to the funds. This revenue is used to offset certain amounts owed to Voya for its administrative services to the Plan.

If the revenue received by Voya from such mutual fund service providers exceeds the amount owed under the SA, Voya remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or Plan Sponsor may make a payment to Voya for administrative expenses not covered by revenue sharing.

G. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant would have a non-forfeitable right to his or her total account balance as of the date of termination.

The Shamrock Companies, Inc. 401(k) Retirement Plan
Notes to the Financial Statements
December 31, 2015 and 2014

H. FEDERAL INCOME TAX STATUS

The Shamrock Companies, Inc. 401(k) Retirement Plan adopted a volume submitter document effective July 1, 2011. The Plan has been amended since the prototype received an Internal Revenue Service ("IRS") opinion letter dated March 31, 2014. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

J. PLAN AMENDMENTS

Effective January 1, 2015, the Plan was amended and restated to comply with the Pension Protection Act of 2006 and other legislative and regulatory changes. As part of this restatement, the Plan was amended to remove the automatic enrollment feature.

K. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan's investments are recorded as pooled separate accounts on the financial statements but are recorded as mutual funds on the Form 5500. Since Voya does not report their separate accounts directly as a Direct Filing Entity, the Plan cannot categorize those assets as separate account assets on the Form 5500. The Plan must categorize the assets according to the underlying assets. Because the separate accounts are fully invested in mutual funds, the investments are shown as mutual funds on the Form 5500.
